

MINUTES OF THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

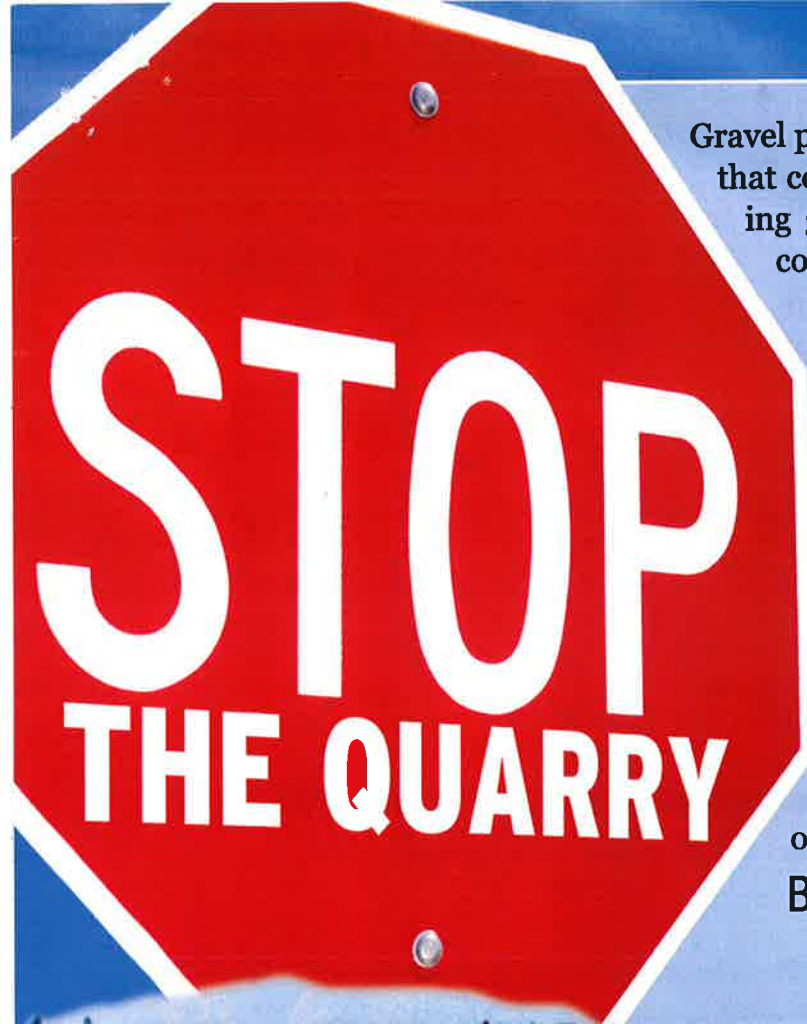

9.15

During the oral communication section of the agenda for Tuesday, July 13, 2010, Dr. Daniel Robbins and Kristi Rutz spoke in opposition of The Quarry.

**ATTACHMENTS FILED WITH
CLERK OF THE BOARD**

**AGENDA NO.
9.15**

Gravel pits built in a community change the way people look at that community. It becomes an industrialized area, a dumping ground. The Mega Mine will pollute and imperil our communities. This is a toxic project!

Join us in the fight to save our communities from one of the largest open pit, hard rock gravel quarries in the country! Become informed and be proactive!

Temecula, Murrieta, Lake Elsinore, Menifee, and Fallbrook Medical Doctors say "NO" to a quarry in our communities! Dr. Daniel C. Robbins says, "The Liberty Quarry project is an open pit mine and will increase air pollution, and silica dust will be carried via the prevailing winds directly to our valley. This will increase rates of asthma, may eventually lead to cases of chronic nodular silicosis, and will worsen the lungs of our most fragile patients."

Breathing may be hazardous to your health!

 (date)

COUNTY OF RIVERSIDE - determined that the proposed quarry would result in significant and unavoidable impacts to air quality and traffic.

Water - approximately 472 gallons of fresh water will be used per operating minute, 172,000,000 gal of water annually

Size - one mile long by one-half mile wide and 1,000 ft deep two asphalt plants and one concrete batch plant on site

Operations - quarry plans to operate 20 hours per day 6 days per week crushing and grinding rock 18 hrs per day for 75 yrs.

Traffic- 1,600 truck trips per day.

Blasting - Up to ten blasts per week, using 10,000 pounds of Ammonium Nitrate

Santa Margarita River - quarry site is located near the Santa Margarita River-the major source of drinking water for Camp Pendleton. It is the last free flowing River in Southern Calif.

Santa Margarita Ecological Reserve - Quarry site is on the border of the SDSU Santa Margarita Ecological Reserve: 4300 acres of outdoor laboratories and has been in operation over 40 yrs.

Quarry - is just west of the Elsinore fault.

Wildlife Corridor - quarry will sever and destroy the wildlife linkage which connects the coastal mountains with the inland mountains

Spread the word - speak to your neighbors, e-mail friends, speak at your HOA meetings, invite SOS-Hills to speak at your organization's meetings.
