

A light brooming shall be performed to remove loose screenings before traffic is permitted on the seal coat, at the end of each day's work and as a first order of work on the morning following application of the screenings.

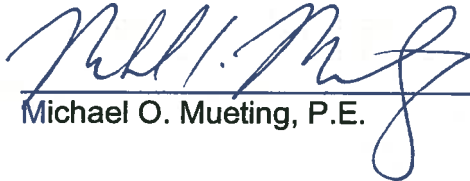

The exact time of brooming will be determined by the Engineer. The surface of the seal coat and adjacent pavement shall be swept or broomed two times a day or as often as necessary between the first and fourth days after applying the screenings to maintain the entire paved roadbed free of loose screenings. At the end of each of the fourth days after applying the screenings, any excess screenings shall be removed in such a manner that the screenings set in the binder will not be displaced.

Measurement and Payment:

Payment for Chip Seal Coat shall be considered as included in the contract unit price paid per square yard for 'Screenings (medium)' and shall be considered as full compensation for furnishing all labor, materials, tools, equipment and incidentals for placing asphaltic emulsion, cover aggregate screenings, rolling, sweeping and performing necessary cleanups as specified in these Special Provisions and as directed by the Engineer.

Slurry Seal Type I or Type II coat installed over Chip Seal process shall conform to the "Slurry Seal" section of these Special Provisions and its payment shall be considered as included in the contract unit price paid per Ton for Slurry Seal Type I or Slurry Seal Type II.

This addendum has been prepared under the direction of the following registered Civil Engineer(s):

 7-9-15

Michael O. Mueting, P.E.

Concurrence:

 7/9/15

Khalid Nasim, P.E.
Engineering Division Manager

Contract

THIS CONTRACT is entered into at Riverside, California as of the date set forth below is between County of Riverside hereafter called "County" and **Pavement Coating Company**, hereafter called "Contractor".

W I T N E S S E T H

Recitals:

1. Contractor has submitted to County his Contractor's Proposal for the construction of County Project, **Slurry Seal Project for District 1, Project No. C4-0006, and District 3, Project No. C4-0008**, in strict accordance with the Contract Documents identified below and County has accepted said Proposal.
2. Contractor states that he has reexamined his Contractor's Proposal and found it to be correct, has ascertained that his subcontractors are properly licensed and possess the requisite skill and forces, has reexamined the site and Contract Documents and is of the opinion that he can presently do the work in accordance with the Contract Documents for the money set forth in his Proposal to be paid as provided in the Contract Documents.

Agreement:

It is agreed by the parties as follows:

1. Contract Documents

The entire Contract consists of the following: (a) The Construction Contract, (b) The Notice Inviting Bids, (c) The Instruction to Bidders, (d) The Bid, (e) The Bid Bond, (f) The Payment Bond, (g) The Performance Bond, (h) The General Conditions, (i) The Special Provisions, (j) The Standard Specifications of the State of California Department of Transportation edition of **May 2006** as modified in other portions of the Contract Documents and as amended by the State of California Department of Transportation, (k) The Standard Plans of the Department of Transportation identified on the plans or in the Special Provisions, (l) The Plans, (m) Addenda **four**, (n) The Determination of Prevailing Wage Rates for Public Work, (o) Any Change Orders issued, (p) Any additional or supplemental specifications, notice, instructions and drawings issued in accordance with the provisions of the Contract Documents. All of said Documents presently in existence are by this reference incorporated herein with like effect as if here set forth in full and upon the proper issuance of other documents they shall likewise be deemed incorporated. The Bid Bond is exonerated upon execution of this Contract and the Payment Bond and Performance Bond.

2. The Work

Contractor shall do all tasks necessary to construct the work generally described in Recital No. 1 in accordance with the Contract Documents.

3. Liquidated Damages and Time of Completion

Attention is directed to the provisions in Section 8-1.06, "Time of Completion", and in Section 8-1.07 "Liquidated Damages", of the Standard Specifications and these Special Provisions.

Standard Specification Section 8-1.03, "Beginning of Work" is modified to read as follows:

The Contractor shall begin work within fifteen (15) calendar days, or as revised in the Special Provisions, of the date stated within the written "Notice to Proceed".

The Contractor shall notify the Engineer, in writing, of the Contractor's intent to begin work at least 72 hours before work is begun. If the project has more than one (1) location of work, Contractor shall submit a separate notice for each location. The notice shall be delivered to the Transportation Department's Construction Engineer and shall specify the date the Contractor intends to start at said location.

Should the Contractor begin work in advance of receiving a written "Notice to Proceed", any work performed by the Contractor in advance of the date stated in the "Notice to Proceed" shall be considered as having been done by the Contractor at his own risk and as a volunteer and subject to the following:

- A. The Contractor shall, on commencing operations, take all precautions required for public safety and shall observe all the provisions in the Specifications and the Special Provisions.
- B. All work done according to the Contract, prior to the issuance of the "Notice to Proceed", will be considered authorized work and will be paid for as provided in the contract.
- C. The Contractor shall not be entitled to any additional compensation or an extension of time for any delay, hindrance or interference caused by or attributable to commencement of work prior to the issuance of the "Notice to Proceed".

4. Compensation

Contractor shall be paid in the manner set forth in the Contract Documents the amount of his Proposal as accepted by County, the above rates, subject to additions and deductions as provided in the Contract Documents. Said Proposal is on file in the Office of the Clerk of the Board of Supervisors of County.

RESOLUTION OF BOARD OF DIRECTORS OF
PAVEMENT COATINGS COMPANY

RESOLVED, That all officers of the Company (being the President, Douglas Ford; the Secretary, Tom Mucenski; the Assistant Secretary, Van P. Duncan; and the Treasurer, Nathan Beyler) are hereby authorized and empowered to enter into contracts, sign bid documents and otherwise execute agreements in the normal course of business and upon such terms and conditions as may be agreed by the Company and the counterparty (ies).

I, Doug Ford, do hereby certify that I am the duly elected and qualified President and keeper of the records and corporate seal of Pavement Coatings Company, a corporation organized and existing under the laws of the State of California, and that the above is a true and correct copy of a resolution duly adopted at a meeting of the Board of Directors thereof, convened and held in accordance with the Bylaws of said Corporation on the 14th day of December, 2014, and that such resolution is now in full force and effect.

IN WITNESS WHEREOF, I have affixed my name as President and have caused the corporate seal of said Corporation to be hereunto affixed, this 1st day of September, 2015

Doug Ford, President
Pavement Coatings Co.

Performance Bond

Recitals:

1. Pavement Coating Company, (Contractor) has entered into an Agreement with COUNTY OF RIVERSIDE (County) for construction of public work known as Slurry Seal Project for District 1, Project No. C4-0006, and District 3, Project No. C4-0008.
2. The Ohio Casualty Insurance Company, a California corporation (Surety), is the Surety under this Bond.

Agreement:

We, Contractor as Principal and Surety as Surety, jointly and severally agree, state, and are bound unto County, as obligee, as follows:

1. The amount of the obligation of this Bond is 100% of the estimated contract price for the Project of \$2,626,932.00 (Two million, six hundred twenty six thousand, nine hundred thirty two dollars and zero cents) and inures to the benefit of County.
2. This Bond is exonerated by Contractor doing all things to be kept and performed by it in strict conformance with the Contract Documents for this project, otherwise it remains in full force and effect for the recovery of loss, damage and expense of County resulting from failure of Contractor to so act. All of said Contract Documents are incorporated herein.
3. This obligation is binding on our successors and assigns.
4. For value received, Surety stipulates and agrees that no change, time extension, prepayment to Contractor, alteration or addition to the terms and requirements of the Contract Documents or the work to be performed thereunder shall affect its obligations hereunder and waives notice as to such matters, except the total contract price cannot be increased by more than 10% without approval of Surety.

THIS BOND is executed as of September 2nd, 2015

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS – Section 12. Power of Attorney. Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts – SECTION 5. Surety Bonds and Undertakings. Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 2nd day of September, 2015.

When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 2nd day of September, 2015.

By: Gregory W. Davenport
Gregory W. Davenport, Assistant Secretary

CALIFORNIA ALL-PURPOSE ACKNOWLEDGMENT**CIVIL CODE § 1189**

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

ADDITIONAL INSURED -- OWNERS, LESSEES OR CONTRACTORS -- SCHEDULED PERSON OR ORGANIZATION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s)	Location(s) Of Covered Operations
ALL PARTIES WHERE REQUIRED BY A WRITTEN CONTRACT. THIS INSURANCE IS PRIMARY AND NON-CONTRIBUTORY WITH ANY OTHER INSURANCE WHERE THE WRITTEN CONTRACT REQUIRES THAT THIS INSURANCE BE PRIMARY AND NON-CONTRIBUTORY. WHEN THE INSURANCE PROVIDED BY THIS ENDORSEMENT IS PRIMARY AND NON-CONTRIBUTORY, WE WILL NOT SEEK ANY CONTRIBUTION FROM ANY OTHER INSURANCE POLICY AVAILABLE TO THE ADDITIONAL INSURED ON WHICH THE ADDITIONAL INSURED IS A NAMED INSURED.	PROJECTS OR LOCATIONS AS SPECIFIED IN THE WRITTEN CONTRACT BETWEEN PARTIES OF WHICH THIS ENDORSEMENT SHALL APPLY.

A. Section II — Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:

1. Your acts or omissions; or
2. The acts or omissions of those acting on your behalf;

in the performance of your ongoing operations for the additional insured(s) at the location(s) designated above.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**ADDITIONAL INSURED -- OWNERS, LESSEES OR
CONTRACTORS -- COMPLETED OPERATIONS**

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Name Of Additional Insured Person(s) Or Organization(s):	Location And Description Of Completed Operations
ALL PARTIES WHERE REQUIRED BY A WRITTEN CONTRACT. THIS INSURANCE IS PRIMARY AND NON-CONTRIBUTORY WITH ANY OTHER INSURANCE WHERE THE WRITTEN CONTRACT REQUIRES THAT THIS INSURANCE BE PRIMARY AND NON-CONTRIBUTORY. WHEN THE INSURANCE PROVIDED BY THIS ENDORSEMENT IS PRIMARY AND NON-CONTRIBUTORY, WE WILL NOT SEEK ANY CONTRIBUTION FROM ANY OTHER INSURANCE POLICY AVAILABLE TO THE ADDITIONAL INSURED ON WHICH THE ADDITIONAL INSURED IS A NAMED INSURED.	PROJECTS OR LOCATIONS AS SPECIFIED IN THE WRITTEN CONTRACT BETWEEN PARTIES OF WHICH THIS ENDORSEMENT SHALL APPLY.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

Section II --- Who Is An Insured is amended to include as an additional insured the person(s) or organization(s) shown in the Schedule, but only with respect to liability for "bodily injury" or "property damage" caused, in whole or in part, by "your work" at the location designated and described in the schedule of this endorsement performed for that additional insured and included in the "products-completed operations hazard".

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

**NOTICE OF CANCELLATION – CERTIFICATE HOLDERS
(SPECIFIED DAYS)**

The person(s) or organization(s) listed or described in the Schedule below have requested that they receive written notice of cancellation when this policy is cancelled by us. We will mail or deliver to the Person(s) or Organization(s) listed or described in the Schedule a copy of the written notice of cancellation that we sent to you. If possible, such copies of the notice will be mailed at least 30 days, except for cancellation for non-payment of premium which will be mailed 10 days, prior to the effective date of the cancellation, to the address or addresses of certificate holders as provided by your broker or agent.

Schedule

Person(s) or Organization(s) including mailing address:

All certificate holders where written notice of the cancellation of this policy is required by written contract, permit or agreement with the Named Insured and whose names and addresses will be provided by the broker or agent listed in the Declarations Page of this policy for the purposes of complying with such request.

This notification of cancellation of the policy is intended as a courtesy only. Our failure to provide such notification to the person(s) or organization(s) shown in the Schedule will not extend any policy cancellation date nor impact or negate any cancellation of the policy. This endorsement does not entitle the person(s) or organization(s) listed or described in the Schedule above to any benefit, rights or protection under this policy.

Any provision of this endorsement that is in conflict with a statute or rule is hereby amended to conform to that statute or rule.

All other terms and conditions of this policy remain unchanged.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

Section IV - Business Auto Conditions, A. - Loss Conditions, 5. - Transfer of Rights of Recovery Against Others to Us, is amended by the addition of the following:

However, we will waive any right of recovery we have against any person or organization with whom you have entered into a contract or agreement because of payments we make under this Coverage Form arising out of an "accident" or "loss" if:

- (1) The "accident" or "loss" is due to operations undertaken in accordance with the contract existing between you and such person or organization; and
- (2) The contract or agreement was entered into prior to any "accident" or "loss".

No waiver of the right of recovery will directly or indirectly apply to your employees or employees of the person or organization, and we reserve our rights or lien to be reimbursed from any recovered funds obtained by any injured employee.

All other terms and conditions of the Policy remain unchanged

Endorsement Number:

RE: Pavement Recycling Systems (PRSI)

Dear Joel:

We are the Broker for PRSI with respects to the Umbrella Liability placement. This coverage was placed with Zurich effective 10-1-12014/15. Policy AUC 9459631-01. The policy coverage form is U-UMB 103-C CW 03/10 Page 1 Section 1A clearly states this policy is a Following Form policy. I have attached not only that page which is 1 of 19 I am also attaching a copy of the Schedule of Underlying Insurance which shows the primary placement for this insured.

We have finished the negotiations for the 10-1 renewal and will have certificates and forms ready in the next week to send out. Travelers will be the carrier for the primary and first umbrella.

Please do not hesitate to give me a call if you have any additional questions

Best regards,

A handwritten signature in cursive script, appearing to read "Julie".

Julie A Branstetter AAI
Vice President - Construction

Together we'll go far

Commercial Umbrella Liability Policy

There are provisions in this policy that restrict coverage. Read the entire policy carefully to determine your rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the **Named Insured** shown in the Declarations, and any other person or organization qualifying as a **named insured** under this policy. The words "we", "us" and "our" refer to the company providing this insurance.

The word **insured** means any person or organization qualifying as such in **SECTION V. DEFINITIONS** of this policy.

Words and phrases that are printed in bold-face type are defined in this policy. These definitions are found in **SECTION V. DEFINITIONS** of this policy or in the specific policy provision where they appear.

In consideration of the payment of the premium and in reliance upon the statements in the Declarations and in accordance with the provisions of this policy we agree with you to provide coverage as follows:

Insuring Agreements

SECTION I. COVERAGE

A. Coverage A - Excess Follow Form Liability Insurance

Under **Coverage A**, we will pay on behalf of the **insured** those damages covered by this insurance in excess of the total applicable limits of **underlying insurance**. With respect to **Coverage A**, this policy includes:

1. The terms and conditions of **underlying insurance** to the extent such terms and conditions are not inconsistent or do not conflict with the terms and conditions referred to in Paragraph 2. below; and
2. The terms and conditions that apply to **Coverage A** of this policy.

Notwithstanding anything to the contrary contained above, if **underlying insurance** does not apply to damages, for reasons other than exhaustion of applicable Limits of Insurance by payment of **loss**, then **Coverage A** does not apply to such damages. Also, **Coverage A** does not apply to any form of **casualty business crisis expense** insurance even if such insurance is afforded under **underlying insurance** or would have been afforded except for the exhaustion of the Limits of Insurance of **underlying insurance**.

B. Coverage B - Umbrella Liability Insurance

Under **Coverage B**, we will pay on behalf of the **insured** those damages the **insured** becomes legally obligated to pay by reason of liability:

1. Imposed by law because of **bodily injury, property damage, or personal and advertising injury**; or
2. Assumed under an **insured contract** because of **bodily injury or property damage**;

covered by this insurance but only if the injury, damage or offense arises out of your business, takes place during the policy period of this policy and is caused by an **occurrence** happening anywhere. We will pay such damages in excess of the **Retained Limit** specified in Item 5. of the Declarations or the amount payable by **other insurance**, whichever is greater.

Coverage B does not apply to any **loss, claim or suit** for which insurance is afforded under **underlying insurance** or would have been afforded except for the exhaustion of the Limits of Insurance of **underlying insurance**.

The amount we will pay for **loss** under **Coverage A** or **Coverage B** is limited as described in **SECTION II. LIMITS OF INSURANCE**.

We have no obligation under **Coverage A** and/or **Coverage B** with respect to any settlement made without our consent.

The insurance afforded under **Coverage A** and **Coverage B** applies to **bodily injury or property damage** only if prior to the policy period, no **designated insured** knew that the **bodily injury or property damage** had occurred, in whole or in part. If such a **designated insured** knew, prior to the policy period, that the **bodily injury or property damage** occurred, then any continuation, change or resumption of such **bodily injury or property damage** during or after the policy period will be deemed to have been known prior to the policy period.

DISTRICTS 1+3

Bid

Date: 07-14-2015

To: County of Riverside, hereafter called "County";

Bidder: Pavement Coatings Co.
(hereafter called "Contractor")

The undersigned, Contractor, having carefully examined the site and the Contract Documents for the construction of **Slurry Seal Project for District 1, Project No. C4-0006, and District 3, Project No. C4-0008** hereby proposes to construct the work in accordance with the Contract Documents, including **Addenda Number(s) 1, 2, 3, 4** (Fill in addenda numbers if addenda have been issued.) for the amount stated in this Bid.

By submitting this Bid, Contractor agrees with County:

1. That unless withdrawn in person by Contractor or some person authorized in writing by Contractor (not by telephone or facsimile) before the time specified in the Notice Inviting Bids for the public opening of bids, this Bid constitutes an irrevocable offer for 90 calendar days after that date.
2. County has the right to reject any or all Bids and to waive any irregularities or informalities contained in a Bid.
3. To execute the Contract and deliver the Performance Bond, Payment Bond and Insurance Certificate with endorsements, that comply with the requirements set forth in the Instruction to Bidders and General Conditions within ten (10) business days of the date of the Notice of Acceptance of Bid and Intent to Award as issued by the County.
4. That the contract shall be awarded upon a resolution or minute order to that effect duly adopted by the governing body of County; and that execution of the Contract shall constitute a written memorial thereof.
5. To submit to the County such information as County may require determining whether a particular Bid is the lowest responsible bid submitted.
6. That the accompanying Bid Bond, certified check or cashier's check is in an amount not less than 10% of the total bid submitted and constitutes a guarantee that if awarded the contract, Contractor will execute the Contract and deliver the required bonds within ten (10) business days after notice of award. If Contractor fails to execute and deliver said documents, the bond or check is to be charged with the costs of the resultant damages to the County, including but not limited to: publication costs, the difference in money between the amount bid and the amount in excess of the bid which it costs County to do or cause to be done for the work involved, lease and rental costs, additional salaries and overhead, increased interest and costs of funding the project, attorney expense, additional engineering and architectural expense and cost of maintaining or constructing alternate facilities occasioned by the failure to execute and deliver said documents.
7. By signing this Bid the Contractor certifies that the representations made therein are made under penalty of perjury.

6.						<input type="checkbox"/>
7.						<input type="checkbox"/>

☐ (If applicable, check box.) Additional information for Subcontractor List is attached to this Bid. (A copy of this form may be attached with additional Subcontractor information.)

Percent of work to be performed by Subcontractors: 40 %

Note: A minimum of 50% of the work is required to be performed by the prime/general Contractor.

Non-Collusion Declaration

To be executed by bidder and submitted with bid.
(Title 23 United States Code Section 112 and Public Contract Code Section 7106)

The undersigned declares:

I am the President (Title) of Pavement Coatings Co. (Company),
the party making the foregoing bid.

The bid is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The bid is genuine and not collusive or sham. The bidder has not directly or indirectly induced or solicited any other bidder to put in a false or sham bid. The bidder has not directly or indirectly colluded, conspired, connived, or agreed with any bidder or anyone else to put in a sham bid, or that anyone shall refrain from bidding. The bidder has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the bid price of the bidder or any other bidder, or to fix any overhead, profit, or cost element of the bid price, or of that of any other bidder.

All statements contained in the bid are true. The bidder has not, directly or indirectly, submitted his or her bid price of any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, bid depository, or to any member or agent thereof to effectuate a collusive or sham bid, and has not paid, and will not pay, any person or entity for such purpose.

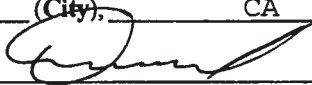

Any person executing this declaration on behalf of a bidder that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the bidder.

I declare under penalty of perjury under the applicable laws that the foregoing is true and correct and that this declaration is executed on

July (Month) 14th (Day) of 2015 (Year),

at Jurupa Valley (City), CA (State).

Iran Contracting Act
(Public Contract Code sections 2200-2208)

Prior to bidding on, submitting a proposal or executing a contract or renewal for a County of Riverside contract for goods or services of \$1,000,000 or more, a Contractor must either:

- a) Certify it is not on the current list of persons engaged in investment activities in Iran created by the California Department of General Services ("DGS") pursuant to Public Contract Code section 2203(b) and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person, for 45 days or more, if that other person will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS; or
- b) Demonstrate it has been exempted from the certification requirement for that solicitation or contract pursuant to Public Contract Code section 2203(c) or (d).

To comply with this requirement, please insert your Contractor or financial institution name and Federal ID Number (if available) and complete one of the options below. Please note: California law establishes penalties for providing false certifications, including civil penalties equal to the greater of \$250,000 or twice the amount of the contract for which the false certification was made; contract termination; and three-year ineligibility to bid on contracts. (Public Contract Code section 2205.)

Option #1 – Certification

I, the official named below, certify I am duly authorized to execute this certification on behalf of the vendor/financial institution identified below, and the vendor/financial institution identified below is **not** on the current list of persons engaged in investment activities in Iran created by DGS and is not a financial institution extending twenty million dollars (\$20,000,000) or more in credit to another person/vendor, for 45 days or more, if that other person/vendor will use the credit to provide goods or services in the energy sector in Iran and is identified on the current list of persons engaged in investment activities in Iran created by DGS.

<i>Date Executed</i> 07-14-2015	<i>Executed in</i> Jurupa Valley, CA	

Option #2 – Exemption

Pursuant to Public Contract Code sections 2203(c) and (d), a public entity may permit a Contractor/financial institution engaged in investment activities in Iran, on a case-by-case basis, to be eligible for, or to bid on, submit a proposal for, or enters into or renews, a contract for goods and services.

If you have obtained an exemption from the certification requirement under the Iran Contracting Act, please fill out the information below, and attach documentation demonstrating the exemption approval.

Juan C. Perez, P.E., T.E.
Director of Transportation and Land
Management

COUNTY OF RIVERSIDE

TRANSPORTATION AND LAND MANAGEMENT AGENCY

Patricia Romo, P.E.
Assistant Director of Transportation

Transportation Department

ADDENDUM NUMBER 1

Dated July 2, 2015

to the
Specifications and Contract Documents
for the construction of

Slurry Seal Project

District 1

Project No. C4-0006

District 3

Project No. C4-0008

Bids Due:

Wednesday, July 8, 2015; 2:00 p.m.
14th Street Transportation Annex
3525 14th Street; Riverside, CA 92501
(951) 955-6780

This Addendum is issued pursuant to Section 8 of Instructions to Bidders of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the plans and specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Contractor's Bid. Bidders are directed to sign this addendum as acknowledged, and attach the signed addendum to the contractor's submitted Bid.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

<http://rctlma.org/trans/Contractors-Corner/Notices-Inviting-Bids>

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: Public Works Contractor Registration Program

All bidding contractors and subcontractors are being advised that no contractor or subcontractor may be awarded a contract for public works on a public works project (awarded on or after April 1, 2015) unless registered with the Department of Industrial Relations pursuant to labor Code section 1725.5.

Addendum No.1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 2 of 13

Item 2: Asphalt Rubber Binder (Rubberized Chip Seal)
Following Special Provisions added and made part hereof:

ASPHALT RUBBER BINDER (RUBBERIZED CHIP SEAL)

Hot applied seal coat shall consist of an application of heated modified asphalt binder, heated screenings precoated with paving asphalt on existing roadway pavement. Hot applied seal coat shall conform to the provisions specified for seal coats in Section 37-1, "Seal Coats," of the Standard Specifications and these Special Provisions.

MATERIALS

Modified Asphalt Binder

Modified asphalt binder shall consist of asphalt binder containing a minimum of 18 percent ground tire rubber. The tire rubber shall be incorporated into the asphalt binder such that a smooth and homogeneous composition results. Modified asphalt binder shall be performance grade **PG 76-22TR** conforming to the requirements in the following table:

Addendum No.1
 Slurry Seal Project, District 1 and 3
 Project No. C4-0006 and C4-0008
 July 2, 2015
 Page 3 of 13

Modified Asphalt Binder

Property	AASHTO Test Method	Specification Grade
		PG 76-22TR
Original Binder		
Flash Point, Minimum °C	T 48	230
Solubility, Minimum % ^b	T 44 ^c	97.5
Viscosity at 135°C, ^d Maximum, Pa·s	T 316	3.0
Dynamic Shear, Test Temp. at 10 rad/s, °C Minimum G*/sin(delta), kPa	T 315	76 1.00
RTFO Test , Mass Loss, Maximum, %	T 240	1.00
RTFO Test Aged Binder		
Dynamic Shear, Test Temp. at 10 rad/s, °C Minimum G*/sin(delta), kPa	T 315	76 2.20
Dynamic Shear, Test Temp. at 10 rad/s, °C Maximum (delta), %	T 315	Note e 80
Elastic Recovery ^f , Test Temp., °C Minimum recovery, %	T 301	25 65
PAV ^g Aging, Temperature, °C	R 28	110
RTFO Test and PAV Aged Binder		
Dynamic Shear, Test Temp. at 10 rad/s, °C Maximum G* sin(delta), kPa	T 315	31 5000
Creep Stiffness, Test Temperature, °C Maximum S-value, MPa Minimum M-value	T 313	-12 300 0.300

Notes:

- Do not modify using acid modification.
- The Engineer will waive this specification if the supplier is a Quality Supplier as defined by the Caltrans' "Certification Program for Suppliers of Asphalt."
- ASTM D5546 may be used instead of AASHTO T 44.
- The Engineer will waive this specification if the supplier certifies the paving asphalt can be adequately pumped and mixed at temperatures meeting applicable safety standards.
- Test temperature is the temperature at which G*/sin(delta) is 2.2 kPa. A graph of log G*/sin(delta) plotted against temperature may be used to determine the test temperature when G*/sin(delta) is 2.2 kPa. A graph of (delta) versus temperature may be used to determine delta at the temperature when G*/sin(delta) is 2.2 kPa. The Engineer also accepts direct measurement of (delta) at the temperature when G*/sin(delta) is 2.2 kPa.
- Tests without a force ductility clamp may be performed.
- "PAV" means Pressurized Aging Vessel.

Addendum No. 1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 4 of 13

A Certificate of Compliance conforming to Section 6-1.07 of the Standard Specification shall be furnished to the Engineer prior to the start of the work. The certificate shall be current and for the materials delivered to the work site. Test results supporting the Certificate of Compliance shall be from an AASHTO-certified laboratory. The certificate shall show the shipment number, source and grade of binder, percentage of tire rubber by weight of the modified asphalt binder, refinery, consignee, quantity, project title, and date of shipment.

The Contractor shall provide one (1) gallon sample of the modified asphalt binder 14 days before placement of the hot applied chip seal and shall be submitted to the Engineer in sealed container showing project title, type and source of material, percentage of tire rubber, and date of shipment. The Contractor shall provide the Engineer with a Material Safety Data Sheet (MSDS) of the modified asphalt binder.

Additional samples may be required during the course of placement of the hot applied seal coat as directed by the Engineer. At any time, the Engineer may perform quality testing on the samples submitted by the Contractor as deemed necessary to determine the materials compliance with the specifications.

Pre-Coated Screenings

Pre-coated screenings shall be screenings which are heated and pre-coated with paving asphalt prior to delivery to the work site.

The paving asphalt shall be performance grade **PG 70-10** conforming to Section 92 of the Standard Specification. A Certificate of Compliance conforming to Section 6-1.07 shall be submitted to the Engineer prior to the start of the work.

Screenings shall consist of broken stone, crushed gravel, or both. At least 90 percent of screenings by weight shall consist of crushed particles having 2 or more fractured faces as determined under California Test 205. Screenings shall conform to the following requirements immediately prior to pre-coating with the paving asphalt. Screenings shall conform to the grading requirements as determined under California Test 202 in the following table:

Screening Grading Requirement

Medium 3/8" max. size (3/8" X No. 6)	
Sieve Size	Percentage Passing
1/2"	100
3/8"	85-100
No. 4	0-15
No. 8	0-5
No. 200	0-2

Addendum No. 1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 5 of 13

Screenings shall conform to the quality requirements shown in the following table:

Screening Quality Requirements

Test Parameters	California Test	Requirements
Los Angeles Rattler Loss (100 Revolutions)	211	10 max.
Los Angeles Rattler Loss (500 Revolutions)	211	45 max.
Film Stripping	302	25 max.
Cleanness Value	227	80 min.
Durability	229	52 min.

Representative samples for the cleanness value test shall be taken immediately prior to preheating. Representative samples for grading requirements shall be taken prior to pre-coating with the paving asphalt.

If the result of the aggregate grading for screenings does not meet the gradation specified, the seal coat operation shall not continue until a passing grading is met.

If the result of the cleanness value test for screenings is below 80, the seal coat operation shall not continue until a passing cleanness value is achieved.

Additional samples of the uncoated aggregate shall be taken during the course of placement of the seal coat and shall be tested for grading and cleanness value to determine the aggregate compliance with the specifications. The Engineer shall perform a minimum of 2 sampling and testing of the uncoated aggregate per day during placement. The Contractor shall cease all work when any individual test result of either grading screening or cleanness value of the uncoated aggregate is out of compliance. Seal coat operation shall resume when the Contractor has taken corrective measures and that the test results are in conformance with the specifications.

Screenings shall be heated to a temperature between 260°F and 350°F and then pre-coated with 0.7 to 1.0 percent paving asphalt by weight of dry aggregate. The exact percentage shall be recommended by the Contractor and approved by the Engineer. Pre-coating shall be performed in an asphalt concrete plant. Stockpiling of screenings after heating and pre-coating will not be permitted.

Each load shall be completely covered during hauling.

EQUIPMENT

All equipment shall be approved by the Engineer prior to use.

The Contractor shall utilize the following equipment for hot applied seal coat operation:

Addendum No.1**Slurry Seal Project, District 1 and 3****Project No. C4-0006 and C4-0008****July 2, 2015****Page 6 of 13****Distributor Trucks**

Distributor trucks shall be self-propelled and equipped with a hydrostatic asphalt pump. The use of gravity distributors will not be permitted.

Distributor trucks shall be equipped with:

- a) a cab-mounted, computerized control system with digital readout,
- b) a cab-controlled automatic valve system capable of controlling circulation and spray,
- c) a ground travel speed and distance traveled measuring system,
- d) a heating unit and pump or pumps capable of spraying within ± 0.03 gallons per square yard of the specified application rate,
- e) a full-circulating, 12-foot-wide spray bar, capable of uniform application across the full-width of a traffic lane without streaks or other distortions,
- f) thermometers, including one on the side of the tank visible to the Engineer when standing on ground level,
- g) pressure gauges,
- h) volume gauges,
- i) temperature gauges,
- j) a hose and nozzle to be used for spraying areas inaccessible to the distributor truck, and
- k) observation platform on the rear of the truck for an observer on the platform to see the nozzles and unplug them if needed.

The spray bar shall be adjustable to permit positioning at various heights above the roadway surface to be seal coated. If a spray bar extension is used to cover a greater width, it shall be of the full-circulating type. No liquid shall drip onto existing roadway pavement or roadway pavement which has been seal coated.

Haul Trucks

Haul trucks for hauling screenings shall be equipped with the following:

- a) tailgate discharge,
- b) locking device for connecting to the chip spreader,
- c) dump body that, when fully raised, will not push down on the chip spreader,
- d) a dump body lip of sufficient length that screenings will not dump onto the roadway during discharge into the rear hopper of the chip spreader, and
- e) a manual or automatic load covering system.

Chip Spreaders

Chip spreaders shall be

- a) specifically designed and constructed to spread screenings,
- b) self-propelled,
- c) capable of towing haul trucks during discharge,
- d) capable of spreading screenings over the full-width of a traffic lane in one application,

and be equipped with the following:

Addendum No. 1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 7 of 13

- e) a locking device for attaching to haul trucks,
- f) a rear hopper for receiving screenings,
- g) an adjustable-width front hopper for spreading screenings,
- h) a belt conveyor system capable of transporting screenings deposited in the rear hopper to the front hopper, and
- i) a computerized spread rate control system capable of adjusting the spread rate up or down in 1 pound increments.

Pneumatic Tire Rollers

Pneumatic tire rollers shall be of the oscillating-type having a width of not less than 4 feet. Wobble-wheel rollers will not be permitted. Rollers shall be self-propelled and reversible. Each roller shall have a separate operator.

Pneumatic tires shall be of equal size, diameter, type, and ply, spaced so that the gaps between adjacent front tires will be covered by adjacent rear tires, and inflated to 100 ± 5 pounds per square inch. Rollers shall be constructed so that the total weight can be varied to produce an operating weight per tire of not less than 2,000 pounds.

Pneumatic tire rollers shall be equipped with tire pads and a water spray system capable of preventing the pneumatic tires from sticking to the seal coat surface. A parting agent approved by the Engineer may be used. The parting agent shall not contain a petroleum-based solvent or other constituent which may cause damage to the seal coat.

Steel Wheel Roller

Steel wheel roller shall be self-propelled and reversible weighing from 8 tons (minimum) to 10 tons (maximum). The roller shall be equipped with an adequate scraping or cleaning device on each wheel to prevent the accumulation of material on the wheels. The roller shall also be equipped with a water system which will keep all wheels uniformly wet to prevent material pickup.

Sweepers

Sweepers shall be self-propelled, equipped with a vacuum type broom and having only negative air pressure at the road surface, and capable of removing loose screenings without dislodging those seated in the seal coat. Gutter brooms or steel-tined brooms shall not be used.

PREPARATION OF EXISTING PAVEMENT

The Contractor shall prepare the existing roadway surface prior to application of the seal coat.

Manhole covers, utility vaults and the surfaces of other utility facilities, survey monuments, and benchmarks shall be covered using a material approved by the Engineer. The cover material and application procedure shall not result in adherence of the seal coat to the facility nor in stripping of the seal coat from the adjacent pavement.

Addendum No. 1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 8 of 13

Thermoplastic striping and pavement markings, raised pavement markers, and raised pavement marker adhesive shall be removed.

Immediately before applying the seal coat, the existing roadway surface shall be clean and dry. Cleaning shall be performed by sweeping, flushing, or another method which will result in the removal of all loose pavement particles, dirt, and other extraneous material.

APPLICATION

Modified Asphalt Binder

Modified asphalt binder shall be placed upon a clean dry surface and shall be applied by distributor trucks conforming to requirement of these Special Provisions except small or inaccessible areas may be applied with a wand if so approved by the Engineer. The Contractor shall comply with Federal, State, and Local environmental laws, rules, regulations, and ordinances including, but not limited to, air quality requirements.

Modified asphalt binder shall not be applied:

- a) when weather conditions, including excessive wind, are unsuitable,
- b) when the existing pavement is damp or wet,
- c) until sufficient screenings are on hand to immediately cover the binder,
- d) a greater distance than can immediately be covered with screenings,
- e) when the atmospheric temperature is below 65°F,
- f) when the atmospheric temperature is above 105°F, or
- g) when the pavement temperature is below 80°F.

In windy conditions, the Contractor may adjust the distributor bar height and distribution speed, and use shielding equipment, if approved by the Engineer.

Modified asphalt binder shall be applied to only one designated traffic lane at a time, and the full-width shall be covered in one operation.

Application of the modified asphalt binder shall be discontinued sufficiently early in the day to permit termination of traffic control (lane closure) prior to darkness.

Application Temperature

Modified asphalt binder shall be between 330°F and 375°F at the time of application.

Application Rate

Modified asphalt binder shall be applied at a rate of 0.36 to 0.46 gallons per square yard. **The initial rate of application shall be 0.40 gallons per square yard.** The Contractor may propose a different initial rate. If so requested by the Engineer, the Contractor shall apply modified asphalt binder to 100-foot test strips at different rates to assist in determination. The initial rate shall be adjusted up or down as necessary (but

Addendum No.1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 9 of 13

within the specified limit) to provide complete and uniform coverage and ensure that no bleeding occurs during rolling. The initial rate, and any necessary adjustments thereto during application, shall be subject to approval by the Engineer.

During spraying, the application rate, as determined in accordance with California Test 339, shall not vary more than 10 percent from the rate approved by the Engineer.

When placing modified asphalt binder at intersections, left turn lanes, gore points, and other irregular areas, the binder application shall not be in excess of that which can be covered with screenings within ten (10) minutes.

For areas not accessible to a truck distributor bar, the modified asphalt binder shall be hand sprayed or other means approved by the Engineer.

After application, modified asphalt binder shall completely and uniformly cover the underlying pavement and be free of streaks and voids.

Pre-coated Screenings

Pre-coated screenings shall be uniformly spread by a chip spreader in conformance with the provisions in these Special Provisions. Screenings shall be spread at a uniform rate over the full lane width in 1 operation. Spreading shall begin immediately following the application of the modified asphalt binder.

Application Temperature

Pre-coated screenings shall be a minimum of 225°F at the time of spreading.

Application Rate

The spread rate shall be from 26 to 40 pounds per square yard. **The initial rate shall be 30 pounds per square yard.** The Contractor may propose a different initial rate. If so requested by the Engineer, the Contractor shall spread 100-foot test strips at different rates. The initial rate, and any necessary adjustments thereto during spreading, shall be approved by the Engineer. The calculated spread rate upon completion shall be within 5 percent of the rate approved by the Engineer.

The chip spreader shall not be operated at speeds which cause the screenings to roll over after striking applied binder.

Joints

Excess screenings at joints shall be swept clean prior to the application of hot applied seal coat to the adjoining traffic lane.

Joints shall be free from ridges and depressions and shall have a uniform appearance consistent with the adjacent seal-coated surface.

Addendum No.1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 10 of 13

Transverse Joints

When joining edges against surfaces that has been seal coated, application shall start and stop on building paper, or other similar material approved by the Engineer, spread over the entire application width. The building paper shall be removed and disposed of by the Contractor after use.

Longitudinal Joints

Longitudinal joints between adjacent applications shall coincide with the line between designated traffic lanes and be overlapped for a width not exceeding 4 inches. Adjacent applications shall be blended by brooming.

FINISHING

Finishing shall consist of the following (in order of sequence):

- a) rolling
- b) sweeping

After the screenings have been spread, piles and ridges shall be removed. Additional screenings shall be spread to completely and uniformly cover the hot applied seal coat, after which the seal coat shall be rolled. After sweeping, clean sand shall be applied to areas where bleeding is evident and/or areas where screenings are picked up by rollers.

Rolling

A minimum of 3 pneumatic-tired rollers and a steel-wheeled roller conforming to these Special Provisions shall be furnished and operated.

A coverage shall be defined as the number of passes needed for a roller to cover the full application width. A pass shall be defined as 1 roller movement parallel to the seal coat application in either direction. Overlapping passes shall be considered part of the coverage being performed and not a part of a subsequent coverage. A coverage shall not be started until the previous coverage has been completed.

Rolling shall be performed in the following sequence:

- a) Initial rolling consisting of 1 coverage with a pneumatic-tired roller
- b) Secondary rolling consisting of 2 coverages with a pneumatic-tired roller
- c) Final rolling consisting of 1 coverage with a steel-wheeled roller

Initial rolling shall begin within 60 seconds after the screenings have been spread. The screenings shall not be spread more than 150 feet ahead of the initial rolling.

Secondary rolling shall begin immediately after completion of the initial rolling. The amount of secondary rolling shall be sufficient to adequately seat the screenings and in no case shall be less than 2 complete coverages.

Addendum No.1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 11 of 13

Final rolling shall follow after completion of the secondary rolling. The roller shall be operated in static mode only.

Sweeping

Sweepers shall conform to the requirements of these Special Provisions. Sweeping shall be used to remove loose screenings from the roadway, adjacent gutters, curb ramps, sidewalks, driveways, and intersecting roadways. A minimum of 3 self-propelled brooms shall be furnished and operated in addition to those required for maintenance of seal coats which have been previously applied.

Initial sweeping shall be light brooming and shall not cause the screenings to separate from the seal coat. The Contractor shall commence the initial sweeping after the screenings have been in place for a period of 2 to 4 hours.

Excess screenings generated by sweeping operations shall not remain on graded shoulders nor be salvaged and stockpiled for spreading. Excess screenings shall be disposed of by the Contractor.

MAINTENANCE

The Contractor shall maintain the seal coat surface for 5 calendar days from the day the screenings are applied or until the microsurfacing is applied. Maintenance shall include maintaining the seal coat surface free of loose screenings by sweeping, applying additional screenings and/or sand cover as may be necessary to absorb free asphaltic material, covering any areas deficient in coat material, and other work as directed by the Engineer. Sweeping shall not result in screenings set in the asphaltic material becoming loose.

The exact duration of sweeping operations will be determined by the Engineer. As a minimum, sweeping will be required at times specified in Section 37-1.07, 7th paragraph.

TRAFFIC CONTROL

In addition to the requirements of Sections 7-1.08 and 7-1.09 and Section 37-1.03 paragraphs 4th through 6th, of the Standard Specifications, the Contractor shall comply with the latest edition of the Manual of Uniform Traffic Control Devices (MUTCD) and the following requirements:

- a) At locations where public traffic is being routed over a roadway upon which a seal coat is to be applied, the seal coat shall not be applied to more than one-half the width of the traveled way at a time, and the remaining width shall be kept free of obstructions and open for use by public traffic until the seal coat is ready for use by public traffic.
- b) Pilot cars utilized by the Contractor to convoy or otherwise control traffic shall be capable of radio communication with other pilot cars, flaggers, and Contractor personnel in the work area. The maximum speed of the pilot cars convoying or controlling public traffic through the traffic control zone shall be 25 miles per hour on

Addendum No.1
Slurry Seal Project, District 1 and 3
Project No. C4-0006 and C4-0008
July 2, 2015
Page 12 of 13

2-lane, 2-way roadways and 30 miles per hour on multilane divided and undivided roadways. Pilot cars shall only use traffic lanes open to public traffic.

Prior to placement of the seal coat, a Traffic Control Plan shall be submitted to the Engineer for approval.

The Contractor shall be held fully responsible for damage to windshields and for chipping of paint on vehicles passing through the work site.

The posting of construction zone speed limit signs that reduce the legally posted speed limit by more than 10 MPH shall not relieve the Contractor of the responsibility for damage to vehicle windshields and paint, unless the Contractor first conducts a speed survey justifying said reduction in accordance with California Vehicle Code (CVC) requirements. Said speed survey shall be conducted by an entity allowed to perform such survey under the CVC. The above does not prevent the Contractor from posting advisory signs recommending that drivers reduce their speed by more than 10 MPH from the legally posted speed limit.

The Engineer or his representative shall determine, at his/her sole discretion, whether or not a claim for windshield or paint damage against the Contractor is valid.

If the Engineer determines that the claim is valid, then the Contractor shall file within 10 working days to resolve said claim and provide proof of such timely resolution to the Engineer any and all such claims prior to the release of retention funds.

Prior to opening the lanes to public traffic, all construction signs and appropriate speed-reduction signs shall remain in place and shall be maintained by the Contractor until there is no further dislodging of the aggregate screenings.

METHOD OF PAYMENT

Payment for hot applied seal coat shall be considered as included in the contract unit price paid per ton for "Asphalt-Rubber Binder (Rubberized Chip Seal) and shall include full compensation for furnishing labor, materials, tools, equipment and incidentals, pavement preparation, rolling, sweeping, disposing of excess material, application of sand to bleeding areas, maintenance, and all other work required by these Special Provisions and as directed by the Engineer.

No adjustment in payment will be made for any increase or decrease in the quantity of modified asphalt binder or screenings necessary to obtain the application rates required by the Engineer.

ADDENDUM NUMBER 2

Dated July 6, 2015

to the

Specifications and Contract Documents
for the construction of

Slurry Seal Project

District 1

Project No. C4-0006

District 3

Project No. C4-0008

Bids Due: Wednesday, July 8, 2015: 2:00 p.m.

14th Street Transportation Annex

3525 14th Street, Riverside, CA 92501

(951) 955-6780

This Addendum is issued pursuant to the Instructions to Bidders, Item No. 8, of the Contract Documents for the reference project. This Addendum is issued as a supplement to the specification and special provisions for the referenced project. The revisions to the specifications shall become a part of the Contract Documents, and each bidder shall acknowledge receipt thereof on the Contractor's Proposal. Bidders are directed to sign this addendum as acknowledged, and attach the signed addendum to the contractor's submitted proposal.

Note: During the advertisement period of this project, this document and attachments (if any) are available upon request at the office of the Transportation Department, and are available as a free download at the Transportation Department's website:

MODIFICATIONS / CLARIFICATIONS TO THE SPECIAL PROVISIONS:

Item 1: Remove Thermoplastic pavement markings and Pavement Markers.

Refer to Special Provision section entitled "Remove Thermoplastic pavement markings and Pavement Markers" on page 30. The payment Clause (**Method of Payment**) for this section is deleted and replaced with the following:

Method of Payment

The lump sum contract price paid for Remove Traffic Stripe, Pavement Markings and Pavement Markers shall include full compensation, for furnishing all labor, materials, tools, equipment, and for doing all work involved in removing painted traffic stripes, thermoplastic; stripes, crosswalks, pavement markings and pavement markers, and no additional compensation will be allowed therefor.

MODIFICATIONS / CLARIFICATIONS TO SPECIAL PROVISIONS:

Item 1: Bid Proposal

Refer to Bid Proposal Page B2-2, bid item 15 "Asphaltic Emulsion (Fog Seal Coat)".
Following correction has made to the description of the bid item 15.

- Bidders are instructed to strikethrough the word "FOG", in the description of bid item 15 as shown below:

Item 15, ASPHALTIC EMULSION (~~FOG~~ SEAL COAT).

In the event that a bidding contractor fails to correct the proposal as directed by this addendum, the acknowledgement of the addendum by the bidding contractor will be

considered as compliance to the requirement of the addendum and County will update their bid proposal accordingly.

Item 2: Remove Thermoplastic pavement markings and Pavement Markers.

Refer to Special Provision section entitled "Remove Thermoplastic pavement markings and Pavement Markers" on page 30. Following additional provision is added to this section and made part thereof.

Contractor shall remove all kind of traffic stripes and removal of painted traffic stripes shall be considered as included in the lump sum bid price paid for Remove Traffic Stripe, Pavement Markings, and Pavement Markers. No additional compensation will be allowed.

Item 3: Chip Seal

Following Special Provisions added and made part hereof:

CHIP SEAL

The chip seal coat shall conform to Sections 37-1, "Seal Coats", and 94, "Asphaltic Emulsions" of the State of California Standard Specifications and these Special Provisions.

The work shall consist of a uniform application of asphaltic emulsion followed by a uniform coverage of screenings on existing pavement surfaces. The chip seal coat application will be followed by an application of slurry seal coat Type I or Type II, as shown on the plans, to provide a chip seal coat of the pavement surfaces.

Materials:

Asphaltic Emulsion

Asphaltic emulsion shall conform to Section 94, "Asphaltic Emulsions" of the Standard Specifications and these Special Provisions.

The asphaltic emulsion used for chip seal coating shall be a cationic polymer modified asphalt emulsion grade PMCRS-2h and shall conform to the provisions in Section 94, Table 3, "Requirements for Polymer Modified Asphaltic Emulsion".

The polymer in the emulsion shall be, at the option of the Contractor, either Neoprene, SBR, EVA or SBS. Solid polymers such as EVA or SBS shall be adequately blended into the asphalt prior to emulsification. If a liquid latex such as Neoprene, SBR or similar is used, the latex shall be "co-milled" into the emulsion through the water phase during manufacturing. Each load of polymer asphaltic emulsion shall have a certificate from the asphalt emulsion manufacturer guaranteeing that either the asphalt blending or "co-milling" processes were used. The certificate shall also state the percentage of the solid rubber polymer added to the asphaltic emulsion by weight of the asphalt, as well as the composition of the polymer. The addition of latex to the emulsion after emulsion manufacturing is prohibited.

Screenings:

Screenings shall conform to Section 37-1.02, "Materials" of the Standard Specifications and shall be:

Seal Coat Type	Size of Screenings
Medium Grade	3/8" x No.6

The application rate of screenings shall be:

Seal Coat Type	Spread Rate lbs/SQYD
Medium Grade	20 to 30

The exact rate will be determined by the Engineer.

Equipment:

The equipment used by the Contractor shall include the following:

A self-propelled power broom capable of cleaning the existing pavement and removing excess screenings without dislodging screenings set in the asphaltic emulsion. A gutter broom or steel tined broom shall not be used.

Rollers shall be pneumatic - tired type. A minimum of three pneumatic - tired rollers conforming to Section 39-5.02, "Compacting Equipment" of the Standard Specifications shall be furnished and operating at all times. Rollers shall not exceed speeds of 10 mph during initial and secondary rolling.

The screenings spreader shall be a variable width, computer controlled, self-propelled screenings spreader. Hopper width shall vary from 10 to 16 feet in width, in 6 inches increments minimum.

Vehicles hauling screening shall be equipped with a permanent hitch that will fit the pulling device on the screenings spreader.

Asphalt distributor truck shall be equipped with computerized rate control for applying polymer modified asphaltic emulsion at a uniform rate as directed by the Engineer.

Asphalt distributor truck shall be equipped with its proper measuring stick and calibration card. On-site calibration of asphalt distributor truck, for determining actual spread rate of polymer modified asphaltic emulsion shall be determined by the Engineer.

Maintaining Traffic:

In addition to the traffic control requirements set forth elsewhere in these Special Provisions, traffic control for seal coat operations shall conform to the provisions of Section 37-1.03, "Maintaining Traffic" of the Standard Specifications.

Application:

Chip seal coat shall be placed only when the atmospheric temperature is between 60⁰ F. and 100⁰ F. unless otherwise approved by the Engineer.

The pavement shall be prepared in accordance with Section 37-1.04, "Preparation for Seal Coat" of the Standard Specifications.

Utility covers, manholes, survey monuments, survey markers, and other permanent facilities shall be protected from coverage by the seal coat, and referenced for prompt location and cleaning following seal coat operations. Contractor shall be responsible for protecting, covering, locating, removing protective covers and cleaning the above items.

The application rate of the asphaltic emulsion shall be between:

Seal Coat Type	Application Rate gallons/SQYD
Medium Grade	0.30 and 0.40

The exact rate will be determined by the Engineer.

Immediately following the application of the asphaltic emulsion, the asphaltic emulsion shall be covered with screenings. The chip spreader shall be operated within 75 feet of the distributor truck. The rate of application of the screenings shall be between 20 and 30 pounds per square yard and shall be determined by the Engineer.

Initial rolling shall consist of a one complete coverage with pneumatic tired rollers, and shall begin immediately behind the chip spreader. The initial rolling shall be within 100 feet of the spreader.

The amount of pneumatic tired rolling shall be sufficient to adequately seat the screenings and in no case shall be less than 3 complete coverages as defined in Section 39-6.03, "Compacting" of the Standard Specifications. The rolling shall be patterned so that coverages are approximately equal throughout the project.

Traffic shall not be allowed on the seal coat until the loose screenings have been removed and not before at least two hours after rolling. The traffic shall be controlled by pilot car at a speed not to exceed 15 miles per hour for a period of 2 additional hours when directed by the Engineer.

In lieu of the provisions of paragraph 8 of Section 37-1.07, "Finishing" of the Standard Specifications, the following shall apply:

A light brooming shall be performed to remove loose screenings before traffic is permitted on the seal coat, at the end of each day's work and as a first order of work on the morning following application of the screenings.

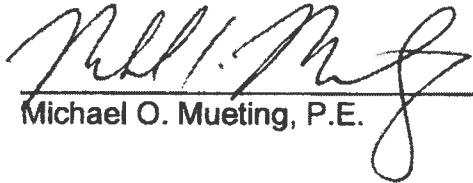

The exact time of brooming will be determined by the Engineer. The surface of the seal coat and adjacent pavement shall be swept or broomed two times a day or as often as necessary between the first and fourth days after applying the screenings to maintain the entire paved roadbed free of loose screenings. At the end of each of the fourth days after applying the screenings, any excess screenings shall be removed in such a manner that the screenings set in the binder will not be displaced.

Measurement and Payment:

Payment for Chip Seal Coat shall be considered as included in the contract unit price paid per square yard for 'Screenings (medium)' and shall be considered as full compensation for furnishing all labor, materials, tools, equipment and incidentals for placing asphaltic emulsion, cover aggregate screenings, rolling, sweeping and performing necessary cleanups as specified in these Special Provisions and as directed by the Engineer.

Slurry Seal Type I or Type II coat installed over Chip Seal process shall conform to the "Slurry Seal" section of these Special Provisions and its payment shall be considered as included in the contract unit price paid per Ton for Slurry Seal Type I or Slurry Seal Type II.

This addendum has been prepared under the direction of the following registered Civil Engineer(s):

Note: Refer to Section 8, "Addenda" (page A4). Submission of all addendum pages and non-bidding document attachments of addendum are not necessary for Bid submittal. Submittal of **only this** acknowledgement page is adequate for Bid reception. Bidders are reminded to list addendum number(s) received on the first page (B1) of the Bid form (Proposal).

Bid Bond

Recitals:

1. Pavement Coatings Co. "Contractor", has submitted his/her Contractor's Proposal to County of Riverside, "County", for the construction of public work for Slurry Seal Project for District 1, Project No. C4-0006, and District 3, Project No. C4-0008 in accordance with a Notice Inviting Bids from the County.
2. The Ohio Casualty Insurance Company a New Hampshire corporation, hereafter called "Surety", is the surety of this bond.

Agreement:

We, Contractor as Principal and Surety as Surety, jointly and severally agree and state as follows:

1. The amount of the obligation of this bond is 10% of the amount of the Contractor's Proposal, including bid alternates, and inures to the benefit of County.
2. This Bond is exonerated by (1) County rejecting said Proposal or, in the alternate, (2) if said Proposal is accepted, Contractor executes the Contract and furnishes the Bonds as agreed to in its Proposal, otherwise it remains in full force and effect for the recovery of loss, damage and expense of County resulting from failure of Contractor to act as agreed to in its Proposal. Some types of possible loss, damage and expense are specified in the Contractor's Proposal.
3. Surety, for value received, stipulates and agrees that its obligations hereunder shall in no way be impaired or affected by any extension of time within which County may accept the Proposal and waives notice of any such extension.
4. This Bond is binding on our heirs, executors, administrators, successors and assigns.

Dated: June 26th, 2015

THIS POWER OF ATTORNEY IS NOT VALID UNLESS IT IS PRINTED ON RED BACKGROUND.

This Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated.

Certificate No. 6944875

American Fire and Casualty Company
The Ohio Casualty Insurance Company

Liberty Mutual Insurance Company
West American Insurance Company

POWER OF ATTORNEY

KNOWN ALL PERSONS BY THESE PRESENTS: That American Fire & Casualty Company and The Ohio Casualty Insurance Company are corporations duly organized under the laws of the State of New Hampshire, that Liberty Mutual Insurance Company is a corporation duly organized under the laws of the State of Massachusetts, and West American Insurance Company is a corporation duly organized under the laws of the State of Indiana (herein collectively called the "Companies"), pursuant to and by authority herein set forth, does hereby name, constitute and appoint, Frank Morones; Lynn A. Beimer; Richard L. Wells

all of the city of BREA state of CA each individually if there be more than one named, its true and lawful attorney-in-fact to make, execute, seal, acknowledge and deliver, for and on its behalf as surety and as its act and deed, any and all undertakings, bonds, recognizances and other surety obligations, in pursuance of these presents and shall be as binding upon the Companies as if they have been duly signed by the president and attested by the secretary of the Companies in their own proper persons.

IN WITNESS WHEREOF, this Power of Attorney has been subscribed by an authorized officer or official of the Companies and the corporate seals of the Companies have been affixed thereto this 13th day of April, 2015.

STATE OF PENNSYLVANIA ss
COUNTY OF MONTGOMERY

On this 13th day of April, 2015, before me personally appeared David M. Carey, who acknowledged himself to be the Assistant Secretary of American Fire and Casualty Company, Liberty Mutual Insurance Company, The Ohio Casualty Insurance Company, and West American Insurance Company, and that he, as such, being authorized so to do, execute the foregoing instrument for the purposes therein contained by signing on behalf of the corporations by himself as a duly authorized officer.

IN WITNESS WHEREOF, I have hereunto subscribed my name and affixed my notarial seal at Plymouth Meeting, Pennsylvania, on the day and year first above written.

This Power of Attorney is made and executed pursuant to and by authority of the following By-laws and Authorizations of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company which resolutions are now in full force and effect reading as follows:

ARTICLE IV – OFFICERS – Section 12. Power of Attorney. Any officer or other official of the Corporation authorized for that purpose in writing by the Chairman or the President, and subject to such limitation as the Chairman or the President may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Corporation to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Corporation by their signature and execution of any such instruments and to attach thereto the seal of the Corporation. When so executed, such instruments shall be as binding as if signed by the President and attested to by the Secretary. Any power or authority granted to any representative or attorney-in-fact under the provisions of this article may be revoked at any time by the Board, the Chairman, the President or by the officer or officers granting such power or authority.

ARTICLE XIII – Execution of Contracts – SECTION 5. Surety Bonds and Undertakings. Any officer of the Company authorized for that purpose in writing by the chairman or the president, and subject to such limitations as the chairman or the president may prescribe, shall appoint such attorneys-in-fact, as may be necessary to act in behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations. Such attorneys-in-fact subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the president and attested by the secretary.

Certificate of Designation – The President of the Company, acting pursuant to the Bylaws of the Company, authorizes David M. Carey, Assistant Secretary to appoint such attorneys-in-fact as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all undertakings, bonds, recognizances and other surety obligations.

Authorization – By unanimous consent of the Company's Board of Directors, the Company consents that facsimile or mechanically reproduced signature of any assistant secretary of the Company, wherever appearing upon a certified copy of any power of attorney issued by the Company in connection with surety bonds, shall be valid and binding upon the Company with the same force and effect as though manually affixed.

I, Gregory W. Davenport, the undersigned, Assistant Secretary, of American Fire and Casualty Company, The Ohio Casualty Insurance Company, Liberty Mutual Insurance Company, and West American Insurance Company do hereby certify that the original power of attorney of which the foregoing is a full, true and correct copy of the Power of Attorney executed by said Companies, is in full force and effect and has not been revoked.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seals of said Companies this 26th day of June, 2015.
