The Sheriff's Department is staffed by more than 3,800 employees; e.g., Patrol, Corrections, Courts, etc. There are over 1,200 employees assigned to the Corrections Division.

The Sheriff would like to further build a career ladder for the Correctional staff. In 2008, the Correctional Captain classification was created based on the previously inactivated Correctional Commander classification. This classification was compared to the Sheriff's Captain classification but with limited responsibilities over Corrections only. The Correctional Captain classification's annual salary is 15.5% lower than the Sheriff's Captain classification. An internal parity study was conducted with these two classifications to determine the most appropriate salary range for the proposed classification.

We recommend establishing a new At-Will classification that would implement a non-sworn Correctional Chief Deputy classification over the Corrections Division, who is highly skilled and experienced in the Correctional field. Typically, two Chief Deputy Sheriffs oversee Correctional Operations. With the creation of this alternative non-sworn classification, funding currently authorized for one of the existing Chief Deputy positions would be reallocated to fund this newly-created Correctional Chief Deputy position. When this position is utilized there would be a budget savings of approximate 15.5% from that of a sworn Chief Deputy Sheriff position.

CLASSIFICATION ADDITION

Correctional Chief Deputy: It is recommended to add this class to the Class and Salary Listing at LEX 117 L13 (\$98,906 - \$135,973). This salary range is well positioned organizationally within the Sheriff's Department: It is 15.25% lower than the Chief Deputy Sheriff's maximum annual salary of \$156,702 and 15.05% higher than the Correctional Captain's maximum annual salary of \$118,185. The incumbent of the latter Correctional Captain classification would be subordinate to the incumbent of the proposed classification. Therefore, the proposed salary range is appropriate. The classification specification is attached.
