SUBMITTAL TO THE BOARD OF SUPERVISORS **COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

FROM: TLMA - Planning Department

SUBMITTAL DATE: August 19, 2010

SUBJECT: CHANGE OF ZONE NO. 7722 AND TENTATIVE PARCEL MAP NO. 36232 -Intent to Adopt a Mitigated Negative Declaration – Applicant: MDMG INC. Engineer/Representative: MDMG INC.- Third Supervisorial District - Rancho California Zoning Area - Southwest Area Plan: Rural: Rural Residential (RR) (5 acres minimum) - Location: Easterly of De Portola Road, westerly of Calle Cordova, southerly of Geisbauer Road, and northerly of Calle Azure - 29.66 Gross Acres - Zoning: Rural Residential (R-R) - REQUEST: The Tentative Parcel Map is a Schedule H subdivision of 26.66 acres into four (4) residential parcels with a minimum size of five (5) gross acres, and one (1) 6.03 gross acre designated remainder. The Change of Zone proposes to amend the site's zoning classification from Rural Residential (R-R) to Residential Agricultural - 5 Acres Minimum (R-A-5) - APN: 915-260-001.

RECOMMENDED MOTION:

The Planning Department recommended Approval; and, THE PLANNING COMMISSION RECOMMENDS:

ADOPTION of a **MITIGATED NEGATIVE** DECLARATION **ENVIRONMENTAL** for ASSESSMENT NO. 42232, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

TENTATIVE APPROVAL of CHANGE OF ZONE NO. 7722, amending the zoning classification for the subject property from Rural Residential (R-R) to Residential Agricultural- 5 Acre Minimum (R-A-5), pending final adoption of the Zoning Ordinance by the Board of Supervisors; and,

PLANNING COMMISSION MINUTE ORDER JUNE 2, 2010 RIVERSIDE COUNTY ADMINISTRATIVE CENTER

I. AGENDA ITEM 7.2: TENTATIVE PARCEL MAP NO. 36232 / CHANGE OF ZONE NO. 7722 - Intent to Adopt a Mitigated Negative Declaration - Applicant: MDMG INC. - Engineer/Representative: MDMG INC. - Third Supervisorial District - Rancho California Zoning Area - Southwest Area Plan: Rural: Rural Residential (RR) (5 acres minimum) - Location: Easterly of De Portola Road, westerly of Calle Cordova, southerly of Geisbauer Road, and northerly of Calle Azure - 29.66 Gross Acres - Zoning: Rural Residential - APN: 915-260-001 - (Quasi-judicial)

II. PROJECT DESCRIPTION

The Tentative Parcel Map proposes a Schedule H subdivision of 26.66 acres into four (4) residential parcels with a minimum lot size of five (5) gross acres, and one (1) 6.03 gross acre designated remainder. The Change of Zone proposes to amend the sites zoning classification from Rural Residential (RR) to Residential Agricultural (5 acres minimum) (R-A-5).

III. MEETING SUMMARY

The following staff presented the subject proposal:

Project Planner: Jeff Horn, Ph: (951) 955-4641 or E-mail jhorn@rctlma.org

The following spoke in favor of the subject proposal:

Larry Markham, Applicant's Representative, 41635 Enterprise Circle N., Suite B, Temecula, CA 92590-5614

No one spoke in a neutral position or in opposition of the subject proposal.

IV. CONTROVERSIAL ISSUES

NONE

V. PLANNING COMMISSION ACTION

The Planning Commission, by a vote of 4-0 (Commissioner Zuppardo absent); recommended, with modifications, to the Board of Supervisors;

ADOPTION of a MITIGATED NEGATIVE DECLARATION for ENVIRONMENTAL ASSESSMENT NO. 42232, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

TENTATIVE APPROVAL of **CHANGE OF ZONE NO. 7722**, amending the zoning classification for the subject property from Rural Residential (R-R) to Residential Agricultural- 5 Acre Minimum (R-A-5) and,

APPROVAL of **TENTATIVE PARCEL MAP NO. 36232**, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

VI. CD

The entire discussion of this agenda item can be found on CD. For a copy of the CD, please contact Chantell Griffin, Planning Commission Secretary, at (951) 955-3251 or E-mail at cgriffin@rctlma.org.

COUNTY OF RIVERSIDE PLANNING DEPARTMENT STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

Change of Zone No. 7722 proposes to amend the sites zoning classification from Rural Residential (RR) to Residential Agricultural - 5 Acre Minimum (R-A-5).

Tentative Parcel Map No. 36232 proposes a Schedule H subdivision of 29.66 acres into four (4) residential parcels with a minimum lot size of five (5) gross acres, and one (1) 6.03 gross acre designated remainder.

The project site is located westerly of Exa Ely Road, easterly of Calle Cordova, southerly of Gray Squirrel Road, and northerly of Via Elena in the Sage community of the Riverside Extended Mountainous Area Plan (REMAP).

SUMMARY OF FINDINGS:

1. Existing General Plan Land Use (Ex. #5): Rural: Rural Residential (R:RR) (5 Acre Minimum)

2. Surrounding General Plan Land Use (Ex. #5): Rural: Rural Residential (R:RR) (5 Acre Minimum)

3. Existing Zoning (Ex. #2): Rural Residential (RR)

3. Proposed Zoning (Ex. #2): Residential Agricultural – 5 Acre Minimum

4. Surrounding Zoning (Ex. #2): Residential Agricultural (R-A-10) (10 Acre Minimum) to the north, Rural Residential (R-R) to

the east, south and west

5. Existing Land Use (Ex. #1): Vacant land

6. Surrounding Land Use (Ex. #1): Vacant land to the north, east and south, and

single family residence to the west

7. Project Data: Total Acreage: 29.66 Gross Acres

Total Proposed Lots: 4 and one (1) remainder

Proposed Min. Lot Size: 5 Gross Acres

Schedule: H

8. Environmental Concerns: See attached environmental assessment

RECOMMENDATIONS:

<u>ADOPTION</u> of a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 42232**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

TENTATIVE APPROVAL of CHANGE OF ZONE NO. 7722, amending the zoning classification for the subject property from Rural Residential (R-R) to Residential Agricultural- 5 Acre Minimum (R-A-5) and,

Change of Zone No. 7722
Tentative Parcel Map No. 36232
Environmental Assessment No. 42232

PC Staff Report: June 2, 2010

Page 2 of 4

APPROVAL of TENTATIVE PARCEL MAP NO. 36232, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

CONCLUSIONS:

- 1. The proposed project is in conformance with the Rural: Rural Residential (R:RR) (5 Acre Minimum) Land Use Designation, and with all other elements of the Riverside County General Plan.
- 2. The proposed project is consistent with the proposed Residential Agricultural (R-A-5) (5 Acre Minimum) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
- 3. The proposed project is consistent with the Schedule H map requirements of Ordinance No. 460, and with other applicable provisions of Ordinance No. 460.
- 4. The public's health, safety, and general welfare are protected through project design.
- 5. The proposed project is clearly compatible with the present and future logical development of the area.
- 6. The proposed project will not have a significant effect on the environment.
- 7. The proposed project will not preclude reserve design for the Multi-Species Habitat Conservation Plan (MSHCP).

<u>FINDINGS</u>: The following findings are in addition to those incorporated in the summary of findings and in the attached environmental assessment, which is incorporated herein by reference.

- 1. The project site is designated Rural: Rural Residential (R:RR) (5 Acre Minimum) on the REMAP Area Plan.
- 2. The proposed use, a residential parcel map with a minimum of 5 Gross Acres, is a permitted use in the Rural: Rural Residential (R:RR) (5 Acre Minimum) land use designation.
- 3. In accordance with Section 3.2.J. of Ordinance No. 460, the applicant has provided written assurance(s) (copies of which are attached) from the owner(s) of the property(ies) underlying the off-site improvement/alignment (as shown on the Tentative Map) that sufficient right-of-way can and will be provided. In the event the above referenced property owner(s) or their successor(s)-in-interest does/do not provide to the Transportation Department and/or Flood Control District the necessary dedication(s), eminent domain proceedings may need to be instituted by the Riverside County Board of Supervisors.
- 4. The project site is surrounded by properties which are designated Rural: Rural Residential (R:RR) (5 Acre Minimum).
- 5. The proposed zoning for the subject site is Residential Agricultural 5 Acre Minimum (R-A-5).

Change of Zone No. 7722 Tentative Parcel Map No. 36232 Environmental Assessment No. 42232

PC Staff Report: June 2, 2010

Page 3 of 4

- 6. The proposed use, a residential parcel map with a minimum lot size of five (5) Gross Acres, is consistent with the development standards set forth in the proposed Residential Agricultural 5 Acre Minimum (R-A-5).
- 7. The project site is surrounded by properties which are zoned Residential Agricultural 10 Acre Minimum (R-A-10) to the north, Rural Residential (R-R) to the east, south and west.
- 8. An existing single family residence was constructed to the west of the project site.
- 9. This project is located within Criteria Area and specifically Cell Group 'I': Cell Number 6483 of the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP). No conservation was determined to be necessary. A Habitat Evaluation and Acquisition Negotiation Strategy (HANS) application was filed (HANS01990) and a Joint Project Review (JPR) was completed. Upon JPR completion, the property was determined "not conserved" therefore, the project will not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan. Additionally, a supplemental report, MSHCP Consistency Analysis (PD-B05607) was prepared for the project site and determined that three (3) separate riparian/riverine exist on site, all of which are proposed for 100% avoidance through project design.
- 10. Environmental Assessment No. 42232 identified the following potentially significant impacts:
 - a. Biological Resources

c. Cultural Resources

b. Hydrology/Water Quality

These listed impacts will be fully mitigated by the measures indicated in the environmental assessment, conditions of approval, and attached letters. No other significant impacts were identified.

INFORMATIONAL ITEMS:

- 1. As of this writing, no letters, in support or opposition have been received.
- 2. The project site is <u>not</u> located within:
 - a. A city of sphere of influence.
 - b. An airport influence area.
 - c. A specific plan.
 - d. An Agricultural Preserve.
 - e. A Redevelopment Area.
 - f. The Stephens Kangaroo Rat Fee Area.
 - g. A Fault Zone.
 - h. A County Service Area.
- 3. The project site is located within:
 - a. The boundaries of the Hemet Unified School District.
 - b. A High Fire Area.
 - c. An WRMSHCP Criteria Area.
 - d. An area of low paleontological sensitivity.

Change of Zone No. 7722
Tentative Parcel Map No. 36232
Environmental Assessment No. 42232

PROJECT INFORMATION

A. Project Description:

Change of Zone No. 7722 proposes to amend the sites zoning classification from Rural Residential (RR) to Residential Agricultural - 5 Acre Minimum (R-A-5).

Tentative Parcel Map No. 36232 proposes a Schedule H subdivision of 29.66 acres into four (4) residential parcels with a minimum lot size of five (5) gross acres, and one (1) 6.03 gross acre designated remainder.

- **B.** Type of Project: Site Specific ⊠; Countywide ☐; Community ☐; Policy .

- **D.** Assessor's Parcel No(s): 915-260-001, -037, -038, -039 and -040.
- E. Street References: The project site is located westerly of Exa Ely Road, easterly of Calle Cordova, southerly of Gray Squirrel Road, and northerly of Via Elena in the Sage community of the Riverside Extended Mountainous Area Plan (REMAP).
- F. Section, Township & Range Description or reference/attach a Legal Description: Section 26, Township 7 South and Range 1 West
- G. Brief description of the existing environmental setting of the project site and its surroundings: The 29.66 gross acre project site consists of well defined ridges and natural watercourses which traverse the property, with adequate area outside the natural watercourses for building sites. The project site is vacant, and is surrounded by vacant land to the north, east and south. A single family residence exists approximately 500 feet to the west of the project site.

H. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

A. General Plan Elements/Policies:

- 1. Land Use: The proposed project meets the requirements of the Rural: Rural Residential (R:RR) (5 Acre Minimum) land use designation. The proposed project meets all other requirements of the General Plan and all applicable land use policies.
- 2. Circulation: Adequate circulation facilities exist and are proposed to serve the proposed project. The proposed project meets with all other applicable circulation policies of the General Plan.
- 3. Multipurpose Open Space: The project does not propose any multipurpose open space areas; however, it has been conditioned to pay the appropriate park mitigation fees pursuant to the Quimby Act and the standard open space and Multi-Species Habitat Conservation Plan (MSHCP) fees. The proposed project meets all other applicable Multipurpose Open Space element policies.
- 4. Safety: The proposed project is not located within any special hazard zone (including 100-year flood zone, fault zone, dam inundation zone, area with high liquefaction potential, etc.). The project is located within a High Fire Area; however, the project has been conditioned accordingly. The proposed project allows for sufficient provision of emergency response services to the future residents of this project through the project design and payment of development impact fees. Sufficient mitigation against any foreseeable hazardous sources in the area has been provided. The proposed project meets all other applicable Safety Element policies.
- **5. Noise:** The proposed four (4) residential lots with a five (5) gross acre minimum lot size is considered a minor subdivision and therefore, impacts to noise shall be less than significant. The proposed project meets with all other applicable noise element policies.
- **6. Housing:** Development of the project has the potential to create four (4) additional dwelling units. The proposed project meets with all applicable Housing element policies.
- 7. Air Quality: The proposed project has been conditioned to control any fugitive dust during grading and construction activities. The proposed project meets all other applicable Air Quality element policies
- B. General Plan Area Plan(s): Riverside Extend Mountainous Area Plan (REMAP)

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED
The environmental factors checked below (x) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.
☐ Aesthetics ☐ Hazards & Hazardous Materials ☐ Public Services ☐ Agriculture Resources ☐ Hydrology/Water Quality ☐ Recreation ☐ Air Quality ☐ Land Use/Planning ☐ Transportation/Traffic ☐ Biological Resources ☐ Mineral Resources ☐ Utilities/Service Systems ☐ Cultural Resources ☐ Noise ☐ Other ☐ Geology/Soils ☐ Population/Housing ☐ Mandatory Findings of Significance
IV. DETERMINATION
On the basis of this initial evaluation:
A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT
PREPARED I find that the proposed project COULD NOT have a significant effect on the environment, and a
PREPARED ☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
PREPARED ☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION
PREPARED ☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. ☐ I find that the proposed project MAY have a significant effect on the environment, and an

	become feasible.			
	I find that although all potentially significant effects have been adequately analyzed in an earlier			
7	EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are			
	necessary but none of the conditions described in California Code of Regulations, Section 15162			
i	exist. An ADDENDUM to a previously-certified EIR or Negative Declaration has been prepared and			
	will be considered by the approving body or bodies.			
	I find that at least one of the conditions described in California Code of Regulations, Section			
	15162 exist, but I further find that only minor additions or changes are necessary to make the previous			
	EIR adequately apply to the project in the changed situation; therefore a SUPPLEMENT TO THE			
	ENVIRONMENTAL IMPACT REPORT is required that need only contain the information necessary to			
	make the previous EIR adequate for the project as revised.			
	I find that at least one of the following conditions described in California Code of Regulations,			
	Section 15162, exist and a SUBSEQUENT ENVIRONMENTAL IMPACT REPORT is required: (1)			
	Substantial changes are proposed in the project which will require major revisions of the previous EIR			
!	or negative declaration due to the involvement of new significant environmental effects or a substantial			
	increase in the severity of previously identified significant effects; (2) Substantial changes have			
	occurred with respect to the circumstances under which the project is undertaken which will require			
	major revisions of the previous EIR or negative declaration due to the involvement of new significant			
	environmental effects or a substantial increase in the severity of previously identified significant			
	effects; or (3) New information of substantial importance, which was not known and could not have			
	been known with the exercise of reasonable diligence at the time the previous EIR was certified as			
	complete or the negative declaration was adopted, shows any the following:(A) The project will have			
	one or more significant effects not discussed in the previous EIR or negative declaration;(B)			
	Significant effects previously examined will be substantially more severe than shown in the previous			
	EIR or negative declaration;(C) Mitigation measures or alternatives previously found not to be feasible			
	would in fact be feasible, and would substantially reduce one or more significant effects of the project,			
	but the project proponents decline to adopt the mitigation measures or alternatives; or,(D) Mitigation			
	measures or alternatives which are considerably different from those analyzed in the previous EIR or			
	negative declaration would substantially reduce one or more significant effects of the project on the			
	environment, but the project proponents decline to adopt the mitigation measures or alternatives.

2.

Mt. Palomar Observatory

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
AESTHETICS Would the project				
1. Scenic Resources a) Have a substantial effect upon a scenic highway corridor within which it is located? 				
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view?

	a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655?
	Source: GIS database, Ord. No. 655 (Regulating Light Pollution)
	Findings of Fact: According to the RCIP, the project site is located 13.68 miles away from the Mt. Palomar Observatory, which is within the designated ZONE A Special Lighting Area that surrounds the Mt. Palomar Observatory. Ordinance No. 655 contains approved materials and methods of installation, definition, general requirements, requirements for lamp source and shielding, prohibition and exceptions. With incorporation of project lighting requirements of the Riverside County Ordinance No. 655 into the proposed project, this impact will be reduced to a less than significant impact. A note will be made on the Environmental Constraints Sheet that the properties are located within Zone A of County Ordinance No. 655 and are subject to outdoor lighting restrictions (COA 50.PLANNING.23). This is a standard condition of approval and therefore is not considered mitigation pursuant to CEQA.
	Mitigation: No mitigation measures are required.
	Monitoring: No monitoring measures are required.
	a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?
)	b) Expose residential property to unacceptable light \(\square\) \(\square\) \(\square\) \(\square\) levels?
	Source: On-site Inspection, Project Application Description
	Findings of Fact:
	a) The proposed project will introduce new sources of nighttime light and glare into the area from rural residential uses. Spill of light onto surrounding properties, and "night glow" can be reduced by using hoods and other design features on light fixtures used within the proposed project. Inclusion of these design features in the project is addressed through standard County conditions of approval, plan checks, permitting procedures, and code enforcement. Potential impacts associated with glare will be reduced to below the level of significance through these standard County practices and procedures and implementation of the below-listed mitigation measure.
	b) The proposed project would result in a new source of light and glare. Vehicular lighting would increase from cars traveling to and from the project site. However, this impact would be minimal based on the small number of trips this project would generate.
	Riverside County Ordinance No. 655 is applicable to the project site. Therefore, the project must comply with Ordinance No. 655, including, but not limited to Low-Pressure Sodium Voltage (LPSV)

The proposed project is not expected to create unacceptable light levels because of conformance with Ordinance No. 655. Therefore, the proposed project would not create a new source of substantial

street lights. Pursuant to Ordinance No. 655, the project's onsite lighting will be directed downward or shielded and hooded to avoid shining onto adjacent properties and streets. Furthermore, the amount

of lighting will be similar to other residential areas surrounding the site.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
light or glare which would adversely affect day or nighttime views in the area or expose residential property to unacceptable light levels. Impacts would be less than significant. No mitigation measures are required. Mitigation: No mitigation measures are required. Monitoring: No monitoring measures are required. Monitoring: No monitoring measures are required. AGRICULTURE RESOURCES Would the project 4. Agriculture a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use, or a Williamson Act (agricultural preserve) contract (Riv. Co. Agricultural Land Conservation Contract Maps)? c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 "Right-to-Farm")? d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use? Source: Riverside County General Plan Figure OS-2 "Agricultural Resources," RCLIS database and Project Application Materials. Findings of Fact: a) The project site is not designated as Prime Farmland, Unique Farmland, or Farmland of Statewide importance and therefore will not convert Prime Farmland, Unique Farmland, or Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use. b) There are no existing agriculture uses on the project site; therefore, the project will not conflict with existing agricultural use, or a Williamson Act (agricultural preserve) contract (Riv. Co. Agricultural Land Conservation Contract Maps). The project site is not located in an Agricultural Preserve. c) There is no agriculturally zoned property within 300 feet of the project will not involve other capriculturally zoned properties would occur and a notice to property owners as described in Riverside County Ordinance No. 625 ("Right to Farm") is				
Mitigation: No mitigation measures are required.

AIR QUALITY Would the project				
5. Air Quality Impacts			\boxtimes	
a) Conflict with or obstruct implementation of the				
applicable air quality plan?				
b) Violate any air quality standard or contribute	Ц	\square	\boxtimes	
substantially to an existing or projected air quality violation?			57	
c) Result in a cumulatively considerable net increase	Ш		\boxtimes	Ш
of any criteria pollutant for which the project region is non-				
attainment under an applicable federal or state ambient air quality standard (including releasing emissions which				
exceed quantitative thresholds for ozone precursors)?				
d) Expose sensitive receptors which are located within		П	П	N
1 mile of the project site to project substantial point source		L	<u> </u>	
emissions?				
e) Involve the construction of a sensitive receptor				\boxtimes
located within one mile of an existing substantial point				
source emitter?		·		
f) Create objectionable odors affecting a substantial				\boxtimes
number of people?				

Source: SCAQMD CEQA Air Quality Handbook Table 6-2, Riverside County General Plan

Findings of Fact:

- a) The project site is located in the South Coast Air Basin (SCAB). The South Coast Air Quality Management District (SCAQMD) Governing Board adopted its most recent Air Quality Management Plan (AQMP) for the SCAB on August 1, 2003. The AQMP is a plan for the regional improvement of air quality. As part of adoption of the County's General Plan in 2003, the General Plan EIR (SCH No. 2002051143) analyzed the General Plan growth projections for consistency with the AQMP and concluded that the General Plan is consistent with the SCAQMD's AQMP. The project is consistent with the County General Plan and would therefore be consistent with the SCAQMD's AQMP.
- b-c) Residential developments, such as the proposed project, primarily impact air quality through increased automotive emissions. Stand-alone projects typically do not generate enough traffic and associated air pollutants to individually violate clean air standards or contribute a significant amount of air pollutants that would create a cumulatively considerable significant impact. Cumulative air quality impacts associated with build-out of the County General Plan in the project vicinity and in western Riverside County as a whole were addressed on a regional basis by the County's General Plan EIR (SCH 2002051143). That EIR concluded that air quality is a significant and unmitigatable impact of General Plan implementation. However, because the project is consistent with the EIR no mitigation is required.
- d) The proposed project will have a less than significant impact on the exposure of sensitive receptors to substantial pollutant concentrations. The proposed project may expose sensitive receptors to Page 8 of 36

pollutant concentrations during project grading and construction. However, there are no sensitive receptors in the immediate vicinity of the proposed project site. There is a single family residence approximately 500 feet to the west of the project site. Air emissions will be created by construction equipment and fugitive dust will be generated during site preparation and construction activities. Long-term operational emissions generated by the proposed project will primarily be from motor vehicles. Other emissions will be generated from the combustion of firewood in fireplaces and the combustion of natural gas for space heating and the generation of electricity. In addition, emissions will be generated by the use of natural gas for the generation of electricity off-site. Due to the minimal amount and the mostly temporary nature of the grading and project construction that will take place, it is not anticipated that significant impacts will occur. By The project site is surrounded by vacant land to the north, east and south. A single family residence is located approximately 500 feet to the west of the project site. As such, no point-source emitters are located within a close proximity to future residents of the site. Therefore, the project will not involve the construction of a sensitive receptor located within one mile of an existing substantial point-source emitter. The proposed project will not result in or create objectionable odors. No activities are anticipated to occur on the site that would create odors. No impact is anticipated. Mitigation: No mitigation measures are required. Monitoring: No monitoring measures effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, o		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
preparation and construction activities. Long-term operational emissions generated by the proposed project will primarily be from motor vehicles. Other emissions will be generated from the combustion of firewood in fireplaces and the combustion of natural gas for space heating and the generation of electricity. In addition, emissions will be generated by the use of natural gas for the generation of electricity off-site. Due to the minimal amount and the mostly temporary nature of the grading and project construction that will take place, it is not anticipated that significant impacts will occur. e) The project site is surrounded by vacant land to the north, east and south. A single family residence is located approximately 500 feet to the west of the project site. As such, no point-source emitters are located within a close proximity to future residents of the site. Therefore, the project will not involve the construction of a sensitive receptor located within one mile of an existing substantial point-source emitter. f) The proposed project will not result in or create objectionable odors. No activities are anticipated to occur on the site that would create odors. No impact is anticipated. Mitigation: No mitigation measures are required. Monitoring: No monitoring measures are required. Monitoring: No monitoring measures are required. Monitoring: No monitoring measures are required. BIOLOGICAL RESOURCES Would the project 6. Wildlife & Vegetation a) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan? b) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regolant plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service? d) Interfere substantial adverse effect on any riparian habitat or other sensitive natural commu					
residence is located approximately 500 feet to the west of the project site. As such, no point-source emitters are located within a close proximity to future residents of the site. f) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				
g) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?				

Source: RCLIS, WRCMSHCP, On-site Inspection, PDB5607

Findings of Fact:

- a) Development of the project will not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan.
- b-c) Per MSHCP Consistency Analysis Report (PDB5607) prepared by Principe and Associates dated August 25, 2009, there are three ephemeral drainage features that transverse the proposed project site as mapped on Page 10 of the report; no riparian habitat is associated with these drainages; however, these features were found to meet the definition of riverine habitat as specified in MSHCP Section 6.1.2. The land divider shall prepare an Environmental Constraint Sheet (ECS) in accordance with Section 2.2 E. and F. of County Ordinance No. 460, which shall be submitted as part of the final exhibit for recordation. The areas identified on Page 10 shall be shown and clearly labeled on all project exhibits including final map and ECS to ensure avoidance of these habitats. An ECS note will also be required at recordation to reflect these areas as restricted from development (COA 50.EPD.1).
- d) Development of the project will not interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites.
- e) Per MSHCP Consistency Analysis Report (PDB5607) prepared by Principe and Associates dated August 25, 2009, there are three ephemeral drainage features that transverse the proposed project site as mapped on Page 10 of the report; no riparian habitat is associated with these drainages. Development of this project is not anticipated to have a substantial adverse effect on any other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service.
- f) The project site does not contain any federally protected wetlands. Development of the project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means.
- g) Development of this project will conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance. The project has been conditioned for an Oak Tree Easement (50.PLANNING.24) (60.PLANNING.04) and to preserve these existing oak trees

Findings of Fact:

a-b) As a result of recommendations within PD-A-4612, archeological monitoring of all grading is required. No grading is permitted within 100 feet of historic archaeological site CA-RIV-9231 unless significance testing is performed as part of additional environmental review. Prior to the issuance of grading permits, the developer/permit holder shall retain and enter into a monitoring and mitigation service contract with a qualified Historic Archaeologist for services. This professional shall be known as the "Project Monitor." The Project Monitor shall be included in the pre-grade meetings to provide cultural/historical sensitivity training including the establishment of set guidelines for ground disturbance in sensitive areas with the grading contractors and special interest monitors. The Project Monitor shall manage and oversee monitoring for all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The Project Monitor shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the special interest monitors. (60.PLANNING.01)

Additionally, the Soboba Band of Luiseno Indians and the Pechanga Band of Luiseno Indians, tribal observation of any archaeological monitoring of grading is required to address tribal concerns. Prior to the issuance of grading permits, the developer/permit holder shall enter into a cooperative contract and retain one monitor designated by the Soboba Band of Luiseno Indians and one monitor designated by the Pechanga Band of Luiseno Indians. These two monitors shall be known as the Tribal Monitor for this project. The contract shall address the treatment and ultimate disposition of cultural resources which may include repatriation and/or curation in a Riverside County approved curation facility. The Tribal Monitors shall be on-site during all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The Tribal Monitors shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the appropriate Cultural Resources Professional such as an Archaeologist, Historic Archaeologist, Architectural Historian and/or Historian. The developer/permit holder shall submit a fully executed copy of the contract to the Riverside County Planning Department to ensure compliance with this condition of approval. Upon verification, the Planning Department shall clear this condition. (60.PLANNING.02)

- c) The project shall not disturb any human remains including those interred outside of formal cemeteries; however, a standard condition of approval has been incorporated (10.PLANNING.3) in which if remains are found no further disturbances shall occur until the Riverside County Coroner has made the necessary findings as to origin. This is a standard condition of approval and is not considered mitigation pursuant to CEQA.
- d) There are no known existing religious or sacred uses within the project site.

Mitigation:

Prior to the issuance of grading permits, the developer/permit holder shall retain and enter into a monitoring and mitigation service contract with a qualified Historic Archaeologist for services. (60.PLANNING.01)

HAZARDS AND HAZARDOUS MATERIALS Would the pro	ject			
20. Hazards and Hazardous Materials				\boxtimes
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?				
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?				
c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan?				
d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				
e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				

Source: Project Application Materials

Findings of Fact:

- a-b) The proposed project is a Schedule H parcel map for four (4) residential parcels. The proposed project will not create or require transportation of hazardous materials. However, it may result in the use and disposal of substances such as household and commercial cleaning products, fertilizers, pesticides, automotive fluids, etc, but the nature and volume of such substances associated with residential use would not present the potential to create a significant public or environmental hazard.
- c) The proposed project will not impair the implementation of, or physically interfere with an emergency response plan and/or emergency evacuation plan. The proposed project includes adequate access for emergency response vehicles and personnel, as developed in consultation with County Fire personnel.
- d) The project site is located more than a quarter mile from an existing or proposed school. Therefore, this project will not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.
- e) The project site is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5, which could create a significant hazard to the public and/or the environment

	Incorporated		

- a) The topography of the area consists of well-defined ridges and natural watercourses that traverse the property. There is an adequate area outside of the natural watercourses for building sites. However, a storm of unusual magnitude could cause damage. The natural watercourses should be kept free of buildings and obstructions and grading shall perpetuate the natural drainage patterns of the area. New construction shall comply with all applicable ordinances.
- b) This proposal has been reviewed by Riverside County Flood Control. The project site is located within the Santa Margarita River Region of the San Diego Regional Water Quality Control Board and because of the steep terrain in a "Hillside Development", any significant grading may trigger the submittal of a project specific Water Quality Management Plan (WQMP). A note shall be placed on the environmental constraint sheet (ECS) stating "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site, including the construction of a residence on a single parcel, creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District" (COA 60.FLOOD RI.1).
- c) The proposed increase of four (4) residential parcels served by ground wells will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge The proposed four (4) lot subdivision of 26.99 gross acres and 6.03 gross acre remainder shall not create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff. The project will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level.
- d) The proposed four (4) lot subdivision of 29.66 gross acres shall not create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.
- e) The project site is not located within a 100-year flood hazard area. Therefore, the project will not place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map.
- f) The project site is not located within a 100-year flood hazard area. Therefore, development of the project will not place within a 100-year flood hazard area structures which would impede or redirect flood flows.
- g) The proposed project will not otherwise substantially degrade water quality.
- h) The project will not include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors).

<u>Mitigation</u>: An ECS shall be prepared with a note stating that "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site, including the construction of a residence on a single parcel, creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District" (COA 50.FLOOD RI.9 and 60.FLOOD.01).

i) Result in inadequate emergency access or access to nearby uses?										
j) Conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks)?										

Source: RCIP, Transportation Department Review

Findings of Fact:

- a) This project proposes to subdivide 29.66 gross acres into four (4) five acre parcels and a 6.03 gross acre remainder. Construction of a single family residence on each of the four proposed parcels will not cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections). The Transportation Department has reviewed this project and has determined that it is exempt from traffic study requirements.
- b) Adequate area will exist on each parcel for off-street parking. Development of this project will not result in inadequate parking capacity.
- c) Construction of a single family residence on each of the four proposed parcels will not exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated road or highways. The Transportation Department has reviewed this project and has determined that it is exempt from traffic study requirements.
- d) The project site is not located near an airport or airport influence area. Development of the project will not result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks.
- e) Development of this project will not alter waterborne, rail or air traffic.
- f) There are no existing or proposed sharp curves or dangerous intersections. Development of the project is compatible with surrounding uses. Development of this project will adhere to Riverside County Transportation standards.
- g) The project will not have an effect upon, or a need for new or altered maintenance of roads.
- h) The project shall not cause an effect upon circulation during the project's construction.

Riverside County LMS CONDITIONS OF APPROVAL

Page: 1

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1

MAP - DEFINITIONS

RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Tentative Parcel Map No. 36232 shall be henceforth defined as follows:

TENTATIVE MAP = Site Plan for Tentative Parcel Map No. 36232, Amended No. 1, dated March 17, 2010.

FINAL MAP = Final Map or Parcel Map for the TENTATIVE MAP whether recorded in whole or in phases.

10. EVERY. 2

MAP - PROJECT DESCRIPTION

RECOMMND

The land division hereby permitted is to subdivide 29.66 gross acres into four (4) parcels ranging in size from 5.05 gross acres to 7.02 gross acres, with one remainder parcel of 6.03 gross acres.

10. EVERY. 3

MAP - HOLD HARMLESS

RECOMMND

The land divider or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside (COUNTY), its agents, officers, or employees from any claim, action, or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the TENTATIVE MAP, which action is brought within the time period provided for in California Government Code, Section 66499.37. The COUNTY will promptly notify the land divider of any such claim, action, or proceeding against the COUNTY and will cooperate fully in the defense. If the COUNTY fails to promptly notify the land divider of any such claim, action, or proceeding or fails to cooperate fully in the defense, the land divider shall not, thereafter, be responsible to defend, indemnify, or hold harmless the COUNTY.

BS GRADE DEPARTMENT

10.BS GRADE. 1

MAP-GIN INTRODUCTION

RECOMMND

Improvement such as grading, filling, over excavation and recompaction, and base or paving which require a grading

Riverside County LMS CONDITIONS OF APPROVAL

Parcel: 915-260-040

10. GENERAL CONDITIONS

10.BS GRADE. 1 MAP-GIN INTRODUCTION (cont.)

RECOMMND

permit are subject to the included Building and Safety Grading Division conditions of approval.

10.BS GRADE. 2 MAP-G1.2 OBEY ALL GDG REGS

RECOMMND

All grading shall conform to the California Building Code, Ordinance 457, and all other relevant laws, rules and regulations governing grading in Riverside County and prior to commencing any grading which includes 50 or more cubic yards, the applicant shall obtain a grading permit from the Building & Safety Department.

10.BS GRADE. 3 MAP-G1.3 DISTURBS NEED G/PMT

RECOMMND

Ordinance 457 requires a grading permit prior to clearing, grubbing or any top soil disturbances related to construction grading.

10.BS GRADE. 4 MAP-G1.5 EROS CNTRL PROTECT

RECOMMND

Graded but undeveloped land shall provide, in addition to erosion control planting, any drainage facility deemed necessary to control or prevent erosion. Additional erosion protection may be required during the rainy season from October 15 to April 15.

10.BS GRADE. 5

MAP-G1.6 DUST CONTROL

RECOMMND

All necessary measures to control dust shall be implemented by the developer during grading.

10.BS GRADE. 6

MAP-G2.1 GRADING BONDS

RECOMMND

Grading in excess of 199 cubic yards will require performance security to be posted with the Building & Safety Department. Single family dwelling units graded one lot per permit and proposing to grade less than 5,000 cubic yards are exempt.

10.BS GRADE. 7 MAP-G2.5 2:1 MAX SLOPE RATIO

RECOMMND

Grade slopes shall be limited to a maximum steepness ratio of 2:1 (horizontal to vertical) unless otherwise approved.

Riverside County LMS CONDITIONS OF APPROVAL

Page: 3

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

10.BS GRADE. 8

MAP-G2.6SLOPE STABL'TY ANLY

RECOMMND

A slope stability report shall be submitted and approved by the County Geologist for all proposed cut or fill slopes steeper than 2:1 (horizontal to vertical) or over 30 feet in vertical height - unless addressed in a previous report.

10.BS GRADE. 9

MAP-G2.8MINIMUM DRNAGE GRAD

RECOMMND

Minimum drainage grade shall be 1% except on portland cement concrete where 0.35% shall be the minimum.

10.BS GRADE. 10

MAP-G2.11DR WAY XING NWC

RECOMMND

Lots whose access is or will be affected by natural or constructed drainage facilities, shall provide drive way drainage facilities which are adequate to allow access from the street to the house during 100 year storms.

10.BS GRADE. 11

MAP-G2.12SLOPES IN FLOODWAY

RECOMMND

Graded slopes which infringe into the 100 year storm flow flood way boundaries, shall be protected from erosion, or other flood hazards, by a method acceptable to the Building & Safety Departments District Grading Engineer - which may include Riverside County flood Control & Water Conservation District's review and approval. However, no graded slope will be allowed which in the professional judgment of the District Grading Engineer blocks, concentrates or diverts drainage flows.

10.BS GRADE. 12

MAP-G2.13FIRE D'S OK ON DR.

RECOMMND

Driveways shall be designed in accordance with Riverside County Fire Department standards - or the governing Fire Department if not the county - and shall require their approval prior to issuance of the grading permit. Aproval shall be in the form of a conditional approval letter addressed to the related case file or by written approval from the Fire Department.

10.BS GRADE. 13

MAP-G2.21POST & BEAM LOT

RECOMMND

Any lot conditioned to use post and beam design, which involves grading in excess of that required to construct the driveway, will need the Planning Department's approval prior to the issuance of a grading permit.

Riverside County LMS CONDITIONS OF APPROVAL

Page: 4

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

GENERAL CONDITIONS 10.

10.BS GRADE. 15

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

E HEALTH DEPARTMENT

10.E HEALTH. 1

NO OWTS / ATUS IN EASEMENTS

RECOMMND

All components of any proposed Onsite Wastewater Treatment System (OWTS) and/or Advanced Treatment Units (ATUs) must remain outside of any dedicated easement.

10.E HEALTH. 2

OWTS/ATUS - MAINTAIN SETBACKS

RECOMMND

All proposed Onsite Wastewater Treatment System (OWTS) and/or proposed Advanced Treatment Units (ATUs) must maintain all required setbacks as specified in the Department of Environmental Health (DEH) Technical Guidance Manual, Uniform Plumbing Code, and State and Local Laws. Please note that the most restrictive minimum setback may be applied at the discretion of DEH.

In addition, no part of the proposed OWTS and/or ATU can be located within Environmental Constraint Areas including specified "Do Not Disturbed" areas without written consent

from the appropriate regulatory agency.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

FLOOD RI DEPARTMENT

10.FLOOD RI. 1

MAP FLOOD HAZARD REPORT

RECOMMND

Parcel Map 36232 is a proposal to subdivide an approximately 26.7-acre site into 4 lots for residential use and one remainder lot. The site is located in the eastern Rancho California area on the east side of Calle Marquetia between Gray Squirrel Road and Via Elena.

The topography of the area consists of well defined ridges and natural watercourses which traverse the property. There is adequate area outside of the natural watercourses for building sites. However, a storm of unusual magnitude could cause damage. The natural watercourses shall be kept free of buildings and obstructions and grading shall perpetuate the natural drainage patterns of the area. New construction shall comply with all applicable ordinances.

This project is located within the Santa Margarita River Region of the San Diego Regional Water Quality Control Board and because of the steep terrain in a 'Hillside Development', any significant grading may trigger the submittal of a project specific Water Quality Management Plan (WQMP). A note shall be placed on the environmental constraint sheet (ECS) stating, "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site, including the construction of a residence on a single parcel, creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District."

A majority of the project site is located in the Santa Gertrudis Valley sub-watershed of the Murrieta Creek Area Drainage Plan (ADP) where fees have been adopted by the Board of Supervisors. While a portion of Parcels 3 and 4 are outside of the boundaries of the ADP, most of the grading proposed on the exhibit is primarily within the boundaries and it is the District's determination that all of the proposed parcels in this land division are subject to the ADP fee.

Riverside County LMS CONDITIONS OF APPROVAL

Page: 6

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

PLANNING DEPARTMENT

10.PLANNING. 1

MAP - LC LANDSCAPE REQUIREMENT

RECOMMND

Prior to the installation or rehabilitation of 2,500 square feet or more of landscaped area, the developer/ permit holder/landowner shall:

- 1) Submit landscape and irrigation plans to the County Planning Department for review and approval. Such plans shall be submitted as a Minor Plot Plan subject to the appropriate fees and inspections as determined by the County, comply with Ordinance No. 859 and be prepared in accordance with the County of Riverside Guide to California Friendly Landscaping. Emphasis shall be placed on using plant species that are drought tolerant and low water using.
- 2) Ensure all landscape and irrigation plans are in conformance with the APPROVED EXHIBITS;
- 3) Ensure all landscaping is provided with a weather based irrigation controller(s) as defined by County Ordinance No. 859;
- 4) Ensure that irrigation plans which may use reclaimed water conform with the requirements of the local water purveyor

The developer/permit holder is responsible for the maintenance, viability and upkeep of all slopes, landscaped areas, and irrigation systems until the successful completion of the Installation Inspection or those operations become the responsibility of the individual property owner(s), a property owner's association, or any other successor-in-interest, whichever occurs later.

10.PLANNING. 2 MAP - LC LANDSCAPE SPECIES

RECOMMND

The developer/ permit holder/landowner shall use the County of Riverside's California Friendly Plant List when making plant selections. The list can be found at the following web site

http://www.rctlma.org/planning/content/devproc/landscpe/lanscape.html. Use of plant material with a "low" or "very low" water use designation is strongly encouraged.

10.PLANNING. 3

GEN - IF HUMAN REMAINS FOUND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following codes for the life of this

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

10.PLANNING. 3

GEN - IF HUMAN REMAINS FOUND (cont.)

RECOMMND

project:

If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resources Code Section 5097.98 (b), remains shall be left in place and free from disturbance until a final decision as to the treatment and their disposition has been made. If the Riverside County Coroner determines the remains to be Native American, the Native American Heritage Commission shall be contacted within the period specified by law. Subsequently, the Native American Heritage Commission shall identify the "Most Likely Descendant." The Most Likely Descendant shall then make recommendations and engage in consultation with the County and the property owner concerning the treatment of the remains as provided in Public Resources Code Section 5097.98. Human remains from other ethnic/cultural groups with recognized historical associations to the project area shall also be subject to consultation between appropriate representatives from that group and the County Planning /Director.

10.PLANNING. 4

GEN - INADVERTANT ARCHAEO FIND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:

If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to it sacred or cultural importance.

1.All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project archaeologist, the Native American tribal representative (or other appropriate ethic/cultural group representative), and the Planning Director to discuss the significance of the find.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

10. GENERAL CONDITIONS

10.PLANNING. 4

GEN - INADVERTANT ARCHAEO FIND (cont.)

RECOMMND

- 2.At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc) for the cultural resource.
- 3. Further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate preservation or mitigation measures.

10.PLANNING. 5

MAP - LOW PALEO

RECOMMND

According to the County's General Plan, this site has been mapped as having a "Low Potential" for paleontological resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low potential for containing significant paleontological resources subject to adverse impacts. As such, this project is not anticipated to require any direct mitigation for paleontological resources. However, should fossil remains be encountered during site development:

- 1.All site earthmoving shall be ceased in the area of where the fossil remains are encountered. Earthmoving activities may be diverted to other areas of the site.
- 2. The owner of the property shall be immediately notified of the fossil discovery who will in turn immediately notify the County Geologist of the discovery.
- 3. The applicant shall retain a qualified paleontologist approved by the County of Riverside.
- 4. The paleontologist shall determine the significance of the encountered fossil remains.
- 5. Paleontological monitoring of earthmoving activities will continue thereafter on an as-needed basis by the paleontologist during all earthmoving activities that may expose sensitive strata. Earthmoving activities in areas of the project area where previously undisturbed strata will be buried but not otherwise disturbed will not be

10.PLANNING. 5 MAP - LOW PALEO (cont.)

RECOMMND

monitored. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.

6.If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.

7. Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data will be archived (specimen and site numbers and corresponding data entered into appropriate museum repository catalogs and computerized data bases) at the museum repository by a laboratory technician. will then be accessioned into the museum* repository fossil collection, where they will be permanently stored, maintained, and, along with associated specimen and site data, made available for future study by qualified scientific investigators. * The County of Riverside must be consulted on the repository/museum to receive the fossil material prior to being curated.

10.PLANNING. 6

MAP - MAP ACT COMPLIANCE

RECOMMND

This land division shall comply with the State of California Subdivision Map Act and to all requirements of County Ordinance No. 460, Schedule H, unless modified by the conditions listed herein.

10.PLANNING. 7

MAP - FEES FOR REVIEW

RECOMMND

Any subsequent review/approvals required by the conditions of approval, including but not limited to grading or building plan review or review of any mitigation monitoring requirement, shall be reviewed on an hourly basis, or other appropriate fee, as listed in County Ordinance No. 671.

Riverside County LMS CONDITIONS OF APPROVAL

CEL MAP Parcel Map #: PM36232

10. GENERAL CONDITIONS

10.PLANNING. 7 MAP - FEES FOR REVIEW (cont.)

RECOMMND

Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 11 MAP - PRESERVE NATIVE TREES

RECOMMND

The existing native specimen trees on the subject property identified for preservation on Parcel 1 of the approved TENTATIVE MAP shall remain undisturbed. Where they cannot be preserved they shall be relocated or replaced with specimen trees as approved by the Planning Director.

10.PLANNING. 12 MAP - ZONING STANDARDS

RECOMMND

Lots created by this TENTATIVE MAP shall be in conformance with the development standards of the R-A-5 (5 Acre Minimum) Zone.

10.PLANNING. 13

MAP - 90 DAYS TO PROTEST

RECOMMND

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of the approval or conditional approval of this project.

10.PLANNING. 15

MAP - OFFSITE SIGNS ORD 679.4

RECOMMND

No offsite subdivision signs advertising this land division/development are permitted, other than those allowed under Ordinance No. 679.4. Violation of this condition of approval may result in no further permits of any type being issued for this subdivision until the unpermitted signage is removed.

10.PLANNING. 16 MAP - ORD 810 OPN SPACE FEE

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 810 has been established to set forth policies, regulations and fees related to the funding and acquisition of open space and habitat necessary to address

RECOMMND

the direct and cumulative environmental effects generated by new development projects described and defined in this Ordinance.

The fee shall be paid for each residential unit to be constructed within this land division.

In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 17 MAP - ORD NO. 659 (DIF)

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and construction of facilities necessary to address the direct and cummulative environmental effects generated by new development projects described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The fee shall be paid for each residential unit to be constructed within this land division. In the event Riverside County Ordinance No. 659 is recinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 18 MAP - OFF-HIGHWAY VEHICLE USE

RECOMMND

No off-highway vehicle use shall be allowed on any parcel or open space area located within the boundaries of this land division map.

Parcel: 915-260-040

10. GENERAL CONDITIONS

10.PLANNING. 19

MAP - SUBMIT BUILDING PLANS

RECOMMND

The developer shall cause building plans to be submitted to the TLMA - Land Use Section for review by the Department of Building and Safety - Plan Check Division. Said plans shall be in conformance with the approved TENTATIVE MAP.

TRANS DEPARTMENT

10.TRANS. 1

MAP - TS/EXEMPT

RECOMMND

The Transportation Department has not required a traffic study for the subject project. It has been determined that the project is exempt from traffic study requirements.

10.TRANS. 2

MAP - DRAINAGE 2

RECOMMND

The land divider shall accept and properly dispose of all off-site drainage flowing onto or through the site. In the event the Transportation Department permits the use of streets for drainage purposes, the provisions of Article XI of Ordinance No. 460 will apply. Should the quantities exceed the street capacity or the use of streets be prohibited for drainage purposes, the subdivider shall provide adequate drainage facilities and/or appropriate easements as approved by the Transportation Department.

10.TRANS. 3

MAP - STD INTRO 3 (ORD 460/461)

RECOMMND

With respect to the conditions of approval for the referenced tentative exhibit, the land divider shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Ordinance 460 and Riverside County Road Improvement Standards (Ordinance 461). It is understood that the tentative map correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptablility may require the map to be resubmitted for further consideration. These Ordinances and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 2

MAP - EXPIRATION DATE

RECOMMND

The conditionally approved TENTATIVE MAP shall expire three years after the County of Riverside Planning Commission's original approval date, unless extended as provided by County Ordinance No. 460. Action on a minor change and/or revised map request shall not extend the time limits of the originally approved TENTATIVE MAP. If the TENTATIVE MAP expires before the recordation of the FINAL MAP, or any phase thereof, no recordation of the FINAL MAP, or any phase thereof, shall be permitted.

50. PRIOR TO MAP RECORDATION

EPD DEPARTMENT

50.EPD. 1

MAP - ECS AND FINAL MAP

RECOMMND

The land divider shall prepare an Environmental Constraints Sheet (ECS) in accordance with Section 2.2 E. & F. of County Ordinance No. 460, which shall be submitted as part of the final exhibit for recordation.

As identified in the Principe and Associates MSHCP Consistency Analysis dated August 25, 2009, riverine Habitat is present on the proposed project site. The areas identified in the report on page 10 shall be shown and clearly labeled on all project exhibits including final map and ECS to ensure avoidance of these habitats. An ECS note will also be required at recordation to reflect these areas as restricted from development.

FIRE DEPARTMENT

50.FIRE. 1

MAP-#7-ECS-HAZ FIRE AREA

RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: The land division is located in the "Hazardous Fire Area" of Riverside County as shown on a map on file with the Clerk of the Board of Supervisors. Any building constructed on lots created by this land division shall comply with the special construction provisions contained in Riverside County Ordinance 787.2.

50. PRIOR TO MAP RECORDATION

FLOOD RI DEPARTMENT

50.FLOOD RI. 2 MAP SUBMIT ECS & FINAL MAP

RECOMMND

A copy of the environmental constraint sheet and the final map shall be submitted to the District for review and approval. All submittals shall be date stamped by the engineer and include the appropriate plan check fee.

50.FLOOD RI. 8

MAP ADP FEES

RECOMMND

A notice of drainage fees shall be placed on the environmental constraint sheet and final map. The exact wording of the note shall be as follows:

NOTICE OF DRAINAGE FEES

Notice is hereby given that this property is located in the Santa Gertrudis Valley sub-watershed of the Murrieta Creek Area Drainage Plan which was adopted by the Board of Supervisors of the County of Riverside pursuant to Section 10.25 of Ordinance 460 and Section 66483, et seq, of the Government Code and that said property is subject to fees for said drainage area.

Notice is further given that, pursuant to Section 10.25 of Ordinance 460, payment of the drainage fees shall be paid with cashier's check or money order only to the Riverside County Flood Control and Water Conservation District at the time of issuance of the grading or building permit for said parcels, whichever occurs first, and that the owner of each parcel, at the time of issuance of either the grading or building permit, shall pay the fee required at the rate in effect at the time of issuance of the actual permit.

50.FLOOD RI. 9

MAP 25% SLOPE/WQMP NOTE ON ECS

RECOMMND

A note shall be placed on the environmental constraint sheet (ECS) stating, "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site including the construction of a residence on a single parcel creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District."

All submittals shall be date stamped by the engineer and

include a completed Flood Control Deposit Based Fee Worksheet and the appropriate plan check fee deposit.

PLANNING DEPARTMENT

50.PLANNING. 1 MAP - PREPARE A FINAL MAP

RECOMMND

After the approval of the TENTATIVE MAP and prior to the expiration of said map, the land divider shall cause the real property included within the TENTATIVE MAP, or any part thereof, to be surveyed and a FINAL MAP thereof prepared in accordance with the current County Transportation Department - Survey Division requirements, the conditionally approved TENTATIVE MAP, and in accordance with Article IX of County Ordinance No. 460.

50.PLANNING. 2

MAP - SURVEYOR CHECK LIST

RECOMMND

The County Transportation Department - Survey Division shall review any FINAL MAP and ensure compliance with the following:

- A. All lots on the FINAL MAP shall be in substantial conformance with the approved TENTATIVE MAP relative to size and configuration.
- B. All lots on the FINAL MAP shall have a minimum lot size of five (5) gross acres.
- C. All lot sizes and dimensions on the FINAL MAP shall be in conformance with the development standards of the Resdential Agricultural 5 Acre Minimum (R-A-5) zone, and with the Riverside County Integrated Project (RCIP).
- D. All lots on the FINAL MAP shall comply with the length to width ratios, as established by Section 3.8.C. of County Ordinance No. 460.

50.PLANNING. 4

MAP - REQUIRED CHANGE OF ZONE

RECOMMND

The land divider has filed an application for a change of zone (CZ07722) with the County Planning Department. No FINAL MAP shall be permitted to record unless and until his change of zone has been approved and adopted by the Board of Supervisors and is effective.

50. PRIOR TO MAP RECORDATION

50.PLANNING. 7 MAP - QUIMBY FEES (1)

RECOMMND

The land divider shall submit to the County Planning Department - Development Review Division a duly and completely executed agreement with the Valley-Wide Recreation and Park District which demonstrates to the satisfaction of the County that the land divider has provided for the payment of parks and recreation fees and/or dedication of land for the TENTATIVE MAP in accordance with Section 10.35 of County Ordinance No. 460.

50. PLANNING. 11 MAP - CCOC FOR REMNDR PARCEL

RECOMMND

Prior to the recordation of the FINAL MAP, the land divider shall file an application for a Conditional Certificate of Land Division Compliance (CCOC) with the County Planning Department for review and approval, for the "Remainder Parcel" or any parcel shown as "NOT A PART", as delineated on the approved TENTATIVE MAP. Any FINAL MAP containing such a parcel shall not be permitted to record until the Planning Department determines that the CCOC will be suitable for recordation within sixty (60) days of the recordation of the FINAL MAP.

50.PLANNING. 13 MAP - FINAL MAP PREPARER

RECOMMND

The FINAL MAP shall be prepared by a licensed land surveyor or registered civil engineer.

50.PLANNING. 14 MAP - ECS SHALL BE PREPARED

RECOMMND

The land divider shall prepare an Environmental Constraints Sheet (ECS) in accordance with Section 2.2. E. & F. of County Ordinance No. 460, which shall be submitted as part of the plan check review of the FINAL MAP.

50.PLANNING. 15 MAP - ECS EXHIBIT

RECOMMND

The constrained areas shall conform to the approved Exhibit E, Environmental Constraints Exhibit, and shall be mapped and labeled on the Environmental Constraint Sheet to the satisfaction of the Planning Department.

50.PLANNING. 20

MAP - FEE BALANCE

RECOMMND

Prior to recordation, the Planning Department shall determine if the deposit based fees for the TENTATIVE MAP are in a negative balance. If so, any unpaid fees

shall be paid by the land divider and/or the land divider's successor-in-interest.

50.PLANNING. 23 MAP - ECS NOTE MT PALOMAR LIGH

RECOMMND

The following Environmental Constraint Note shall be placed on the ECS:

"This property is subject to lighting restrictions as required by County Ordinance No. 655, which are intended to reduce the effects of night lighting on the Mount Palomar Observatory. All proposed outdoor lighting systems shall be in conformance with County Ordinance No. 655."

50.PLANNING. 24

MAP - OAK TREE ESMNT (1)

RECOMMND

The land divider shall submit a copy of the final draft conservation easement restriction for proposed Parcel 1 to Planning Department for review and approval. Upon determination of its substantial conformance with the negotiated, unexecuted draft easement document, and the approved Environmental Constraint Exhibit, the Department shall then record said conservation easement. One copy of the recorded document shall be retained for the Planning Department's records and one copy shall be provided to the County Transportation Department - Survey Division. This condition shall be considered satisfied if Condition No. 60.PLANNING.04 has been complied with.

TRANS DEPARTMENT

50.TRANS. 1

MAP - CENTERLINE STUDY PROFIL

RECOMMND

Plans shall be based upon a centerline study profile extending a minimum of 300 feet beyond the project boundaries at a grade and alignment as approved by the Riverside County Transportation Department.

50.TRANS. 2

MAP - EASEMENT

RECOMMND

Any easement not owned by a public utility, public entity or subsidiary, not relocated or eliminated prior to final map approval, shall be delineated on the final map in addition to having the name of the easement holder, and the nature of their interests, shown on the map.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

50. PRIOR TO MAP RECORDATION

50.TRANS. 3

MAP - ACCESS RESTRICTION

RECOMMND

Lot access shall be restricted on Calle Marguerita for parcel 1 and parcel 4 and so noted on the final map.

50.TRANS. 4

MAP - INTERSECTION/50' TANGENT

RECOMMND

All enterline intersections shall be at 90 degrees, plus or minus 5 degrees, with a minimum 50' tangent, measured from flowline/curbface or as approved by the Transportation Planning and Development Review Division Engineer.

50.TRANS. 5

MAP - R-O-W DEDICATED 1

RECOMMND

Sufficient public street right-of-way along Calle Marguerita shall be dedicated for public use to provide for a 60 foot full-width right-of-way along the remainder lot as shown on map dated 11/10/2009.

50.TRANS. 6

MAP - ACCESS RD TO PUBLIC RD2

RECOMMND

The landowner/developer shall provide/acquire sufficient public off-site rights-of-way to provide for two access roads to a publicly maintained road, and shall be at a grade and alignment as approved by the Transportation Department. Should the applicant fail to provide/acquire said off-site right-of-way, the map shall be returned for redesign. The applicant will be required to provide the appropriate environmental clearances prior to recordation or the signature of the final map or any phase thereof. The applicant shall provide a centerline study profile as approved by the Transportation Department.

NOTE: 1. Said off-site access road shall be the easterly extension of Via Carmelo to Vans Vision and the northerly extension of Vans Vision to Gray Squirrel Road and the easterly extension of Gray Squirrel Road to Avd Sarita and the northerly extension of Avd Sarita to Spanish Oaks Drive and the northwesterly extension of Spanish Oaks Drive to Bronco Circle and the easterly extension of Bronco Circle to Calle Escalona and the northern extension of Calle Escalona to Calle Segovia and the west-northerly extension of Calle Segovia to Calle Vecina and the easterly extension of Calle Vecina to Cross Over Road and the northerly extension of Cross Over Road to a paved County maintained Benton Road.

50.TRANS. 7

MAP - STREET NAME SIGN

RECOMMND

The land divider shall install one street name sign at the intersection of Calle Marquerita and Via Carmelo in accordance with County Standard No. 816 as directed by the Transportation Department.

50.TRANS. 8

MAP-DEDICATIONS/ACCEPTANCE

RECOMMND

The applicant shall provide two offsite access roads from the project site to a publicly maintained road to the satisfaction of Transportation.

If there were previously dedicated public roads and utility easements but not accepted by the County, and if acceptance of said roads and easement is needed to satisfy this requirement, the applicant shall file a separate application to the County of Riverside, Office of the County Surveyor, for the acceptance of the existing dedications by resolution. All costs incurred to satisfy this condition shall be paid by the applicant.

60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1 MAP-G2.4GEOTECH/SOILS RPTS

RECOMMND

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department's Grading Division for review and approval prior to issuance of a grading permit.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 1 MAP-G2.4GEOTECH/SOILS RPTS (cont.)

RECOMMND

All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.*

*The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

60.BS GRADE. 2

MAP-G2.7DRNAGE DESIGN Q100

RECOMMND

All grading and drainage shall be designed in accordance with Riverside County Flood Control & Water Conservation District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

Additionally, the Building and Safety Department's conditional approval of this application includes an expectation that the conceptual grading plan reviewed and approved for it complies or can comply with any WQMP (Water Quality Management Plan) required by Riverside County Flood Control and Water Conservation District.

60.BS GRADE. 3

MAP-G2.14OFFSITE GDG ONUS

RECOMMND

Prior to the issuance of a grading permit, it shall be the sole responsibility of the owner/applicant to obtain any and all proposed or required easements and/or permissions necessary to perform the grading herein proposed.

60.BS GRADE. 4

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN

60.FLOOD RI. 2

MAP ADP FEES

RECOMMND

Parcel Map 36232 is located within the limits of the Santa Gertrudis Valley sub-watershed of the Murrieta Creek Area Drainage Plan for which drainage fees have been adopted.

Drainage fees shall be paid with cashier's check or money order only to the District at the time of the issuance of grading permits for the approved parcels or at the time of issuance of building permits if no grading permits are issued for the parcels and may be paid, at the option of the land owner, in pro rata amounts. The amount of the drainage fee required to be paid shall be the amount that is in effect for the particular Area Drainage Plan at the time of issuance of the grading permits or issuance of the building permits if grading permits are not issued.

PLANNING DEPARTMENT

60.PLANNING. 1 GEN - CULTURAL RESOURCES PROFE

RECOMMND

As a result of recommendations within PD-A-4612, Phase I Cultural Resources Assessment of Tentative Parcel map 36232, prepared by Jean A. Keller, archeological monitoring of all grading is required. No grading is permitted within 100 feet of historic archaeological site CA-RIV-9231 unless significance testing is peformed as part of additional environmental review.

Prior to the issuance of grading permits, the developer/permit holder shall retain and enter into a monitoring and mitigation service contract with a qualified Historic Archaeologist for services. This professional shall be known as the "Project Monitor." The Project Monitor shall be included in the pre-grade meetings to provide cultural/historical sensitivity training including the establishment of set guidelines for ground disturbance in sensitive areas with the grading contractors and special interest monitors. The Project Monitor shall manage and oversee monitoring for all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The Project Monitor shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the special interest monitors.

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 1

GEN - CULTURAL RESOURCES PROFE (cont.)

RECOMMND

The developer/permit holder shall submit a fully executed copy of the contract to the Riverside County Planning Department to ensure compliance with this condition of approval. Upon verification, the Planning Department shall clear this condition.

NOTE:

1) The Project Monitor is responsible for implementing mitigation using standard professional practices for cultural resources. The Professional shall consult with the County, developer/permit holder and special interest group monitor throughout the process.

2) This agreement shall not modify any condition of approval or mitigation measure.

60.PLANNING. 2 GEN - TRIBAL MONITOR

RECOMMND

As a result of information submitted by the Soboba Band of Luiseno Indians and the Pechange Band of Luiseno Indians, tribal obervation of any archaeological monitoring of grading is required to address tribal concerns.

Prior to the issuance of grading permits, the developer/permit holder shall enter into a cooperative contract and retain one monitor designated by the Soboba Band of Luiseno Indians and one monitor designated by the Pechanga Band of Luiseno Indians. These two monitors shall be known as the Tribal Monitor for this project. The contract shall address the treatment and ultimate disposition of cultural resources which may include repatriation and/or curation in a Riverside County approved curation facility.

The Tribal Monitors shall be on-site during all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The Tribal Monitors shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the appropriate Cultural Resources Professional such as an Archaeologist, Historic Archaeologist, Architectural Historian and/or

RECOMMND

Historian.

The developer/permit holder shall submit a fully executed copy of the contract to the Riverside County Planning Department to ensure compliance with this condition of approval. Upon verification, the Planning Department shall clear this condition.

NOTE:

- 1) The Cultural Resources Professional is responsible for implementing mitigation and standard professional practices for cultural resources. The Professional shall consult with the County, developer/permit holder and tribal monitor(s) throughout the process.
- 2) Tribal monitoring does not replace any required Cultural Resources monitoring, but rather serves as a supplement for consultation and advisory purposes for all groups interests only.
- 3) This agreement shall not modify any condition of approval or mitigation measure.
- 4) The developer/permit holder shall contact the Planning Director for consideration of this condition after forty-five (45) days, if an agreement with the tribal groups has not been met.
- 5) Should repatriation be preferred, it shall not occur until after the Phase IV monitoring report has been submitted to the Riverside County Planning Department. Should curation be preferred, the developer/permit holder is responsible for all costs.

60.PLANNING. 3

MAP - OAK TREE PRESERVATION

RECOMMND

The following tree preservation guidelines shall be incorporated in the project's approved grading, building, and landscaping plans:

1. No construction activities or placement of structures shall occur within the protected zone of any oak tree or oak woodland, except as provided herein. protected zone is defined as a circle whose center is within the base of an oak tree, the radius of which is equal to an oak tree's height or ten (10) feet, whichever

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 3 MAP - OAK TREE PRESERVATION (cont.)

RECOMMND

is greater. Where the outermost edge of an oak tree's drip line (the outermost edge of a tree's canopy) extends beyond this radius, that portion of the drip line shall also be included as part of that tree's protected zone. Protected zones do not apply to dead or dying oak trees, unless the tree's condition appears to be the result of human activity that indicates an intent to kill the tree.

- 2. Landscaping, trenching, or irrigation systems shall not be installed within the existing protected zone of any oak tree or oak woodlands, unless recommended by a qualified biologist.
- 3. Land uses that would cause excessive soil compaction within the protected zone of any individual oak tree shall be avoided. No recreational trails are permitted within the drip line of any individual oak tree.
- 4. Manufactured cut slopes shall not begin their downward cut within the protected zone of any individual oak tree, except as provided in these guidelines.
- 5. Manufactured fill slopes shall not extend within the protected zone, except as provided in these guidelines.
- 6. On-site retaining walls, if required, shall be designed to protect the root system of any individual oak tree by preserving the natural grade within the protected zone.
- 7. Redirection of surface runoff which results in increased soil moisture for an extended period of time within the drip line area of any individual oak tree shall be avoided. If unavoidable, a drainage system shall be designed to maintain the previous amount of soil moisture.
- 8. Sedimentation and siltation shall be controlled to avoid filling around the base of oak trees.
- 9. Redirection of surface runoff which results in decreased soil moisture for an extended period of time within the drip line area shall be avoided. If unavoidable, an irrigation system shall be designed to maintain the previous amount of soil moisture.
 - 10. A construction zone at the interface with a

CEL MAP Parcel Map #: PM36232

Parcel: 915-260-040

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 3 MAP - OAK TREE PRESERVATION (cont.) (cont.) RECOMMND

protected zone shall be clearly delineated on the site in order to avoid impacts from construction operations and also to prevent the storage or parking of equipment outside the construction zone.

- 11. Dead or dying oak trees are necessary for the excavation of nest cavities by woodpeckers. Twelve species of birds use nest cavities. It is important to the health of the habitat to retain dead and dying oak trees that are not a hazard to humans. Such oak trees shall be retained in place unless determined to pose a health or safety hazard in which case they shall be discarded at an approved on-site location identified by the consulting biologist for habitat enhancement.
- 12. On-site to on-site, or on-site to off-site relocation of oak trees will not constitute mitigation and is considered the same as removal for the purposes of these guidelines.
- 13. Replacement of oak trees with plantings of saplings or acorns is not required by these guidelines; however, replacement plantings may be used in addition to these guidelines when they are required by another agency or when it is determined to be biologically sound and appropriate to do so.

60.PLANNING. 4 MAP - OAK TREE EASMNT (2)

RECOMMND

The land divider shall submit a copy of the final draft conservation easement restriction for proposed Parcel 1 to Planning Department for review and approval. Upon determination of its substantial conformance with the negotiated, unexecuted draft easement document, and the approved Environmental Constraint Exhibit, the Department shall then record said conservation easement. One copy of the recorded document shall be retained for the Planning Department's records and one copy shall be provided to the County Transportation Department - Survey Division. This condition shall be considered satisfied if Condition No. 50.PLANNING.24 has been complied with.

60.PLANNING. 5

MAP - IDENTIFY SPECIMEN TREES

RECOMMND

The land divider/permit holder shall cause grading plans to be prepared for the subject site which identify those

RECOMMND

existing native oak trees which are to be preserved, as identified on the TENTATIVE MAP. Those trees not identified for preservation are to be replaced with specimen trees as approved by the Planning Director. Replacement trees and retained trees shall be noted on approved landscaping plans.

60.PLANNING. 6

MAP - BUILDING PAD GRADING

RECOMMND

All grading for any proposed new dwellings and/or accessory buildings shall occur within the approved uilding pad sites shown on the TENTATIVE MAP.

60.PLANNING. 7

MAP - SLOPE GRADING TECHNIQUES

RECOMMND

The land divider/permit holder shall cause grading plans to be prepared which show all cut slopes located adjacent to ungraded natural terrain and exceed ten (10) feet in vertical height to be contour-graded incorporating the following grading techniques:

- 1. The angle of the graded slope shall be gradually adjusted to the angle of the natural terrain.
- 2. Angular forms shall be discouraged. The graded form shall reflect the natural rounded terrain.
- 3. The toes and tops of slopes shall be rounded with curves with radii designed in proportion to the total height of the slopes where drainage and stability permit such rounding.
- 4. Where cut and/or fill slopes exceed 300 feet in horizontal length, the horizontal contours of the slope shall be curved in a continuous, undulating fashion.

60.PLANNING. 8 MAP - PLANNING DEPT REVIEW

RECOMMND

As part of the plan check review of the proposed grading plan for the subject property, the Department of Building and Safety - Grading Division shall submit a copy of the proposed grading plan, along with the applicable Log/Permit Numbers for reference, to the County Planning Department to be reviewed for compliance with the approved tentative map.

RECOMMND

Manual.

If grading is proposed, the applicant must show all pertinent detail on scaled Precise Grading Plans wet stamped and signed by the Professional of Record. Please note that any significant grading at the proposed OWTS area may require further soils percolation testing and/or engineering.

Furthermore, a floor plan of the proposed structure showing all proposed plumbing fixtures must also be submitted to DEH for review to ensure proper septic tank sizing.

80.E HEALTH. 2

DEH SITE EVALUATION REQUIRED

RECOMMND

Department of Environmental Health (DEH) site evaluation is required. The applicant must ensure that the groundwater detection boring (4" perforated pipe installed at a depth that extends at least 10 feet below the proposed leach line trench bottom) is installed for DEH staff to evaluate.

In addition, the applicant must ensure that the job property is clearly identified with a durable placard delineating the site address or APN# as well as ensure that all property corners are clearly staked or marked.

Please note that if groundwater encroachment is observed, further engineering, as well as, Regional Water Quality Control Board Clearance may be required.

80.E HEALTH. 3

WELL/WATER STATEMENT

RECOMMND

Since this project is to be served water by well(s), pumps, and water tanks, a water supply permit will be required.

The requirements for a water supply permit are as follows:

- 1) Satisfactory laboratory test (bacteriological, organic, inorganic, general physical, general mineral and radiological) to prove the water potable.
- 2) Satisfactory proof that there is adequate quantity to include fire flow and available for intended development.
- 3) A complete set of plans for the Department of Environmental Health (DEH) review and approval showing all details of the proposed and existing water system.
- 4) Satisfactory information concerning how the system will

MAP - HFA REVIEW & APPROVAL

RECOMMND

Fire department shall review and approve setbacks, water and access for all single family dwellings, additions and projections that are in a hazardous fire area.

FLOOD RI DEPARTMENT

80.FLOOD RI. 1 MAP 25% SLOPE NEED WQMP

RECOMMND

This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site, including the construction of a residence on a single parcel, creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District. All submittals shall be date stamped by the engineer and include a completed Flood Control Deposit Based Fee Worksheet and the appropriate plan check fee deposit.

80.FLOOD RI. 2

MAP ADP FEES

RECOMMND

Parcel Map 36232 is located within the limits of the Santa Gertrudis Valley sub-watershed of the Murrieta Creek Area Drainage Plan for which drainage fees have been adopted.

Drainage fees shall be paid with cashier's check or money order only to the District at the time of the issuance of grading permits for the approved parcels or at the time of issuance of building permits if no grading permits are

90. PRIOR TO BLDG FINAL INSPECTION

PLANNING DEPARTMENT

90.PLANNING. 1

GEN - CULTURAL RESOURCES RPT

RECOMMND

Prior to final inspection of the first building permit, the developer/permit holder shall prompt the Cultural Resources Professional to submit two (2) copies of a Phase IV Cultural Resources Monitoring Report that complies with the Riverside County Planning Department's requirements for such reports. The report shall include evidence of the required cultural/historical sensitivity training for the construction staff held during the pre-grade meeting. The Planning Department shall review the report to determine adequate mitigation compliance. Provided the report is adequate, the Planning Department shall clear this condition.

90.PLANNING. 5

MAP - QUIMBY FEES (2)

RECOMMND

The land divider/permit holder shall present certification to the Riverside County Planning Department that payment of parks and recreation fees and/or dedication of land for park use in accordance with Section 10.35 of County Ordinance No. 460 has taken place. Said certification shall be obtained from the Valley-Wide Recreation and Park District.

90.PLANNING. 7

MAP - ORD 810 OPEN SPACE FEE

RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 810 has been established to set forth policies, regulations and fees related to the funding and acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development projects described and defined in this Ordinance.

The fee shall be paid for each residential unit to be constructed within this land division.

In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee

RE: Change of Zone No. 7722, Tentative Parcel Map No. 36232

<u>Proposal</u>: Change the zoning classification from Rural Residential (RR) to Residential Agricultural (5 acres minimum) (R-A-5). Divide 26.66 acres into four (4) residential parcels with a minimum lot size of five (5) gross acres, and one (1) 6.03 acre designated remainder

APN: 915-260-001

Dear Mr. Horn:

The Riverside County Waste Management Department (RCWMD) has reviewed the proposed project located easterly of De Portola Road, westerly of Calle Cordova, southerly of Geisbauer Road, and northerly of Calle Azure, in the Rancho California Zoning Area. The project has the potential to impact long-term landfill capacity by generating solid waste that requires disposal. In order to mitigate the project's potential solid waste impact, and to help the County's efforts to comply with State law in diverting solid waste from landfill disposal, the project proponent shall do the following:

- Recycle the project's construction and demolition (C&D) waste through a C&D recycling facility.
- Use mulch and/or compost in the development and maintenance of landscaped areas within the project boundaries. Recycle green waste through either onsite composting of grass, i.e., leaving the grass clippings on the lawn, or sending separated green waste to a composting facility.
- Consider xeriscaping and using drought tolerant/low maintenance vegetation in all landscaped areas of the project.
- Hazardous materials are not accepted at the Riverside County landfills. Any hazardous
 wastes, including paint, used during construction must be properly disposed of at a
 licensed facility in accordance with local, state and federal regulations. Please contact
 the Riverside County Household Hazardous Waste Collection (HHW) Program 24Hour Hotline 1.800.304.2226 for further information.

Thank you for the opportunity to review this proposal. If you have any questions, please call me at (951) 486-3284.

Sincerely.

Mirtha Liedl, Urban/Regional Planner IV
