

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: Riverside County General Plan Figure S-11 "Wildfire Susceptibility," GIS database

Findings of Fact:

a) The project site is not located within a hazardous fire area; therefore, implementation of the project will not expose people or structures to a significant risk of loss, injury or death involving wild land fires, including where wild lands are adjacent to urbanized areas or where residences are intermixed with wild lands. No impacts are anticipated; therefore, no mitigation measures are required.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**HYDROLOGY AND WATER QUALITY** Would the project

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>23. Water Quality Impacts</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County Flood Control District Flood Hazard Report/Condition.

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

- a) The site has been previously graded and does not contain any existing concentrated drainage, existing or proposed and no changes to the existing drainage patterns are permitted per 10. Flood RI 5. Therefore there is no impact.
- b) The project proposes all wastewater to be self contained in the RV/trailers or within the temporary portable restrooms. The use of a trap and skeet range has the potential for increased lead deposits from the shooting of lead shot for trap and skeet. The project will be required to provide by-laws and other restraining policies to ensure that only non-lead shot, steel or equivalent are used on the trap and skeet area. Per Condition of Approval 10.PLANNING.85, 20. Planning 8, 9, and 10, the use of lead shot shall be prohibited on the project area. Conditions of Approval, 20.PLANNING.09 & 10 shall require the project proponent to submit to annual inspections by the Riverside County Code Enforcement Department to ensure that the use of lead shot is prohibited on the project area.
- c) The site is served by an existing well and the project does not propose any significant increase in water usage that would cause a lowering of the local groundwater table or local groundwater level, therefore there is no impact.
- d) There is no substantial grading proposed on the project site, therefore there is no impact.
- e-f) The project site is located in the San Jacinto River floodplain and floodway. However no housing or permanent structures are proposed with the project and in accordance with 10. Flood 1&4, no RV/trailer shall be considered a permanent structure and shall not remain for more than 180 days. With the proposed mitigation of the above condition, the projects impacts will be less than significant.
- g) The project will not degrade the water quality, therefore there is no impact.
- h) The project will not propose significant drainage improvement or grading and shall not require a WQMP, therefore there are no impacts.

**Mitigation:** Condition of Approval 10. Flood 1 and 10. Flood 4, shall restrict the type of RV/trailer and shall restrict the amount of time these trailers can be parked on the site. Per Condition of Approval 10.PLANNING.85, 20. Planning 8, 9, and 10, the use of lead shot shall be prohibited on the project area. Conditions of Approval, 20.PLANNING.09 & 10 shall require the project proponent to submit to annual inspections by the Riverside County Code Enforcement Department to ensure that the use of lead shot is prohibited on the project area.

**Monitoring:** Monitoring shall be done by the Riverside County Building & Safety department and the Planning Department.

**24. Floodplains**

Degree of Suitability in 100-Year Floodplains. As indicated below, the appropriate Degree of Suitability has been checked.

NA - Not Applicable	U - Generally Unsuitable	R - Restricted
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Changes in absorption rates or the rate and amount	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
of surface runoff?				
c) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam (Dam Inundation Area)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Changes in the amount of surface water in any water body?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure S-9 "100- and 500-Year Flood Hazard Zones," Figure S-10 "Dam Failure Inundation Zone," Riverside County Flood Control District Flood Hazard Report/Condition, GIS database

Findings of Fact:

- a) The existing site does not contain any concentrated drainage or substantial grading and would not cause the alteration of any watercourse. The site has also been previously graded and will not cause an increase in runoff, therefore there is no impact.
- b) The existing site will not cause a change in absorption rates or an increase in runoff.
- c) The project site is located in the San Jacinto River floodplain and floodway. However, no housing or permanent structures are proposed with the project and in accordance with 10. Flood 1&4, no RV/trailer shall be considered a permanent structure and shall not remain for more than 180 days and all trailers must be mobile and moveable to ensure the safety of the property and the uses of the hunt club. With the proposed mitigation of the above condition, the projects impacts will be less than significant.
- d) The project does not propose any permanent structures and will not seriously impact the surface water in any body of water, therefore there is no impact.

Mitigation: Condition of Approval 10. Flood 1 and 10. Flood 4, shall restrict the type of RV/trailer and shall restrict the amount of time these trailers can be parked on the site.

Monitoring: Monitoring shall be done by the Riverside County Building & Safety department and the Planning Department.

**LAND USE/PLANNING** Would the project

<b>25. Land Use</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Result in a substantial alteration of the present or planned land use of an area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Affect land use within a city sphere of influence and/or within adjacent city or county boundaries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: RCIP, GIS database, Project Application Materials

Findings of Fact:

- a) The project proposes to permit an existing operation of a hunting club. The Conditional Use Permit applicant is consistent with the Riverside County General Plan and will not result in a

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

substantial alteration of the planned land use in the area. Therefore with the approval of the Conditional Use permit, the impacts will be less than significant.

b) The project is not located in a city sphere or adjacent to a city, therefore there is no impact.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>26. Planning</b>				
a) Be consistent with the site's existing or proposed zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Be compatible with existing surrounding zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be compatible with existing and planned surrounding land uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be consistent with the land use designations and policies of the Comprehensive General Plan (including those of any applicable Specific Plan)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Land Use Element, Staff review, GIS database

Findings of Fact:

- a) The project site's existing zoning classification is Heavy Agriculture (A-2) and the use is consistent with those requirements based on the temporary nature of the project. Pursuant to 10. Flood 1&3, no RV/trailer shall be allowed on the project site for more than 180 days. Therefore the proposed use is of a temporary nature and the impacts will be less than significant.
- b) The proposed project is compatible with the existing and surrounding zoning classifications as adjacent parcels are zoned Open Space – Conservation (OS-C) and Open Space – Conservation Habitat (OS-CH) to the north, west, south, and east.
- c) The proposed project is compatible with the existing and planned surrounding land uses in the area.
- d) The proposed development is consistent with the Open Space – Conservation (OS-C) and Open Space – Conservation Habitat (OS-CH) land use designations.
- e) The proposed project will not disrupt or divide the physical arrangement of an established community as the project site is vacant and adjacent parcels are vacant.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>MINERAL RESOURCES</b> Would the project				
<b>27. Mineral Resources</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or property to hazards from proposed, existing or abandoned quarries or mines?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure OS-5 "Mineral Resources Area"

**Findings of Fact:**

- a) Per RCIP, the project site is located within Mineral Zone MRZ-3; however, no mineral resources have been identified on the project site and there is no historical use of the site or surrounding area for mineral extraction purposes. The project site is also not located in an area classified or designated by the State that would be of value to the region or the residents of the State.
- b) The development of the proposed project will not result in the loss of availability of a locally-important mineral resource recovery site.
- c) The project site is not located adjacent to a State classified or designated area or existing surface mine.
- d) The project does not propose or is located within existing or abandoned quarries or mines.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**NOISE** Would the project result in

**Definitions for Noise Acceptability Ratings**

Where indicated below, the appropriate Noise Acceptability Rating(s) has been checked.

NA - Not Applicable

A - Generally Acceptable

B - Conditionally Acceptable

C - Generally Unacceptable

D - Land Use Discouraged

<b>28. Airport Noise</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport would the project expose people residing or working in the project area to excessive noise levels?				
NA <input checked="" type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input type="checkbox"/> D <input type="checkbox"/>				

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

b) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?

NA  A  B  C  D

Source: Riverside County General Plan Figure S-19 "Airport Locations," County of Riverside Airport Facilities Map

Findings of Fact:

- a) Per the RCIP, the project site is not located within an airport land use plan or within two miles of a public airport or a public use airport that would expose people working in the project site to excessive noise levels.
- b) The project site is not located within the vicinity of a private airstrip that would expose people working in the project site to excessive noise levels.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**29. Railroad Noise**

NA  A  B  C  D

Source: Riverside County General Plan Figure C-1 "Circulation Plan", GIS database, On-site Inspection

Findings of Fact: The project site is not located near an active railroad line. No impacts will occur as a result of the proposed project.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary

**30. Highway Noise**

NA  A  B  C  D

Source: On-site Inspection, Project Application Materials

Findings of Fact: The project is not located near an existing Highway and no noise impacts will occur.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**31. Other Noise**

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
elsewhere?				
b) Create a demand for additional housing, particularly housing affordable to households earning 80% or less of the County's median income?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Affect a County Redevelopment Project Area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Cumulatively exceed official regional or local population projections?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Project Application Materials, GIS database, Riverside County General Plan Housing Element

Findings of Fact:

- a) Implementation of the project will not displace substantial numbers of existing housing as the site is currently vacant and will, therefore, not necessitate the construction of replacement housing elsewhere.
- b) The project will not create any significant demand for housing.
- c) No persons live on the project site, so no displacement of people can result from project implementation.
- d) The project site is not located within a County Redevelopment Project Area, so such designated area can not be impacted.
- e) Based on the nature of the project, it is not forecast to cause a cumulatively significant exceedance of official regional or local population projections.
- f) All required infrastructure is available within existing roadways, either adjacent to or near the project site. Therefore, no major extension of infrastructure, and related growth inducement, will result from implementing the proposed project. No significant population or housing impacts are forecast to occur from project implementation.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**PUBLIC SERVICES** Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

**34. Fire Services**

Source: Riverside County General Plan Safety Element

Findings of Fact: The proposed project will incrementally increase the demand for fire services within Riverside County. However, the project will not require the provision of new or altered government facilities at this time.

This project has been conditioned to comply with the requirements of the Riverside Fire Protection Department and for the payment of standard mitigation fees pursuant to Ordinance No. 659.7.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary.

**35. Sheriff Services**

Source: RCIP

Findings of Fact: The proposed project will incrementally increase the demand for Sheriff's services within Riverside County. However, the project will not require the provision of new or altered government facilities at this time.

This project has been conditioned for the payment of standard mitigation fees pursuant to Ordinance No. 659.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary.

**36. Schools**

Source: San Jacinto Unified School District, GIS database

Findings of Fact: The project does not propose any permanent structures and no building permits will be issued. The project will not generate additional demand for educational services from the school district.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**37. Libraries**

Source: RCIP

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Findings of Fact: The project will not create a significant incremental demand for library services.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

---

**38. Health Services**

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Source: RCIP

Findings of Fact: The proposed project will not create a significant incremental demand for health services. The project will not require the provision of new or altered government facilities at this time.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary

---

**RECREATION**

**39. Parks and Recreation**

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

a) Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

b) Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

c) Is the project located within a C.S.A. or recreation and park district with a Community Parks and Recreation Plan (Quimby fees)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: GIS database, Ord. No. 460, Section 10.35 (Regulating the Division of Land – Park and Recreation Fees and Dedications), Ord. No. 659 (Establishing Development Impact Fees), Parks & Open Space Department Review

Findings of Fact:

- a) The proposed project does not include provisions for recreational facilities so no adverse impact can result from its implementation.
- b) The proposed project is not forecast to cause a significant increase in local population or in the demand for use of offsite existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated.
- c) The proposed development is not located within a County Service Area.

Mitigation: No mitigation measures are necessary.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Monitoring: No monitoring measures are necessary.

**40. Recreational Trails**

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Open Space and Conservation Map for Western County trail alignments

Findings of Fact:

The proposed project does not include the provision of recreational trails. The project will not directly add to the existing demand on local recreational trails. No significant impacts to regional recreational trails are forecast to occur as a result of project implementation.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary.

**TRANSPORTATION/TRAFFIC** Would the project

**41. Circulation**

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Result in inadequate parking capacity?

c) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated road or highways?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

d) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

e) Alter waterborne, rail or air traffic?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

f) Substantially increase hazards to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

g) Cause an effect upon, or a need for new or altered maintenance of roads?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

h) Cause an effect upon circulation during the project's construction?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

i) Result in inadequate emergency access or access to nearby uses?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

j) Conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Source: RCIP

Findings of Fact:

a) The Transportation Department has not required a traffic study for the proposed project. It has been determined that the project is exempt from any traffic study requirements. The project is

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

accessed via a roadway easement that has been reviewed by and found acceptable, therefore the project will have no impact.

- b) The project will include sufficient parking and no special modifications or requirements are required, therefore there is no impact.
- c) The Transportation Department has determined that the project will not exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated road or highways.
- d) The proposed project will not result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks.
- e) The proposed project will not alter any waterborne, rail or air traffic as no such traffic occurs in the project area.
- f) The proposed project will not substantially increase hazards to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment) because no such features or incompatible uses will be cause by project implementation.
- g) The project will not cause an effect upon, or a need for new or altered maintenance of roads.
- h) The proposed project will not cause an effect upon circulation during the project's construction.
- i) The project will not result in inadequate emergency access or access to nearby uses.
- j) The project's implementation will not conflict with adopted policies supporting alternative transportation.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

---

**42. Bike Trails**

Source: RCIP

Findings of Fact: The proposed project does not include the provision of bicycle lanes as part of the project design. No conflicts with the County's General Plan have been identified and no mitigation is required.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary

---

**UTILITY AND SERVICE SYSTEMS** Would the project

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>43. Water</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Department of Environmental Health Review and project application materials

Findings of Fact:

- a) The project is served by an existing well that is sufficient to provide water for the intermittent uses, therefore there is no impact.
- b) There is a sufficient water supply available to serve the project from existing entitlements and resources.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

<b>44. Sewer</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Require or result in the construction of new wastewater treatment facilities, including septic systems, or expansion of existing facilities, the construction of which would cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in a determination by the wastewater treatment provider that serves or may service the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Department of Environmental Health Review

Findings of Fact:

- a) The project consists of RV/trailers that are mobile and shall be self contained with all necessary waste disposal abilities. No new wastewater treatment or dumping stations are proposed with the project, therefore there is no impact.
- b) Since the project is served by portable restrooms and the self contained RV/trailers, there is no impact.

Mitigation: No mitigation measures are necessary.

Monitoring: No monitoring measures are necessary

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>45. Solid Waste</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: RCIP

Findings of Fact: The project will not require or result in the construction of new community utilities or the expansion of existing community utility facilities. The project proposed self contained RV/trailers and shall not require additional services to serve the project.

Mitigation: No mitigation measures are necessary

Monitoring: No monitoring measures are necessary

**MANDATORY FINDINGS OF SIGNIFICANCE**

<b>47.</b> Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare, or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?

Source: Staff review, Project Application Materials

1. Findings of Fact: Implementation of the proposed project would not degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife populations to drop below self sustaining levels, threaten to eliminate a plant or animal community, or reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory. The project has been processed through HANS (HANS 1533). HANS 1533 has determined in a letter addressed to the project proponent on October 16, 2006 that 100% conservation is described for this criteria cell. The project as described herein shall be subject to the conservation determination by HANS 1533 and the RCA letter dated October 4, 2006.

48. Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of other current projects)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Findings of Fact: The proposed project would not result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.

## VI. EARLIER ANALYSES

Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration as per California Code of Regulations, Section 15063 (c) (3) (D). In this case, a brief discussion should identify the following:

Earlier Analyses Used, if any:

Revised: 6/9/08

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1                      USE - PROJECT DESCRIPTION                      RECOMMND

CUP 03464 proposes to permit the operation of a hunting club specifically limited to the southerly two (2) acres of APN 423-050-008, 025, and 423-040-017. The portion of the property outside the Project site is "not a part" of CUP 03464. The CUP 03464 is comprised of the existing 11 RV/Trailer parking spaces with cement patios as described below, an existing 8 foot by 12 foot tool shed, and the existing well that serves the property. The proposed improvements that will occur only on the southerly two (2) acres include 8 additional RV parking spaces, attached to each parking space is an 8 foot x 12 foot cement patio, two (2) 10 foot by 40 foot storage containers, 20 automobile parking spaces, two (2) 7,500 gallon water storage tanks, a trap and skeet facility area, and portable restrooms used only during the 5 month hunting period.

10. EVERY. 2                      USE - HOLD HARMLESS                      RECOMMND

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside (COUNTY) its agents, officers, or employees from any claim, action, or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning CUP03464. The COUNTY will promptly notify the applicant/permittee of any such claim, action, or proceeding against the COUNTY and will cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify, or hold harmless the COUNTY.

10. EVERY. 3                      USE - DEFINITIONS                      RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Conditional Use Permit No. 3464 shall be henceforth defined as follows:

APPROVED EXHIBIT A = Conditional Use Permit No. 3464, Exhibit A, Amended No. 2, dated 12/17/2008.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10. EVERY. 4 USE - 90 DAYS TO PROTEST RECOMMND

The project developer has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of this approval or conditional approval of this project.

BS GRADE DEPARTMENT

10.BS GRADE. 1 USE -GIN INTRODUCTION RECOMMND

Improvements such as grading, filling, over excavation and recompaction, and base or paving which require a grading permit are subject to the included Building and Safety Department Grading Division conditions of approval.

10.BS GRADE. 3 USE-G1.2 OBEY ALL GDG REGS RECOMMND

All grading shall conform to the California Building Code, Ordinance 457, and all other relevant laws, rules, and regulations governing grading in Riverside County and prior to commencing any grading which includes 50 or more cubic yards, the applicant shall obtain a grading permit from the Building and Safety Department.

10.BS GRADE. 4 USE-G1.3 DISTURBS NEED G/PMT RECOMMND

Ordinance 457 requires a grading permit prior to clearing, grubbing, or any top soil disturbances related to construction grading.

10.BS GRADE. 5 USE-G1.6 DUST CONTROL RECOMMND

All necessary measures to control dust shall be implemented by the developer during grading. PM10 plan may be required at the time a grading permit is issued.

10.BS GRADE. 6 USE-G2.3SLOPE EROS CL PLAN RECOMMND

Erosion control - landscape plans, required for manufactured slopes greater than 3 feet in vertical height, are to be signed by a registered landscape architect and bonded per the requirements of Ordinance 457 (refer to dept. form 284-47).

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.BS GRADE. 7                   USE-G2.5 2:1 MAX SLOPE RATIO                   RECOMMND

Graded slopes shall be limited to a maximum steepness ratio of 2:1 (horizontal to vertical) unless otherwise approved.

10.BS GRADE. 8                   USE-G2.6SLOPE STABL'TY ANLYS                   RECOMMND

A slope stability report shall be submitted and approved by the County Geologist for all proposed cut or fill slopes steeper than 2:1 (horiz. to vert.) or over 30' in vertical height - unless addressed in a previous report.

10.BS GRADE. 9                   USE-G2.7DRNAGE DESIGN Q100                   RECOMMND

All grading and drainage shall be designed in accordance with Riverside County Flood Control & Water Conservation District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

Additionally, the Building and Safety Department's conditional approval of this application includes an expectation that the conceptual grading plan reviewed and approved for it complies or can comply with any WQMP (water Quality Management Plan) required by Riverside County Flood Control & Water Conservation District.

10.BS GRADE. 10                  USE-G2.8MINIMUM DRNAGE GRADE                  RECOMMND

Minimum drainage grade shall be 1% except on portland cement concrete where .35% shall be the minimum.

10.BS GRADE. 11                  USE-G2.9DRNAGE & TERRACING                  RECOMMND

Provide drainage facilities and terracing in conformance with the California Building Code's chapter on "GRADING".

10.BS GRADE. 12                  USE-G2.10 SLOPE SETBACKS                  RECOMMND

Observe slope setbacks from buildings & property lines per the California Building Code as amended by Ordinance 457.

10.BS GRADE. 13                  USE-G2.23 OFFST. PAVED PKG                  RECOMMND

All offstreet parking areas which are conditioned to be paved shall conform to Ordinance 457 base and paving design and inspection requirements.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.BS GRADE. 14                   USE-G.3.1NO B/PMT W/O G/PMT                   RECOMMND

Prior to the issuance of any building permit, the property owner shall obtain a grading permit and/or approval to construct from the Grading Division of the Building and Safety Department.

10.BS GRADE. 15                   USE-G3.3RETAINING WALLS                   RECOMMND

Lots which propose retaining walls will require separate permits. They shall be obtained prior to the issuance of any other building permits - unless otherwise approved by the Building and Safety Director. The walls shall be designed by a Registered Civil Engineer - unless they conform to the County Standard Retaining Wall designs shown on the Building and Safety Department form 284-197.

10.BS GRADE. 17                   USE-G4.1E-CL 4:1 OR STEEPER                   RECOMMND

Plant & irrigate all manufactured slopes steeper than a 4:1 (horizontal to vertical) ratio and 3 feet or greater in vertical height with grass or ground cover; slopes 15 feet or greater in vertical height shall be planted with additional shrubs or trees or as approved by the Building & Safety Department's Erosion Control Specialist.

10.BS GRADE. 18                   USE-G4.3PAVING INSPECTIONS                   RECOMMND

The developer/applicant shall be responsible for obtaining the paving inspections required by Ordinance 457.

10.BS GRADE. 20                   USE-G1.4 NPDES/SWPPP                   RECOMMND

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.BS GRADE. 20 USE-G1.4 NPDES/SWPPP (cont.) RECOMMND

For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

E HEALTH DEPARTMENT

10.E HEALTH. 1 USE - NO RESTROOMS/FACILITIES RECOMMND

If permanent restroom or sanitation facilities are required, the Department of Environmental Health is to be contacted for specific recommendations regarding water and sewerage. (Currently the RV usage for overnight stay is for self contained units only. ( No potable water or waste disposal at this time).

EPD DEPARTMENT

10.EPD. 1 MSHCP UWIG COMPLIANCE RECOMMND

The project shall comply with the Western Riverside Multiple-Species Habitat Conservation Plan (MSHCP) Sections 6.1.4 Urban/Wildlands Interface Guidelines (UWIG) and 7.5.3 Construction Guidelines. Areas of compliance include, but are not limited to:

1) Brush management to reduce fuel loads to protect urban uses (fuel modification zones) will occur only in the boundaries of the development. Fuel modification zones will not encroach into the Western Riverside County Multiple Species Habit Conservation Plan (MSHCP) Conservation Area(s) and/or Public/Quasi-Public (PQP) Lands.

2) Night lighting shall be directed away from the MSHCP Conservation Area(s) and/or PQP Lands. Shielding shall be incorporated in project designs to ensure ambient lighting in the MSHCP Conservation Area(s) and/or PQP Lands do not increase.

3) All landscaping shall conform to the MSHCP, Section 6 in Table 6.2. on pages 6-44 through 6-64.

4) Manufactured slopes associated with proposed site

03/24/10

RECOMMND

development shall not extend into the MSHCP Conservation Area(s) and/or PQP Lands.

5)Noise levels shall be in compliance with County Ordinance No. 847.

6)All drainages shall be kept clear of toxins and ensure that the quantity and quality of runoff discharged from the site are not adversely altered from existing conditions.

7)New roads or trails shall not extend into the MSHCP Conservation Area(s) and/or PQP Lands.

8)Fencing, which restricts the movement of wildlife, shall not be allowed in the MSHCP Conservation Area(s) and/or PQP Lands. Prohibited fencing includes, but is not limited to, chainlink, barbed wire, block wall, and solid wood.

FIRE DEPARTMENT

10.FIRE. 1 USE -CONDITIONS

RECOMMND

ROAD SIGNS SHALL BE INPLACE BY 12/31/09.

GRAVEL ON ROAD SHALL BE DONE BY 3/31/10.

15,000 GALLON WATER TANK WITH FIRE KIT SHALL BE INSTALLED BY 3/31/10.

R.V.'S SHALL BE ROAD WORTHY AT ALL TIMES.

100 FOOT VEGETATION CLEARANCE SHALL BE MAINTAINED AROUND ALL STRUCTURES AND R.V.'S AT ALL TIMES.

NO RV'S OR STRUCTURES WILL BE ALLOWED UNTIL GRAVEL ROAD SURFACE AND WATER STORAGE TANK ARE IN PLACE AND APPROVED AND INSPECTED BY THE RIVERSIDE COUNTY FIRE DEPARTMENT.

10.FIRE. 3 USE-#25-GATE ENTRANCES

RECOMMND

Any gate providing access from a road to a driveway shall be located at least 35 feet from the roadway and shall open to allow a vehicle to stop without obstructing traffic on the road. Where a one-way road with a single traffic lane provides access to a gate entrance, a 38 foot turning radius shall be used.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.FIRE. 4

USE-#88A-AUTO/MAN GATES

RECOMMND

Gate(s) shall be automatic operated, minimum 20 feet in width, with a setback of 35 feet from face of curb/flow line. Gate access shall be equipped with a rapid entry system. Plans shall be submitted to the Fire Department for approval prior to installation. Automatic/manual gate pins shall be rated with shear pin force, not to exceed 30 foot pounds. Automatic gates shall be equipped with emergency backup power. Gates activated by the rapid entry system shall remain open until closed by the rapid entry system.

FLOOD RI DEPARTMENT

10.FLOOD RI. 1

USE FLOOD HAZARD REPORT

RECOMMND

CUP 03464 is a proposal to continue the operation of a duck hunting club with ancillary clay target shooting and Recreational Vehicle (RV) usage for overnight stay. The property is located northerly of Ramona Expressway, southerly of Gilman Springs Road and easterly of Davis Road.

The site is located within the San Jacinto River floodplain and floodway. The site is located in the 100-year Zone A1 floodplain limits as delineated on Panel No. 06065C0790G and Panel No. 06065C1455G of the Flood Insurance Rate Maps issued in conjunction with the National Flood Insurance Program administered by the Federal Emergency Management Agency (FEMA).

All of the proposed extended RV spaces are located within the FEMA floodplain/floodway. According to Flood Plain Management Ordinance 458, an RV within a mapped FEMA floodplain/floodway is considered temporary if it is, i) built on a single chassis, ii) 400 square feet or less iii) designed to be self propelled or permanently towable by a light duty truck and, iv) designed for temporary uses like recreation, camping, travel and seasonal. Therefore, if a vehicle cannot meet any of these criteria, for example, it has to be moved by a commercial semi-truck, it would then not qualify as an RV.

If a vehicle that qualifies as an RV under the above definition is onsite for fewer than 180 days, or is fully licensed and ready for highway use, then no floodproofing is required. New permanent RVs and/or structures are unacceptable. No grading or building permits for any new

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.FLOOD RI. 1 USE FLOOD HAZARD REPORT (cont.) RECOMMND

structures shall be issued on this property.

10.FLOOD RI. 2 USE FEMA PANEL NO RECOMMND

CUP 03464 is within the 100-year Zone A1 flood plain/floodway limits as delineated on Panel No. 06065C0790G and Panel No. 06065C1455G of the Flood Insurance Rate Maps issued in conjunction with the National Flood Insurance Program administered by the Federal Emergency Management Agency (FEMA).

10.FLOOD RI. 3 USE RV'S IN THE FLOODPLAIN RECOMMND

In accordance with Ordinance 458, any RV placed within a mapped FEMA floodplain shall be of a 'temporary' nature. An RV is only considered temporary if it meets all of the following criteria: i) built on a single chassis, ii) 400 square feet or less iii) designed to be self propelled or permanently towable by a light duty truck and, iv) designed for temporary uses like recreation, camping, travel and seasonal. If a vehicle meets these criteria as a 'temporary' RV and is onsite for fewer than 180 days or is fully licensed and ready for highway use, then no floodproofing is required.

10.FLOOD RI. 4 USE NO PERMANENT STRUCTURES RECOMMND

New permanent RVs and structures are unacceptable.

10.FLOOD RI. 5 USE NO GRADING/BUILDING PERMIT RECOMMND

No grading or building permits shall be issued on this site.

PLANNING DEPARTMENT

10.PLANNING. 40 USE - GEOLOGIST'S COMMENTS RECOMMND

AS THIS ENTITLEMENT DOES NOT CONTEMPLATE STRUCTURES FOR HUMAN OCCUPANCY, NO GEOLOGIC STUDY IS REQUIRED AT THIS TIME. IF, IN THE FUTURE, STRUCTURES FOR HUMAN OCCUPANCY ARE REQUIRED, A COMPREHENSIVE GEOLOGIC REPORT SHALL BE REQUIRED AS DESCRIBED BELOW AND AS DESCRIBED ELSEWHERE IN THIS CONDITIONS SET:

A geologic/geotechnical investigation report. The

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.PLANNING. 40 USE - GEOLOGIST'S COMMENTS (cont.) RECOMMND

investigation shall address geologic hazards including, but not necessarily limited to, slope stability, rock fall hazards, landslide hazards, surface fault rupture, fissures, liquefaction potential, collapsible and/or expansive soils, subsidence, wind and water erosion, debris flows, and groundshaking potential. The report shall be reviewed and approved by the County Engineering Geologist.

10.PLANNING. 41 MAP - IF HUMAN REMAINS FOUND RECOMMND

If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the Riverside County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resource Code Section 5097.98(b) remains shall be left in place and free from disturbance until a final decision as to the treatment and disposition has been made. If the Riverside County Coroner determines the remains to be Native American, the Native American Heritage Commission shall be contacted within a reasonable timeframe. Subsequently, the Native American Heritage Commission shall identify the "most likely descendant." The most likely descendant shall then make recommendations and engage in consultation concerning the treatment of the remains as provided in Public Resources Code Section 5097.98.

10.PLANNING. 42 MAP - INADVERTENT ARCHAEO FIND RECOMMND

If during ground disturbance activities, unique cultural resources are discovered that were not assessed by the archaeological report(s) and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. Unique cultural resources are defined, for this condition, as being multiple artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to its sacred or cultural importance.

1. All ground disturbance activities within 100 feet of the discovered cultural resources shall be halted until a meeting is convened between the developer, the archaeologist, the Native American tribal representative and the Planning Director to discuss the significance of the find.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.PLANNING. 42                   MAP - INADVERTENT ARCHAEO FIND (cont.)                   RECOMMND

2. At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal representative and the archaeologist, a decision shall be made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc.) for the cultural resources.

3. Grading of further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate mitigation.

10.PLANNING. 43                   USE - COMPLY WITH ORD./CODES                   RECOMMND

The development of these premises shall comply with the standards of Ordinance No. 348 and all other applicable Riverside County ordinances and State and Federal codes.

The development of the premises shall conform substantially with that as shown on APPROVED EXHIBIT A, unless otherwise amended by these conditions of approval.

10.PLANNING. 44                   USE - FEES FOR REVIEW                   RECOMMND

Any subsequent submittals required by these conditions of approval, including but not limited to grading plan, building plan or mitigation monitoring review, shall be reviewed on an hourly basis (research fee), or other such review fee as may be in effect at the time of submittal, as required by Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 45                   USE - LIGHTING HOODED/DIRECTED                   RECOMMND

Any outside lighting shall be hooded and directed so as not to shine directly upon adjoining property or public rights-of-way.

10.PLANNING. 46                   USE - COLORS & MATERIALS                   RECOMMND

Building colors and materials shall be in substantial conformance with those shown on APPROVED EXHIBIT B.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.PLANNING. 51                   USE - NO OUTDOOR ADVERTISING                   RECOMMND

No outdoor advertising display, sign or billboard (not including on-site advertising or directional signs) shall be constructed or maintained within the property subject to this approval.

10.PLANNING. 54                   USE - PHASE BY NEW PERMIT                   RECOMMND

Construction of this project may be done progressively in phases provided a plan is submitted with appropriate fees to the Planning Department and approved prior to issuance of any building permits. Phasing approval shall not apply to the requirements of any agency other than the Planning Department unless so indicated by the affected agency.

10.PLANNING. 61                   USE - NO RESIDENT OCCUPANCY                   RECOMMND

No permanent occupancy shall be permitted within the property approved under this conditional use permit as a principal place of residence except a caretaker's dwelling. No person, except a caretaker and members of the caretaker's family, shall use the premises as a permanent mailing address nor be entitled to vote using an address within the premises as a place of residence.

10.PLANNING. 62                   USE - MAINTAIN LICENSING                   RECOMMND

At all times during the conduct of the permitted use individuals participating in hunting or similar activities shall maintain and keep in effect valid licensing approval from the California Department of Fish and Game, or equivalent agency as provided by law when required by that agency. Should such licensing be denied, expire or lapse at any time in the future, those individuals without proper licensing, may not participate in such activities.

10.PLANNING. 63                   USE - EXTERIOR NOISE LEVELS                   RECOMMND

Exterior noise levels produced by any use allowed under this permit, including, but not limited to, any outdoor public address system, shall not exceed 45 db(A), 10-minute LEQ, as measured from the property boundaries. In the event noise exceeds this standard, the permittee or the permittee's successor-in-interest shall take the necessary steps to remedy the situation, which may include discontinued operation of the facilities.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.PLANNING. 64 USE - NOISE MONITORING REPORTS RECOMMND

The permit holder may be required to submit periodic noise monitoring reports as determined by the Department of Building and Safety as part of a code enforcement action. Upon written notice from the Department of Building and Safety requiring such a report, the permittee or the permittee's successor-in-interest shall prepare and submit an approved report within thirty (30) calendar days to the Department of Building and Safety, unless more time is allowed through written agreement by the Department of Building and Safety. The noise monitoring report shall be approved by the Office of Industrial Hygiene of the Health Service Agency (the permittee or the permittee's successor-in-interest shall be required to place on deposit sufficient funds to cover the costs of this approval prior to commencing the required report).

10.PLANNING. 66 USE - CAUSES FOR REVOCATION RECOMMND

In the event the use hereby permitted under this permit, a) is found to be in violation of the terms and conditions of this permit, b) is found to have been obtained by fraud or perjured testimony, or c) is found to be detrimental to the public health, safety or general welfare, or is a public nuisance, this permit shall be subject to the revocation procedures.

10.PLANNING. 72 USE - MT PALOMAR LIGHTING AREA RECOMMND

Within the Mt. Palomar Special Lighting Area, as defined in Ordinance No. 655, low pressure sodium vapor lighting or overhead high pressure sodium vapor lighting with shields or cutoff luminaires, shall be utilized.

10.PLANNING. 79 USE - BUSINESS LICENSING RECOMMND

Every person conducting a business within the unincorporated area of Riverside County, as defined in Riverside County Ordinance No. 857, shall obtain a business license. For more information regarding business registration, contact the Business Registration and License Program Office of the Building and Safety Department at [www.rctlma.org.buslic](http://www.rctlma.org.buslic).

10.PLANNING. 82

USE - RV PARK STANDARDS

RECOMMND

The project shall be consistent with the following development standards contained in Ordinance 348, Article XIXd, section 19.98 - Development Standards for Vacation Recreational Vehicle Parks. Accessory structures:

(1) No accessory structures including, but not limited to, ramadas, cabanas, and storage structures, shall be constructed on individual recreational vehicle spaces except patio covers may be constructed provided the following criteria are met and maintained:

a. The patio covers are located or constructed and maintained by the park owner must be temporary in nature.

b. The patio covers are self-supporting and in no way permanently attached to a recreational vehicle.

c. Any patio cover or fencing that obstructs the removal of a trailer from a space shall be equipped with bolts or otherwise designed to facilitate removal of the trailers with not more than 30 minutes of preparation time.

(2) All awnings shall be supported off the individual recreational vehicle, shall remain attached to the recreational vehicle at all times, and shall not be connected in any way to a permanent structure. Free standing awnings shall not be permitted.

Recreational vehicles parked on the site shall be in a roadworthy condition. A roadworthy condition is hereby defined as: equipped with valid registration tags, supported by an axle, equipped with operable brake and tail lights, having access to tires that will allow the trailer to be driven from the site with not more than 30 minutes of preparation time.

During periods of non-occupancy, RVs shall be permitted to remain on-site.

10.PLANNING. 83

USE - LC LANDSCAPE REQUIREMENT

RECOMMND

Prior to the installation or rehabilitation of 2,500 square feet or more of landscaped area, the developer/ permit holder/landowner shall:

1) Submit landscape and irrigation plans to the County

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

10.PLANNING. 83 USE - LC LANDSCAPE REQUIREMENT (cont.) RECOMMND

Planning Department for review and approval. Such plans shall be submitted as a Minor Plot Plan subject to the appropriate fees and inspections as determined by the County, comply with Ordinance No. 859 and be prepared in accordance with the County of Riverside Guide to California Friendly Landscaping. Emphasis shall be placed on using plant species that are drought tolerant and low water using.

- 2) Ensure all landscape and irrigation plans are in conformance with the APPROVED EXHIBITS;
- 3) Ensure all landscaping is provided with a weather based irrigation controller(s) as defined by County Ordinance No. 859;
- 4) Ensure that irrigation plans which may use reclaimed water conform with the requirements of the local water purveyor; and,
- 5) Ensure that all common area landscaping is healthy, free of weeds, disease and pests and all plant materials are maintained in a viable growth condition.

The developer/permit holder is responsible for the maintenance, viability and upkeep of all slopes, landscaped areas, and irrigation systems until the successful completion of the Installation Inspection or those operations become the responsibility of the individual property owner(s), a property owner's association, or any other successor-in-interest, whichever occurs later.

10.PLANNING. 84 USE - LC LANDSCAPE SPECIES RECOMMND

The developer/ permit holder/landowner shall use the County of Riverside's California Friendly Plant List when making plant selections. The list can be found at the following web site  
<http://www.rctlma.org/planning/content/devproc/landscape/landscape.html> . Use of plant material with a "low" or "very low" water use designation is strongly encouraged.

10.PLANNING. 85 USE- LEAD SHOT PROHIBITION RECOMMND

Lead Shot shall be prohibited for any and all hunting and/or practice activities, which include, but are not limited to trap and skeet activities, within the entire contiguous ownership of the Ramona Duck Club as shown on sheet two (2) of APPROVED EXHIBIT A and as further detailed by APN's: 423-050-008, -025, and 423-040-017.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

10. GENERAL CONDITIONS

TRANS DEPARTMENT

10.TRANS. 1 USE - TS/EXEMPT

RECOMMND

The Transportation Department has not required a traffic study for the subject project. The Transportation Department has determined that the project is exempt from traffic study requirements.

20. PRIOR TO A CERTAIN DATE

EPD DEPARTMENT

20.EPD. 1 MSHCP CONSERVATION EASEMENT

RECOMMND

Within the first 6 months of approval and prior to use, building permit issuance, or grading permit issuance, which ever comes first, as agreed to by the APPLICANT through the Habitat Acquisition Negotiation Strategy (HANS file # 1533), established by the Western Riverside County Multiple Species Habitat Conservation Plan, a conservation easement over the entire project area boundary as shown on CUP 3464 AMENDED #2 EXHIBIT dated 12/17/08, shall be offered to the Western Riverside County Regional Conservation Authority (RCA), as County direct or authorized and accepted by the RCA. Prior to the acceptance of the conservation easement by the RCA, the RCA shall obtain a preliminary title report and conduct a Phase I Environmental Site Assessment for the area covered by the conservation easement. The applicant shall provide access to the project site to the RCA and their agents for the purposes of conducting the Phase I Environmental Site Assessment. The RCA shall have sole and absolute discretion concerning the approval and acceptance of the information contained in the preliminary title report and Phase I Environmental Site Assessment. Title to the property covered by the conservation easement shall be free and clear of all liens, encumbrances, easements, roads and leases (recorded and unrecorded) except those lien, encumbrances, easements, and leases, which are the sole discretion of the RCA.

PLANNING DEPARTMENT

20.PLANNING. 1 USE - EXPIRATION DATE-CUP

RECOMMND

This approval shall be used within two (2) years of approval date; otherwise, it shall become null and void

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

20. PRIOR TO A CERTAIN DATE

20.PLANNING. 1                   USE - EXPIRATION DATE-CUP (cont.)                   RECOMMND

and of no effect whatsoever. By use is meant the beginning of substantial construction contemplated by this approval within a two (2) year period which is thereafter diligently pursued to completion or o the actual occupancy of existing buildings or land under the terms of the authorized use. Prior to the expiration of the two year period, the permittee may request a one (1) year extension of time request in which to use this plot plan. A maximum of three one-year extension of time requests shall be permitted. Should the time period established by any of the extension of time requests lapse, or should all three one-year extensions be obtained and no substantial construction or use of this plot plan be initiated within five (5) years of the effective date of the issuance of this plot plan, this plot plan shall become null and void.

20.PLANNING. 3                   USE - REVIEW OPERATION HOURS                   RECOMMND

One (1) year after issuance of occupancy permit the Planning Director and the Director of Building and Safety may review this permit to consider the hours of operation. If significant complaints have been received regarding noise and nuisance, the hours of operation of the private hunt club may be further restricted.

20.PLANNING. 6                   USE - EXISTING STRUCTURE CHECK                   RECOMMND

WITHIN SIXTY (60) DAYS OF THE EFFECTIVE DATE OF THIS PERMIT, the permittee or the permittee's successors-in-interest shall apply to the Building and Safety Department for all necessary permits, including the submission of all required documents and fees for any plan check review as determined by the Director of the Department of Building and Safety, to ensure that all existing buildings, structures and uses are in compliance with Ordinance No. 348 and Ordinance No. 457 and the conditions of approval of this permit.

20.PLANNING. 7                   USE - LIFE OF PERMIT                   RECOMMND

Conditional Use Permit No. 3464 shall remain valid and ineffect, subject to the Conditions of Approval contained herein and all applicable Riverside County Ordinances and Policies, unless the subject permit is revoked by the County of Riverside.

20. PRIOR TO A CERTAIN DATE

20.PLANNING. 8 USE - CLUB BY-LAWS

RECOMMND

Within ninety (90) days of the approval of this permit, the Hunt Club shall provide by-laws and other policy documents, agreed to by all members of the Club, restricting the use of lead shot in the trap and skeet area of the proposed project. The documents shall be submitted to the Planning Department for review and approval prior to any trap and skeet use on the project site.

20.PLANNING. 9 USE-HRLY FEE LEAD SHOT INSPCT

RECOMMND

No less than 360 days from the effective date of CUP 3464, the applicant, owner, and/or any successor-in-interest shall contact the Riverside County Planning Department and shall deposit an Hourly Rate Fee for no less than two (2) hours of Code Enforcement hourly time pursuant to Ord. 725, and to establish an inspection date and time to confirm that the use of Lead Shot is effectively prohibited as detailed at Condition of Approval 20 Planning..10

20.PLANNING. 10 USE- LEAD SHOT INSPECTION

RECOMMND

No less than 360 days from the effective date of CUP 3464 and for an interval of 360 from the date of the first inspection, terminating at the expiration and/or revocation of CUP3464, the applicant, owner, and/or any successor-in-interest shall contact the Riverside County Code Enforcement Department to schedule an inspection of hunting and shooting practice activities which include, but are not limited to trap and skeet activities. Said inspection by the Riverside County Code Enforcement Department shall verify that the use of Lead Shot is prohibited and not in use for any hunting and/or practice activities as defined herein. The Director of Code Enforcement shall report in writing the findings of said inspection no less than 30-days from the date the inspection took place.

60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1 USE-G2.1 GRADING BONDS

RECOMMND

Grading in excess of 199 cubic yards will require performance security to be posted with the Building and Safety Department. Single Family Dwelling units graded one

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 1                   USE-G2.1 GRADING BONDS (cont.)                   RECOMMND

lot per permit and proposing to grade less than 5,000 cubic yards are exempt.

60.BS GRADE. 2                   USE-G2.3SLOPE EROS CL PLAN                   RECOMMND

Erosion control - landscape plans, required for manufactured slopes greater than 3 feet in vertical height, are to be signed by a registered landscape architect and bonded per the requirements of Ordinance 457, see form 284-47.

60.BS GRADE. 3                   USE-G2.4GEOTECH/SOILS RPTS                   RECOMMND

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department's Grading Division for review and approval prior to issuance of a grading permit.

All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.\*

\*The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

60.BS GRADE. 4                   USE-G2.7DRNAGE DESIGN Q100                   RECOMMND

All grading and drainage shall be designed in accordance with Riverside County Flood Control & Water Conservation District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

Additionally, the Building and Safety Department's conditional approval of this application includes an expectation that the conceptual grading plan reviewed and approved for it complies or can comply with any WQMP (water Quality Management Plan) required by Riverside County Flood Control & Water Conservation District.

Parcel: 425-050-025

60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 7 USE-G2.15NOTRD OFFSITE LTR

RECOMMND

A notarized letter of permission, from the affected property owners or easement holders, is required for any proposed off site grading.

60.BS GRADE. 9 USE-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

60.BS GRADE. 10 USE IMPORT/EXPORT

RECOMMND

In instances where a grading plan involves import or export, prior to obtaining a grading permit, the applicant shall have obtained approval for the import/export location from the Building and Safety department. If an Environmental Assessment, prior to issuing a grading permit, did not previously approve either location, a Grading Environmental Assessment shall be submitted to the Planning Director and the Environmental Programs Director for review and comment and to the Building and Safety Department Director for approval. Additionally, if the movement of import/export occurs using county roads, review and approval of the haul routes by the Transportation Department will be required.

Parcel: 425-050-025

60. PRIOR TO GRADING PRMT ISSUANCE

EPD DEPARTMENT

60.EPD. 1 MSHCP CONSERVATION EASEMENT

RECOMMND

Prior to use, building permit issuance, or grading permit issuance, which ever comes first, as agreed to by the Applicant through the Habitat Acquisition Negotiation Strategy (HANS file # 1533), established by the Western Riverside County Multiple Species Habitat Conservation Plan, a conservation easement over the entire project area boundary as shown on the CUP 3464 AMENDED #2 Exhibit dated 12/17/08, shall be offered to the Western Riverside County Regional Conservation Authority (RCA), as County directs or authorizes and accepted by the RCA. Prior to the acceptance of the conservation easement by the RCA, the RCA shall obtain a preliminary title report and conduct a Phase 1 Environmental Site Assessment for the area covered by the conservation easement. The applicant shall provide access to the project site to the RCA and their agents for purposes of conducting the Phase 1 Environmental Site Assessment. The RCA shall have sole and absolute discretion concerning approval and acceptance of the information contained in the preliminary title report and Phase 1 Environmental Assessment. Title to the property covered by the conservation easement shall be free and clear of all liens, encumbrances, easements, roads and leases (recorded or unrecorded) except those liens, encumbrances, easements and leases, which are the sole discretion of the RCA.

FLOOD RI DEPARTMENT

60.FLOOD RI. 1 USE NO GRADING/BUILDING PERMIT

RECOMMND

No grading or building permits shall be issued on this site.

PLANNING DEPARTMENT

60.PLANNING. 19 USE - GEOLOGIC STUDY

RECOMMND

PRIOR TO ISSUANCE OF GRADING PERMITS (IF GRADING IS FOR THE PURPOSE OF PLACING STRUCTURES FOR HUMAN OCCUPANCY ON THIS SITE), THE FOLLOWING SPECIAL GEOLOGIC STUDIES SHALL BE SUBMITTED TO AND APPROVED BY THE COUNTY GEOLOGIST:

A geologic/geotechnical investigation report. The investigation shall address geologic hazards including, but not necessarily limited to, slope stability, rock fall

hazards, landslide hazards, surface fault rupture, fissures, liquefaction potential, collapsible and/or expansive soils, subsidence, wind and water erosion, debris flows, and groundshaking potential. The report shall be reviewed and approved by the County Engineering Geologist.

60.PLANNING. 31 USE - FEE STATUS RECOMMND

Prior to the issuance of grading permits for Conditional Use Permit No. 3464, the Planning Department shall determine the status of the deposit based fees. If the fees are in a negative status, the permit holder shall pay the outstanding balance.

60.PLANNING. 32 USE - PLNTLOGST RETAINED RECOMMND

Prior to issuance of grading permits, a qualified paleontologist shall be retained by the developer for consultation and comment on the proposed grading with respect to potential paleontological impacts. Should the paleontologist find the potential is high for impact to significant resources, a pre-grade meeting between the paleontologist and the excavation and grading contractor shall be arranged. When necessary, the paleontologist or representative shall have the authority to temporarily divert, redirect, or halt grading activity to allow recovery of fossils. The developer shall submit the name, telephone number and address of the retained paleontologist to the Planning Department.

The paleontologist shall submit in writing to the Planning Department the results of the initial consultation and the details of the fossil recovery plan if recovery was deemed necessary. The written results shall be submitted prior to issuance of grading permit.

RECOMMND

Prior to use, building permit issuance or grading permit issuance, which ever comes first, as agreed to by the Applicant through the Habitat Acquisition Negotiation Strategy (HANS file # 1533), established by the Western Riverside County Multiple Species Habitat Conservation Plan, a conservation easement over the entire project area boundary as shown on the CUP 3464 AMENDED #2 Exhibit dated 12/17/08, shall be offered to the Western Riverside County Regional Conservation Authority (RCA), as County directs or authorizes and accepted by the RCA. Prior to the acceptance of the conservation easement by the RCA, the RCA shall obtain a preliminary title report and conduct a Phase 1 Environmental Site Assessment for the area covered by the conservation easement. The applicant shall provide access to the project site to the RCA and their agents for purposes of conducting the Phase 1 Environmental Site Assessment. The RCA shall have sole and absolute discretion concerning approval and acceptance of the information contained in the preliminary title report and Phase 1 Environmental Assessment. Title to the property covered by the conservation easement shall be free and clear of all liens, encumbrances, easements, roads and leases (recorded or unrecorded) except those liens, encumbrances, easements and leases, which are the sole discretion of the RCA.

FIRE DEPARTMENT

80.FIRE. 1 USE-#17A-BLDG PLAN CHECK \$

RECOMMND

Building Plan check deposit base fee of \$1,056.00, shall be paid in a check or money order to the Riverside County Fire Department after plans have been approved by our office.

FLOOD RI DEPARTMENT

80.FLOOD RI. 1 USE NO GRADING/BUILDING PERMIT

RECOMMND

No grading or building permits shall be issued on this site.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

80. PRIOR TO BLDG PRMT ISSUANCE

PLANNING DEPARTMENT

80.PLANNING. 45                   USE - GEOLOGIC STUDY                   RECOMMND

PRIOR TO ISSUANCE OF BUILDING PERMITS (IF STRUCTURES FOR HUMAN OCCUPANCY), THE FOLLOWING SPECIAL GEOLOGIC STUDIES SHALL BE SUBMITTED TO AND APPROVED BY THE COUNTY GEOLOGIST:

A geologic/geotechnical investigation report. The investigation shall address geologic hazards including, but not necessarily limited to, slope stability, rock fall hazards, landslide hazards, surface fault rupture, fissures, liquefaction potential, collapsible and/or expansive soils, subsidence, wind and water erosion, debris flows, and groundshaking potential. The report shall be reviewed and approved by the County Engineering Geologist.

80.PLANNING. 48                   USE - CONFORM TO ELEVATIONS                   RECOMMND

Elevations of all buildings and structures submitted for building plan check approval shall be in substantial conformance with the elevations shown on APPROVED EXHIBIT B.

80.PLANNING. 50                   USE - ROOF EQUIPMENT SHIELDING                   RECOMMND

Roof mounted equipment shall be shielded from ground view. Screening material shall be subject to Planning Department approval.

80.PLANNING. 62                   USE - SCHOOL MITIGATION                   RECOMMND

Impacts to the San Jacinto Unified School District shall be mitigated in accordance with California State law.

80.PLANNING. 65                   USE - LIGHTING PLANS                   RECOMMND

All parking lot lights and other outdoor lighting shall be shown on electrical plans submitted to the Department of Building and Safety for plan check approval and shall comply with the requirements of Riverside County Ordinance No. 655 and the Riverside County Comprehensive General Plan.

80.PLANNING. 66                   USE - FEE STATUS                   RECOMMND

Prior to issuance of building permits for Conditional Use Permit No. 3464, the Planning Department shall determine

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

80. PRIOR TO BLDG PRMT ISSUANCE

80.PLANNING. 66 USE - FEE STATUS (cont.) RECOMMND

the status of the deposit based fees for project. If the case fees are in a negative state, the permit holder shall pay the outstanding balance.

80.PLANNING. 68 USE - LANDSCAPING SECURITIES RECOMMND

Performance securities, in amounts to be determined by the Director of Building and Safety to guarantee the installation of plantings, irrigation system, walls and/or fences, in accordance with the approved plan, shall be filed with the Department of Building and Safety. Securities may require review by County Counsel and other staff. Permit holder is encouraged to allow adequate time to ensure that securities are in place. The performance security may be released one year after structural final, inspection report, and the One-Year Post Establishment report confirms that the planting and irrigation components have been adequately installed and maintained. A cash security shall be required when the estimated cost is \$2,500.00 or less.

90. PRIOR TO BLDG FINAL INSPECTION

BS GRADE DEPARTMENT

90.BS GRADE. 1 USE\*G4.3PAVING INSPECTIONS RECOMMND

The developer/applicant shall be responsible for obtaining the paving inspections required by Ordinance 457.

FIRE DEPARTMENT

90.FIRE. 1 USE-#45-FIRE LANES RECOMMND

The applicant shall prepare and submit to the Fire Department for approval, a site plan designating required fire lanes with appropriate lane painting and/or signs.

90.FIRE. 2 USE-#27-EXTINGUISHERS RECOMMND

Install portable fire extinguishers with a minimum rating of 2A-10BC and signage. Fire Extinguishers located in public areas shall be in recessed cabinets mounted 48" (inches) to center above floor level with maximum 4" projection from the wall. Contact Fire Department for proper placement of equipment prior to installation.

CONDITIONAL USE PERMIT Case #: CUP03464

Parcel: 425-050-025

90. PRIOR TO BLDG FINAL INSPECTION

PLANNING DEPARTMENT

90.PLANNING. 8 USE - ROOF EQUIPMENT SHIELDING RECOMMND

Roof-mounted equipment shall be shielded from ground view. Screening material shall be subject to Planning Department approval.

90.PLANNING. 11 USE - UTILITIES UNDERGROUND RECOMMND

All utilities, except electrical lines rated 33 kV or greater, shall be installed underground. If the permittee provides to the Department of Building and Safety and the Planning Department a definitive statement from the utility provider refusing to allow underground installation of the utilities they provide, this condition shall be null and void with respect to that utility.

90.PLANNING. 25 USE - CONDITION COMPLIANCE RECOMMND

The Department of Building and Safety shall verify that the Development Standards of this approval and all other preceding conditions have been complied with prior to any use allowed by this permit.

90.PLANNING. 28 USE - ORD 810 O S FEE (2) RECOMMND

Prior to the issuance of a certificate of occupancy, or upon building permit final inspection prior to use or occupancy for cases without final inspection or certificate of occupancy (such as an SMP), whichever comes first, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires the payment of the appropriate fee set forth in the Ordinance. The amount of the fee will be based on the "Project Area" as defined in the Ordinance and the aforementioned Condition of Approval. The Project Area for Conditional Use Permit No. 3464 is calculated to be 1.37 acres. In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

Parcel: 425-050-025

90. PRIOR TO BLDG FINAL INSPECTION

90.PLANNING. 29

USE - ORD NO. 659 (DIF)

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and installation of facilities and the acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development project described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The amount of the fee for commercial or industrial development shall be calculated on the basis of the "Project Area," as defined in the Ordinance, which shall mean the net area, measured in acres, from the adjacent road right-of-way to the limits of the project development. The Project Area for Conditional Use Permit No. 3464 has been calculated to be 1.37 acres.

In the event Riverside County Ordinance No. 659 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

Please review the case described above, along with the attached tentative map/exhibit **This case is scheduled for a CPR meeting on November 3, 2005**. All County Agencies and Departments, please have draft conditions in the Land Management System by the above date. If you cannot clear the exhibit, please have corrections in the system and DENY the routing. Once the route is complete, and the approval screen is approved with or without corrections, the case can be scheduled for a public hearing. All other agencies, please have your comments/conditions to the Planning Department as soon as possible. Your comments/recommendations/conditions are requested so that they may be incorporated in the staff report for this particular case.

Should you have any questions regarding this item, please do not hesitate to contact **Russell Brady**, Project Planner, at (909) 955-1888.

Western Riverside County  
**Regional Conservation Authority**

October 4, 2006

Mr. David Carr  
Environmental Programs Department  
County of Riverside  
4080 Lemon Street, 2<sup>nd</sup> Street  
Riverside, CA 92501

**RE: HANS 1533 / CUP03464**  
**APNs 423-050-008, 423-040-017, 425-050-025**  
**JPR # 06-09-12-02**

Dear Mr. Carr,

The RCA has completed review of the above-referenced file regarding MSHCP criteria consistency. We note in the materials provided to the RCA from EPD a letter from Greg Neal, Deputy Director, EPD, of July 28, 2006 to the applicant, Malcolm Smith, advising him of EPD's recommendation for 100% conservation and an indication that the matter would be referred to the RCA for comment. The RCA received a request for project review from EPD on September 12, 2006.

Upon review of the file documents provided by EPD, the RCA hereby states its concurrence with the findings of EPD and agrees that the property should be considered for 100% conservation. Based on discussions with the RCA, County EPD and the applicant, it is our understanding that the discretionary action being considered by the County consists of a Conditional Use Permit (CUP) that will allow for continuation of limited duck hunting activities. It is also the RCA's understanding that the conditions to the CUP will include dedication of a conservation easement to the RCA, with terms of the easement to be negotiated, in exchange for allowance and prescribed limitations of the use.

We look forward to continuing the discussions with EPD and the applicant on the details of the conservation easement for the property.

Thank you for your courtesy and cooperation.

Very truly yours,

Joe Monaco

Dear Mr. Smith:

**Re: JPR 06-09-12-02 Determination Letter- 100% Conservation  
HANS No. 1533  
Case No: CUP03464  
Assessor's Parcel Number(s): 423-050-008, 025 & 423-040-017**

This letter is to inform you that the HANS determination for the subject property was forwarded to the Regional Conservation Authority (RCA) for Joint Project Review (JPR) pursuant to Section 6.6.2 of the Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP). As stated on the attached "RCA JPR Review", the RCA has concurred with the County that 100% conservation is described for this property (exhibit attached).

The MSHCP contemplates that the RCA will acquire private lands necessary for inclusion in the conservation area. You will be receiving a call from the Environmental Programs Department to see if you are interested in selling your property. If so, we will schedule a HANS II meeting to enter into negotiations with the RCA/EPD. Negotiations for acquisition must be concluded within 120 days.

If you have any questions concerning your HANS case, please contact the EPD at (951) 955-6892. You may also contact the Regional Conservation Authority directly, at (951) 955-9700.

Sincerely,

ENVIRONMENTAL PROGRAMS DEPARTMENT

### **General Comments**

While the report characterized the site well, the items listed below are to be met prior to scheduling the case for public hearing. The existing reports may be amended and/or subsequent revised reports may be submitted to the EPD for review.

Initially, the CUP description included all three APNs. However, based on the report submitted and personal communication with the applicant (Kelly Hayes), it appears the project description/scope has changed. Additional documentation is required concerning the JPR/HANS determination that the entire site be under a conservation easement with the Regional Conservation Authority (RCA). Please provide clarification/background (i.e., RCA Conservation Easement) as to why the entire site was not surveyed (APNs 423-040-017, 423-050-008, and 425-050-025).

### **Section 6.1.2 Riverine/Riparian, Vernal Pool and Fairy Shrimp Habitats (RRVP)**

Provide a specific assessment for fairy shrimp habitat as defined by the MSHCP. Please include documentation (e.g., soil suitability, proximity to known locations, hydrology regime present) to describe how that conclusion determined that the fairy shrimp listed in this section of the MSHCP are absent.

### **Section 6.1.3 and 6.3.2 Narrow Endemic and Criteria Area Plant Species (NEPS/CAPS)**

The report states the site is devoid of vegetation. It appears as though the site is regularly impacted due to human activities (i.e., disking, mowing). Please provide further documentation as to the determination that all NEPS/CAPS are considered absent from the site, as there are suitable soils for many of the plant species and known locations in the vicinity. According to the Riverside County Land Information System (RCLIS), the site is mapped as alkali playa, field croplands, and open water/reservoir/pond. The report also identified evidence of accumulated alkaline salts. Many of the NEPS/CAPS are associated with alkali playa habitat and there is reasonable potential for many of them to occur on and around the site. Provide background (e.g., historical/current use of the site) on the deviation from the mapped habitat types and why they would not be considered accurate, lacking the characteristics of vernal plain, play, annual grassland or vernal pool habitat. Include precipitation for the survey year (measured in California from July 1 – June 30) and the affect on the habitat assessment.

### **Section 6.3.2 Additional Criteria Area Wildlife Species Survey Requirements**

It appears that the site lacks suitable burrowing owl habitat due, in part, to ongoing human activities, but a specific statement/evidence needs to be provided. Simply stating that the site is does not support suitable habitat (i.e., disturbed) is not acceptable. At a minimum, it appears a focused burrow survey be conducted (Step 2, Part A).

**Other Corrections/Missing Information**

- Provide elevation of the site.
- Include a soils map (e.g., The National Resources Conservation Service, <http://websoilsurvey.nrcs.usda.gov/app/>). Provide a discussion as to how the soils on-site relate to the soils map (e.g., disturbed, imported fill).

May 28, 2008

Riverside County Planning Commission

Re: Ramona Duck Club Conditional Use Permit 03464--- CEQA Guidelines Section 15301, Categorical Exemption for Existing Facilities.

Planning Commission:

The Friends of the Northern San Jacinto Valley have these additional comments to make regarding the above project and accompanying CUP and CEQA document.

- (1) There are not maps of the project description and location. The maps for this project must show the following:
- a. A detailed site map of the 91.49 acres showing the existing conditions, including but not limited to the vacation RV Park with 20 RV parking spaces; 20 automobile parking spaces; 1 storage container, a portable tool storage shed; and any existing structures which will be removed.
  - b. A detailed site map of the 91.49 acres showing where any new RV parking spaces, automobile parking spaces, storage containers, portable tool storage sheds, the new clubhouse, 3 more storage containers; an agricultural equipment shed, two 500 gallon water storage tanks and restrooms will be located.
  - c. A detailed map of the surrounding area miles, including the nearby MSHCP reserves (19,000 acres San Jacinto Wildlife Area - both the Davis Road and Portrero Units; and the 8,000 acre Lake Perris State Park); the surrounding duck clubs, including but not limited to the Ramona Hunt Club (DFG conservation easement); Mystic Lake Duck Club (DFG conservation easement); 21 gun club (ground currently being disturbed apparently without any permits -county, DFG or RCA).
  - d. The location of the current? New? Clay target shooting area must be mapped. The impacts of lead shot within a wetland must be discussed. Is this permitted under state law?

Presentation slides:

- \* Slide #2 shows a lot of roads which do not, in fact, exist on the ground. The map fails to identify the location/boundary of the SJWA; the location of Mystic Lake (in which this property is located); or the location of the surrounding duck hunting clubs.
- \* Slide #3 shows a lot of roads which do not, in fact, exist on the ground. The map fails to identify the location/boundary of the SJWA; the location of Mystic Lake (in which this property is located); or the location of the surrounding duck hunting clubs.
- \* Slide #4 The map fails to identify the location/boundary of the SJWA; the location of Mystic Lake (in which this property is located); or the location of the surrounding duck hunting clubs.
- \* Slide #5 The map fails to identify the location/boundary of the SJWA; the location of Mystic Lake (in which this property is located); or the location of the surrounding duck hunting clubs.
- \* Slide # 6 The map fails to identify the location/boundary of the SJWA; the location of Mystic Lake (in which this property is located); or the location of the surrounding duck hunting clubs.
- \* Slide # 7 The map fails to identify the significance of slash marks on parcel # 423050005 or 423100014(00373).
- \* Slide # 8. The Plot plan cannot be read when printed. The numbers are too small and blurry. The plot plan does not differentiate between existing and new construction. The plot plan does not indicate what structures etc. might be removed. For instance, we do

not believe there are currently 20 8' X 12' concrete pads for trailer parking. The covered and fenced dog run location is not shown.

- ← None of the slides show the location of the "ancillary clay target shooting facility. What else is missing?

(2) The Wildlife Conservation Board on May 22, 2008 removed from their agenda a proposal to pay the Ramona Duck Club over \$400,000 (four hundred thousand dollars) for a DFG conservation easement on their property. That conservation easement will have different conditions than this conservation easement and CUP. That conservation easement will also require a CEQA document. The FWS has just awarded the California Waterfowl Association a \$1,000,000 (one million) dollar grant under the North American Wetlands Conservation Act (NAWCA) for the Southern California Coastal and Inland Wetland Project. This project construction will take place, as far as we have been able to determine from the FWS limited maps and information, on the Ramona Duck which is seeking this CUP, as well as on the adjacent Ramona Hunt Club, the Mystic Duck Club and possibly the 21 gun club) This project also requires a CEQA document. The HANS process also requires a CEQA document. (Fish and Game Code section 2826<sup>1</sup>.

The numerous CEQA documents which are required for this site to be developed (the CUP, the HANS conservation easement, the WCB conservation easement, and the NAWCA project) cannot be segmented. Ideally, they should be one document; at least they should all be acknowledged, coordinated and planned so that no MSHCP species, especially plant species, are harmed and that the conditions of approval and mitigation measures are consistent and support, not contradict, each other.

(3) The project does not meet the requirements for an Existing Facilities Exemption from CEQA (Guidelines 15301)

- a. This exemption does not apply because the area in which the project is located is environmentally sensitive. (Guidelines 15301(e) (2) (B). (MSHCP criteria area)
- b. This exemption does not apply because the area in which the project is located may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies. (Guidelines 15300.2(a). (MSHCP criteria area)
- c. This exemption does not apply because the cumulative impacts of successive projects of the same type in the same place, over time is significant. (Guidelines 15300.2(b). The adjacent Mystic Duck Club and Ramona Duck Club both have CUP's for and RV facility and both have DFG conservation easements. An RV facility appears to be in the process of being constructed on the 21 gun club, apparently without permits. The cumulative impacts of these four similar facilities physically adjacent to one another must be addressed.
- d. The exemption does not apply because there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances. (Guidelines 15300.2 (c)). This facility is located in an MSHCP criteria area, has gone through the HANS process to impose certain conditions. But, most importantly, the MSHCP identifies this area in and around the Mystic Lake bed as home to many plants of special concern, in particular the San Jacinto saltbush, the spreading navarretia and the thread-leaved brodiaea. (see attachment the MSHCP discussion of plants of the san jacinto valley)

(4) The notice of exemption also does not apply as the Conditions of approval show that further studies need to be conducted and approved before this project can be built. Any one of those studies alone trigger the requirement for an initial study to determine whether a negative declaration, a mitigated negative declaration or an environmental impact report is required.

- a. The project description fails to include the ancillary clay target shooting (10. Every 001 GENERAL CONDITIONS USE-PROJECT DESCRIPTION.) T This use is mentioned once in the conditions of approval, but it is not mapped and no conditions are place on the use of lead shot in a MSHCP wetland area for both wildlife and water quality impacts.

---

<sup>1</sup> "Nothing in this chapter [Natural Community Conservation Planning Act] exempts a project proposed in a natural communities planning area from Division 13 (commencing with Section 2100) of the Public Resources Code [CEQA] or otherwise alters or affects the applicability of that division." FGC 2826.

- b. The flood control conditions of approval must be met (these are missing) and drainage must be designed to meet 100 year storm flows (this criteria is missing). The grading plan submitted (has been or will be???) to BS must comply with any WQMP (water quality management plan) required by Flood control. (this is missing) An exemption cannot apply when a project must show if and how it can comply with flood control conditions of approval for 100 year storm flows and for WQMP's.
- c. There will apparently be paving. (10.BS GRADE 013 & 10.BS GRADE 018) Asphalt is not consistent with the MSHCP and endangered plants and water quality issues.
- d. A NPDES permit is required. (10.BS GRADING 020) The NPDES permit must be part of the CEQA document.
- e. The conditions leave open the possibility that in the future permanent restroom facilities required water and sewage permits will be allowed under this CUP. (10.E HEALTH 001) An exemption cannot apply to a project which allows future facilities which would require CEQA review, such as permanent restroom facilities.
- f. The project must comply with MSHCP guidelines for urban wildlands interface and construction guidelines. (10.EPD 001). This HANS process itself, is subject to a separate CEQA document prepared by the RCA. In addition, it is not complete as this project is in the lakebed of Mystic Lake and contains wetlands and rare plant habitat, yet the conditions for constructing in and near wetlands and rare plant habitat are not included. Nowhere does the CUP name or map the SJWA or duck club conservation easements on which this property would impact.
- g. The flood hazard report is the only place where the *ancillary clay target shooting* is mentioned. An additional unnamed structure within the flood way is mentioned as being "unacceptable", but it is not identified and there is no recommendation that it be removed.
- h. Any RV's which are not "temporary" require floodproofing and new permanent RV's and structures are unacceptable. (10.FLOODCONTROL RI 003 & 10.FLOOD RI 004). The CEQA document needs to make clear how many permanent RV's and structures are now on the site and how the proposed new clubhouse, storage containers agricultural equipment shed, water storage tanks are not "permanent" structures.
- i. "As this entitlement does not contemplate structures for human occupancy, no geologic study is required at this time." (10.PLANNING 040) The clubhouse and the 20 RV sites are meant for human occupancy and therefore a comprehensive geological report is required. An exemption does not apply to this project. An initial study determining which kind of CEQA document must be prepared is required.
- j. Was there an archaeological report and/or environmental assessment conducted prior to project approval? Where is this document? (10.PLANNING 042)
- k. There is no "Approved Exhibit A" (10.PLANNING 043) is this a list of codes with which compliance is required.
- l. Outside lighting shall be hooded and directed not to shine directly on adjoining property and Mt. Palomar lighting requirements (10. planning 045 & 1 Planning 072) No mention is made of "dark skies" and the impacts of lighting affecting the MSHCP species.
- m. There is no Approved Exhibit B (colors and materials?) (10. PLANNING 046)
- n. Drought tolerant and native species shall be preferred. (10.PLANNING 055) any and all species, native or not, which adversely impact the rare plants in and around mystic lake should be approved on a case by case basis in conjunction with a CEQA document addressing the mitigation measures to be implemented.
- o. Exterior noise levels shall be limited to 45 db. (10, PLANNING 063) The impacts of noise on MSHCP species must be analyzed in the CEQA document.
- p. Every person conducting a business shall obtain a business license. (10. PLANNING 079) Is the Duck Club considered a business, why not? Do they have a license?
- q. Landscaping shall be watered etc. (10. PLANNING 080 & 10. PLANNING 081) All landscaping shall be in conformance with the MSHCP impacts on sensitive plant species and should not need watering.
- r. Recreational vehicles shall be in a roadworthy condition. (10. PLANNING 082) Does this only applies to new RV's brought onto the site, or to the RV's already on the site?
- s. Street improvements (10. Trans 005) what new roads and street improvements will be built? Where is a map showing these improvements? Where are the dedication documents for the street improvements? This exhibit is missing.
- t. Assessment/benefit districts (10. Trans 006) are there any assessment /benefit districts affecting this property?

- u. Hours of operation (20. planning 003) have any hours of operation be set for this project? What are they?
- v. Existing buildings in compliance with county code. (20. PLANNING 006) How can the county approve a CUP for existing structures when it is not know whether the existing structures are in compliance with county codes?
- w. Grading in excess of 199 cubic yards will require performance security (60.BS GRADE 001) How many cubic yards of grading is proposed by this project? This implies that there are not limits on how many cubic yards can be moved either on the RV site or on the conservation easement.
- x. Geotechnical soils reports submitted prior to grading permit (60.BS GRADE 003) This leaves completely open the question of how much grading will be permitted on the RV site and on the RCA easement. The geotechnical/soils, compaction and inspection reports must be part of the CEQA document.
- y. 100 year storm flows and WQMP (60.BS GRADE 004) if grading which required these permits is contemplated, it should be part of the CEQA document.
- z. Letter of permission from easement holders. (60. BS GRADE 007) Any grading on the RCA easement would not only require RCA permission, but also CEQA review for public review. This relates to the NAWCA grant construction on the site.
- aa. NPDES AND SWPPP (60. BS GRADE 009) The NPDES AND THE SWPPP must be part of the CEQA document.
- bb. Import/export of soils (60.BS GRADE 010) As the sensitive plants in and around Mystic Lake are endemic to soils found in the San Jacinto Valley, import and export of soils should be prohibited.
- cc. HANS Conservation Easement (60. EPD 001) The HANS process and the Conservation Easement are independent discretionary actions requiring CEQA review by RCA. The conditions contain statement which make no sense: "prohibit grading or any other disturbance or modification of the property.... and *detention basins* and shall be shall be in a form acceptable to RCA." This is a duck club; it has duck ponds, not detention basins. Does this mean that the club may not modify or improve its duck ponds in any way? What impact does this have on the NAWCA grant as applied to this duck club?
- dd. Geological studies prior to grading permits (60. PLANNING 019) This geological study must be part of the CEQA document.
- ee. HANS Conservation Easement (80. EPD 001) The HANS process and the Conservation Easement are independent discretionary actions requiring CEQA review by RCA. The conditions contain statement which make no sense: "prohibit grading or any other disturbance or modification of the property.... and *detention basins* and shall be shall be in a form acceptable to RCA." This is a duck club; it has duck ponds, not detention basins. Does this mean that the club may not modify or improve its duck ponds in any way? What impact does this have on the NAWCA grant as applied to this duck club?
- ff. Structures for human occupancy require geological studies (80. PLANNING 045) The geological studies need to be part of the CEQA document as the RV's and the clubhouse are structures all meant for human occupancy.
- gg. Approved Exhibit B is not attached (80. PLANNING 048)
- hh. Roof mounted equipment (80. PLANNING 050) roof mounted equipment shall be prohibited unless proven not to be a danger to raptors or other MSHCP species.
- ii. School impacts (80. PLANNING 062) All other residents on Davis Road are part of the Nuevo/ Lakeview school district, as we understand?
- jj. Lighting plans (80. PLANNING 065) All lighting plans must avoid all impacts to the MSHCP species.
- kk. Landscape plot plan (80.PLANNING 068) All landscaping shall be consistent with the MSHCP and shall enhance, not harm, sensitive plant species.
- ll. Paving inspections (90.BS GRADE 001) Where is paving to take place? There should be none!
- mm. Utilities underground (90. PLANNING 011) any change in utilities to underground need to be based on impacts to raptors and electrocution of raptors (which is not an unusual occurrence in the San Jacinto Valley)

The Friends request to be informed of all actions, including but not limited to any notice of determination on CEQA documents, regarding this project at the above address.

Susan L. Nash  
Board member

Dear Riverside Co.

re: CUP 03464 and Hans 1533

May 28<sup>th</sup>  
(item 4.2)

A letter dated Nov 9<sup>th</sup>, 2006 to all Ramona Duck Club members suggests the following activities on site:

Relocate power lines

motorized Boats

year round camping

rebuild all ponds and dikes - and create 4 new ponds.

off-road vehicle use on property year round.

Change name to Ramona Duck Club and R.V. Park

While the above haven't been included in the CUP they haven't been conditioned on these issues or prohibited and this raises many issues to the Sierra Club.

A letter dated Oct 4, 2006 Joe Monaco to Mr. Carr and A letter dated Oct 16, 2006 from David Carr to Malcolm Smith both strongly recommend 100% conservation for this property. What happened to the 100% conservation?

The biological assessment was made on single day - 19 March 2006 - with the report written one year later on March 28, 2007. On May 22, 2007 David W. Carr wrote to Laurence Dear the author.

of the biological habitat assessment listing several short comings with that report. The letter indicated that these issues needed to be resolved "prior to scheduling the case for public hearing."<sup>21</sup> The Sierra Club could not find where all of these short comings have been addressed prior to this public hearing.

The Sierra Club is turning all these letters in today for the Public Records. As in our previous letter the Sierra Club does not believe the CEQA categorical exemption applies to this project nor is it MSHCP compliant. The planning Commission should require an initial study on this project. Please keep the Sierra Club informed on all future hearings and documents related to all acres within this project, by using the address below.

Sincerely

George Dague

May 18, 2008

Dear Mr. Brady:

Re: CUP 03464 Proposed Private Hunting Club

The Sierra Club appreciates the information you provided to allow us to comment on this CUP.

In our opinion Section 15301 of the CEQA Guidelines does not apply to this project. This proposal is much more than a "minor alteration of existing public or private structures, facilities, mechanical equipment or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination." Please consider some of the following reasons:

- Double trailer and cement pads (increasing from 10 to 20)
- Extension of water hook-ups
- Electrical hook-ups
- Portable restrooms
- 12'x18' screened-in porch with water hook-ups
- Four 10'x40' cargo containers
- Possible septic tanks
- Clubhouse
- Covered and fenced run for dogs
- 15,000 gallon water tank

Any number of the above additions to the existing uses would disqualify it for an exemption. Other concerns that must be fully investigated and evaluated are as follows:

- How will garbage be taken care of – especially the remains from the use of their 12'x12' cleaning room?
- The lighting would be the first allowed in the Mystic Lake bed, and it could have an effect on several species.
- How will the 15,000-gallon water tank be hidden or made less noticeable?
- How will you do the same with the four 40' trailers? Twenty years from now, how will they be maintained?
- Will increasing well water use impact ground water availability over the life of the project? When will overdrafting occur?
- Lead shot will probably be used at the skeet and target facility, and that entails toxic impacts on the lakebed, downstream water resources and several different species.
- What permitted uses could impact the multi-species responsibilities of the adjacent San Jacinto Wildlife Area?

- How could the CUP prejudice either RCA or CDF&G conservation easements?
- How will the recently approved NAWCA grant impact these acres?
- Will the public be receiving conservation easements on the existing lands or on the lands changed by the NAWCA grant? What will those changes be? What will these acres look like if the proposed CUP and NAWCA grant are built out?
- Which threatened or endangered species, or species covered by the Riverside County Multi-species Plan, use these acres or could do so with proper land management? Would farming activities interfere with any of these species?
- How will you condition the perimeter fence to be the least restrictive for animal movement? Chain link would be a crime.
- What are the Army Corps of Engineer comments on building in a flood zone? Will the 20 cement pads, 4 storage units, and other structures cause the floodwaters to inundate lands that otherwise would be out of the flood zone? Where are those lands? These lands are also within the Hemet Dam inundation area.
- How will wastewater be handled? What impacts will be caused by the water run-off from all the structures and equipment?
- How will all the structures and human activity affect water quality of the San Jacinto River, of which Mystic Lake is a part?
- How will septic systems impact all of the Sierra Club's concerns listed above, whether in or out of a flood zone?
- When a conservation easement is finalized, will the Rural Residential zoning be eliminated?
- Are you certain these lands are in the Moreno Valley sphere of influence?
- Any and all maps must clearly show the San Jacinto Wildlife Area and acknowledge that it is a cornerstone reserve for our MSHCP.
- There needs to be information on HANS 1533 and a map showing which 86+ acres are required for conservation.
- Which geotechnical problems (subsidence and fissures, for example) could affect the different structures?
- What are the growth-inducing and cumulative impacts of this proposed project?

Please keep the Sierra Club informed of all documents and meetings by sending notices to the address below. Any future action or decision related to these lands must be sent, including any renewals of the CUP.

Sincerely,

**From:** Russell Brady  
**To:** Hague, George  
**Date:** 5/27/2008 4:49 PM  
**Subject:** Re: sierra club CUP 03464

I apologize for the delay on this. It just took a long time to compile all of the answers and to confirm that I was providing accurate information.

Regarding the CEQA exemption, it is the opinion of staff that the project does qualify for an exemption pursuant to section 15301 of CEQA. None of the expansions proposed by the project exceed the thresholds listed in section 15301.

All garbage, including animal remains, will be removed from the site by Club members. No garbage pick-up to the site is proposed.

An existing exterior light located on top of a 20' wooden pole illuminates the electrical box near the well. As part of the HANS review for the project, the Environmental Programs Department imposed the following lighting conditions: (i) direct night lighting away from the MSHCP Conservation Areas or Public /Quasi-Public Lands, and (ii) incorporate shielded lighting into the project design to ensure ambient lighting in the MSHCP Conservation Areas and/or Public/Quasi-Public Lands does not increase. To comply with these conditions, a shield will be installed on the existing light fixture to direct the light away from the MSHCP Conservation Areas. Each trailer located on the site may have 1 small exterior light at the door to illuminate the steps.

The approximate height of the storage tank of 20', although higher than any of the other proposed structures on the site by approximately 10', is still comparable to the other structures existing and proposed on the site. In addition, it does fall within the maximum structure height of 50' allowed in the A-2 zone. It is possible that a certain paint color could be required on the tank to minimize its impact, but that is a decision for the Planning Commission.

The proposed 40' storage containers (not trailers) do not require any real short term or long term maintenance. Similar to the water tanks, any requirement to paint or further camouflage the containers would be a decision for the Planning Commission.

The property contains an existing well that has been in use in connection with hunting on the property for over 50 years. In addition, reclaimed water has recently been made available to the site. Club members also bring filtered drinking water to the site for consumption during hunting activities. The Club will use the reclaimed water to support and enhance the wetlands in the conservation area, and will use water from the existing well for back-up only. The use of reclaimed water will reduce the consumption of well water on the site.

The amount of lead shot anticipated is not expected to have any significant impact on any species. The size of shot typically is too large to allow for any leeching into water or soil that would then create a significant impact. In addition, this issue is more closely regulated by CDF&G.

None of the anticipated uses associated with the hunt club would be inconsistent with the MSHCP, particularly the San Jacinto Wildlife Area.

There will not be any conflict with CUP and the RCA and/or CDF&G conservation easements. The approval of the CUP at this time has no bearing on the easements and would in fact expedite the creation of a conservation easement with RCA since it is a condition of approval on this project.

I am not aware of a NAWCA grant. The project as proposed is for private use of the site by the hunt club. I would think that any public use of the site would present serious safety issues.

The biological study prepared for HANS for this project did not identify any threatened or endangered species on site.

There are no specific requirements or restrictions for fencing surrounding the project site. EPD has conditioned the project to comply with UWIG requirements which restrict fencing from being located within a conservation area. Additionally, this area does not function as a wildlife corridor, so fencing really is not an issue to provide for movement between properties. Perimeter fencing would most likely consist of chain link or rail fencing.

The Flood Control District reviews projects flood hazard impacts and they have determined that the project would not create any hazards downstream and that the structures proposed would be allowed in the flood zone.

Wastewater from the restrooms will be contained in tanks on each trailer and transported via truck offsite. Any water drainage from the site and its proposed use is not anticipated to contain any significant pollutants that would drain offsite.

The project is not anticipated to contain uses that would create pollutants that would significantly impact water quality.

Septic systems are not proposed on the site and are prohibited since the site is located within a 100 year flood plain. The trailer sewage will be contained with the trailers and pumped out and carried offsite by truck for proper disposal.

The zoning will remain as is.

According to our GIS system the site is located just inside the sphere of influence of Moreno Valley.

There was no need by the EPD to require a special map showing the project's location in relation to the San Jacinto Wildlife Area.

All records of HANS 1533, including the required conservation area, are available with EPD.

The project's northern end does lie within an identified fault zone. None of the proposed structures are located within the setback area from the fault. The project is located in an area susceptible to subsidence and liquefaction. Since no permanent buildings are proposed, no impacts associated with these hazards are anticipated.

The project is not providing any substantial new infrastructure that would provide additional services to the area that could be considered growth inducing. The impacts of this site are so low, even when considered with the few other projects in this area, to be considered cumulative impacts.

Will the questions from the Sierra Club and the Friends of the Northern San Jacinto Valley be answered before the planning commission meeting or are you going to include the letters with the staff report that is already written with many of the concerns of both groups not addresses? Since this conservation easement has been postponed at the state level, why not postpone this issue locally until all concerns are addressed?

thank you again for getting back to me,

George Hague

Bill - The Department asked Malcolm Smith and Kelly Hayes to get something in writing from Riverside County confirming that hunting is a permitted use on the Ramona Duck Club property. Apparently, during a phone call several months ago, the County Planners told the Department that hunting required a CUP. Upon closer inspection, the Planners determined that operating a hunt club requires a CUP but hunting is a permitted use.

If possible, could you follow up with Nancy or John Donnelly's staff, and confirm that the Department is satisfied with the e-mail below? Thanks. Alicen Wong

Nancy - About 1 month ago, the Department of Conservation spoke with Russell Brady, Planner, at the County of Riverside. Although I did not participate in the call, I understand Mr. Brady advised the Department that a CUP is required to hunt on the subject property. When I asked Mr. Brady about this statement, he said he told the Department that the operation of a hunt club requires a CUP.

I understand the Department has asked for confirmation re: whether or not hunting is a permitted use on the property. The e-mail below is intended to set the record straight in that regard. Please call me to discuss. Thank you. Alicen Wong

Hunting is an allowed use not requiring a land use permit on these subject properties. It is the operation of a hunting club that requires a land use permit, which is what the current CUP in process is proposing on a small portion (approx. 1.9 acres) of these properties.

**RE: CUP 03464 for Ramona Duck Club**

Dear Planning Commission Members:

On behalf of California Waterfowl Association, I ask the County to support CUP 03464, and the Ramona Duck Club, in its request for approval of a trailer-parking area next to its hunt club. California Waterfowl is a charitable 501(c)(3) organization dedicated to conserving California's waterfowl, wetlands, and outdoor heritage, representing the interests of over 21,000 members statewide.

As you know, wetland areas rarely occur in Southern California due to the arid conditions, the high cost of water, and recent water shortages. The cost of water alone can be prohibitive in many instances. In this case, however, Mutual Water has made recycled water available to the property. In addition, due to the compatibility of duck hunting and open space uses, approval of CUP 03464 will foster the conservation of wetlands by providing access and lodging for hunters near the duck hunting area. The duck club operation, in turn, will facilitate the management, maintenance and enhancement of a large wetlands area.

California Waterfowl cannot accomplish the state and federal goals of wetland restoration and management without assistance from private landowners. When the County approves projects that are compatible with wetlands conservation, such as CUP 03463, everyone benefits. Please support wetland conservation and duck hunting, a land use that is compatible with open space preservation, by recommending the approval of CUP 03464.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregory S. Yarris". The signature is stylized and written in a cursive-like font.

**RE: CUP 03464 for Ramona Duck Club**

Dear Planning Commission Members:

The California Outdoor Heritage Alliance (COHA), a nonprofit organization dedicated to promoting wildlife conservation and protecting our hunting heritage supports CUP 03464, which would allow the Ramona Duck Club to establish a trailer parking area adjacent to its waterfowl hunting club.

With over 90% of California's historic wetlands destroyed, it is imperative that incentives are provided to landowners to protect or restore wetlands on their property. Southern California, in particular, suffers from an extreme shortage of wetland habitat primarily due to the arid conditions, high cost of water, and continued urbanization. Fortunately, the Ramona Duck Club has secured reliable and affordable recycled water from Mutual Water. In addition, due to the compatibility of duck hunting and open space uses, the approval of CUP 03464 will further promote the conservation of waterfowl and wetlands by providing access and lodging for hunters near the hunting area. The Ramona Duck Club, in turn, will facilitate the management, maintenance and enhancement of critically important wetlands.

By supporting the CUP 03464, Riverside County will uphold its commitment to wetland conservation and open space preservation while allowing compatible uses. For these reasons, COHA strongly encourages the Planning Commission to support CUP 03464.

Sincerely,

Jason Rhine, Director of Advocacy  
California Outdoor Heritage Alliance

Riverside County Planning Commission  
Riverside County Administrative Center  
4080 Lemon Street  
Riverside, CA 92502

Dear Riverside County Planning Commission Members:

**Re: Ramona Duck Club Conditional Use Permit 3464, September 30, 2009 Agenda Item**

In May 2008 the Friends of the Northern San Jacinto Valley objected to the approval of Conditional Use Permit 3464 (CUP 3464) under a Categorical Exemption pursuant to the California Environmental Quality Act (CEQA). We are once again protesting the continuing faulty implementation of California Environmental Quality Act by the Riverside County Planning Commission.

The Planning Department is now proposing that the project be approved by the Planning Commission based on a CEQA Mitigated Negative Declaration (MND). The Friends became aware of the Planning Department's ongoing faulty review of this project upon reviewing the entire file for CUP 3464. The Planning Commission should recognize that the MND recommended for this project has not been prepared nor does it exist. More importantly the MND, identified only in the CEQA Initial Study, has not been subject to public or State Clearinghouse (SCH) review. Consequently, the Planning Commission is now considering the approval of CUP 3464 without the required CEQA document and the necessary public and SCH review. The Planning Commission consideration of the project is therefore contrary to the requirements of the law (CEQA Guideline 15004; RiverWatch, 170 Cal App.4<sup>th</sup> pp.1205-1206).

As part of your review of CUP 3464, it should be pointed out that none of the maps in the Planning Department staff presentation outline the adjacent San Jacinto Wildlife Area public lands. The San Jacinto Wildlife Area (SJWA) is 19,000 acres of wildlife habitat managed by the state Department of Fish and Game. The lands are partial mitigation for the loss of wildlife habitat when the State Water Project was built. It is a Stephens' kangaroo rat reserve for the Riverside County Habitat Conservation Agency. It is a cornerstone reserve in the Riverside County Multi-Species Habitat Conservation Plan (MSHCP). The wildlife area needs to be delineated on all maps used in this presentation and within any environmental documents related to this CUP.

The Friends are concerned that the project description remains cursory in order to avoid an examination of the full extent of the project impacts. The proposal continues to propose a trap and skeet range. It is not clear whether or not the trap and skeet range will be open for use by the general public (there is a provision for 20 automobile parking spaces). The Initial Study prepared by the Planning Department staff indicates that the Hunt Club will provide by-laws to restrain the use of lead shot on the shooting range. The Friends believe this proposed mitigation measure is merely a concession to the project proponent. It will not be effective or enforceable by the county and is not commensurate with the seriousness of the discharge of lead at this sensitive location. The Planning Commission also needs to consider the effect of lead pollution on the downstream users (Canyon Lake and Lake Elsinore) of the San Jacinto River. We have attached a copy of The Wildlife Society

position statement on the use of lead ammunition for consideration by the Planning Commission and request it be included in the administrative record for CUP 3464.

The Friends also believe it imperative that the CEQA document for this project examine whether or not a trap and skeet range with its high intensity noise will be a detriment to wildlife use of the MSHCP lands surrounding the project site. It makes little sense for the State of California and the County of Riverside to spend millions of public dollars acquiring wildlife conservation lands and then approve conflicting uses within those conservation lands.

Since our testimony in May 2008, the Friends have become aware that the project applicant (Ramona Duck Club) is inappropriately blocking the access to public lands which comprise the San Jacinto Wildlife Area. Attached are recent photographs of the project proponent's newly constructed iron-gate which is preventing the public from accessing hundreds of acres of public lands on the SJWA (APN: 425050024, 425050004, 423040015, 423040019). The project applicant's blockade of public access to these existing regional conservation/recreational lands is a significant project impact, and it warrants resolution in the CEQA document. The Friends are concerned that if the project proponent is allowed to prevent public access to these public lands it will constitute a gift of these lands to the project applicant.

The Friends are requesting that the Planning Commission defer the approval of CUP 3464 pending the preparation and public review of the appropriate CEQA document for this project.

Thank you for considering our comments. Please notify us of all documents, meetings, and other materials pertinent to this project.

Sincerely,

Ann L. Turner-McKibben, President

### **Final Position Statement**

#### **Lead in Ammunition and Fishing Tackle**

Lead has been used in ammunition and fishing tackle for centuries. It is an effective and inexpensive element for the manufacture of projectiles and weights. Although it is a naturally occurring element in the environment, lead has no functional or beneficial role in biological systems, and at very low levels of exposure it can be toxic, depending on the species and the health and age of an individual. At toxic levels lead damages the nervous system, causing paralysis and eventual death; at lower levels it is known to cause a variety of sublethal effects such as neurological damage, tissue and organ damage, and reproductive impairment.

Realization of the hazards of lead ammunition to waterfowl and some upland game birds can be traced to the late 1870s, while the hazards of lead fishing sinkers to waterfowl became apparent in the 1970s, when lead was found to poison swans in the United Kingdom (UK). In the 1970s and 1980s, the UK and some jurisdictions within the United States and Canada began placing restrictions on the use of lead ammunition and fishing tackle. Today lead from ammunition and fishing tackle provides a small fraction of total environmental releases, but it exists in a form that can be readily ingested by some species of wildlife.

Metallic lead can remain relatively stable and intact for decades, even centuries. However, under certain environmental conditions (e.g., acidic or basic water or soil) lead from shot or tackle can be readily released and taken up by plants or animals, causing a range of biochemical, physiological, and behavioral effects in some species of invertebrates, fish, amphibians, reptiles, birds, and mammals. Lead that is adsorbed or incorporated into food items through the soil, as well as lead fragments in carcasses or deposited at shooting sites, is known to be consumed by some birds and small mammals, resulting in elevated lead concentrations. Ingestion by reptiles, birds, and mammals of spent ammunition and lost fishing tackle has also been documented and can cause a range of negative effects in individuals, potentially leading to population-level consequences in some species (e.g., waterfowl, eagles, condors, mourning doves, and loons).

From a public health perspective, lead potentially can lead to a variety of human health problems, such as neurological effects and stunted growth, particularly in children. Although the extent is still unclear, recent research indicates that consumption of game taken with lead ammunition may increase blood-lead levels in humans. When lead that is imbedded in game meat becomes exposed to acid in the human stomach, lead may be absorbed into the system. Even if a lead pellet or bullet completely passes through an animal, a small amount of lead may be left in the tissue and may be absorbed by a person consuming the meat.

Lead poisoning related to spent ammunition and lost fishing tackle has been extensively studied in birds, and at least two studies indicate that the ban on the use of lead ammunition for hunting

waterfowl and coots in North America has successfully reduced lead exposure in waterfowl. Nonetheless, other species such as upland game birds (e.g., doves and quail) and scavengers (e.g., vultures and eagles) have been documented to be exposed to lead, and the California condor population may be at risk. Despite the prohibition on lead shot for waterfowl hunting, current data for raptors and avian scavengers indicate increases in lead exposure in these species, especially during hunting season. Accordingly, 24 states (as of 2008) have instituted restrictions on the use of lead ammunition to minimize effects to upland game birds, eagles, and other species. The hazard of ingested lead sinkers and fishing tackle is well-documented in swans and loons, and restrictions on the sale or use of lead weights have been instituted in parts of the UK, Canada, several other countries, and five states in the U.S. (as of 2008) in order to minimize effects on these and other potentially vulnerable species. There are only limited data on the adverse effects of lead ingestion at shooting ranges, and reproductive and mortality rates at these sites have not been adequately investigated.

There has been an extensive effort in the development, efficacy testing, and regulation of alternatives to lead-based ammunition for hunting waterfowl and waterbirds. Several effective nontoxic alternatives have been approved and currently are available in North America and elsewhere. Several manufacturers have developed nontoxic ammunition that can be used safely in all gauges of modern shotguns, as well as nontoxic rifle bullets for hunting large game. However, the widespread manufacture of this shotgun and rifle ammunition depends on assured markets provided by regulation and enforcement. Nontoxic shot may be used in all clay target sports and currently is required by some shooting facilities. Dozens of substitutes for lead fishing tackle have entered the marketplace in recent years. A few, but not all, alternative metals in fishing tackle have been deemed safe if ingested by waterfowl and some other birds and mammals.

The policy of The Wildlife Society in regard to lead in ammunition and fishing tackle is to:

1. Recognize that lead has been known for centuries to be a broad-spectrum toxicant to humans and wildlife.
2. Advocate the replacement of lead-based ammunition and fishing tackle with nontoxic products, while recognizing that complete replacement may not be possible in specific circumstances.
3. Recognize that the removal of lead for hunting, fishing, and shooting will require collaboration among affected stakeholders (including wildlife professionals, ammunition and tackle manufacturers, sportsmen, policymakers, and the public). It may require a phased-in approach, and will require explicit and targeted educational strategies at both the national and international levels, thereby acknowledging and supporting the crucial role that hunters and anglers play in wildlife management and conservation.
4. Encourage studies on reducing barriers to the development of nontoxic ammunition and fishing tackle, additional research that generates toxicological and environmental chemistry data, monitoring and modeling of exposure effects, and studies predicting consequences of exposure and long-term population-level effects. The need for additional

information, however, should not delay the educational efforts and the phasing-in of nontoxic ammunition and tackle where practicable.

5. Support educational efforts to promote greater public awareness and understanding of the consequences of lead exposure to wildlife populations, and emphasize the potential gains for wildlife and environmental quality from use of nontoxic ammunition and fishing tackle.

Approved by Council July 2009. Expires July 2014.

Riverside County Planning Commission  
Riverside County Administrative Center  
4080 Lemon Street  
Riverside, CA 92502

Dear Riverside County Planning Commission Members:

**Re: Ramona Duck Club Conditional Use Permit 3464, September 30, 2009 Agenda Item**

In May 2008 the Friends of the Northern San Jacinto Valley objected to the approval of Conditional Use Permit 3464 (CUP 3464) under a Categorical Exemption pursuant to the California Environmental Quality Act (CEQA). We are once again protesting the continuing faulty implementation of California Environmental Quality Act by the Riverside County Planning Commission.

The Planning Department is now proposing that the project be approved by the Planning Commission based on a CEQA Mitigated Negative Declaration (MND). The Friends became aware of the Planning Department's ongoing faulty review of this project upon reviewing the entire file for CUP 3464. The Planning Commission should recognize that the MND recommended for this project has not been prepared nor does it exist. More importantly the MND, identified only in the CEQA Initial Study, has not been subject to public or State Clearinghouse (SCH) review. Consequently, the Planning Commission is now considering the approval of CUP 3464 without the required CEQA document and the necessary public and SCH review. The Planning Commission consideration of the project is therefore contrary to the requirements of the law (CEQA Guideline 15004; RiverWatch, 170 Cal App.4<sup>th</sup> pp.1205-1206).

As part of your review of CUP 3464, it should be pointed out that none of the maps in the Planning Department staff presentation outline the adjacent San Jacinto Wildlife Area public lands. The San Jacinto Wildlife Area (SJWA) is 19,000 acres of wildlife habitat managed by the state Department of Fish and Game. The lands are partial mitigation for the loss of wildlife habitat when the State Water Project was built. It is a Stephens' kangaroo rat reserve for the Riverside County Habitat Conservation Agency. It is a cornerstone reserve in the Riverside County Multi-Species Habitat Conservation Plan (MSHCP). The wildlife area needs to be delineated on all maps used in this presentation and within any environmental documents related to this CUP.

The Friends are concerned that the project description remains cursory in order to avoid an examination of the full extent of the project impacts. The proposal continues to propose a trap and skeet range. It is not clear whether or not the trap and skeet range will be open for use by the general public (there is a provision for 20 automobile parking spaces). The Initial Study prepared by the Planning Department staff indicates that the Hunt Club will provide by-laws to restrain the use of lead shot on the shooting range. The Friends believe this proposed mitigation measure is merely a concession to the project proponent. It will not be effective or enforceable by the county and is not commensurate with the seriousness of the discharge of lead at this sensitive location. The Planning Commission also needs to consider the effect of lead pollution on the downstream users (Canyon Lake and Lake Elsinore) of the San Jacinto River. We have attached a copy of The Wildlife Society

position statement on the use of lead ammunition for consideration by the Planning Commission and request it be included in the administrative record for CUP 3464.

The Friends also believe it imperative that the CEQA document for this project examine whether or not a trap and skeet range with its high intensity noise will be a detriment to wildlife use of the MSHCP lands surrounding the project site. It makes little sense for the State of California and the County of Riverside to spend millions of public dollars acquiring wildlife conservation lands and then approve conflicting uses within those conservation lands.

Since our testimony in May 2008, the Friends have become aware that the project applicant (Ramona Duck Club) is inappropriately blocking the access to public lands which comprise the San Jacinto Wildlife Area. Attached are recent photographs of the project proponent's newly constructed iron-gate which is preventing the public from accessing hundreds of acres of public lands on the SJWA (APN: 425050024, 425050004, 423040015, 423040019). The project applicant's blockade of public access to these existing regional conservation/recreational lands is a significant project impact, and it warrants resolution in the CEQA document. The Friends are concerned that if the project proponent is allowed to prevent public access to these public lands it will constitute a gift of these lands to the project applicant.

The Friends are requesting that the Planning Commission defer the approval of CUP 3464 pending the preparation and public review of the appropriate CEQA document for this project.

Riverside County Planning Department  
4080 Lemon Street, 9<sup>th</sup> Floor  
P.O. Box 1409  
Riverside, CA 92502-1409

Dear Mr. Childers:

**RE: Proposed Mitigated Negative Declaration (MND) for the Ramona Duck Club Conditional Use Permit (CUP) 3464**

The Friends of the Northern San Jacinto Valley (Friends) sought to review and comment on the Mitigated Negative Declaration (MND) for CUP 3464, but we were not able to locate an actual MND document. After making several inquires to the Riverside County Planning Department, we were advised the project MND was a compilation of the California Environmental Quality Act (CEQA) Initial Study and the project conditions of approval being recommended by the Riverside County Planning Department. The Friends believe that such an implementation of CEQA by Riverside County is faulty and contrary to the requirements of the law.

The Friends are concerned that Riverside County is improperly implementing CEQA to discourage participation and hinder the review of environmental documents by the public. The Friends are also disturbed that Riverside County appears to be sending faulty or inadequate CEQA documents to the State Clearing House to be reviewed by State Trustee and Responsible agencies.

The Friends request that our comment letter dated September 29, 2009 and presented at the September 30, 2009 Riverside County Planning Commission public hearing on CUP 3464 be incorporated by reference into the subject letter. We have attached a copy of the letter. The Friends are also requesting the Riverside County Planning Commission defer approval of this project until an adequate CEQA document (Mitigated Negative Declaration or Draft EIR) has been presented to the public for review and comment.

Sincerely,

Ann L. Turner-McKibben, President

## Project Description (use separate sheet if necessary):

03464 proposes to permit the operation of a trap and skeet facility within an existing hunting club specifically limited to the southerly two (2) acres of parcel N 423-050-008, 025, and 423-040-017. The portion of the property outside the Project area is "not a part" of CUP 03464. The CUP 03464 is comprised of the existing 11 RV/Trailer parking spaces with cement patios as described below, an existing 8 foot by 12 foot tool shed, and the existing well that serves the property. The proposed improvements that will occur only on the southerly two (2) acres include 8 additional RV parking spaces, attached to each parking space is an 8 foot x 12 foot cement patio, two (2) 10 foot by 40 foot storage containers, 20 automobile parking spaces, two (2) 7,500 gallon water storage tanks, a trap and skeet facility, and portable restrooms used only during the 5 month hunting period.

*Project Applicant*

P.O. Box 106 Riverside, CA 92504  
*Address*

In the Hemet/San Jacinto area more specifically, the site is located northerly of Marvin Road, southwesterly of Central Avenue, and easterly of Main Street.  
*Project Location*

CUP 03464 proposes to permit the operation of a trap and skeet facility within an existing hunting club specifically limited to the southerly two (2) acres of APN 423-050-008, 025, and 423-040-017. The portion of the property outside the Project area is "not a part" of CUP 03464. The CUP 03464 is comprised of the existing 11 RV/Trailer parking spaces with cement patios as described below, an existing 8 foot by 12 foot tool shed, and the existing well that serves the property. The proposed improvements that will occur only on the southerly two (2) acres include 8 additional RV parking spaces, attached to each parking space is an 8 foot x 12 foot cement patio, two (2) 10 foot by 40 foot storage containers, 20 automobile parking spaces, two (2) 7,500 gallon water storage tanks, a trap and skeet facility, and portable restrooms used only during the 5 month hunting period.  
*Project Description*

This is to advise that the Riverside County Board of Supervisors, as the lead agency, has approved the above-referenced project on \_\_\_\_\_, and hereby made the following determinations regarding that project:

1. The project WILL NOT have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act. (\$2010.25 plus \$64.00)
3. Mitigation measures WERE made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Plan/Program WAS adopted.
5. A statement of Overriding Considerations WAS NOT adopted for the project.

This is to certify that the Mitigated Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 4080 Lemon Street, 9th Floor, Riverside, CA 92501.

**NOTICE OF PUBLIC HEARING**  
and  
**INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

**A PUBLIC HEARING** has been scheduled, pursuant to Riverside County Land Use Ordinance No. 348, before the **RIVERSIDE COUNTY BOARD OF SUPERVISORS** to consider the project shown below:

**CONDITIONAL USE PERMIT NO. 03464** – Intent to Adopt a Mitigated Negative Declaration – Applicant: Ramona Duck Club – Engineer/Representative: Overton Kuhn – Fifth Supervisorial District – Reche Canyon / Badlands Area Plan: Open Space: Conservation (OS:C) – Location: Northeasterly of Main Street, southwesterly of Contour Road, and easterly of Main Street – 2.00 Acres (89.49 acres Not a Part) – Zoning: Heavy Agriculture – 10 Acre Minimum (A-2-10) – **REQUEST:** CUP 03464 proposes to permit the operation of a hunting club specifically limited to the southerly two (2) acres of APN 423-050-008, 025, and 423-040-017. The portion of the Property outside the Project site is "not a part" of CUP 03464. The CUP 03464 is comprised of the existing 11 RV/Trailer parking spaces with cement patios as described below, an existing 8 foot by 12 foot tool shed, and the existing well that serves the property. The proposed improvements that will occur only on the southerly two (2) acres include 8 additional RV parking spaces, attached to each parking space is an 8 foot x 12 foot cement patio, two (2) 10 foot by 40 foot storage containers, 20 automobile parking spaces, two (2) 7,500 gallon water storage tanks, a trap and skeet range area, and portable restrooms used only during the 5 month hunting period. – APN(s): 425-050-025, 423-040-017, and 423-050-008. (Quasi-Judicial)

TIME OF HEARING: 1:30pm or as soon as possible thereafter.  
DATE OF HEARING: May 4, 2010  
PLACE OF HEARING: RIVERSIDE COUNTY ADMINISTRATIVE CENTER  
BOARD CHAMBERS, 1ST FLOOR  
4080 LEMON STREET  
RIVERSIDE, CA 92501

For further information regarding this project, please contact Principal Planner, Adam Rush, at 951-955-6646 or email [arush@rctlma.org](mailto:arush@rctlma.org), or go to the County Planning Department's Planning Commission agenda web page at [http://www.tlma.co.riverside.ca.us/planning/content/hearings/pc/current\\_pc.html](http://www.tlma.co.riverside.ca.us/planning/content/hearings/pc/current_pc.html).

The Riverside County Planning Department has determined that the above project will not have a significant effect on the environment and has recommended adoption of a mitigated negative declaration. The Board of Supervisors will consider the proposed project and the proposed mitigated negative declaration, at the public hearing. The case file for the proposed project and the proposed mitigated negative declaration may be viewed Monday through Friday, 8:30 a.m. to 4:30 p.m., (with the exception of Noon-1:00 p.m. and holidays) at the County of Riverside Planning Department, 4080 Lemon Street, 9th Floor, Riverside, CA 92502. For further information or an appointment, contact the project planner.

Any person wishing to comment on a proposed project may do so, in writing, between the date of this notice and the public hearing or appear and be heard at the time and place noted above. All comments received prior to the public hearing will be submitted to the Planning Commission, and the Planning Commission will consider such comments, in addition to any oral testimony, before making a decision on the proposed project.

If you challenge this project in court, you may be limited to raising only those issues you or someone else raised at the public hearing, described in this notice, or in written correspondence delivered to the Board of Supervisors at, or prior to, the public hearing. Be advised that, as a result of public hearings and comment, the Board of Supervisors may amend, in whole or in part, the proposed project. Accordingly, the designations, development standards, design or improvements, or any properties or lands, within the boundaries of the proposed project, may be changed in a way other than specifically proposed.

Please send all written correspondence to:

**PROPERTY OWNERS CERTIFICATION FORM**

I, VINNIE NGUYEN, certify that on 3/24/2010,

The attached property owners list was prepared by Riverside County GIS,

APN (s) or case numbers CUP03464 For

Company or Individual's Name Planning Department,

Distance buffered ~~600'~~ 2400'.

Pursuant to application requirements furnished by the Riverside County Planning Department, Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

<ul style="list-style-type: none"> <li>• Revised Permit</li> </ul>	<p>Same appeal deadline as for original permit.</p>
<ul style="list-style-type: none"> <li>• Certificate of Compliance</li> <li>• Tree Removal Permit</li> </ul>	<p>Within 10 days after the date of the decision by the Planning Director.</p>
<ul style="list-style-type: none"> <li>• Revocation of Variances and Permits</li> </ul>	<p>Within 10 days following the mailing of the notice of revocation by the Director of Building and Safety, or within 10-days after the notice of decision of the Planning Commission appears on the Board of Supervisor's agenda.</p>

**PLEASE STATE THE REASONS FOR APPEAL.**

Please state the basis for the appeal and include any supporting evidence if applicable. If appealing one or more specific conditions of approval, indicate the number of the specific condition(s) being protested. In addition, please include all actions on related cases, which might be affected if the appeal is granted. This will allow all changes to be advertised and modified at the same time. AN APPEAL OF ONE OR MORE CONDITIONS OF APPROVAL SHALL BE DEEMED AS AN APPEAL OF THE ACTION AS A WHOLE, AND THE APPEAL BODY MAY APPROVE OR DENY THE ENTIRE MATTER, AND CHANGE ANY OR ALL OF THE CONDITIONS OF APPROVAL.

PLEASE NOTE: Obtain surrounding property owners label package/instructions (Form 295-1051) from a County Public Information Services Center or download it from the Planning Department web page.

## **Appeal to Riverside County Board of Supervisors**

### **October 28, 2009 Planning Commission Approval CUP 3464**

The Friends of the Northern San Jacinto Valley first objected to CUP 3464 in May 2008 when the Riverside County Planning Department recommended approval of this project pursuant to a Categorical Exemption under the California Environmental Quality Act (CEQA). We have attached copies of our letters to the Riverside County Planning Department (May 14, 2008) and the County Planning Commission (May 27, 2008) objecting to the use of the CEQA Exemption. Potential project impacts of concern identified by the Friends included the following:

- The project site is located within the lands comprising the San Jacinto Wildlife Area, a principal reserve in the Riverside County Multiple Species Habitat Conservation Plan (Land Use Compatibility/Cumulative impact analysis/ General Plan Consistency).
- The Project site is located in the lakebed of Mystic Lake and is within the 100 year floodplain of the San Jacinto River (Water Quality Degradation/TMDL requirements).
- The floodplain location of the project exposes people to hazardous conditions and raises potential water quality and pollution issues of concern.
- The project site is located in the Alkali Playa Plant Community and likely provides habitat suitable for one or more of the three federally listed plant species restricted largely to the Mystic Lake location (San Jacinto Crownscale, Spreading Navarretia, and Thread-leaf Brodiaea).
- The deposition of lead shot in the Mystic Lakebed from the project proposed shooting facilities will be contrary to Water Quality criteria (Federal Clean Water Act) and detrimental to the diversity of wildlife the MSHCP seeks to conserve.

CUP 3464 next appeared on the Planning Commission Agenda in September, 2009. At that time the County Planning Department recommended the project be approved based on a CEQA Mitigated Negative Declaration (MND). At that public hearing County Counsel advised the Planning Commission they could not approve CUP 3464 unless they had an adequate CEQA document before them (subject to public and SCH review). The Planning Commission conceded this point of law and continued the public hearing until October 28, 2009.

The Friends submitted our September 29, 2009 comment letter to the Planning Commission at the September 30, 2009 public hearing for this project. The September 29, 2009 comments were also incorporated by reference into our October 13, 2009 comment letter on the proposed Mitigated Negative Declaration (MND) for CUP 3464 prior to the close of the CEQA public comment period.

Our September 29, 2009 letter restated the Friends impacts of concern and provided the Planning Commission additional evidence substantiating our concerns that the deposition of lead shot in the Mystic Lakebed would be detrimental to Water Quality and the diversity of wildlife species
