## **VENDOR QUALIFICATIONS & PROJECT EXERIENCE**

There is not another vendor that might be bidding this project that has anywhere near the experience that Air Cleaning Systems has selling and installing vehicle exhaust systems. We have installed the Plymovent system in approximately 700 fire stations here in Southern California and Southern Nevada. All of the county organizations and most of the cities already have installed the Plymovent system in their fire stations. We are headquartered in Pomona, Ca. and have a 10,000 sq. ft. facility from which we operate our business. We always keep tens of thousands of dollars in systems and spare parts in the warehouse so we might accommodate a customer with same or next day service. We have 4 service technicians factory trained and certified to make any adjustments repairs if and when it becomes necessary. We also have service technicians that operate from our office and warehouse in Las Vegas, as well as Bakersfield and Ventura. Air Cleaning Systems is staffed to take care of our customers. We are also licensed (C-20) by the state of California Contractor's License Board as well as the Nevada Contractors License Board to perform the kind of work this project requires.

As was mentioned above, Air Cleaning Systems has sold and installed the Plymovent System in over 700 fire stations in Southern California and Southern Nevada. Within the last 3 years we have installed the Plymovent system in approximately 200 fire stations. Examples would be, Riverside County Fire Department, Bakersfield Fire Dept., Kern County Fire Dept., Corona Fire Dept., Clark County Fire Dept., North Las Vegas Fire Department, several new construction project fire stations in Orange County, LA County Fire Dept., Riverside County Fire Department, and the City of Las Vegas Fire Department.

## **PROJECT STAFFING**

As I mentioned previously, there will be two, 2-man crews plus a project manager involved in the installation of your new Plymovent system at each station. The project manager is Tom Riordan who personally has over 15 years experience installing and managing the installation of Plymovent systems all over Southern California and Southern Nevada. He has personally been the lead man on over 100 stations for the city of Los Angeles fire department. They are very demanding and we continually got compliments on Tom and his professionalism and good attitude. Shortly after that project came to an end, Tom was promoted to Project Manager and since 2005 has managed our installation crews and the projects. He has been the project manager on the installation of several hundred Plymovent systems.

Our installation crews have been with our company since 2005 and have installed the Plymovent system in hundreds of fire stations. Each of the crew members have years of experience in working with sheet metal. This, of course, helps in that this trade is what we are licensed in. Air Cleaning Systems has both a California state contractor's license as well as a Nevada state contractor's license. This enables us to always be in control of the quality of our installations. We do NOT sub-contract anything out. This is why our quality is second to none as was demonstrated at our station 224 when we installed the systems there a short time ago.

### **Air Cleaning Systems installation crews:**

#### **Gary Craven (Installation team leader)**

Gary has been with Air Cleaning Systems for about years and has personally lead a crew in the installation of over 100 fire stations. Gary also holds a C-20 contractor's license license.

#### **Bill Martin (Install team leader)**

Bill also has been with Air Cleaning Systems for about 5 years and has personally lead a crew working on the installation of over 100 fire stations. Bill also has a sheet metal shop and fabricates many of the fittings periodically needed to complete the installation.

#### **Ron Mace (Install Journeyman)**

Ron also has been with Air Cleaning Systems for about 5 years and has personally worked on a crew working on the installation of over 100 fire stations.

#### **Scott Wilkerson (Install Journeyman)**

Scott also has been with Air Cleaning Systems for about 5 years and has personally worked on a crew working on the installation of over 100 fire stations.

Stability and experience are very important in any company and we have it at Air Cleaning Systems.

### Air Cleaning Systems...a Brief Summary

**AIR CLEANING SYSTEMS** has been serving the California and Nevada market since 1972, and currently services hundreds of customers each month by providing complete systems, installations, contract service and filter replacement. We own the building from which we operate our business, and keep in stock a full compliment of spare parts and filters for all the equipment we sell, as well as many other manufacturer's products. We are also a **licensed contractor in the state of California (# 772590) and Nevada (#0056619).**

Air Cleaning Systems performs all of the service (both warranty and non-warranty) for all of the systems we sell and install, as well as systems provided and installed by others. We always keep spare parts in stock that are most commonly required and generally can provide **service within 24 hours**, on stocked parts, as well as emergency service when required, including evenings and weekends. Many times we perform the service the same day it is requested. In the unlikely event the required part is not in our stock, the factory will ship the part for next day delivery if requested.

**Plymovent** is an international company with their United States corporate facility headquartered in New Jersey, and a **UL, ISO 9001, CUL & AMCA Certified Manufacturer.** *Experience counts and we both have it!*

Since 1990, Air Cleaning Systems and Plymovent have been providing diesel exhaust extraction systems to fire departments in the Southern California area. Over 700 fire stations in Los Angeles, Orange, Ventura, San Bernardino, Riverside, and San Luis Obispo counties, as well as Clark County Nevada currently have Plymovent Diesel Exhaust systems in operation. In San Diego County, as well as Northern California, there are approximately another 700 fire stations currently using the same Plymovent system. These two areas are serviced by other authorized and certified Plymovent stocking distributors.

In September of 2000, Air Cleaning Systems and PlymoVent were chosen to be the contractor and system of choice to install the **Plymovent Vehicle Exhaust Extractor System** in all fire facilities of the **Orange County Fire Authority** that house diesel emitting apparatus in 61 Orange County Fire Authority fire stations. This project was completed in November of 2001. The Plymovent system was completely installed in 61 OCFA fire stations in 10 months.

Plymovent and Air Cleaning Systems were also chosen by the City of Los Angeles Fire Department as the product and contractor of choice to install the **Plymovent Vehicle Exhaust Extractor System** in all fire facilities that house diesel emitting apparatus in the **City of Los Angeles**. The recommendation was made by a work group, which was formed to evaluate how to reduce and/or eliminate diesel exhaust in the workplace. As the result of their extensive study and evaluation, the Plymovent System was chosen and subsequently recommended. This project represents a total of 105 fire stations. The project is now complete with the PlymoVent system in all fire stations and represents approximately \$4,500,000 in total scope. Additionally, the City of Los Angeles Fire Department is currently building 20 new fire stations with the PlymoVent system specified for each station.

All installations of Plymovent diesel smoke extraction systems are installed only by factory trained and certified installers. This guarantees consistency with all installations. There are currently seven (7) certified installation crews in Southern California and Nevada that are authorized to install the Plymovent system. The factory is committed to increase this number on demand.

POWER OF ATTORNEY
BERKLEY REGIONAL INSURANCE COMPANY
WILMINGTON, DELAWARE

NOTICE: The warning found elsewhere in this Power of Attorney affects the validity thereof. Please review carefully.

KNOW ALL MEN BY THESE PRESENTS, that BERKLEY REGIONAL INSURANCE COMPANY (the "Company"), a corporation duly organized and existing under the laws of the State of Delaware, having its principal office in Urbandale, Iowa, has made, constituted and appointed, and does by these presents make, constitute and appoint: Eric Lowey, Mark Richardson or Stephanie Pham of Pinnacle Surety & Insurance Services, Inc. of Costa Mesa, CA

its true and lawful Attorney-in-Fact, to sign its name as surety only as delineated below and to execute, seal, acknowledge and deliver any and all bonds and undertakings, with the exception of Financial Guaranty Insurance, providing that no single obligation shall exceed Thirty Million and 00/100 Dollars (\$30,000,000.00), to the same extent as if such bonds had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office in their own proper persons.

This Power of Attorney shall be construed and enforced in accordance with, and governed by, the laws of the State of Delaware, without giving effect to the principles of conflicts of laws thereof. This Power of Attorney is granted pursuant to the following resolutions which were duly and validly adopted at a meeting of the Board of Directors of the Company held on August 21, 2000:

"RESOLVED, that the proper officers of the Company are hereby authorized to execute powers of attorney authorizing and qualifying the attorney-in-fact named therein to execute bonds, undertakings, recognizances, or other suretyship obligations on behalf of the Company, and to affix the corporate seal of the Company to powers of attorney executed pursuant hereto; and further

RESOLVED, that such power of attorney limits the acts of those named therein to the bonds, undertakings, recognizances, or other suretyship obligations specifically named therein, and they have no authority to bind the Company except in the manner and to the extent therein stated; and further

RESOLVED, that such power of attorney revokes all previous powers issued on behalf of the attorney-in-fact named; and further

RESOLVED, that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any power of attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligation of the Company; and such signature and seal when so used shall have the same force and effect as though manually affixed. The Company may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Company, notwithstanding the fact that they may have ceased to be such at the time when such instruments shall be issued."

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 5 day of May, 2009.
