Contractor agrees to assist Disadvantaged Business Enterprises in obtaining business opportunities by identifying and encouraging disadvantaged suppliers, consultants, and subconsultants to participate to the extent possible, consistent with their qualifications, quality of work, and obligation of Contractor under this contract.

The Contractor further agrees to insert these provisions in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials. Any violation of such provision by a contractor shall constitute a material breach of contract.

- B. Laminated type identification badges must be furnished by the Contractor and worn by all Contractor's employees while on County premises. The badge will have the employee's picture, name, signature, and social security number.

43. **Unbalanced Pricing is not allowed.** An offer with unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices or payment for work not done. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly over or understated, as indicated by the application of cost or price analysis techniques. The greatest risks associated with unbalanced pricing occur when:

- A. Startup work, mobilization, first articles, or first article testing are separate line items and they are unbalanced. This could result in a bidder receiving a substantial up-front payment for work that may not be completed at the time payment is made; or payment for work that is never performed.
- B. Base quantities and option (Bid Alternate) quantities are separate line items and some of the costs for the optional items is included in the base items; or
- C. Some of the cost of a pay item is included in the bid price of another pay item and the second items quantity is increase, or the first items quantity is decreased, thus payments are made that include profit for work that is never done.

All offers with separately priced line items or sub-line items shall be analyzed to determine if the prices are unbalanced. If an offer is deemed to be unbalanced, the County shall:

- A. Consider the risks to the County associated with the unbalanced pricing in determining the competitive range and in making the award decision; and
- B. Consider whether award of the contract will result in paying unreasonably high prices for contract performance and whether the award fails to represent the lowest ultimate cost to the County.

An offer may be rejected if the County determines that the lack of balances poses an unacceptable risk to the County. The County reserves the right to delete all or part of an item that is determined to be unbalanced.

44. **Federal Assurances:** Contractors and subcontractors are advised that this project requires:

- A. Payment of Federal Wage Rates,
- B. Compliance with EEO criteria,
- C. Certification of non-segregated facilities,

45. **Buy American Clause:** A Buy American clause applies to this project. See Division II, Section 1, Paragraph 1-7 of the FAA-required provisions.

46. **Federal Subcontracting Requirements:** If Contractor awards a subcontract under this contract, Contractor, if applicable, shall use the following alternative steps:

- A. Placing Small Businesses in Rural Areas (SBRAs) on solicitation lists;
- B. Ensuring that SBRAs are solicited whenever they are potential sources;
- C. Dividing total requirements, when economically feasible, into small tasks or quantities to permit maximum participation by SBRAs;
- D. Establishing delivery schedules, where the requirements of work will permit, which would encourage participation by SBRAs;
- E. Using the services of the Small Business Administration and the Minority Business Development Agency of the United States Department of Commerce, as appropriate; and

F. Requiring the subcontractor, if it awards subcontracts, to take the affirmative steps set forth in Paragraph 39 above.

If applicable, Contractor agrees to complete and submit to the County a Minority Business Enterprise/Woman Business Enterprise (MBE/WBE) Utilization Report (Standard Form 334) within thirty (30) days after the end of each fiscal quarter until the end of the Contract.

## CERTIFICATION REGARDING FOREIGN TRADE RESTRICTIONS

The CONTRACTOR or subcontractor, by submission of an offer and/or execution of a contract, certifies that it:

- a. is not owned or controlled by one or more citizens or nationals of a foreign country included in the list of countries that discriminate against U.S. firms published by the Office of the United States Trade Representative (USTR);
- b. has not knowingly entered into any contract or subcontract for this PROJECT with a contractor that is a citizen or national of a foreign country on said list, or is owned or controlled directly or indirectly by one or more citizens or nationals of a foreign country on said list;
- c. has not procured any product nor subcontracted for the supply of any product for use on the PROJECT that is produced in a foreign country on said list.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to a contractor or subcontractor who is unable to certify to the above. If the CONTRACTOR knowingly procures or subcontracts for the supply of any product or service of a foreign country on said list for use on the PROJECT, the Federal Aviation Administration may direct, through the SPONSOR, cancellation of the CONTRACT at no cost to the Government.

Further, the CONTRACTOR agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in each contract and in all lower tier subcontracts. The CONTRACTOR may rely upon the certification of a prospective subcontractor unless it has knowledge the certification is erroneous.

The CONTRACTOR shall provide immediate written notice to the SPONSOR if the CONTRACTOR learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The subcontractor agrees to provide immediate written notice to the CONTRACTOR, if at any time it learns that its certification was erroneous by reason of changed circumstances.

This certification is a material representation of fact upon which reliance was placed when making the award. If it is later determined that the CONTRACTOR or subcontractor knowingly rendered an erroneous certification, the Federal Aviation Administration may direct, through the SPONSOR, cancellation of the CONTRACT or subcontract for default at no cost to the Government.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001.

"Job mix control testing shall be performed by the CONTRACTOR at the start of plant production and in conjunction with the calibration of the plant for the job mix formula. It should be recognized that the aggregates produced by the plant may not satisfy the gradation requirements or produce a mix that exactly meets the job mix formula. In those instances, it will be necessary to re-evaluate and re-design the mix using plant-produced aggregates. Specimens should be prepared, and the optimum bitumen content determined in the same manner as for the original design tests."

## VII. BID ADDENDUM

1. October 18, 2010 Bid Addendum 1 giving pre-bid meeting date and time.
2. Last day for RFI Thursday, November 4 at 5PM.

## VIII. QUESTIONS

1. Paragraph 11-2.7 of Section 11 "Asphalt Concrete" calls for the construction of two 300' long x 20' wide AC test sections. This amounts to approx 144 tons of asphalt and will involve an additional move in. It seems like a lot to go through when there are only 120 of AC on the Bid Schedule. Are we to include the testing as described? Will it be paid for from the Asphalt Concrete line item on the Bid Schedule?

**Answer: Delete all but the last paragraph. No test section. See Addendum #2.**

2. Please confirm that measurement and payment for "Failed Pavement Repair" as described in Section 2, "Surface Preparation" para 2-1.2 will be made under respective Sections 3 "AC Pavement Pulverization, Cold Milling & Recycling, 4: "Earthwork and Site Preparation", 11: "Asphalt Concrete" and the other applicable sections.

**Answer: Yes.**

3. Is there any estimate of the quantity of failed or damaged asphalt that will need to be removed and replaced?

**Answer: Yes, as shown in bid items 5,9,14 and 15.**

4. Detail B/C-102 indicated that the PCC pavement is 13" thick. Should this be 6" as noted in Detail F/C-311?

**Answer: Yes, with the thickened edge being 9". See Addendum #2.**

5. Is there a hydrant on site where construction water may be obtained?

**Answer: Yes, near staging area. Contractor to provide meter.**

6. Regarding Bid Schedule Item #5 Pavement Pulverization, does the approximate quantity of 7,500 SY include any anticipated "Failed Pavement" amounts?

**Answer: Contract amount changes to 2,900 SY. See Addendum #2**

7. Does the existing fuel resistant seal need to be removed or just cleaned during the surface preparation phase?

**Answer: Just cleaned such that any loose material is removed.**

8. We are coming up with more square yardage for the rejuvenator. Just by scaling off the plans, we came up with just over 88,000 yd<sup>2</sup>. Please advise is we are to bid using the bid schedule quantities and verify after the award.

**Answer: Quantity is changed to 95,665 SY. See Addendum #2.**

**CERTIFICATION REGARDING FOREIGN TRADE RESTRICTIONS**

The CONTRACTOR or subcontractor, by submission of an offer and/or execution of a contract, certifies that it:

- a. is not owned or controlled by one or more citizens or nationals of a foreign country included in the list of countries that discriminate against U.S. firms published by the Office of the United States Trade Representative (USTR);
- b. has not knowingly entered into any contract or subcontract for this PROJECT with a contractor that is a citizen or national of a foreign country on said list, or is owned or controlled directly or indirectly by one or more citizens or nationals of a foreign country on said list;
- c. has not procured any product nor subcontracted for the supply of any product for use on the PROJECT that is produced in a foreign country on said list.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR 30.17, no contract shall be awarded to a contractor or subcontractor who is unable to certify to the above. If the CONTRACTOR knowingly procures or subcontracts for the supply of any product or service of a foreign country on said list for use on the PROJECT, the Federal Aviation Administration may direct, through the SPONSOR, cancellation of the CONTRACT at no cost to the Government.

Further, the CONTRACTOR agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in each contract and in all lower tier subcontracts. The CONTRACTOR may rely upon the certification of a prospective subcontractor unless it has knowledge the certification is erroneous.

The CONTRACTOR shall provide immediate written notice to the SPONSOR if the CONTRACTOR learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The subcontractor agrees to provide immediate written notice to the CONTRACTOR, if at any time it learns that its certification was erroneous by reason of changed circumstances.

This certification is a material representation of fact upon which reliance was placed when making the award. If it is later determined that the CONTRACTOR or subcontractor knowingly rendered an erroneous certification, the Federal Aviation Administration may direct, through the SPONSOR, cancellation of the CONTRACT or subcontract for default at no cost to the Government.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001.
