Summary (Continued)

On November 14, 2006, the Board of Supervisors authorized Facilities Management, now part of the Economic Development Agency (EDA), to develop and implement the Job Order Contracting (JOC) system of public works contracting for other-than-new construction in conjunction with The Gordian Group. The Gordian Group has developed specifications for Job Order Contract No. 007.

JOC is an indefinite delivery/indefinite quantity procurement method that enables the county to complete a large number and wide variety of repair, renovation and construction projects through the use of a single, competitively bid contract. Contractors bid adjustment factors against preset unit prices that are established in a contract specific Construction Task Catalog (CTC). Each JOC has a fixed duration of one year and a maximum potential value of approximately \$4.5 million; the contract is complete when one of those limits is reached. The CTC specifies thousands of tasks and the cost of their associated materials, equipment and labor. After a Job Order Contract is awarded, the contractor and owner meet at jobsites on a project by project basis to conduct joint scope meetings, where the contractor can see all aspects of each job. When the county and the contractor agree on the detailed scope of work, the contractor develops a proposal based on the CTC and their contract adjustment factor. The county then reviews the proposal, makes any necessary adjustments; and when final agreement is reached on the scope and price, the county issues a Job Order for each specific project under the JOC. The value of approved Job Orders accumulates under the JOC until they reach the maximum potential value. Following issuance of each Job Order, construction then proceeds in a typical manner and according to the Job Order schedule.

EDA uses JOC to deliver qualifying projects more quickly without compromising quality. When proposed projects require quick action and they fit within the scope and cost parameters of the JOC program, EDA pursues issuance of Job Orders to complete the work. In addition to faster project delivery time, JOC projects also tend to reduce overhead cost of construction procurement, minimize change orders and create more efficient cost estimating.

The Board of Supervisors previously approved six construction agreements for Job Order Contracts. The most recent contract, JOC No. 006, expired on September 26, 2015. EDA is initiating a new, separate JOC to continue our ability to provide expedited service to county customers through use of the JOC program for general contracting.

Approval of the motion set forth above will authorize a single \$4.5 million contract that will provide ongoing use of the JOC program for delivering facility construction projects.

The process will generally proceed as follows:

- EDA will manage the bid process approved herein in conjunction with the Clerk of the Board, which will result in the award of the contract for JOC No. 007 to a general contractor.
- On a job-by-job basis, EDA project managers will secure proposals from the general contractor composed of a detailed scope of work and a lump sum proposal based on the contract documents.
- Upon review and acceptance of each proposal for specific projects, EDA will issue a Notice to Proceed for that specific scope of work, which constitutes a Job Order against the maximum potential value of the contract.
- There will be no minimum value for each single job order

Summary (Continued)

- The maximum value of each single job order will be \$750,000.
- Upon successful completion of the work under each job order, EDA will issue a Notice of Completion and approve final payment for the same.
- EDA will submit a Notice of Completion to the Board of Supervisors for job orders of \$125,000 or more, and will submit a Notice of Completion by direct filing to the County Recorder for job orders less than \$125,000.

The contract will expire 12 months from the date of the first Job Order Notice to Proceed or when all job orders written against the contract reach a combined total of \$4.5 million, whichever occurs first. The contract will have a minimum obligation of \$25,000, so the county can release and/or discontinue using the general contractor if their work is not acceptable after the minimum obligation threshold is reached.

All job orders will be reimbursed by user departments who initiate the projects through EDA's Form 5 project request system, Facility Renewal Funds program or other project initiation means approved by the Board. The Facility Renewal Funds list of projects is submitted to the Executive Office and then approved by the Board at the beginning of the fiscal year and updated quarterly.

The agreement, general conditions, specifications and contract documents have been approved by County Counsel as to legal form and are ready for public bid.

Impact on Citizens and Businesses

This contract will be used for other-than-new construction for public works and maintenance projects on an as needed basis during the one year duration of the contract. The size of the projects under the contract may vary in size. As such, there are no direct impacts on citizens and businesses anticipated other than standard, incidental construction noise or traffic that may occur as projects are developed and performed. EDA will work with the awarded contractor to ensure that any coordination and/or notification of work that may impact residents and businesses will be carried out as needed.

Additional Fiscal Information

All costs associated with this contract will be 49% funded through Intra-Internal Charges, 50% funded through Interfund-Reimbursements for Service and 1% funded through Facility Renewal Funds, thus no additional net county costs will be incurred. No increase to the source of funds is required at this time.

(b) By securing from the Director of Industrial Relations a certificate of consent to self-insure either as an individual employer, or as one employer in a group of employers, which may be given upon furnishing proof satisfactory to the Director of Industrial Relations of ability to self-insure and to pay any compensation that may become due to his or her employee.
