A request for the proposal was published on the Transportation Department's website, and notification letters were also mailed to one hundred one firms. Sixty seven firms submitted written proposals which were carefully reviewed and evaluated by representatives of the Transportation Department. Upon completion of interviews, K & A Engineering, Inc. was selected as one of the top ranked firms. The engineering services rendered under these on-call contracts will be provided on an as-needed basis only and it does not guarantee work for the annual allocated budget amount.

One of the projects that K&A is assisting the Transportation Department with are the revisions to the Plans and Specifications for Newport Road and Goetz Road that the County is bidding to complete improvements left unfinished by the Audie Murphy Ranch project. The Department needs an Engineering Services Agreement with K & A Engineering, Inc. in order to make these necessary plan revisions.

This contract is for an annual amount not to exceed \$250,000. It is for a 3-year term and will terminate on June 30th, 2012. The County has the option to extend the contract for two additional years after the initial term. The County retains the right to terminate this contract at the County's discretion and without cause with a 30-day notice.
