## **ISB Budget Adjustments**

**BR 10-061**

**Page 2**

Sheriff's ISB has a special unit that handles fugitive extraditions. ISB clerks process the paperwork and coordinate with other law enforcement agencies for the safe return of fugitives back to California. Sworn personnel are assigned to transport these fugitives across state lines by land and air. The Sheriff's Department is requesting approval to use Automated County Warrant System Sub funds to purchase two "stealth" vehicles for this secured transportation.

The 800 MHz radio equipment specified for the stealth vehicles conforms to selected County Technology Standards and will be purchased through the Information Technology Department. Pursuant to the future implementation of the Public Safety Enterprise Communication system, additional appropriations are required for the purchase of replacement radios which will be used when the new system is implemented. In this instance, \$24,096 (\$5,924 per portable radio and \$6,124 per vehicle radio) is being appropriated for the future purchase of four radios. These additional funds will be transferred to the radio-replacement fund pending purchase and operation of the replacement radios.

In addition, Sheriff's ISB is proposing to use Automated County Warrant System Sub funds to replace 17 computer workstation purchased in 2004, and to purchase two network scanners, two desk top scanners, computer printer drums and ink toner.

These purchases will cost a total of \$155,500. Per State Penal Code Section 853.7, revenue from the County's Automated Warrant System Sub Fund can be utilized for these purchases.
