Section 101 of the Second Chance Act allocates funding through a competitive grant process to local governments to be used for demonstration projects in promoting the safety and successful reintegration of individuals who have been incarcerated or detained into the community.

This grant will provide the Probation Department the opportunity to expand its Enhanced Aftercare Program (EAP), which is a component of the Youthful Offender Program. The EAP was designed to provide youthful offenders with intensive services, as they are reintegrated back into the community. These intensive services include educational, residential, mental health and vocational. The EAP Deputy Probation Officer develops transitional case planning immediately after sentencing and continues through incarceration to reentry services after release into the community.

After over two years of YOP implementation, the Department has identified "what works" and where additional resources would improve the EAP. This grant would provide resources to the Department in meeting its program goal of implementing a comprehensive program for high risk youthful offenders. This program goal will be accomplished by creating and developing an extensive, regionalized and organized community support system. To accomplish this goal, the following tasks must be completed during the first year of funding:

- Expand the responsibilities of the County's existing Reentry Task Force by creating a subcommittee to address juvenile specific reentry/reintegration issues.
- Design web-based resources for community organizations as well as government agencies plus an additional set of web-based resources for juvenile offenders and their families.
- Create an Individual Reentry Plan (IRP) contract for the youthful offender that clearly defines expectations, incentives and consequences for all programs and milestones of participation in their reintegration plan.
- Establish evidenced based performance measures and a system to evaluate the statistical data to improve and/or change the program to meet the goals and reporting requirements of the grant.
- Engage existing specialized resources for those high risk youthful offenders who have been in the care, custody and supervision of the department as early as age twelve and are now 17 plus years of age with literally no place to go when released.

Initial funding awards under the Second Chance Act initiative will be for a period of 12 months. Grantees may be eligible for continued funding for an additional 2 years contingent upon availability of funds and demonstration of adequate progress toward meeting program goals.

The attached resolution provides authorization for the Chief Probation Officer to submit the application on behalf of Riverside County.

There are sufficient funds in the FY 09/10 department's budget to cover the match requirement.

Grant award will be brought to the Board of Supervisors for acceptance.

County Counsel has approved the documents as to form.
