Approval of amendment to renew client service and license agreements for use of Talent Technology Corp., Resume Mirror Software for an additional five year period.

October 13, 2010
Page 2

BACKGROUND:

On April 3, 2007 the Board approved the sole-source purchase of a three-year operating license of Talent Technology Resume Mirror EM and SE by OASIS as part of larger project to modernize the Human Resources Department's recruiting and job applicant tracking functions. The software operating licenses of the Resume Mirror system are now due for renewal. This software license renewal is necessary in order for Human Resources to continue to deploy and use the Resume Mirror system.

Talent Technology Resume Mirror is the only commercial product that fully integrates with the County's PeopleSoft employee and payroll system for resume processing, applicant tracking and job candidate requisitioning. All other resume system vendors require customized interface programming to be added in order to provide data transfer with PeopleSoft, thus resulting in additional, and expensive, programming and maintenance costs.

PRICE REASONABLENESS: Talent Technology Corporation has applied the full volume discount available for State and Local government customers to obtain the current pricing.

Talent Technology Corporation is the vendor for Resume Mirror EM and SE software products and licenses, and is the sole provider for Resume Mirror EM and SE software products. Resume Mirror EM and SE are only available through Talent Technology Corporation's direct sales channels. Talent Technology Corporation does not offer its products for sale or distribution through a reseller network.

Subject: Sole Source Procurement; Request for

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

Supply/Service being requested: Licensing renewal for Resume Mirror EM/SE Software

Supplier being requested: Talent Technology Corporation

Alternative suppliers that can or might be able to provide supply/service: After comprehensive research and analysis of available applications, no other vendor offers direct integration into the County's existing PeopleSoft Talent Acquisition Manager System.

Extent of market search conducted: After comprehensive research and analysis of available applications, an RFP was conducted in 2006 which resulted in the acquisition of Resume Mirror EM/SE software from Talent Technology Corporation. Resume Mirror EM/SE are the only products that permit resume processing, applicant tracking and job candidate requisitioning integration with PeopleSoft. All other resume system vendors require customized interface programming to be added in order to provide data transfer with PeopleSoft, thus resulting in additional, and expensive, programming and maintenance costs.

Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide: Resume Mirror EM/SE are the only products that permit resume processing, applicant tracking and job candidate requisitioning integration with PeopleSoft. All other resume system vendors require customized interface programming to be added in order to provide data transfer with PeopleSoft, thus resulting in additional, and expensive, programming and maintenance costs.

Reasons why my department requires these unique features and what benefit will accrue to the county: The Human Resource Department requires advanced search technology to complement the new Talent Acquisition Manager Enterprise resource planning application.

Price Reasonableness: \$64,890, the pricing has been reduced.

Does moving forward on this product or service further obligate the county to future similar contractual arrangements? **NO**
