BACKGROUND:

Summary (continued)

The Agreement is necessary as certain interfering portions of the City's existing street light systems and electrical conduits will be relocated as a part of the District's construction project. Under this Agreement, the District will contribute funding to the City in an amount not to exceed \$56,500 to cover costs associated with City's street repairs and the relocation of the certain electrical conduits.

The Agreement is also necessary for the City to grant the District the necessary rights to access, construct, operate and maintain the project within City's rights of way. Upon completion of construction, the District will assume ownership and responsibility for the operation and maintenance of the mainline storm drain. The City will assume ownership and responsibility for the operation and maintenance of the relocated street light systems and the project's associated catch basins, inlets, curbs and gutters, and connector pipes that are 36 inches or less in diameter located within City's rights of way.

County Counsel has approved the Agreement as to legal form and the City has executed the Agreement.

DESCRIPTION:

Monroe Master Drainage Plan -
 Monroe Storm Drain, Stage 4

1 COOPERATIVE AGREEMENT

2 Monroe Master Drainage Plan-Monroe Storm Drain, Stage 4
3 Project No. 1-0-00071

4 The Riverside County Flood Control and Water Conservation District,
5 hereinafter called "DISTRICT", and the City of Riverside, a California charter city and
6 municipal corporation, hereinafter called "CITY", hereby agree as follows:

7 RECITALS

8 A. DISTRICT has budgeted for and plans to design and construct Monroe
9 Master Drainage Plan-Monroe Storm Drain, Stage 4 to provide necessary flood control and
10 drainage improvements for the immediate adjacent areas within the city of Riverside; and
11

12 B. Monroe Master Drainage Plan-Monroe Storm Drain, Stage 4 consists of
13 replacing the existing undersized channel with a larger underground storm drain facility
14 consisting of approximately 2,700 lineal feet of reinforced concrete box located within Monroe
15 Street from approximately California Avenue to Magnolia Avenue, hereinafter called "STAGE
16 4", as shown on District Drawing No. 1-0719, and as shown in concept on Exhibit "A" attached
17 hereto and made a part hereof. At its upstream terminus, STAGE 4 connects to the
18 DISTRICT'S existing Monroe Master Drainage Plan-Monroe Storm Drain, Stage 1, as shown on
19 District Drawing No. 1-0313; and
20

21 C. Associated with the construction of STAGE 4 is the construction of various
22 curb and gutter, rail fence, catch basins, inlets and connector pipes that are thirty-six inches
23 (36") or less in diameter located within CITY rights of way, hereinafter called
24 "APPURTENANCES"; and
25

26 D. Within the project area, CITY owns, operates and maintains (i) certain
27 street light systems, electrical wirings and conduits located within public or private rights of
28 way, hereinafter called "STREET LIGHTS AND CONDUITS"; and (ii) a certain water

1 irrigation meter located within public or private rights of way, hereinafter called "CITY
2 IRRIGATION WATER METER". DISTRICT has determined certain STREET LIGHTS AND
3 CONDUITS and CITY IRRIGATION WATER METER interfere with the proposed
4 construction of project; therefore, the interfering portions of STREET LIGHTS AND
5 CONDUITS must be relocated, and CITY IRRIGATION WATER METER must be deactivated
6 and reactivated; and

7
8 E. Together STAGE 4, APPURTENANCES, and the relocation of the
9 interfering and affected portions of STREET LIGHTS AND CONDUITS are hereinafter
10 together called "PROJECT"; and

11 F. CITY also owns, operates and maintains certain power poles located within
12 the project area, hereinafter called "POWER POLES". DISTRICT has budgeted for and is
13 willing to prepare, or cause to be prepared, the necessary plans and specifications for POWER
14 POLES located within CITY rights of way, hereinafter called "POWER POLE PROTECTION
15 PLANS"; and

16
17 G. CITY is willing to prepare, or cause to be prepared, the necessary plans and
18 specifications for the relocation of the interfering portions of STREET LIGHTS AND
19 CONDUITS, hereinafter called "STREET LIGHTS AND CONDUITS RELOCATION
20 PLANS"; and

21
22 H. CITY desires DISTRICT to include the STREET LIGHTS AND
23 CONDUITS RELOCATION PLANS as part of its public works construction contract for
24 PROJECT; and

25 I. DISTRICT is willing to incorporate STREET LIGHTS AND CONDUITS
26 RELOCATION PLANS as part of its construction contract for PROJECT; and

27
28 J. DISTRICT desires CITY to accept ownership and responsibility for the
operation and maintenance of APPURTENANCES, STREET LIGHTS AND CONDUITS, and

1 POWER POLES upon completion of PROJECT construction. Therefore, CITY must review
2 and approve DISTRICT'S plans and specifications for PROJECT and POWER POLES and
3 subsequently inspect and approve the relocation construction; and

4 K. CITY proposes to construct certain surface treatments and landscape
5 features for public access within CITY streets' rights of way, hereinafter called "ROADWAY
6 FEATURES" configured so as not to impede upon DISTRICT'S ability to operate and maintain
7 STAGE 4 or restrict DISTRICT'S ingress, egress, or access to STAGE 4. CITY also proposes
8 the removal and replacement of structural pavement, hereinafter called "STREET
9 BETTERMENTS"; and

10 L. To expedite construction of the PROJECT, DISTRICT is willing to provide
11 a lump sum financial contribution as follows:

12 (i) An amount not to exceed fourteen thousand five hundred dollars
13 (\$14,500) to cover CITY'S cost share associated with the removal of certain interfering portions
14 of STREET LIGHTS AND CONDUITS, hereinafter called "STREET LIGHTS AND
15 CONDUITS CONTRIBUTION"; and

16 (ii) An amount not to exceed three thousand dollars (\$3,000) for CITY'S
17 cost share of deactivating and reactivating CITY IRRIGATION WATER METER, hereinafter
18 called "CITY IRRIGATION WATER METER CONTRIBUTION"; and

19 (iii) An amount not to exceed thirty-nine thousand dollars (\$39,000) for
20 CITY'S cost of STREET BETTERMENTS, hereinafter called "STREET BETTERMENTS
21 CONTRIBUTION". Together, STREET LIGHTS AND CONDUITS CONTRIBUTION, CITY
22 IRRIGATION WATER METER CONTRIBUTION and STREET BETTERMENTS
23 CONTRIBUTION are hereinafter called "DISTRICT TOTAL CONTRIBUTION". DISTRICT
24 TOTAL CONTRIBUTION shall not exceed a total sum of fifty-six thousand five hundred
25 dollars (\$56,500); and

1 M. DISTRICT and CITY acknowledge it is in the best interest of the public to
2 proceed with construction of PROJECT at the earliest possible date; and

3 N. The purpose of this Agreement is to memorialize the mutual understandings
4 by and between DISTRICT and CITY with respect to design, construction, ownership, operation
5 and maintenance of PROJECT and DISTRICT'S financial contributions toward CITY'S
6 electrical conduits and construction of certain street repairs.
