Please explore with those county supervisors.

Supervisor Stone,

I am a former resident of Temecula. Though no longer a constituent, I wanted to tell you, short and sweet, that I support your push for a regional secession of 13 California counties to make South California. Thanks for being a thinker.

God Bless You-just heard you on rick roberts-I have LONG thought we should split the state.If you look at the county of san diego voting records after elections-every time we vote the more conservative way. We keep getting boxer&diann and I don't know how. Also, some of the propositions,can't believe they get voted in. I would be happy to help in ANY way possible to get this done. Taxes are killing us and they won't close the border --I could go on & on.  
Thanks,Let me know how I can help

I saw you on Fox news, you handled the questions and opposing forces very well. thank you for mentioning us emailers, I felt part of the solution.

This Bill, can tilt everything to no return, Jerry Brown and Liberal Legislature are going too far. We may have to pack up our bags and leave.

I was recently thinking about the problems we have in California and the idea of succession came to mind. It seemed unrealistic until I saw the article on Drudge about your proposal, and now I have hope!

Jerry Brown may laugh, but stranger things have happened. I can see both sides wanting this, so anything is possible! This state is definitely worth saving, so I wish you all the best and offer my support in this endeavor. This could definitely be the beginning of a movement!

I LOVE your idea of splitting the California into northern and southern. If you read the comments on ANY site that is carrying this story, you will see that there is an AMAZING amount of support of your proposal. Stanislaus County commenters have voiced that they would like to jump in as well.

Please run with this idea. This state has been run by the leftists for too long. There has GOT to be a way to get this ball rolling!!!

Mr. Stone,

I am Thomas Kiklas and I own a national business located in Irvine. I am quite sure you have been inundated with queries about your "South California" idea. I have been seriously professing this for a year.

I would like to know what I can actively do to assist in this endeavor. In our building we have conference room space, green rooms, web site expertise, etc.

I read an article that talked about your desire to split the state. It would be the best thing for us. I have an insurance firm and am a writer, who's been weighing options of moving out of the state. I have said good-bye to many friends in the past two years who took their businesses and left. I just do not see much hope for our state-unless you are on welfare or are illegal. There appears to be no benefit to stay.

If we did break at least there would be hope for prosperity once again.

Supervisor Stone,

I wanted to voice my support for your proposal to split California into two separate states. I have lived in San Diego County for 25 years and have always wanted something like this to happen. It would allow us more control over our border, our finances and our lives. There is a clear split in opinions and voting patterns that run across the middle of California. I support your efforts. Let's get this on the ballot and let the people decide.

Kind Regards,

Shaun Keating

**Subject:** Proposal for New State of Southern California

To Riverside Supervisor Jeff Stone,

I wanted to commend your efforts on a proposal to have Riverside county and at least 12 other counties secede from California to create a new State. I think this is an excellent idea and could actually solve California's current financial woes and move towards real reform, while the 'new' California establishing the creation of a business friendly state and border enforcement. I am a 25 year old college student and am stunned by the actions of our state and federal governments; here in California, we suffer from the highest tax rates, major unemployment with jobs being outsourced to other states and countries, and we have become the most unfriendly business State in America; and a broken border system with Mexico. As a film producer, I am furthermore shocked by California's intention to reduce tax incentives for film productions and relocate film projects to Canada.

I, as a concerned citizen, endorse your proposal. My family resides in Lake Isabella in Kern County, and if Governor Brown decides to raise property taxes, my family's motel and restaurant business could shut down because we cannot afford any more taxes. Myself and my family have met State Representative Jean Fuller as well as Kern County Supervisor Jon McQuiston on a number of occasions over the years and we should look into organizing a meeting to draw their support.

Thank you Supervisor Stone for establishing this policy. I am sure many Californians will listen and support this idea since the problems continue to only become worse.

Regards,

Regarding secession - I'm all for it. . .

Unfortunately, secession will be dismissed as a "whacky" impractical idea. As a business owner, it makes a whole lot of sense for me. Businesses are being run out of the state due to over taxation and over regulation. We need some sanity and common sense in our state government. We are not getting that in Sacramento.

Additionally, there is the sentimentality factor. Change is very uncomfortable for most people.

My thought was however to include the entire eastern side of CA to the OR border and maybe then west again to the ocean. Best of luck for you, us, and me. Keep this thought alive. My current plans are to leave CA for AZ, if this would happen I'd probably stay.

I am not a constituent of yours. But I grew up in Riverside County, graduated from UCI and in 1975, I was an intern for County of Riverside Supervisor Norton Younglove.

While your idea to separate the state may seem radical to some, I truly believe it would be best.

I wish you the best of luck in this endeavor.

Dear Mr. Stone,

I heard on the radio today, that you are recommending that a fifty first state be formed by South California separating from the rest of this putrid state. I have been advocating the same all who would listen for the past five years. What's to gain by staying with the north and L.A. We can't get any water and the pagans in Sacramento run our state.

Sincerely,

Craig C. Weaver

Good morning Supervisor,

I do not live in your district, but I would like to express my support for your idea. The key would be to focus on how our counties are disadvantaged by the current political model in California. This new state would also need to be a right to work state. That would be key to attract jobs to the state and avoid union meddling. I will email my own Supervisor Janice Rutherford to express my desire for her to support your initiative.

Regards,

Allen Fletcher
