

**SUBMITTAL TO THE FLOOD CONTROL AND
WATER CONSERVATION DISTRICT BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

203B

SUBMITTAL DATE:
September 22, 2015

FROM: General Manager-Chief Engineer

SUBJECT: Accept Notice of Completion - Gilman Home Channel Lateral A, Stage 3 and Gilman Home Channel, Stage 90, Project Nos. 5-0-00171-03 and 5-0-00170-90, District 5
[\$4,095,564] District Funds 100%

RECOMMENDED MOTION: That the Board of Supervisors:
Accept the referenced project as constructed; authorize the Chairman to execute the attached Notice of Completion; and direct the Clerk of the Board to record the executed Notice of Completion with the Riverside County Clerk and Recorder's Office.

BACKGROUND:

Summary

The Board approved a contract with Riverside Construction Company, Inc., in the amount of \$4,113,754 as Agenda Item Number 11-5 on June 3, 2014. The total payment of the contract is \$4,095,564. This is \$18,189 less than the contract amount. Although there were three change orders, the lower final price was realized primarily from a value engineering change related to trench backfill. All costs for the project were accrued and paid for in FY 2014-2015.

BACKGROUND:

Summary (continued)

Final inspection of the above referenced project was made, and the project was found to be complete according to plans and specifications. A brief project description and location map are attached.

Impact on Residents and Businesses

The District constructed a segment of drainage infrastructure described in the District's Banning Master Drainage Plan which remedies ongoing flooding problems in the area, thus resulting in positive impacts to residents and businesses. Moreover, this project will enable revision of the FEMA Flood Insurance Rate Maps in the impacted area resulting in a significant reduction in flood insurance premiums. Many owners with federally insured home loans will realize savings of several thousands of dollars per year.

SUPPLEMENTAL:

Contract History and Price Reasonableness

Pursuant to Public Contract Code 21091, invitation of sealed bids was solicited by advertising in print and digital media.

ATTACHMENTS:

1. Notice of Completion
2. Project Description and Location Map

PROJECT NOS. 5-0-00171-03
5-0-00170-90

This project is within the city of Banning and mainly consists of replacing undersized and hard to maintain facilities; there are two portions of storm drain improvements.

The first portion, Stage 90 is approximately 750 lineal feet within 4th Street from Williams Street to Nicolet Street. Construction includes the removal of the existing undersized storm drain and the installation of a larger precast reinforced concrete box storm drain.

The second portion, Stage 3 is approximately 1900 lineal feet and would replace a cobble lined 1930 vintage channel. Construction begins at the existing Gilman Home Channel Lateral A, Stage 2 in Cottonwood Road, west and then north in 10th Street, west again in George Street then northwest along the East Gilman Home Wash (Channel). The project will cross 12th Street and end south of Wilson Street joining the existing East Gilman Home Wash. Near the intersection of George Street and 12th construction will be within a few feet of existing structures. In this reach a pre-construction survey and a post-construction survey will be performed; vibration monitoring will be conducted during construction.

This project will allow the abandonment of an existing undersized channel that bisects private property and will eliminate the existing FEMA floodplain.
