Pursuant to Objective 6 of the Species Account for the Burrowing Owl included in the Western Riverside County Multiple Species Habitat Conservation Plan, within 30 days prior to the issuance of a grading permit, a pre-construction presence/absence survey for the burrowing owl shall be conducted by a qualified biologist and the results of this presence/absence survey shall be provided in writing to the County Biologist. If it is determined that the project site is occupied by the Burrowing Owl, take of "active" nests shall be avoided. However, when the Burrowing Owl is present, active relocation outside of the nesting season (March 1 through August 15) by a qualified biologist shall be required. The County Biologist shall be consulted to determine appropriate translocation sites. Occupation of this species on the project site may result in the need to revise grading plans so that take of "active" nests is avoided or alternatively, a grading permit may be issued once the species has been actively relocated.

4. The landowner agrees to relinquish ownership of all cultural resources, including all Luiseno sacred items, burial goods and all archaeological artifacts that are found on the Project area to the Pechanga Band of Luiseno Indians for proper treatment and disposition.

5. Prior to start of grading operations and throughout the grading process as necessary, the Developer agrees to discuss appropriate grading and ground-disturbing methods around sites 816 and around and within portions of 2422, as well as at other locations with significant cultural resources, with the Pechanga Band. At the Pechanga Band's request, the Developer agrees to perform controlled excavation in areas where significant cultural resources are located, including, but not limited to, changing the size of the grade cut, slowing the grading process, utilizing alternative grading equipment, allowing additional time to recover materials, and limited controlled archaeological investigations to and immediately around the new significant finds or cultural resources.

APPLICATION FOR EXTENSION OF TIME

The Planning Department will primarily direct communications regarding this application to the person identified above as the Applicant. The Applicant may be the property owner, representative, or other assigned agent.

All approvals of extension of time must be consistent with the pertinent elements of the Riverside County General Plan, the Riverside County Land Use Ordinance (Ordinance No. 348), and the Multiple Species Habitat Conservation Plan (MSHCP).

An extension of time for a land division based on the filing of a phased final map shall not be granted unless the Planning Department determines that the requisite funds have been expanded to construct, improve, or finance the construction of public improvements outside the boundaries of the land division. Any other extension of time for a land division shall not be granted unless the land division conforms to the Comprehensive General Plan, is consistent with existing zoning, conforms to the currently applicable schedule of improvements specified by the Riverside County Land Division Ordinance (Ordinance No. 348) and does not affect the general health, safety, and welfare of the public. If required to bring the subject land division into conformance with current general plan, Ordinance No. 460 and public health, safety, and welfare requirements, additional conditions of approval may be imposed upon approval of an extension of time request.

I hereby request an extension of time for the above referenced project, and I acknowledge that if the basis for extension is something other than the filing of a phased final map, additional conditions of approval may be imposed upon approval of the extension of time and that I may refuse to accept additional conditions of approval only in writing prior to action by the Planning Director, or in writing or in person prior to action by the Planning Commission.
