BACKGROUND:

Summary

Pursuant to Government Code Section 25365, a Board of Supervisors may, by a four-fifths vote, grant, convey, quitclaim, assign, exchange, or otherwise transfer to any special district or public agency within the county, any real or personal property, or interest therein belonging to the county upon the terms and conditions as are agreed upon and without complying with any other provisions of the code, if the property or interest therein to be granted and conveyed or quitclaimed is not required for the county.

The County has been asked to convey the parcels of land to the City of Jurupa Valley (City) to facilitate the widening of Limonite Avenue. The County and the City desire to enter into a Right of Way Acquisition Agreement to provide the terms and conditions for this conveyance.

The proposed action consists of making certain limited approvals associated with the Limonite Avenue Widening from Etiwanda Avenue to Bain Street Project (Project). The County, as a CEQA responsible agency, would authorizing the conveyance of certain fee and easement interests in real property owned by the County, located in the City of Jurupa Valley, County of Riverside, State of California, identified with Assessor's Parcel Numbers 161-331-017 and 157-222-025 (Parcels), by Grant Deed to the City of Jurupa Valley to implement a portion of the Project. CEQA Guidelines Section 15096 requires the County, as a responsible agency, to consider the environmental documents adopted by the lead agency and make certain findings pursuant to State CEQA Guidelines Section 15091. As indicated in Resolution No. 2016-023, the County adopts the required findings and mitigation measures in its limited role as a responsible agency under CEQA. The proposed action is solely the conveyance of real property interests to the City of Jurupa Valley. The City of Jurupa Valley previously adopted an Initial Study/Mitigated Negative Declaration (SCH#1991012022) and Resolution No. 2014-23 on June 19, 2014 approving the project known as the Limonite Avenue Widening from Etiwanda Avenue to Bain Street Project.

Resolution No. 2016-023, the Right of Way Acquisition Agreement and the Grant Deed have been approved as to form by County Counsel.

Impact on Citizens and Businesses

The conveyance of real property from the County of Riverside to the City of Jurupa Valley will enable the City to widen Limonite Avenue to improve traffic flow for the community.

1 Program, and approved the Project; and

3 analyzes the potential environmental impacts associated with the County's limited role as a responsible
4 agency in the implementation of the Project; and

5 WHEREAS, the County and the City concur that it would be in both parties best interest to convey
6 this parcel to the City of Jurupa Valley pursuant to the terms and conditions of that certain Right of Way

8 WHEREAS, all other legal prerequisites to the adoption of this Resolution have occurred;

9 NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED by the Board of
10 Supervisors of the County of Riverside assembled in regular session on March 1, 2016, at 9:00 am or
11 soon thereafter, in the meeting room of the Board of Supervisors located on the 1st floor of the County
12 Administrative Center, 4080 Lemon Street, Riverside, California, based upon the evidence and testimony
13 presented on the matter, both written and oral, including the MND, as it relates to the conveyance of the
14 Parcels, that:

15 1. Incorporation of Recitals. The above recitations constitute findings of the Board with
16 respect to the Leases and are incorporated herein.

17 2. Consideration of the MND and Adoption of Findings Regarding CEQA Compliance. As
18 the decision-making body for the County, and in the County's limited role as a responsible agency under
19 CEQA, the County has received, reviewed, and considered the information contained in the Mitigated
20 Negative Declaration for the Limonite Avenue Widening from Etiwanda Avenue to Bain Street Project,
21 the Initial Study, all comment letters, and other related documents. Based on this review, the Board finds
22 that, as to those potential environmental impacts within the County's powers and authorities as
23 responsible agency, that the MND for the Project contains a complete, objective, and accurate reporting of
24 those potential impacts and reflects the independent judgment and analysis of the County.

25 3. CEQA Findings on Environmental Impacts. In its limited role as a responsible agency
26 under CEQA, the County finds that there are no feasible alternatives to the Project which would avoid or
27 substantially lessen the Project's potentially significant environmental impacts but still achieve most of
28

1 the Project's objectives. The County further finds that the mitigation measures imposed by the lead
2 agency are sufficient to reduce all potentially significant impacts to a level of less than significant. As
3 such, the County concurs with the environmental findings adopted by the lead agency, which are attached
4 hereto as Attachment "1," and therefore the County adopts those findings as its own and incorporates
5 them herein.

6 4. Adoption of Mitigation Monitoring and Reporting Program. The County hereby approves
7 and adopts the Mitigation Monitoring and Reporting Program as it relates to the conveyance of the
8 Parcels prepared for the Project and approved by the lead agency, which is attached to the written findings
9 attached hereto as Attachment "1" and incorporated herein.

NOTICE OF EXEMPTION

November 24, 2015

Project Name: County of Riverside, Conveyance of Real Property to the City of Jurupa Valley

Project Number: FM0417200251

Project Location: Southeast corner of Mann and Limonite Avenues, Mira Loma, California; Assessor's Parcel Number (APN): 157-222-025; Lat.:33.9753, Long. -117.5207; APN: 161-331-01 7; Lat.: 33.9757, Long.: -117.5202
(See attached exhibits)

Description of Project: The County of Riverside (County) is the owner of land identified with APNs 157-222-025 and 161-331-017, located in the City of Jurupa Valley (City). The parcels are no longer needed for County use or purposes. Pursuant to Government Code Section 25365, the County may convey, quitclaim, or otherwise transfer to any special district or public agency within the county, any real property, or interest therein belonging to the County upon the terms and conditions as are agreed if the property or interest therein to be conveyed is not required for County use. The County has been asked, and is willing, to convey the parcels of land to the City. The conveyance of the parcels does not allow for any construction activity, change in use, or any other condition that may lead to a direct or indirect physical environmental impact at this time. Any future activity or project at the location would require California Environmental Quality Act (CEQA) review from the City, acting as the appropriate lead agency, for any changes to these parcels of property. Any attempt at evaluating physical impacts related to future development at this time would be wholly speculative and would provide no meaningful input or analysis for consideration of the discretionary action by the County Board of Supervisors to convey the land to the City.

Name of Public Agency Approving Project: County of Riverside, Economic Development Agency

Name of Person or Agency Carrying Out Project: County of Riverside, Economic Development Agency; City of Jurupa Valley

Exempt Status: State CEQA Guidelines, 15061(b)(3), General Rule or "Common Sense" Exemption. Codified under California Code of Regulations Title 14, Article 5, Section 15061.

Reasons Why Project is Exempt: The Project will not result in any specific or general exceptions to the use of the categorical exemption as detailed under State CEQA Guidelines Section 15300.2. The Project is the conveyance of real property that is no longer needed for the use by or purposes of the County. The Project will not cause any impacts to scenic resources, historic resources, or unique sensitive environments and will not result in physical changes to the existing site. The potential indirect effects from subsequent unforeseeable development resulting from this conveyance would be analyzed as part of the City's obligation as a Lead Agency to provide full environmental review under CEQA. Further, no unusual circumstances or potential cumulative impacts would occur that may reasonably create an environmental impact. The proposed conveyance of real property will not have an effect on the environment and the mere transfer of ownership interests will not allow for any development, construction, or change of use that may create any future direct or indirect physical environmental impact; thus, no environmental impacts are anticipated to occur.

- **Section 15061 (b) (3) – “Common Sense” Exemption:** In accordance with CEQA, the use of the Common Sense Exemption is based on the “general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment.” State CEQA Guidelines, Section 15061(b) (3). The use of this exemption is appropriate if “it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment.” *Ibid*. This determination is an issue of fact and if sufficient evidence exists in the record that the activity cannot have a significant effect on the environment, then the exemption applies and no further evaluation under CEQA is required. See *No Oil, Inc. v. City of Los Angeles* (1974) 13 Cal. 3d 68. The ruling in this case stated that if a project falls within a category exempt by administrative regulation or 'it can be seen with certainty that the activity in question will not have a significant effect on the environment', no further agency evaluation is required.

With certainty, there is no possibility that the conveyance of this property may have a significant physical effect on the environment. The conveyance would be limited to the transfer of land from the County to the City and would not result in any physical direct or reasonably foreseeable indirect impacts to the environment. The Project is merely the conveyance of existing property. The sites are located in an existing developed area in the City of Jurupa Valley. The conveyance of the property does not facilitate an increase in the intensity of use of the site. The conveyance of this property does not require any construction activities and would not lead to any direct or reasonably foreseeable indirect physical environmental impacts to the existing site. Any future activity or development on either parcel which had the potential to result in environmental impacts, would require further a future discretionary action by the City, and this action would provide a mechanism to trigger additional CEQA review. This review would occur under responsibility of the City acting as a lead agency. Any attempt at predicting future development and the resulting indirect effects would be wholly speculative at this time and without meaning; especially given that a mechanism is in place (a discretionary approval by the City) to ensure that future actions are fully evaluated under CEQA. Unforeseeable future development would be processed through the City and would be evaluated with more certainty when more details are known and meaningful public input could be received. Therefore, in no way, would the mere transfer of property between the County and the City, as proposed, have the potential to cause a significant environmental impact and the Project is exempt from further CEQA analysis.

Based upon the identified exemptions above, the County of Riverside, Economic Development Agency hereby concludes that no physical environmental impacts are anticipated to occur and the Project as proposed meets all of the required categorical exemptions as identified. No further environmental analysis is warranted.

BACKGROUND:

Summary

Pursuant to Government Code Section 25365, a Board of Supervisors may, by a four-fifths vote, grant, convey, quitclaim, assign, exchange, or otherwise transfer to any special district or public agency within the county, any real or personal property, or interest therein belonging to the county upon the terms and conditions as are agreed upon and without complying with any other provisions of the code, if the property or interest therein to be granted and conveyed or quitclaimed is not required for county use.

The County desires to convey fee simple interests in real property for two parcels to the City of Jurupa Valley for the City's Limonite Avenue Road Widening Project. The first parcel is vacant land, consisting of approximately .15 acres, identified with Assessor's Parcel Number 161-331-017 (Parcel A), that was acquired by the County in 1974 for drainage purposes. Parcel A is adjacent to Limonite Avenue and has unique characteristics that render it an uneconomic parcel such as below street grade, access is very limited, the land serves as allowing drainage through arch culverts that run under and is associated with Limonite Avenue. Also, Parcel A is located between the old Limonite Avenue right of way alignment and the current Limonite Avenue alignment which further limits the ability for access and development. Parcel A is no longer needed for County use or purposes and is best suited to be vested in favor of the City of Jurupa Valley for drainage purposes associated with the City's right-of-way, Limonite Avenue.

Assessor's Parcel Number 157-222-025 was acquired on November 9, 2006 (Parcel B) for the purpose of widening Limonite Avenue when the County was the lead agency at a cost of \$635,000, but the intended road widening project was not completed due to re-allocation of the funding. Since that time, the City of Jurupa Valley was incorporated whereby the Limonite Avenue road right-of-way passed to the City by operation of law and the City has become the lead agency on the road widening project. Parcel B was acquired using Transportation Uniform Mitigation Fee Program (TUMF) funds whereby such fees are collected by the County for transportation purposes. The Western Riverside Council of Governments, as administrator of TUMF, is supportive of this conveyance since the purpose of the acquisition of Parcel B was for the widening of Limonite Avenue. Therefore, the County no longer needs Parcel B for its own use or purposes and it is best suited to be vested in favor of the City of Jurupa Valley for the road widening of Limonite Avenue purposes.

The County has been asked to convey the parcels of land to the City of Jurupa Valley for the reasons provided above to facilitate the City's implementation of its Limonite Avenue road widening project. The conveyance of these properties will also transfer the responsibility of maintenance of the properties to the City of Jurupa Valley.

Resolution No. 2016-016 has been approved as to form by County Counsel.

Impact on Citizens and Businesses

The conveyance of real property from the County of Riverside to the City of Jurupa Valley will enable the City to widen Limonite Avenue to improve traffic flow.

SUPPLEMENTAL:

Additional Fiscal Information

No net cost will be incurred and no budget adjustment is necessary.
