9 track project shall be heard concurrently in a single consolidated hearing
10 before the Board of Supervisors. The Planning Director shall set for hearing

12 when he has determined that all such applications comply with all ordinance
13 requirements.
- 14 e. NOTICE OF HEARING. The Board of Supervisors shall hold a public
15 hearing on all applications for permits and approvals included in the fast
16 track project. Notice of the hearing shall be given as provided in Section

Departmental Concurrence

Dept't Recomm.: Consent Policy Policy
 Per Exec. Ofc.: Consent Policy

RECOMMENDED MOTION: (Continued)

4. Direct the Assistant County Executive Officer/EDA to submit a Notice of Exemption to the County Clerk for filing and posting; and
5. Direct the Assistant County Executive Officer/EDA and the TLMA Director to convene the Commercial/Industrial Streamlining Task Force described below to identify ways the County can further job creation through expedited processing of commercial and industrial projects.

BACKGROUND: Riverside County is currently in one of the most challenging economic times it has faced in decades. The County's unemployment rate exceeds 15% which clearly illustrates the need for jobs for our residents. One of the ways the County can help effectuate much needed job growth is by ensuring that commercial and industrial applications are reviewed in an efficient and expeditious manner. In order to achieve that goal, EDA and TLMA recommend revision of the County's Procedures for Fast Track Processing (Board Policy A-32). The recommended revisions include the following:

1. A fifty percent reduction in the eligibility criteria for commercial and industrial applicants any time the County's unemployment rate exceeds 7.5%.
2. The ability to fast track eligible projects that require an Environmental Impact Report (EIR).
3. A reservation of authority giving the Board of Supervisors exclusive jurisdiction to hear and decide all fast track projects.
4. The inclusion of an additional eligibility criteria for commercial and industrial buildings that are a minimum of 150,000 square feet and incorporate a design standard of "Silver" or greater from the U.S Green Building Council's Leadership in Energy and Environmental Design program.

In addition, EDA and TLMA recommend amendments to the County's Land Use and Land Division ordinances to fully implement the Fast Track policy revisions.

EDA and TLMA are actively working together to identify procedures that would improve the processing of all commercial and industrial applications. However, there are many other County departments that are critical to the process. The County has in existence the BIA/Streamlining Task Force which has been very successful in developing policies and procedures that have improved the processing of residential applications. It is recommended that the County utilize the Task Force in the same manner for commercial and industrial projects. The Commercial/Industrial Streamlining Task Force would be comprised of the same County staff members; representatives from the commercial and industrial sector, however, would be substituted for representatives from the residential sector. It is recommended that the Commercial/Industrial Streamlining Task Force meet quarterly and provide updates to the Board of Supervisors.

EDA and TLMA have implemented several measures that are already proving to be successful, including new customer service procedures on how to handle commercial and industrial applicants. EDA and TLMA will continue inter-agency training programs to educate staff on the factors affecting business growth and expansion decisions. Future recommendations may be made as a result of the Task Force meetings.
