SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

6193

FROM: TLMA - Planning Department

SUBMITTAL DATE: April 22, 2010

SUBJECT: TENTATIVE PARCEL MAP NO. 34962 - Negative Declaration - Applicant: Andy Vargas - Engineer/Representative: Archer Engineering - Fifth Supervisorial District - Good Hope Zoning District - Mead Valley Area Plan: Rural Community: Very Low Density Residential (RC:VLDR) (1 Acre Minimum) - Location: Northerly of Deprad Street, southerly of Lopez Street, and easterly of Cowie Street - 2.05 Net Acres - Zoning: Rural Residential (R-R) - REQUEST: The project proposes a Schedule "H" subdivision of 2.05 net acres into two (2) single family residential lots with a minimum lot size of one (1) gross acre. Parcel 1 is 1.05 net acres and contains an existing residence which shall remain and Parcel 2 is 1.00 net acres - APN: 325-220-033. (Quasi-judicial)

RECOMMENDED MOTION:

RECEIVE AND FILE The Notice of Decision for the above referenced case acted on by the Planning Director on March 22, 2010.

The Planning Department recommended Approval; and, THE PLANNING DIRECTOR:

ADOPTED a NEGATIVE DECLARATION for ENVIRONMENTAL ASSESSMENT NO. 41610, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

APPROVED TENTATIVE PARCEL MAP NO. 34962, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

Jerry Jolliffe, Deputy Planning Director for.

Planking Director

Engineer/Rep.: Archer Engineering

COUNTY OF RIVERSIDE PLANNING DEPARTMENT STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

Tentative Parcel Map No. 34962 is a proposal for a Schedule "H" subdivision of 2.05 net acres into two (2) single family residential lots with a minimum lot size of one (1) gross acre. Parcel 1 is 1.05 net acres and contains an existing residence which shall remain and Parcel 2 is 1.00 net acres.

The project is located in the Good Hope Community within the Mead Valley Area Plan; more specifically, northerly of Deprad Street, southerly of Lopez Street, and easterly of Cowie Street.

SUMMARY OF FINDINGS:

1. Existing General Plan Land Use (Ex. #5): Rural Community: Very Low Density Residential

(RC:VLDR) (1 Acre Minimum)

2. Surrounding General Plan Land Use (Ex. #5): Rural Community: Very Low Density Residential

(RC:VLDR) (1 Acre Minimum) to the north, east,

south, and west

3. Existing Zoning (Ex. #2): Rural Residential (R-R)

4. Surrounding Zoning (Ex. #2): Rural Residential (R-R) to the north, east, south,

and west

5. Existing Land Use (Ex. #1): Single Family Residence

6. Surrounding Land Use (Ex. #1): Scattered large-lot homes to the north, east, and

west, and vacant land to the south

7. Project Data: Total Acreage: 2.05 net acres

Total Proposed Lots: 2

Proposed Min. Lot Size: 1 Acre

Schedule: H

7. Environmental Concerns: Attached Environmental Assessment

RECOMMENDATIONS:

<u>ADOPTION</u> of a **NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 41610**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

<u>APPROVAL</u> of **TENTATIVE PARCEL MAP NO. 34962**, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

CONCLUSIONS:

1. The proposed project is in conformance with the Rural Community: Very Low Density Residential (RC:VLDR) Land Use Designation, and with all other elements of the Riverside County General Plan.

Director's Hearing Staff Report: March 22, 2010

Page 2 of 3

- 2. The proposed project is consistent with the Rural Residential (R-R) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
- 3. The proposed project is consistent with the Schedule H map requirements of Ordinance No. 460, and with other applicable provisions of Ordinance No. 460.
- 4. The public's health, safety, and general welfare are protected through project design.
- 5. The proposed project is compatible with the present and future logical development of the area.
- 6. The proposed project will not have a significant effect on the environment.
- 7. The proposed project will not preclude reserve design for the Multi-Species Habitat Conservation Plan (MSCHP).

FINDINGS: The following findings are in addition to those incorporated in the summary of findings , and in the attached environmental assessment, which is incorporated herein by reference.

- 1. The project site is designated Rural Community: Very Low Density Residential (RC:VLDR) (1 Acre Minimum) on the Mead Valley Area Plan.
- 2. The proposed subdivision of two (2) residential parcels with a minimum of one (1) acre is permitted use in the Rural Community: Very Low Density Residential (RC:VLDR) (1 Acre Minimum) designation.
- 3. The project site is surrounded by properties which are designated Rural Community: Very Low Density Residential (RC:VLDR) (1 Acre Minimum) to the north, east, south, and west.
- 4. The zoning for the subject site is Rural Residential (R-R).
- 5. The proposed subdivision of two (2) residential parcels with a minimum of one (1) acre use is consistent with the development standards set forth in the Rural Residential (R-R) zone.
- 6. The project site is surrounded by properties which are zoned Rural Residential (R-R) to the north, east, south, and west.
- 7. This project is not located within a Criteria Area of the Multi-Species Habitat Conservation Plan.
- 8. Environmental Assessment No. 41610 identifies the no impacts as potentially significant.

INFORMATIONAL ITEMS:

- 1. As of this writing, no letters, in support or opposition have been received.
- 2. The project site is not located within:
 - a. A General Plan policy area;
 - b. A dam inundation area;
 - c. A fault zone;

Tentative Parcel Map No. 34962 Environmental Assessment No. 41610

Director's Hearing Staff Report: March 22, 2010

- d. A high fire area;
- e. An airport influence area or compatibility zone;
- f. A mapped area of potential for liquefaction;
- g. A mapped area of susceptibility to subsidence;
- h. A Multiple Species Habitat Conservation Plan (MSHCP) Criteria Cell;
- i. An agricultural preserve; or,
- j. A redevelopment area.
- 3. The project site is locate within:
 - a. An area subject to flood plain review;
 - b. The boundaries of the Good Hope Master Drainage Plan (MDP):
 - c. A State Responsibility Area for high fire;
 - d. Community Service Area No. 152;
 - e. Zone B of the Mt. Palomar Light Ordinance No. 655 (37.66 miles); and,
 - f. The City of Perris Sphere of Influence.
- 4. The subject site is currently designated as Assessor's Parcel Number 325-220-033.
- 5. This project was filed with the Planning Department on October 16, 2007.
- 6. This project was reviewed by the Land Development Committee three (3) times on the following dates; January 10, 2008, April 3, 2008 and July 23, 2009.
- 7. Deposit Based Fees charged for this project, as of the time of staff report preparation, total \$14,949.30

- F. Section, Township & Range Description or reference/attach a Legal Description: Section 2, Township 4 South, Range 4 West
- G. Brief description of the existing environmental setting of the project site and its surroundings:

The project site is located in a built-out rural residential area. The project site consists of a single family residence on 2.05 gross acres of heavily disturbed land.

II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

A. General Plan Elements/Policies:

1. Land Use: The proposed project is located within the Mead Valley Area Plan (MVAP), more specifically within the Good Hope community. The project has a Land Use Designation of Rural Community: Very Low Density Residential (VLDR) (One Acre Minimum). The proposed project adheres to the Mead Valley Area Plan and all other applicable General Plan Land Use Policies.

Page 1 of 37

- 2. Circulation: The proposed project will add overall trips in the area. However, the project was reviewed by the Riverside County Transportation Department. Based on their review, the Transportation Department determined that the proposed project would not result in inconsistencies with the General Plan Circulation Levels of Service and that the proposed project is consistent with this General Plan policy. The project meets all other applicable circulation polices of the General Plan.
- 3. Multipurpose Open Space: The proposed project is not located within a Western Riverside County Multi-Species Habitat Conservation Plan Cell or Cell Group. The project site is free from suitable habitat for wildlife, as well as native plant species. The project meets all other applicable multipurpose open space policies of the General plan.
- **4. Safety:** The proposed project is not located in a flood zone, fault zone, or high fire area. The project is located in an area susceptible to subsidence and with a low potential for liquefaction. The proposed project meets all other Safety element policies.
- 5. Noise: The project will permanently increase the ambient noise levels in the project vicinity above levels existing without the project. However, the project will be required to comply with Ordinance 847 which regulates noise. The proposed project meets all other applicable Noise element policies of the General Plan
- **6. Housing:** The project proposes a two lot subdivision of 2.05 net acres with an existing single family residence. Therefore, the project does propose the construction of one (1) additional home. The proposed project meets all other Housing element policies of the General Plan.
- 7. Air Quality: The proposed project has been conditioned to control any fugitive dust during grading and construction activities. The proposed project meets all other applicable Air Quality Element policies.
- B. General Plan Area Plan(s): Mead Valley
- C. Foundation Component(s): Rural Community (RC)
- D. Land Use Designation(s): Very Low Density Residential (VLDR) (One Acre Minimum)

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED
The environmental factors checked below (x) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.
Aesthetics
IV. DETERMINATION
On the basis of this initial evaluation:
A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED
I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. ☐ I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED
I find that although the proposed project could have a significant effect on the environment, NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have

become feasible.	
☐ I find that although all potentially significant effects EIR or Negative Declaration pursuant to applicable leganecessary but none of the conditions described in Calexist. An ADDENDUM to a previously-certified EIR or I will be considered by the approving body or bodies.	al standards, some changes or additions are lifornia Code of Regulations, Section 15162
	d in Colifornia Code of Degulations, Continu
I find that at least one of the conditions described 15162 exist, but I further find that only minor additions or EIR adequately apply to the project in the changed sit ENVIRONMENTAL IMPACT REPORT is required that no	changes are necessary to make the previous tuation; therefore a SUPPLEMENT TO THE eed only contain the information necessary to
make the previous EIR adequate for the project as revise	
I find that at least one of the following conditions Section 15162, exist and a SUBSEQUENT ENVIRONI Substantial changes are proposed in the project which we or negative declaration due to the involvement of new signification in the severity of previously identified signification occurred with respect to the circumstances under which major revisions of the previous EIR or negative declarate environmental effects or a substantial increase in the effects; or (3) New information of substantial importance been known with the exercise of reasonable diligence a complete or the negative declaration was adopted, show one or more significant effects not discussed in the Significant effects previously examined will be substantiated in the significant effects previously examined will be substantiated but the project proponents decline to adopt the mitigation measures or alternatives which are considerably different negative declaration would substantially reduce one or environment, but the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the mitigation of the project proponents decline to adopt the project project project proje	MENTAL IMPACT REPORT is required: (1) ill require major revisions of the previous EIR nificant environmental effects or a substantial cant effects; (2) Substantial changes have a the project is undertaken which will require ion due to the involvement of new significant a severity of previously identified significant e, which was not known and could not have at the time the previous EIR was certified as as any the following:(A) The project will have a previous EIR or negative declaration;(B) ally more severe than shown in the previous lternatives previously found not to be feasible one or more significant effects of the project, in measures or alternatives; or,(D) Mitigation at from those analyzed in the previous EIR or more significant effects of the project on the

V. ENVIRONMENTAL ISSUES ASSESSMENT

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
AESTHETICS Would the project				
 Scenic Resources a) Have a substantial effect upon a scenic highway corridor within which it is located? 				\boxtimes
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view?				
Source: Riverside County General Plan Figure C-9 "Scenic	Highways"			
Findings of Fact: This project is not located near a scenic his substantially damage scenic resources, including but not limit unique or landmark features; obstruct any prominent scenic vin the creation of an aesthetically offensive site open to public	ted to, trees vista or view	, rock outcro	ppings and	
Mitigation: No mitigation required.				
Monitoring: No monitoring required.				
2. Mt. Palomar Observatory a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655?

Findings of Fact:				
a) Assembles to the DOID the market site is breated to	17 4	C	(I M D.	

a) According to the RCIP, the project site is located 17.4 miles away from the Mt. Palomar Observatory; which is within the designated ZONE B Special Lighting Area that surrounds the Mt. Palomar Observatory. Ordinance No. 655 contains approved materials and methods of installation, definition, general requirements, requirements for lamp source and shielding, prohibition and exceptions. With incorporation of project lighting requirements of the Riverside

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------------	--	---------------------------------------	--------------

County Ordinance No. 655 into the proposed project, this impact will be reduced to a less than significant impact. A note will be made on the Environmental Constraints Sheet that the properties are located within Zone B of County Ordinance 655 and are subject to outdoor lighting restrictions. (COA 50.PLANNING.21) This is a standard condition of approval and therefore is not considered mitigation pursuant to CEQA.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

3. Other Lighting Issues a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the			
area?			
b) Expose residential property to unacceptable light		\boxtimes	
levels?			58 - 5-

Source: On-site Inspection, Project Application Description

Findings of Fact:

Riverside County Ordinance No. 655 is applicable to the project site. Therefore, the project must comply with Ordinance No. 655, including, but not limited to Low-Pressure Sodium Voltage (LPSV) street lights. Pursuant to Ordinance No. 655, the project's onsite lighting will be directed downward or shielded and hooded to avoid shining onto adjacent properties and streets. Furthermore, the amount of lighting will be similar to other residential areas surrounding the site.

The proposed project is not expected to create unacceptable light levels because of conformance with Ordinance No. 655. Therefore, the proposed project would not create a new source of substantial light or glare which would adversely affect day or nighttime views in the area or expose residential property to unacceptable light levels. Impacts would be less than significant. No mitigation measures are required.

- a) The proposed project will introduce new sources of nighttime light and glare into the area from rural residential uses. Spill of light onto surrounding properties, and "night glow" can be reduced by using hoods and other design features on light fixtures used within the proposed project. Inclusion of these design features in the project is addressed through standard County conditions of approval, plan checks, permitting procedures, and code enforcement. Potential impacts associated with glare will be reduced to below the level of significance through these standard County practices and procedures and implementation of the belowlisted mitigation measure.
 - b) The proposed project would result in a new source of light and glare. Vehicular lighting would increase from cars traveling to and from the project site. However, this impact would be minimal based on the small number of trips this project would generate.

Mitigation: No mitigation required.

×	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impac
Monitoring: No monitoring required.				
AGRICULTURE RESOURCES Would the project				
4. Agriculture a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?			=	
b) Conflict with existing agricultural use, or a Williamson Act (agricultural preserve) contract (Riv. Co. Agricultural Land Conservation Contract Maps)?				
c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 "Right-to-Farm")?				
d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?				\boxtimes

applicable air quality plan?				
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?			\boxtimes	
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?				
d) Expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions?				\boxtimes
e) Involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter?				
f) Create objectionable odors affecting a substantial number of people?				

Source: SCAQMD CEQA Air Quality Handbook Table 6-2

<u>Findings of Fact:</u> Appendix G of the current State CEQA Guidelines indicates that a project will significantly impact air quality if the project violates any ambient air quality standard, contributes substantially to an existing air quality violation, or exposes sensitive receptors to substantial pollutant concentrations.

- a) The project site is located in the South Coast Air Basin (SCAB). The South Coast Air Quality Management District (SCAQMD) Governing Board adopted its most recent Air Quality Management Plan (AQMP) for the SCAB on August 1, 2003. The AQMP is a plan for the regional improvement of air quality. As part of adoption of the County's General Plan in 2003, the General Plan EIR (SCH No. 2002051143) analyzed the General Plan growth projections for consistency with the AQMP and concluded that the General Plan is consistent with the SCAQMD's AQMP. The project is consistent with the County General Plan and would therefore be consistent with the SCAQMD's AQMP.
- b-c) The South Coast Air Basin (SCAB) is in a non-attainment status for federal ozone standards, federal carbon monoxide standards, and state and federal particulate matter standards. Any development in the SCAB, including the proposed Project, would cumulatively contribute to these pollutant violations.

The project is consistent with the General Plan and the Southwest Area Plan land use designations. The General Plan (2003) is a policy document that reflects the County's vision for the future of Riverside County. The General Plan is organized into eight separate elements, including an Air Quality Element. The purpose of the Air Quality Element is to protect County residents from the harmful effects of poor air quality. The Air Quality Element identifies goals, policies, and programs that are meant to balance actions regarding land use, circulation, and other issues with their potential effects on air quality. The Air Quality Element, in conjunction with local and regional air quality planning efforts, addresses ambient air quality standards set forth by the Federal Environmental Protection Agency (EPA) and the California Air Resources Board (CARB). Potential air quality impacts resulting from the proposed Project would not exceed emissions projected by the Air Quality Element. The County is charged with

Potentially	Less than	Less	No
Significant	Significant	Than	Impact
Impact	with	Significant	-
	Mitigation	Impact	
	Incomprated		

implementing the policies in the General Plan Air Quality Element, which are focused on reducing concentrations of criteria pollutants, reducing negative impacts to sensitive receptors, reducing mobile and stationary pollutant sources, increasing energy conservation and efficiency, improving the jobs to housing balance, and facilitating multi-jurisdictional coordination for the improvement of air quality.

Implementation of the project would not impact air quality beyond the levels documented in EIR No. 441 prepared for the General Plan. The project would impact air quality in the short-term during construction and in the long-term through operation. In accordance with standard county requirements, dust control measures and maintenance of construction equipment shall be utilized on the property to limit the amount of particulate matter generated. These are standard requirements and are not considered mitigation pursuant to CEQA.

The proposed project would primarily impact air quality through increased automotive Single projects typically do not generate enough traffic and associated air pollutants to violate clean air standards or contribute enough air pollutants to be considered a cumulatively considerable significant impact. Operational impacts associated with the project would be expected to result in emissions of VOC, NOX, CO, PM10, PM2.5 and SOX. Operational emissions would result from vehicle emissions, fugitive dust associated with vehicle travel, combustion emissions associated with natural gas use, emission related to electricity generation, and landscape equipment maintenance emissions. In the long term, emissions of VOC, NOX, CO, PM10 and PM2.5 and could exceed SCAQMD significance thresholds (in pounds per day). In addition, another potential impact is emissions from the project that may contribute to green house gases (GHGs) and therefore to global climate change. An individual project cannot generate enough GHG emissions to individually influence global climate change. However, the project may have an incremental contribution to cumulative GHG emissions. To date, no Federal, State, or project area local agencies have developed thresholds against which a proposed project can be evaluated to assist lead agencies in determining whether or not the proposed project is significant. In accordance with CEQA Guidelines (section 15064 (h) (3)) a project's incremental contribution to a cumulative impact may be considered less than significant if the Project will comply with a mitigation program that addresses the impact. The project will primarily impact GHGs by emissions of carbon dioxide in the form of vehicle exhaust and use of electricity. However, with compliance with standard requirements for use of low VOC paints and compliance with California Energy Commission Title 24 requirements for building energy efficiency, direct and cumulative air quality impacts would be reduced to a level below significance. These are standard requirements and are not considered mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.

d) A sensitive receptor is a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant than is the population at large. Sensitive receptors (and the facilities that house them) in proximity to localized CO sources, toxic air contaminants or odors are of particular concern. High levels of CO are associated with major traffic sources, such as freeways and major intersections, and toxic air contaminants are normally associated with manufacturing and commercial operations. Land uses considered to be sensitive receptors include long-term health care facilities, rehabilitation centers, convalescent centers, retirement homes, residences, schools, playgrounds, child care centers, and athletic facilities. The proposed project will have a less than significant impact on the exposure of sensitive receptors to substantial pollutant concentrations. The proposed project

	Potentially	Less than	Less	No
	Significant	Significant	Than	Impact
1	Impact	with	Significant	
		Mitigation	Impact	
		Incorporated		

may expose sensitive receptors to pollutant concentrations during project grading and construction. The nearest sensitive receptors to the project site include scattered single-family homes to the north, south, east, and west of the project site.

Air emissions will be emitted by construction equipment and fugitive dust will be generated during demolition, site preparation and construction activities. Long-term operational emissions generated by the proposed project will primarily be from motor vehicles. Other emissions will be generated from the combustion of firewood in fireplaces and the combustion of natural gas for space heating and the generation of electricity. In addition, emissions will be generated by the use of natural gas for the generation of electricity off-site. These short-term, construction-related impacts will be reduced below a level of significance by dust control measures implemented during grading (Condition of Approval 10.BS GRADE.5). This is a standard condition of approval therefore is not considered unique mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.

- f) Surrounding land uses do not include significant localized CO sources, toxic air contaminants, or odors. As such, no point-source emitters are located within a close proximity to future occupants of the site. Therefore, the project will not involve the construction of a sensitive receptor located within one mile of an existing substantial point-source emitter.
- g) The proposed project will not result in or create objectionable odors. No activities are anticipated to occur on the site that would create odors. No impact is anticipated.

Mitigation: No mitigation required.		
Monitoring: No monitoring required.		
BIOLOGICAL RESOURCES Would the project		
6. Wildlife & Vegetation a. Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan?		
b. Have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12)?		
c. Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service?		
d. Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors,		

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
	Significant	Significant Significant Impact with Mitigation	Significant Significant Than Impact with Significant Mitigation Impact Incorporated

Source: GIS database, WRCMSHCP, On-site Inspection

Findings of Fact:

- a) The project is located within the boundaries of the Western Riverside County Multiple Species Habitat Conservation Plan, more specifically the project is not located within a criteria cell of MSHCP. A MSHCP compliance report was prepared and it concluded that the site lacked native habitats, riparian areas, vernal pools, and other suitable habitats for fairy shrimp. The project will not conflict with the WRCMSHCP, therefore there is a less than significant impact.
- b) An MSHCP compliance report was prepared and it concluded that the site lacked native habitats, riparian areas, vernal pools and other suitable habitats for fairy shrimp. The project does not have the potential to have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service. Therefore, there is a less than significant impact.
- c) An MSHCP compliance report was prepared and it concluded that the site lacked native habitats, riparian areas, vernal pools and other suitable habitats for fairy shrimp. The project does not have the potential to have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service. Therefore, there is a less than significant impact.
- d) Review by the Environmental Programs Department concluded that the project did not have the potential to interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites. Therefore, there is a less than significant impact.
- e) An MSHCP compliance report was prepared and it was determined that the site lacked any riparian areas. The project does not have the potential to substantially effect any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service. Therefore, there is a less than significant impact.

f) The project site does not contain any area that is designated as a federally protected wetlands, no is it located within the vicinity of any federally protected wetlands, therefore there is no impact with regard to wetlands.
g) Review by the Environmental Programs Department concluded that the project did conflict with any local policies or ordinances protecting biological resources, therefore there is no impact with regard to conflicting with the protection of biological resources.
Mitigation: No mitigation required.
Monitoring: No monitoring required.
CULTURAL RESOURCES Would the project
7. Historic Resources
a) Alter or destroy an historic site? b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5?
Source: On-site Inspection, Project Application Materials
Findings of Fact:
a-b) No historic sites or resources have been identified within the project boundaries. There is no cause for a substantial adverse change in the significance of a historical resources as defined in California Code of Regulations, Section 15064.5 therefore impacts to historic resources are less than significant.
Mitigation: No mitigation measures are required.
Monitoring: No monitoring measures are required
8. Archaeological Resources a) Alter or destroy an archaeological site.
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5?
c) Disturb any human remains, including those
interred outside of formal cemeteries? d) Restrict existing religious or sacred uses within the potential impact area?
Source: Project Application Materials
Findings of Fact:
a) The project site will not alter or destroy a known archaeological site. Page 12 of 37

EA 41610

Potentially Significant	Less than Significant	Less Than	No Impact
Impact	with Mitigation	Significant Impact	
	Incorporated		

- b) If during ground disturbance activities, unique cultural resources are discovered that were not assessed by the archaeological report(s) and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. Unique cultural resources are defined, for this condition, as being multiple artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to its sacred or cultural importance. 1. All ground disturbance activities within 100 feet of the discovered cultural resources shall be halted until a meeting is convened between the developer, the archaeologist, the Native American tribal representative and the Planning Director to discuss the significance of the find. 2. At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal representative and the archaeologist, a decision shall be made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc.) for the cultural resources. 3. Grading of further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate mitigation. (COA 10.PLANNING.8) This is a standard condition and not considered mitigation for CEQA purposes.
- c) If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the Riverside County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resource Code Section 5097.98 (b) remains shall be left in place and free from disturbance until a final decision as to the treatment and disposition has been made. If the Riverside County Coroner determines the remains to be Native American, the Native American Heritage Commission shall be contacted within a reasonable timeframe. Subsequently, the Native American Heritage Commission shall identify the "most likely descendant." The most likely descendant shall then make recommendations and engage in consultation concerning the treatment of the remains as provided in Public Resources Code Section 5097.98. (COA 10.Planning.07) This is not unique mitigation therefore impacts are less than significant.
- d) There are no known existing religious or sacred uses within the potential impact area.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required

9. Paleontological Resources		\boxtimes	
a) Directly or indirectly destroy a unique			
paleontological resource, or site, or unique geologic			
feature?			

Source: Riverside County General Plan Figure OS-8 "Paleontological Sensitivity", GIS Database

Findings of Fact:

a) According to the GIS database (RCLIS), the proposed project site is within an area that is designated as having an undetermined potential for paleontological sensitivity. However, the site has already been developed for single family residential purposes and it is not anticipated that the project

e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?				\boxtimes
g) Otherwise substantially degrade water quality?				
h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors)?		Ц	×	Ц

Source: Riverside County Flood Control District Flood Hazard Report/Condition.

Findings of Fact:

- a) There are no existing watercourses on or in the vicinity of the project site. The project does not have the potential to substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site. The project will have a less than significant impact.
- b) The creation of two (2) residential lots will not violate any water quality standards or waste discharge requirements.
- c) The project proposed potable water service from Eastern Municipal Water District. The project site currently contains one single family residence for which water service already exists comparable to the demand for the project, therefore sufficient water supply already exists to the site. The project will have a less than significant impact with regard to substantially depleting groundwater supplies or interfering substantially with groundwater recharge.
- d) This project site will not create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff.
- e)Proposed pads are not located within a 100-year zone therefore, the project will not place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation maps.
- f) The project will not place any structures within a 100-year flood hazard area which would impede or redirect flood flows.
- g)The project will not otherwise substantially degrade water quality.
- h)The project will not include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors).

alternative transportation (e.g. bus turnouts, bicycle racks)?				

Source: RCIP, Transportation Department, Ordinance 348

Findings of Fact:

- a) The Transportation Department reviewed the project and determined that based on the information provided there project would not be required to prepare a traffic study (COA 10. Trans.1). The project is considered to have a less than significant impact with regard to an increase in traffic.
- b) The proposed project has complied with the development standard of Ordinance 348 with regard to Off-Street Vehicle Parking and has adequate parking capacity for the project, thus there is no impact.
- c) The Transportation Department reviewed the project and determined that based on the information provided the project did not have the potential to exceed the level of service standard for the proposed area. The project may have a minimal increase in trips to the site based on the change from an additional single family residence, however the current level of service will not be significantly altered therefore there is a less than significant impact.
- d) The project does not have the potential to change air traffic patterns, therefore there is no impact.
- e) The project does not have the potential to change waterborne, air or rail traffic, therefore there is no impact.
- f) The project is located adjacent to Cowie Avenue and will not be required to make any improvements and/or modifications to the design of the roadway. The project does not have the potential increase hazards to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment), therefore there is a less than significant impact.
- g) The project is located adjacent to Cowie Avenue and has the potential to increase the roadways within the vicinity of the project site, therefore generating a small increase in the need for maintenance

Riverside County LMS CONDITIONS OF APPROVAL

Page: 1

¿CEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1

MAP - PROJECT DESCRIPTION

RECOMMND

The land division hereby permitted is a Schedule "H" subdivision of 2.49 gross acres into two (2) single family residential lots with a minimum lot size of one (1) gross acre. Parcel 1 is 1.41 gross acres and contains an existing residence which shall remain and Parcel 2 is 1.01 gross acres.

10. EVERY. 2

MAP - DEFINITIONS

RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Tentative Parcel Map No. 34962 shall be henceforth defined as follows:

TENTATIVE MAP = Tentative Parcel Map No. 34962, Amended No. 2, dated 6/15/09.

FINAL MAP = Final Map or Parcel Map for the TENTATIVE MAP whether recorded in whole or in phases.

10. EVERY. 3

MAP - HOLD HARMLESS

RECOMMND

The land divider or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside (COUNTY), its agents, officers, or employees from any claim, action, or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the TENTATIVE MAP, which action is brought within the time period provided for in California Government Code, Section 66499.37. The COUNTY will promptly notify the land divider of any such claim, action, or proceeding against the COUNTY and will cooperate fully in the defense. If the COUNTY fails to promptly notify the land divider of any such claim, action, or proceeding or fails to cooperate fully in the defense, the land divider shall not, thereafter, be responsible to defend, indemnify, or hold harmless the COUNTY.

Parcel: 325-220-033

10. GENERAL CONDITIONS

BS GRADE DEPARTMENT

10.BS GRADE. 1

MAP-GIN INTRODUCTION

RECOMMND

Improvement such as grading, filling, over excavation and recompaction, and base or paving which require a grading permit are subject to the included Building and Safety Grading Division conditions of approval.

10.BS GRADE. 2

MAP-G1.2 OBEY ALL GDG REGS

RECOMMND

All grading shall conform to the California Building Code, Ordinance 457, and all other relevant laws, rules and regulations governing grading in Riverside County and prior to commencing any grading which includes 50 or more cubic yards, the applicant shall obtain a grading permit from the Building & Safety Department.

10.BS GRADE. 3

MAP-G1.3 DISTURBS NEED G/PMT

RECOMMND

Ordinance 457 requires a grading permit prior to clearing, grubbing or any top soil disturbances related to construction grading.

10.BS GRADE. 4

MAP-G1.5 EROS CNTRL PROTECT

RECOMMND

Graded but undeveloped land shall provide, in addition to erosion control planting, any drainage facility deemed necessary to control or prevent erosion. Additional erosion protection may be required during the rainy season from October 15 to April 15.

10.BS GRADE. 5

MAP-G1.6 DUST CONTROL

RECOMMND

All necessary measures to control dust shall be implemented by the developer during grading.

10.BS GRADE. 6

MAP-G2.1 GRADING BONDS

RECOMMND

Grading in excess of 199 cubic yards will require performance security to be posted with the Building & Safety Department. Single family dwelling units graded one lot per permit and proposing to grade less than 5,000 cubic yards are exempt.

RCEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.BS GRADE. 7 MAP-G2.5 2:1 MAX SLOPE RATIO

RECOMMND

Grade slopes shall be limited to a maximum steepness ratio of 2:1 (horizontal to vertical) unless otherwise approved.

10.BS GRADE. 8

MAP-G2.6SLOPE STABL'TY ANLY

RECOMMND

A slope stability report shall be submitted and approved by the County Geologist for all proposed cut or fill slopes steeper than 2:1 (horizontal to vertical) or over 30 feet in vertical height - unless addressed in a previous report.

10.BS GRADE. 9

MAP-G2.8MINIMUM DRNAGE GRAD

RECOMMND

Minimum drainage grade shall be 1% except on portland cement concrete where 0.35% shall be the minimum.

10.BS GRADE. 10

MAP-G2.11DR WAY XING NWC

RECOMMND

Lots whose access is or will be affected by natural or constructed drainage facilities, shall provide drive way drainage facilities which are adequate to allow access from the street to the house during 100 year storms.

10.BS GRADE. 11

MAP-G2.12SLOPES IN FLOODWAY

RECOMMND

Graded slopes which infringe into the 100 year storm flow flood way boundaries, shall be protected from erosion, other flood hazards, by a method acceptable to the Building & Safety Departments District Grading Engineer which may include Riverside County flood Control & Water Conservation District's review and approval. However, graded slope will be allowed which in the professional judgment of the District Grading Engineer blocks, concentrates or diverts drainage flows.

10.BS GRADE, 12

MAP-G2.13FIRE D'S OK ON DR.

RECOMMND

Driveways shall be designed in accordance with Riverside County Fire Department standards - or the governing Fire Department if not the county - and shall require their approval prior to issuance of the grading permit. Aproval shall be in the form of a conditional approval letter addressed to the related case file or by written approval from the Fire Department.

RCEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.BS GRADE. 13 MAP-G2.21POST & BEAM LOT

RECOMMND

Any lot conditioned to use post and beam design, which involves grading in excess of that required to construct the driveway, will need the Planning Department's approval prior to the issuance of a grading permit.

10.BS GRADE. 15

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

E HEALTH DEPARTMENT

10.E HEALTH. 1

EMWD POTABLE WATER SERVICE

RECOMMND

All lots under Parcel Map#34962 are proposing Eastern Municipal Water District (EMWD) potable water service only. It is the responsibility of the developer to ensure that all requirements to obtain potable water service for each lot are met with EMWD as well as all other applicable agencies.

FIRE DEPARTMENT

10.FIRE. 1

MAP-#50-BLUE DOT REFLECTORS

RECOMMND

Blue retroreflective pavement markers shall be mounted on private streets, public streets and driveways to indicate location of fire hydrants. Prior to installation, placement

Riverside County LMS CONDITIONS OF APPROVAL

Page: 5

RCEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.FIRE. 1 MAP-#50-BLUE DOT REFLECTORS (cont.)

RECOMMND

of markers must be approved by the Riverside County Fire Department.

10.FIRE. 2

MAP-#13-HYDRANT SPACING

RECOMMND

Schedule H fire protection. An approved standard fire hydrant (6"x4"x2 1/2") shall be located within 250 feet of any portion of the lot frontage as measured along approved vehicular travelways. Minimum fire flow shall be 1000 GPM for 2-hour duration at 20 PSI.

FLOOD RI DEPARTMENT

10.FLOOD RI. 1 MAP FLOOD HAZARD REPORT

RECOMMND

Parcel Map 34962 is a proposal to subdivide an approximately 2.5-acre site into 2 lots for residential use. The site is located in the Good Hope area on the southeast corner of Cowie Avenue and Lopez Street. There is an existing residence on Lot 1.

Our review indicates that except for nuisance nature local runoff, the site is considered free from ordinary storm flood hazard. However, a storm of unusual magnitude could cause damage. Any grading should perpetuate the existing drainage patterns of the area and new construction should comply with all applicable ordinances.

PLANNING DEPARTMENT

10.PLANNING. 4 MAP - LOW PALEO

RECOMMND

According to the County's General Plan, this site has been mapped as having a "Low Potential" for paleontological resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low potential for containing significant paleontological resources subject to adverse impacts. As such, this project is not anticipated to require any direct mitigation for paleontological resources. However, should fossil remains be encountered during site development:

1.All site earthmoving shall be ceased in the area of where the fossil remains are encountered. Earthmoving activities may be diverted to other areas of the site.

RCEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.PLANNING. 4 MAP - LOW PALEO (cont.)

RECOMMND

- 2. The applicant shall retain a qualified paleontologist approved by the County of Riverside.
- 3. The paleontologist shall determine the significance of the encountered fossil remains.
- 4. Paleontological monitoring of earthmoving activities will continue thereafter on an as-needed basis by the paleontologist during all earthmoving activities that may expose sensitive strata. Earthmoving activities in areas of the project area where previously undisturbed strata will be buried but not otherwise disturbed will not be monitored. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.
- 5. If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.
- 6. Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data will be archived (specimen and site numbers and corresponding data entered into appropriate museum repository catalogs and computerized data bases) at the museum repository by a laboratory technician. The remains will then be accessioned into the museum* repository fossil collection, where they will be permanently stored, maintained, and, along with associated specimen and site data, made available for future study by qualified scientific investigators. * The County of Riverside must be consulted on the repository/museum to receive the fossil material prior to being curated.

¿CEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.PLANNING. 5 MAP - LC LANDSCAPE REQUIREMNTS

RECOMMND

Prior to the installation or rehabilitation of 2,500 square feet or more of landscaped area, the developer/ permit holder/landowner shall:

- 1) Submit landscape and irrigation plans to the County Planning Department for review and approval. Such plans shall be submitted as a Minor Plot Plan subject to the appropriate fees and inspections as determined by the County, comply with Ordinance No. 859 and be prepared in accordance with the County of Riverside Guide to California Friendly Landscaping. Emphasis shall be placed on using plant species that are drought tolerant and low water using.
- 2) Ensure all landscape and irrigation plans are in conformance with the APPROVED EXHIBITS;
- 3) Ensure all landscaping is provided with a weather based irrigation controller(s) as defined by County Ordinance No. 859;
- 4) Ensure that irrigation plans which may use reclaimed water conform with the requirements of the local water purveyor; and,

10.PLANNING. 6

MAP - LC LANDSCAPE SPECIES

RECOMMND

The developer/ permit holder/landowner shall use the County of Riverside's California Friendly Plant List when making plant selections. The list can be found at the following web site

http://www.rctlma.org/planning/content/devproc/landscpe/lan scape.html . Use of plant material with a "low" or "very low" water use designation is strongly encouraged.

10.PLANNING. 7

GEN - IF HUMAN REMAINS FOUND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following codes for the life of this project:

If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resources Code Section 5097.98 (b), remains shall be left in place and free from disturbance until a final decision as to the treatment and their disposition has been made. If the Riverside County Coroner determines the remains to be

Parcel: 325-220-033

10. GENERAL CONDITIONS

10.PLANNING. 7 GEN - IF HUMAN REMAINS FOUND (cont.)

RECOMMND

Native American, the Native American Heritage Commission shall be contacted within the period specified by law. Subsequently, the Native American Heritage Commission shall identify the "Most Likely Descendant." The Most Likely Descendant shall then make recommendations and engage in consultation with the County and the property owner concerning the treatment of the remains as provided in Public Resources Code Section 5097.98. Human remains from other ethnic/cultural groups with recognized historical associations to the project area shall also be subject to consultation between appropriate representatives from that group and the County Planning /Director.

10.PLANNING. 8 GEN - INADVERTANT ARCHAEO FIND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:

If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to it sacred or cultural importance.

- 1.All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project archaeologist, the Native American tribal representative (or other appropriate ethic/cultural group representative), and the Planning Director to discuss the significance of the find.
- 2.At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc) for the cultural resource.
- 3. Further ground disturbance shall not resume within the

RECOMMND

his land division shall comply with the State of California Subdivision Map Act and to all requirements of County Ordinance No. 460, Schedule H, unless modified by the conditions listed herein.

10.PLANNING. 10

MAP - FEES FOR REVIEW

RECOMMND

Any subsequent review/approvals required by the conditions of approval, including but not limited to grading or building plan review or review of any mitigation monitoring requirement, shall be reviewed on an hourly basis, or other appropriate fee, as listed in ounty Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 15

MAP - ZONING STANDARDS

RECOMMND

Lots created by this TENTATIVE MAP shall be in conformance with the development standards of the Rural Residential (R-R) zone.

10.PLANNING. 16 MAP - 90 DAYS TO PROTEST

RECOMMND

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of the approval or conditional approval of this project.

10.PLANNING. 19

MAP - ORD 810 OPN SPACE FEE

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 810 has been established to set forth policies, regulations and fees related to the funding and

RECOMMND

acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development projects described and defined in this Ordinance.

The fee shall be paid for each residential unit to be constructed within this land division.

In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 20 MAP - ORD NO. 659 (DIF)

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and construction of facilities necessary to address the direct and cummulative environmental effects generated by new development projects described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The fee shall be paid for each residential unit to be constructed within this land division. In the event Riverside County Ordinance No. 659 is recinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 22 MAP - SUBMIT BUILDING PLANS

RECOMMND

The developer shall cause building plans to be submitted to the TLMA- Land Use Se tion for review by the Department of Building and Safety - Plan Check Division. Said plans shall be in conformance with the approved TENTATIVE MAP.

Riverside County LMS CONDITIONS OF APPROVAL

Page: 11

RCEL'MAP Parcel Map #: PM34962

Parcel: 325-220-033

10. GENERAL CONDITIONS

TRANS DEPARTMENT

10.TRANS. 1

MAP - TS/EXEMPT

RECOMMND

The Transportation Department has not required a traffic study for the subject project. It has been determined that the project is exempt from traffic study requirements.

10.TRANS. 2

MAP - DRAINAGE 1

RECOMMND

The land divider shall protect downstream properties from damages caused by alteration of the drainage patterns, i.e., concentration or diversion of flow. Protection shall be provided by constructing adequate drainage facilities including enlarging existing facilities and/or by securing a drainage easement. All drainage easements shall be shown on the final map and noted as follows: "Drainage Easement - no building, obstructions, or encroachments by landfills are allowed". The protection shall be as approved by the Transportation Department.

10.TRANS. 3

MAP - DRAINAGE 2

RECOMMND

The land divider shall accept and properly dispose of all off-site drainage flowing onto or through the site. In the event the Transportation Department permits the use of streets for drainage purposes, the provisions of Article XI of Ordinance No. 460 will apply. Should the quantities exceed the street capacity or the use of streets be prohibited for drainage purposes, the subdivider shall provide adequate drainage facilities and/or appropriate easements as approved by the Transportation Department.

10.TRANS. 5

MAP - NO ADD'L ROAD IMPRVMNTS

RECOMMND

No additional road improvements will be required at this time along Lopez Street and Cowie Avenue due to existing improvements.

10.TRANS. 8

MAP - STD INTRO 3 (ORD 460/461)

RECOMMND

With respect to the conditions of approval for the referenced tentative exhibit, the land divider shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Ordinance 460 and Riverside County Road Improvement Standards (Ordinance 461). It is understood that the tentative map correctly shows acceptable centerline

RECOMMND

elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptablility may require the map to be resubmitted for further consideration. These Ordinances and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 2 MAP - EXPIRATION DATE

RECOMMND

The conditionally approved TENTATIVE MAP shall expire three years after the County of Riverside Planning Director's original approval date, unless extended as provided by County Ordinance No. 460. Action on a minor change and/or revised map request shall not extend the time limits of the originally approved TENTATIVE MAP. If the TENTATIVE MAP expires before the recordation of the FINAL MAP, or any phase thereof, no recordation of the FINAL MAP, or any phase thereof, shall be permitted.

50. PRIOR TO MAP RECORDATION

FIRE DEPARTMENT

50.FIRE. 1

MAP-#64-ECS-DRIVEWAY ACCESS

RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Driveways exceeding 150' in length, but less than 800' in length, shall provide a turnout near the midpoint of the driveway. Where the driveway exceeds 800', turnouts shall be provided no more than 400' apart. Turnouts shall be a minimum of 10' wide and 30' in length, with a minimum 25' taper on each end. approved turnaround shall be provided at all building sites on driveways over 150 feet in length, and shall be within 50' of the building.

Parcel: 325-220-033

50. PRIOR TO MAP RECORDATION

50.FIRE. 2

MAP-#73-ECS-DRIVEWAY REQUIR

RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Access will not have an up, or downgrade of more than 15%. (access will not be less than 20 feet in width per the 2001 UFC, Article 9, Section 902.2.2.1) and will have a vertical clearance of 15'. Access will be designed to withstand the weight of 60 thousand pounds over 2 axles. Access will have a turning radius of 38 feet capable of accommodating fire apparatus.

50.FIRE. 3

MAP-#53-ECS-WTR PRIOR/COMBUS

RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: The required water system, including fire hydrants, shall be installed and accepted by the appropriate water agency prior to any combustible building material placed on an individual lot.

50.FIRE. 4

MAP-#59-ECS-HYDR REQUIR

RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Should the applicant or developer choose to defer the fire protection requirements, an Environmental Constraint Sheet shall be filed with the final map containing the following: Prior to the issuance of a building permit, the applicant or developer shall provide written certification from the water company that a standard fire hydrant(s) (6"x4"x2 1/2") exist, within 250 feet of any portion of the lot frontage as measured along approved vehicular travelways; or that financial arrangements have been made to provide hydrant(s)

PLANNING DEPARTMENT

50.PLANNING. 1 MAP - PREPARE A FINAL MAP

RECOMMND

After the approval of the TENTATIVE MAP and prior to the expiration of said map, the land divider shall cause the real property included within the TENTATIVE MAP, or any part thereof, to be surveyed and a FINAL MAP thereof prepared in accordance with the current County Transportation Department - Survey Division requirements, the conditionally approved TENTATIVE MAP, and in accordance with Article IX of County Ordinance No. 460.

RCEL MAP Parcel Map #: PM34962

Parcel: 325-220-033

50. PRIOR TO MAP RECORDATION

50.PLANNING. 2 MAP - SURVEYOR CHECK LIST

RECOMMND

The County Transportation Department - Survey Division shall review any FINAL MAP and ensure compliance with the following:

- A. All lots on the FINAL MAP shall be in substantial conformance with the approved TENTATIVE MAP relative to size and configuration.
- B. All lots on the FINAL MAP shall have a minimum lot size of one (1) gross acre.
- All lot sizes and dimensions on the FINAL MAP shall be in conformance with the development standards of the Rural residential (R-R) zone, and with the Riverside County Integrated Project (RCIP).
- D. All lots on the FINAL MAP shall comply with the length to width ratios, as established by Section 3.8.C. of County Ordinance No. 460.

50. PLANNING. 6

MAP - ANNEX TO PARK DISTRICT

RECOMMND

The land divider shall submit written proof to the County Planning Department - Development Review Division that the subject property has been annexed to County Service Area No. 152 or other entity as determined by the Planning Director.

50.PLANNING. 7

MAP - QUIMBY/JOIN CSA (1)

RECOMMND

The land divider shall submit to the County Planning Department - Development Review Division a duly and completely executed agreement with the County Service Area which demonstrates to the satisfaction of the County that the land divider has provided for the payment of parks and recreation fees and/or dedication of land for the TENTATIVE MAP in accordance with Section 10.35 of County Ordinance No. 460. The TENTATIVE MAP is located within an area of the County which does not have a CSA. If a CSA forms prior to the TENTATIVE MAP recording it must join the newly formed CSA and is at that time subject to QUIMBY Fees.

50.PLANNING. 13

MAP - FINAL MAP PREPARER

RECOMMND

The FINAL MAP shall be prepared by a licensed land surveyor or registered civil engineer.

Parcel: 325-220-033

50. PRIOR TO MAP RECORDATION

50.PLANNING. 15 MAP - ECS EXHIBIT

RECOMMND

The constrained areas shall conform to the approved Exhibit E, Environmental Constraints Exhibit, and shall be mapped and labeled on the Environmental Constraint Sheet to the satisfaction of the Planning Department.

50.PLANNING. 18 MAP - COMPLY WITH ORD 457

RECOMMND

The land divider shall provide proof to the County Planning Department - Land Use Division that all structures for human occupancy presently existing and proposed for retention comply with Ordinance No. 457.

50.PLANNING. 20

MAP - FEE BALANCE

RECOMMND

Prior to recordation, the Planning Department shall determine if the deposit based fees for the TENTATIVE MAP are in a negative balance. If so, any unpaid fees shall be paid by the land divider and/or the land divider's successor-in-interest.

50.PLANNING, 21

MAP - ECS NOTE MT PALOMAR LIGH

RECOMMND

The following Environmental Constraints Note shall be placed on the ECS:

"This property is subject to lighting restrictions as required by County Ordinance No. 655, which are intended to reduce the effects of night lighting on the Mount Palomar Observatory. All proposed outdoor lighting systems shall be in conformance with County Ordinance No. 655."

TRANS DEPARTMENT

50.TRANS. 3

MAP - SUFFICIENT R-O-W

RECOMMND

Sufficient right-of-way along Cowie Street shall be dedicated for public use to provide for a 30 foot half-width right-of-way if not already dedicated and accepted and remove existing fence located within the public right-of-way.

Sufficient right-of-way along Lopez Street shall be dedicated for public use to provide for a 30 foot half-width right-of-way if not already dedicated and accepted and remove existing fence located within the public right-of-way.

50.TRANS. 6

MAP - EASEMENT

RECOMMND

Any easement not owned by a public utility, public entity or subsidiary, not relocated or eliminated prior to final map approval, shall be delineated on the final map in addition to having the name of the easement holder, and the nature of their interests, shown on the map.

50.TRANS. 7

MAP - ACCESS RESTRICTION

RECOMMND

Lot access shall be restricted on Lopez Street and so noted on the final map.

50.TRANS. 13

MAP - STREET NAME SIGN

RECOMMND

The land divider shall install street name sign(s) in accordance with County Standard No. 816 as directed by the Transportation Department.

50.TRANS. 14

MAP - INTERSECTION/50' TANGENT

RECOMMND

All centerline intersections shall be at 90 degrees, plus or minus 5 degrees, with a minimum 50' tangent, measured from flowline/curbface or as approved by the Transportation Planning and Development Review Division Engineer.

50.TRANS. 24

MAP- CORNER CUT-BACK I

RECOMMND

All corner cutbacks shall be applied per Standard 805, Ordinance 461, except for corners at Entry streets intersecting with General Plan roads, they shall be applied per Exhibit 'C' of the Countywide Design Guidelines.

60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1 MAP-G2.4GEOTECH/SOILS RPTS

RECOMMND

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department's Grading Division for review and approval prior to issuance of a grading permit.

All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.*

RCEL MAP Parcel Map #: PM34962

60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 1 MAP-G2.4GEOTECH/SOILS RPTS (cont.)

RECOMMND

*The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

60.BS GRADE. 2

MAP-G2.7DRNAGE DESIGN Q100

RECOMMND

All grading and drainage shall be designed in accordance with Riverside County Flood Control & Water Conservation District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

Additionally, the Building and Safety Department's conditional approval of this application includes an expectation that the conceptual grading plan reviewed and approved for it complies or can comply with any WQMP (Water Quality Management Plan) required by Riverside County Flood Control and Water Conservation District.

60.BS GRADE. 3

MAP-G2.14OFFSITE GDG ONUS

RECOMMND

Prior to the issuance of a grading permit, it shall be the sole responsibility of the owner/applicant to obtain any and all proposed or required easements and/or permissions necessary to perform the grading herein proposed.

60.BS GRADE. 4

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the

E HEALTH DEPARTMENT

80.E HEALTH. 1

ENV HEALTH CLEARANCE REQUIRED

RECOMMND

The Department of Environmental Health (DEH) will accept for review the proposed use of an Onsite Wastewater Treatment System (OWTS) for Parcel#2 based on AM/PAC Soils Percolation Report Project#07-10439 dated April 16, 2007. Parcel#1 has an existing primary dwelling connected to an existing OWTS approved by DEH on 5/7/04 c/o Richard Conant (AM/PAC Project#04-8345).

Upon building submittal, the applicant must submit to DEH for review at least three copies of detailed contoured plot plans wet stamped and signed by the Professional of Record (AM/PAC), drawn to an appropriate scale, showing the location of all applicable detail as required in the DEH Technical Guidance Manual.

If grading is proposed, the applicant must show all pertinent detail on scaled Precise Grading Plans wet stamped and signed by AM/PAC. Please note that any significant grading at the proposed OWTS area may require further soils percolation testing and/or engineering.

Furthermore, a floor plan of the proposed structure showing all proposed plumbing fixtures must also be submitted to DEH for review to ensure proper septic tank sizing.

80.E HEALTH. 2 DEH SITE EVALUATION REQUIRED

RECOMMND

The Department of Environmental Health (DEH) site evaluation is required. The applicant must ensure that the groundwater detection boring (4" perforated pipe installed at a depth that extends at least 10 feet below the proposed leach line trench bottom) is installed for DEH staff to

In addition, the applicant must ensure that the job property is clearly identified with a durable placard delineating the site address or APN# as well as ensure that all property corners are clearly staked or marked.

USE-FEE STATUS

RECOMMND

Prior to final approval, the Environmental Health Department shall determine the status of the deposit based fees. If the fees are in a negative status, the permit holder shall pay any outstanding balances. Contact the accounting section at (951) 955-8982.

PLANNING DEPARTMENT

90.PLANNING. 4 MAP - QUIMBY/JOIN CSA (2)

RECOMMND

The land divider shall submit to the County Planning Department - Development Review Division a duly and completely executed agreement with the County Service Area which demonstrates to the satisfaction of the County that the land divider has provided for the payment of parks and recreation fees and/or dedication of land for the TENTATIVE MAP in accordance with Section 10.35 of County Ordinance No. 460. The TENTATIVE MAP is located within an area of the County which does not have a CSA. If a CSA forms prior to the TENTATIVE MAP recording it must join the newly formed CSA and is at that time subject to QUIMBY Fees.

90.PLANNING. 6

MAP - SKR FEE CONDITION

RECOMMND

Prior to the issuance of a certificate of occupancy, or upon building permit final inspection, whichever comes first, the land divider/permit holder shall comply with the provisions of Riverside County Ordinance No. 663, which generally requires the payment of the appropriate fee set forth in that ordinance. The amount of the fee required to be paid may vary, depending upon a variety of factors, including the type of development application submitted and the applicability of any fee reduction or exemption provisions contained in Riverside County Ordinance No. 663. Said fee shall be calculated on the approved development project which is anticipated to be 2.49 acres (gross) in accordance with TENTATIVE MAP. If the development is subsequently revised, this acreage amount may be modified in order to reflect the revised development project acreage amount. In the event Riverside

AUTHORIZATION FOR CONCURRENT FEE TRANSFER

The signature below authorizes the Planning Department and TLMA to expedite the refund and billing process by transferring monies among concurrent applications to cover processing costs as necessary. Fees collected in excess of the actual cost of providing specific services will be refunded. If additional funds are needed to complete the processing of your application, you will be billed, and processing of the application will cease until the outstanding balance is paid and sufficient funds are available to continue the processing of the application. The applicant understands the deposit fee process as described above, and that there will be NO refund of fees which have been expended as part of the application review or other related activities or services, even if the application is withdrawn or the application is ultimately denied.

All signatures must be originals ("wet-signed"). Photoco	opies of signatures are not acceptable.
ANDY VARGAS PRINTED NAME OF APPLICANT	SIGNATURE OF APPLICANT
AUTHORITY FOR THIS APPLICATION IS HEREBY G	OVEN:

APPLICATION FOR SUBDIVISION AND DEVELOPMENT

Proposal (describe project, indicate the number of proposed lots/parcels, units, and the schedule of the subdivision, whether the project is a Vesting Map or Planned Residential Development (PRD):
THE DIVISION OF APPROXIMATELY 2.05 ACRES INTO TWO PARCELS
FOR RESIDENTIAL PURPOSES. THIS WILL BE A SCHEDULE "H"
Related cases filed in conjunction with this request: NONE
Is there a previous development application filed on the same site: Yes 🖾 No 🗔
If yes, provide Case No(s). <u>SEE ATTACHED</u> (Parcel Map, Zone Change, etc.)
E.A. No. (if known) E.I.R. No. (if applicable): N/A
Have any special studies or reports, such as a traffic study, biological report, archaeological report, geological or geotechnical reports, been prepared for the subject property? Yes 🗵 No 🔲
If yes, indicate the type of report(s) and provide a copy: HABITAT ASSESSMENT (BURROWING OWL) CULTURAL RESOURCES REPORT Is water service available at the project site: Yes No
If "No," how far must the water line(s) be extended to provide service? (No. of feet/miles)
Is sewer service available at the site? Yes \(\sigma\) No \(\sigma\)
If "No," how far must the sewer line(s) be extended to provide service? (No. of feet/miles) 5,302 FT.
Will the proposal result in cut or fill slopes steeper than 2.1 or higher than 10 feet? Yes \(\textstyle \text{No } \textstyle \textstyle \textstyle \text{No } \textstyle \textstyle \text{No } \textstyle \textstyle \text{No } \textstyle \text{No } \textstyle \text{No } \tex
How much grading is proposed for the project site?
Estimated amount of cut = cubic yards: <u>LESS THAN 50 CUBIC YARDS</u>
Estimated amount of fill = cubic yardsLESS THAN 50 CUBIC YARDS
Does the project need to import or export dirt? Yes ☐ No ☒
Import N/A Export N/A Neither N/A
What is the anticipated source/destination of the import/export? N/A

APPLICATION FOR SUBDIVISION AND DEVELOPMENT What is the anticipated route of travel for transport of the soil material? How many anticipated truckloads? <u>NONE</u> What is the square footage of usable pad area? (area excluding all slopes) __20,000 If this is a residential subdivision, is it located in a Recreation and Park District or County Service Area authorized to collect fees for park and recreational services? Yes No No If yes, does the subdivision intend to dedicate land or pay Quimby fees, or a combination of both? Dedicate land Pay Quimby fees Combination of both Is the subdivision located within 8½ miles of March Air Reserve Base? Yes 🔲 No 🐔 If yes, will any structure exceed fifty-feet (50') in height (above ground level)? Yes \(\sigma\) No \(\frac{1}{2}\) Does the subdivision exceed more than one acre in area? Yes 🖾 No 🔲 If yes, in which one of the following watersheds is it located (refer to Riverside County GIS for watershed location)? Check answer: Santa Ana River ☐ Santa Margarita River ☒ San Jacinto River ☐ Colorado River HAZARDOUS WASTE SITE DISCLOSURE STATEMENT Government Code Section 65962.5 requires the applicant for any development project to consult specified state-prepared lists of hazardous waste sites and submit a signed statement to the local agency indicating whether the project is located on or near an identified site. Under the statute, no application shall be accepted as complete without this signed statement. I (we) certify that I (we) have investigated our project with respect to its location on or near an identified hazardous waste site and that my (our) answers are true and correct to the best of my (our) knowledge. My (Our) investigation has shown that: The project is not located on or near an identified hazardous waste site. The project is located on or near an identified hazardous waste site. Please list the location of the hazardous waste site(s) on an attached sheet. Owner/Representative (1) Owner/Representative (2)

NOTICE OF PUBLIC HEARING

A PUBLIC HEARING has been scheduled, pursuant to Riverside County Subdivision Ordinance No. 460, before the RIVERSIDE COUNTY DIRECTOR'S HEARING to consider the project shown below:

TENTATIVE PARCEL MAP NO. 34962 – Negative Declaration - Applicant: Andy Vargas - Engineer/Representative: Archer Engineering - Fifth Supervisorial District – Good Hope Zoning District – Mead Valley Area Plan: Rural Community: Very Low Density Residential (RC:VLDR) (1 Acre Minimum) - Location: Northerly of Deprad Street, southerly of Lopez Street, and easterly of Cowie Street – 2.05 Net Acres - Zoning: Rural Residential (R-R) – **REQUEST:** The project proposes a Schedule "H" subdivision of 2.05 net acres into two (2) single family residential lots with a minimum lot size of one (1) gross acre. Parcel 1 is 1.05 net acres and contains an existing residence which shall remain and Parcel 2 is 1.00 net acres - APN: 325-220-033. (Quasi-judicial)

TIME OF HEARING:

1:30 p.m or as soon as possible thereafter.

DATE OF HEARING: PLACE OF HEARING:

March 22, 2010 RIVERSIDE COUNTY ADMINISTRATIVE CENTER

4080 LEMON STREET

12th FLOOR CONFERENCE ROOM 12A

RIVERSIDE, CA 92501

For further information regarding this project, please contact Jeff Horn, at 951-955-4641 or e-mail jhorn@rctlma.org, or go to the County Planning Department's Director's Hearing agenda web page at http://www.tlma.co.riverside.ca.us/planning/content/hearings/dh/current dh.html.

The Riverside County Planning Department has determined that the above project will not have a significant effect on the environment and has recommended adoption of a negative declaration. The Planning Director will consider the proposed project and the proposed negative declaration, at the public hearing. The case file for the proposed project and the proposed negative declaration may be viewed Monday through Friday, 8:30 a.m. to 4:30 p.m., (with the exception of Noon-1:00 p.m. and holidays) at the County of Riverside Planning Department, 4080 Lemon Street, 9th Floor, Riverside, CA 92502. For further information or an appointment, contact the project planner.

Any person wishing to comment on a proposed project may do so, in writing, between the date of this notice and the public hearing or appear and be heard at the time and place noted above. All comments received prior to the public hearing will be submitted to the Planning Director, and the Planning Director will consider such comments, in addition to any oral testimony, before making a decision on the proposed project.

If you challenge this project in court, you may be limited to raising only those issues you or someone else raised at the public hearing, described in this notice, or in written correspondence delivered to the Planning Director at, or prior to, the public hearing. Be advised that, as a result of public hearings and comment, the Planning Director may amend, in whole or in part, the proposed project. Accordingly, the designations, development standards, design or improvements, or any properties or lands, within the boundaries of the proposed project, may be changed in a way other than specifically proposed.

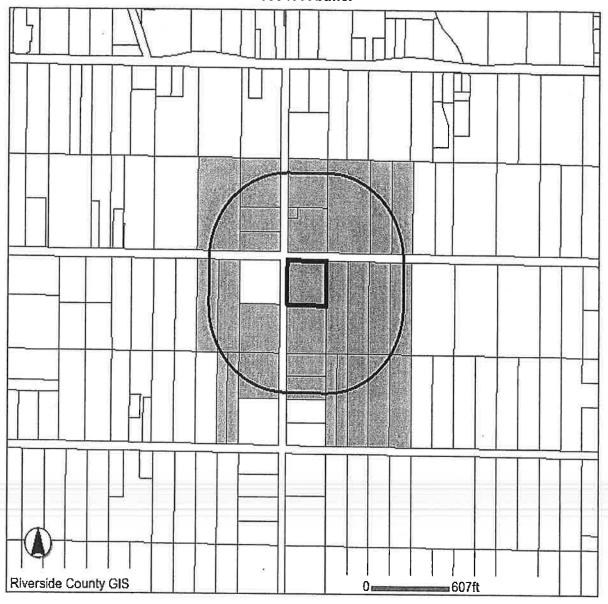

Please send all written correspondence to:

RIVERSIDE COUNTY PLANNING DEPARTMENT Attn: Jeff Horn P.O. Box 1409, Riverside, CA 92502-1409

PROPERTY OWNERS CERTIFICATION FORM

I, VINNIE NGUYEN , certify that on 12 29 09,
The attached property owners list was prepared by Riverside County GIS,
APN (s) or case numbers Pm 34962 For
Company or Individual's Name Planning Department,
Distance buffered600'
Pursuant to application requirements furnished by the Riverside County Planning Department,
Said list is a complete and true compilation of the owners of the subject property and all other
property owners within 600 feet of the property involved, or if that area yields less than 25
different owners, all property owners within a notification area expanded to yield a minimum of
25 different owners, to a maximum notification area of 2,400 feet from the project boundaries,
pased upon the latest equalized assessment rolls. If the project is a subdivision with identified
off-site access/improvements, said list includes a complete and true compilation of the names and
mailing addresses of the owners of all property that is adjacent to the proposed off-site
mprovement/alignment.
further certify that the information filed is true and correct to the best of my knowledge. I
understand that incorrect or incomplete information may be grounds for rejection or denial of the
application.
