BACKGROUND:

Summary

In August 2004, the County of Riverside, (Licensor), Southern California Edison, (SCE) and AT&T Wireless Services Inc. a Delaware Corporation (Carrier), entered into a three-party Communication Site License Agreement to locate AT&T's communications equipment on a SCE electrical transmission tower located on County's Property. The License Agreement was for an initial five year term with one automatically renewing five year term.

AT&T and SCE propose to extend the term of the Agreement five years. The First Amendment will provide the Carrier with options to extend this License for four additional five year terms and to update contact information for the parties.

The project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301, Class 1, Existing Facilities and 15061(b)(3) General Exemption Rule as the project does not provide for any physical changes or alterations to the existing structure. No construction would occur and the communication site facility would continue to operate in a similar manner.

NOTICE OF EXEMPTION

September 23, 2015

Project Name: First Amendment to Communication Site License Agreement – AT&T Bellegrave

Project Number: FM0473611030000

Project Location: Bellegrave Avenue – Communication Tower, City of Jurupa, County of Riverside, CA;
Assessor Parcel Numbers: 159-020-010 (See attached exhibit)

Description of Project: In August 2004, the County of Riverside, ("County"), Southern California Edison, ("SCE") and AT&T Wireless Services Inc. a Delaware Corporation ("Carrier"), entered into a three-party Communication Site License Agreement to locate AT&T's Communications equipment on a SCE electrical transmission tower located on County's Property. The License Agreement was for an initial five (5) year term with one (1) automatically renewing five (5) year term. AT&T and SCE propose to extend the term of the Agreement five (5) years. The term of the Agreement, by this First Amendment, will be extended for five (5) years and for four (4) additional five (5) year extension terms (Renewal Term) unless SCE notifies County in writing of SCE's intention not to extend the Agreement at least sixty (60) days prior to the expiration of the term. No construction would occur and the communication site facility would continue to operate in a similar manner. The project does not involve any changes to land use, alterations to the existing structure, or the physical environment. The operation of the facility will continue to be similar to ongoing uses and will not result in an increase in the intensity of the use of the site. No additional direct or indirect physical environmental impacts are anticipated. The proposed project is the letting of property involving existing facilities; no expansion of an existing use will occur.

Name of Public Agency Approving Project: County of Riverside, Economic Development Agency

Name of Person or Agency Carrying Out Project: County of Riverside, Economic Development Agency

Exempt Status: State California Environmental Quality Act (CEQA) Guidelines, Section 15301, Class 1, Existing Facilities Exemption; Section 15061(b)(3), General Rule or "Common Sense" Exemption.

Reasons Why Project is Exempt: The Project is exempt from the provisions of CEQA specifically by the State CEQA Guidelines as identified below. The Project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The Project will not cause any impacts to scenic resources, historic resources, or unique sensitive biological environments. Further, no unusual circumstances or potential cumulative impacts would occur that may reasonably create an environmental impact. The extension of the license term is not anticipated to result in any significant physical environmental impacts.

- Section 15301 – Class 1 Existing Facilities Exemption. This exemption includes the operation, repair, maintenance, leasing, licensing, or minor alteration of existing public or private structures or facilities, provided the exemption only involves negligible or no expansion of the previous site's use. The Project as proposed is the extension of the license term. The extension of the term will not increase or expand the use of the site, and merely allows for the continued use of the site in a similar capacity; therefore, the Project meets the scope and intent of the Class 1 Exemption.
- Section 15061 (b)(3) – “Common Sense” Exemption. In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b)(3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *Muzzy Ranch Co. v Solano County Airport Land Use Comm'n* (2007) 41 Cal.4th 372.

With certainty, there is no possibility that the Project may have a significant effect on the environment. The proposed extension of the license term will not have an effect on the environment. The use and operation of the facility will be substantially similar to the existing uses and will not create any new environmental impacts to the surrounding area. Therefore, in no way would the Project as proposed have the potential to cause a significant environmental impact and the Project is exempt from further CEQA analysis.

Based upon the identified exemptions above, the County of Riverside, Economic Development Agency hereby concludes that no physical environmental impacts are anticipated to occur and the Project as proposed is exempt under CEQA. No further environmental analysis is warranted.
