

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

569

FROM: Fire

SUBMITTAL DATE:
September 1, 2016

SUBJECT: Approval of Annual Fire Department Cost Allocation Plan for FY 16/17; All Districts
[\$27,822,899] 100% Contract Partner Revenue

RECOMMENDED MOTION: That the Board of Supervisors approve the attached FY 16/17 Cost Allocation Plan.

BACKGROUND:

Summary

Board Policy B-4 requires all County Departments to frequently evaluate existing charges for services and in conjunction with the Auditor Controller and the Executive Office make recommendation to the Board of Supervisors on changes at least annually during the preparation of the County budget.

John R. Hawkins,
Fire Chief

BACKGROUND:

Summary (continued)

The Fire Department currently contracts with twenty-one cities, one community services district and provides dispatch services to County Environmental Health, three Tribal Fire Departments, and one Fire Protection District within Riverside County. These agencies contribute revenue annually to a portion of the Fire Departments overhead and general operations.

The Allocation Plan was initially developed in 2005, with a team that included representation from six of the twenty contracting partners. The plan's methodology is based on indirect charging and is equitable and easy to audit. Six agencies participated in 2005: City of Temecula, Moreno Valley, Palm Desert, Indian Wells, Rancho Mirage and Rubidoux Community Services District. The County was represented by County Fire Executive staff.

The purpose of the Fire Department Cost Allocation Plan is to identify the indirect costs that will be charged to each contract city/agency (e.g. station appliances & building maintenance); and, provide a clear, reasonable and supportable methodology for distributing administrative and program costs that cannot be tracked at a station level. The attached Cost Allocation Plan shows this fiscal year's allocation analysis which calls for an average increase of 3.58% from last fiscal year's Allocation Plan. This increase is due to our Electronic Patient Care Reports (EPCR) program, an increase in personnel protective equipment (PPE) costs and other miscellaneous staff salaries and supply increases. The Department is moving towards an EPCR program which includes the purchase of ruggedized tablets with a corresponding data charge for several medic apparatus. The Protective Gear increase is due to the implementation of second sets of personnel protective equipment (PPE) for our Firefighter II's and Fire Captains. The remaining classifications will receive second sets of PPE in FY 17/18. The miscellaneous increases are generally from annual merit increases, benefit costs, and other general supply costs.

The Cities will receive an estimated invoice for quarter 1 through quarter 3 then the budgeted figures listed in the plan will be adjusted to actual cost in the 4th quarter of FY 16/17. This cost allocation plan is effective July 1, 2016.

The Auditor Controller's office has reviewed and approved the methodology applied in preparing proposed Cost Allocation Plan.

Impact on Citizens and Businesses

There is no direct impact by the county; however, an increase of 3.58% will be paid by contract partners who provide services to their residents and businesses. Some cities may show an overall increase or decrease in services, as this rate is based on their level of services which may have changed from the previous year.

SUPPLEMENTAL:

Additional Fiscal Information

Fire estimates receiving \$27,822,899 for FY 15/16 and is included in the department budget. This is an increase of 3.58% from last fiscal year. Some cities may show an overall increase or decrease in services, as this rate is based on their level of services which may have changed from the previous year. The Cost Allocation Plan has no general fund impact.

Contract History and Price Reasonableness

The Cost Allocation Plan has been created annually since 2005. The estimated cost increase for FY 16/17 is 3.58% from the previous FY 15/16. This increase is due to our Electronic Patient Care Reports (EPCR) program, an increase in personnel protective equipment (PPE) costs and other miscellaneous staff salaries and supply increases. The Department is moving towards an EPCR program which includes the purchase of ruggedized tablets with a corresponding data charge for several medic apparatus. The Protective Gear

EXECUTIVE SUMMARY

Per Board Policy B-4, the Riverside County Board of Supervisors directed all County departments to re-evaluate their current methodology for invoicing contract agencies for administrative and other operating costs associated with providing the contracted service.

In 2005, the County Fire Chief directed the Fire Department Executive Staff to form a team that included representation from at least five of the fifteen contracting partners to evaluate the current methodology for allocating over-head costs (Service Delivery) and develop a new cost allocation method based on direct charging where applicable as it would be equitable and easy to audit. Six partner agencies requested to participate: City of Temecula, Moreno Valley, Palm Desert, Indian Wells, Rancho Mirage and Rubidoux Community Services District. The County was represented by County Fire Executive staff.

For Fiscal Year 16/17, this document identifies the costs that will be charged directly to the agency (e.g. utilities, station appliances, & building maintenance); and, provide a clear, reasonable & supportable methodology for distributing administrative and program costs (indirect costs) that can not be otherwise handled than as an indirect cost. Budgeted figures listed in the plan will be adjusted as necessary to actual costs in the 4th quarter of FY 16/17. Any asset costs were also amortized at that time with actual costs to the appropriate month of purchase. This cost allocation plan is effective July 1, 2016.

BACKGROUND

Prior to June 30, 2004:

All operating *budgeted* costs with the exception of the fire safety personnel assigned to a specific station were pooled together and divided by the number of active stations. The per station cost was then multiplied by the number of stations with each agencies jurisdiction and was called the "Service Delivery" charge.

Example: Moreno Valley has 6 stations

$\$20 \text{ million divided by } 100 \text{ stations} = \$200,000; \$200K \times 6 = \$1,200,000$

Contract agencies were notified what the Service Delivery charge per station would be. No details as to the *budgeted* costs included in Service Delivery were provided.

This pooled cost not only included the personnel costs for State and County administrative, dispatch, fleet services, it also included the workers comp and liability insurance for the volunteer program, two hazard materials teams, all materials, equipment and supplies used by the stations, and fuel for the entire fleet. Even the utility accounts for City owned stations were assigned to the County for payment and included as part of the pooled cost. All participating agencies, regardless of the location, size and staffing of their stations were burdened with the exact same share of the cost pool with only minor adjustments made for contract agencies that preferred to do their own repairs or pay their own utilities.

September 2004:

A newly appointed Fire Chief (Craig Anthony) after visiting all of the contracting agencies directs the Executive Staff to "fix" Service Delivery and put together a team that included key staff from contracting agencies.

December 2004:

The 1st meeting was held at Perris Headquarters. All members acknowledged current distribution methodology is not equitable. This was easily demonstrated by providing a spreadsheet that showed the utility cost passed through Service Delivery (\$8,081) vs. the actual utility costs for each of their agency stations. One station's actual cost in the Western County area was \$5,135, but was burdened with \$8,081 through Service Delivery. Conversely, a station in the Desert area had \$15,175 in actual costs but charged significantly less. Cost disparities between rural, urban and heavy urban station could no longer be ignored.

Members were also notified they were paying for "*budgeted*" costs in Service Delivery not actual. County agreed to credit 4th quarter billings to reflect the actual costs.

March 2005:

Members agree that all costs that are currently tracked by station should be charged direct in FY 06/07 and utility accounts will be transferred to city/agency for direct payment.

July 2005:

Notice to all agencies regarding pending changes in Service Delivery and the transfer of Utility accounts effective August 15, 2005.

September 2005:

On the 4th quarter billing a credit of \$1,278 per station was applied towards Service Delivery charges to reflect actual costs, not budgeted costs. Agencies also notified that some costs, like facility maintenance and telephone services will be charged directly and removed from Service Delivery in the current fiscal year.

November 2005:

Conference call regarding proposal to split out Service Delivery into four program components: Administration, Volunteers, EMS (paramedic program), Battalion Coverage. Set up meeting in January 2006 for review and final recommendations for current fiscal year.

January 2006:

Members agree in principal with splitting out costs into the four program components, but request implementation be deferred until FY 06/07 to allow for more detail analysis and to give other contracting agencies more time to adjust to the pending changes. County agrees to continue pooling all costs and split on a per station basis in FY 05/06, EXCEPT for charges that can easily be charged direct down to a station level.

February 2006:

Members agree to Volunteer distribution based on # of active volunteer stations within each agency. Agreed to spread the Field Battalion Chief costs by station to those agencies that do not contract directly for their own Battalion Chief. Agreed Medic program costs should be spread only to agencies with a medic program. Requested a sub-committee of agency members be established to further analyze the Administrative Program costs and evaluated if additional programs can be identified with their own cost and distribution model. Dispatch services were specifically identified with a recommendation to consider a per call basis for distribution.

March 2006:

Sub-committee presents recommended methodology that adds three more program components previously pooled under Administration: ECC/Dispatch, IT/Communications and Fleet Services. Service Delivery dissolves into 7 program components. Members approve the Integrated Fire Services Cost Allocation Plan (See Support Services Summary).

February 2007:

At the February Contract/Agency meeting it was suggested by the city of Moreno Valley to break out the Facility Maintenance Support costs. It was determined that very few cities were utilizing this portion of the Fire Departments resources. After discussions with Fire's Deputy Chief of Admin, it was determined that we would break-out the costs and distribute based on number of fire stations and personnel located at each station. This would allow us to capture the differences in size of each station.

February 2010:

In 2010, an audit recommendation brought forward by the Riverside County Auditor Controllers Office that the Fire Department update the cost allocation plan to include Hazmat operations as a program component. The County Fire Chief directed the Fire Department Executive Staff to form a team that included representation from our contracting partners to evaluate and develop a new methodology for allocating the Hazmat program costs. Six partner agencies requested to participate: City of Beaumont, Menifee, Moreno Valley, Temecula, Wildomar, and Rubidoux Community Services District. The County was represented by County Fire Executive staff.

November 2010:

Also in 2010, The Board of Supervisors approved Ordinance No. 903 an ordinance of the County of Riverside to regulate Volunteer Fire Companies and Ordinance No. 904, an ordinance of the County of Riverside to establish a Reserve Volunteer Fire Fighter Program. The adoption of these ordinances would facilitate and organize resources that may serve or assist the Fire Department in providing the best level of fire protection and prevention services possible and reduces confusion and mismanagement of incidents by controlling all Volunteer Fire Companies. The approval and implementation of these ordinances will also result in substantial program savings that will be passed on to our Partner Cities.

January 2012:

In order to ensure that the Countywide MDC and Monitor/Defibrillator equipment is kept current, maintained, and replaced within the useful life replacement cycle, we have included those replacement costs into the Cost Allocation Plan.

The MDC's are non-fixed assets, thus the replacement costs are included in Appendix 4 and allocated in the COM/IT Support Services "Schedule G".

The Monitor/Defibrillators are assets, thus the replacement costs are included in Appendix 5 and allocated under EMS Monitors. Here they are amortized by the useful life replacement cycle of seven (7) years. The cost is allocated based on the total number of Monitor/Defibrillators in each Contract Partners jurisdiction.

PROGRAM DESCRIPTIONS

ADMINISTRATIVE COSTS - SCHEDULE A

This includes all State & County executive and support staff costs. They are responsible for producing the payroll for over 800 employees and provide all the materials, supplies and equipment to support 100 facilities. Stock items for station operations (toilet paper, gloves, small appliances) issued by the warehouse are also included in this cost pool. Allocation based on FTE's (positions).

VOLUNTEER PROGRAM - SCHEDULE B

This program provides all the support staff (Volunteer Services Manager & Office Assistant) and the operating expenses to manage the County-wide Volunteer Reserve Program. Allocation is based on # of Cooperative Entities.

MEDIC/EMS ADMINISTRATIVE SUPPORT - SCHEDULE C

This Unit provides program over-sight to Para-Medic program. It is responsible for quality assurance, produces case reports, investigates complaints, coordinates training, develops contracts, and orders medical supplies. Allocation based on Medic FTE's (positions). It also includes the costs for purchasing new replacement Monitors/Defibrillators, which are amortized over 7 years. This Allocation is based on Number of Monitors per each Cooperative Entity.

BATTALION CHIEF SUPPORT - SCHEDULE D

Provides Field Battalion coverage to agencies that currently do not have their own Battalion Chief on contract. Allocation based on # of stations.

ECC/DISPATCH SERVICES - SCHEDULE E

This component includes the staff salaries for State and County personnel assigned to the Emergency Command Center. General industry standards require 1 Dispatcher per 2500 calls. It also includes the costs for upgrading and maintaining the CAD system. Allocation based on 75% call volume, 25% station basis.

FLEET SUPPORT SERVICES - SCHEDULE F

Maintenance of the Fleet is performed primarily by County employees with supervision and management oversight provided by the State. Operating costs include general preventative costs and minor repairs and equipment replacement. Capital costs >\$5000 for major repairs are not included and are a direct charge to the agency owning the apparatus. Allocation based on # of assigned suppression equipment to each station. The assigned suppression equipment basis does not include regionally beneficial equipment (i.e. water tenders, breathing supports, utilities, and

COMMUNICATIONS/& INFO TECHNOLOGY - SCHEDULE G

The Communication and Information Technology staff is responsible for recommending, ordering and installing all radio and computer equipment. They are also responsible for contracting the installation and repair of all safety communication devices on suppression equipment. Radios and computers are assigned to people, vehicles, trucks and stations and require regular coordination with the ECC/Dispatch Services. Allocation based on 75 % call volume, 25% station basis.

FACILITY MAINTENANCE SUPPORT – SCHEDULE H

The facility maintenance is completed primarily by County employees. The facility maintenance support personnel are responsible for maintaining various fire stations. The stations contact these personnel for general maintenance. This includes purchasing, obtaining proper bids, servicing fixtures in the stations, etc... Allocation is based on 25% station basis and 75% FTE (positions).

HAZMAT SUPPORT - SCHEDULE I

This includes the Hazmat Team staff salaries, benefits, and operating costs. The Teams are responsible for responding to all Hazardous Materials incidents within Riverside County. A vehicle replacement amount is built into the Allocation to allow for future vehicle replacements. Allocation based on 75% hazmat calls, 25% station basis, and the vehicle replacement piece is allocated by
