As provided in County Ordinance 573, the rate of charge for each County Service Area (CSA) was calculated by dividing the net cost of the service by the total number of parcels receiving the service. In addition, some CSA special assessments were established by an engineer's report that included an annual adjustment by the greater of two percent (2.0%) or the cumulative percentage increase in the Consumer Price Index for all Urban Consumers (CPI-U) as it stands on March of 2010 and were increased accordingly.
