

SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

101 B

FROM: TLMA - Planning Department

SUBMITTAL DATE:  
May 23, 2011

**SUBJECT: FAST TRACK CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1 (FTA No. 2007-39)** - Intent to Adopt a Mitigated Negative Declaration – Applicant: Matich Corp. – Engineer/Representative: Albert A. Webb Associates – Fifth Supervisorial District – Pass & Desert Zoning District – The Pass Area Plan: Community Development: Light Industrial (CD:LI) (0.25-0.60 FAR), Rural: Rural Desert (R:RD) (10 Acre Minimum), Rural: Rural Residential (R:RR) (5 Acre Minimum) - Cabazon Policy Area - Location: Southerly of Interstate 10 and westerly of Apache Trail – 55.44 Gross Acres - Zoning: Manufacturing Service Commercial (MSC), Controlled Development Areas - 10 Acre Minimum (W-2-10) - **REQUEST:** Proposal to modify the previously approved hours of operation to 24-hours a day, seven days a week for an existing asphalt batch plant for all projects including for public and emergency work. No other site modifications are proposed.

**RECOMMENDED MOTION:**

**ADOPT** a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 42438**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

**APPROVE** **CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1**, subject to the attached Conditions of Approval, and based upon the findings and conclusions incorporated in the staff report.

Re: FAST TRACK CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1

Page 2 of 2

**BACKGROUND:**

CUP03574 was originally approved in 2008 with operating hours from 4:00 a.m. to 6:00 p.m. with occasional Saturdays for emergency services. The applicant is now proposing up to 24-hours per day, seven days a week, as needed for public or emergency work. No other site modifications are proposed. The existing asphalt batch plant has an average annual production of up to 750,000 tons of asphalt. The plant includes three silos for dispensing product into delivery trucks; truck trips estimated not to exceed 300 per day. The plant is located on the Cabazon Quarry, operated by Robertson's Ready Mix. The project will use existing lighting and will not add any additional lighting than is currently on-site.

## Memorandum

**DATE:** July 12, 2011  
**TO:** Board of Supervisors  
**FROM:** Jay Olivas, Project Planner  
**RE:** **Modified Conditions and Comment Letter – ITEM 16.7**

Please note following staff report supplemental materials for your review as follows:

- 1) Modified Conditions for Project Description, Hours of Operation, and Maximum Truck Trips.
- 2) Comment Letter dated June 29, 2011 from Apache Trail Venture, LLC.

June 29, 2011

Clerk of the Board  
4080 Lemon Street, First Floor  
Post Office Box 1147  
Riverside, CA 92502-1147

Re: Conditional Use Permit No. 3574 (FTA 2007-39)

Dear Clerk,

Please accept this letter as a formal statement of opposition to the proposed amendment of Conditional Use Permit No. 3574 (FTA 2007-39) by Match Corporation – Albert A Webb Associates to change the hours of operation from 4:00 am to 6:00 pm Monday thru Friday to 24 hours a day 7 days a week. Please distribute this letter to each member of the Riverside County Board of Supervisors and place it in the public record for consideration (public hearing to be held July 12, 2011).

At the Board of Supervisors meeting on July 15, 2008 in which the Board unanimously approved Cup No. 3574, Roger Prinn made the following statements before the Board on behalf of Match Corporation: "First of all, I just wanted to address the truck traffic issue because there is a little misconception on the part of the project opponent. The way we came up with the truck trip generation rate is the maximum capacity of this asphalt plant is about 400 tons a day, so if you back that out to number of truck trips, assuming you are running full speed for the maximum capacity of this thing all the time, you end up with about 300 trips or two hundred and ninety some trips a day which is two ways so it's about a 150 loads going out a day. That would be in a miraculous economy but in speaking with Mr. Match and his representatives they think it's more like 200 trips a day which would be a healthy economy number of trips a day. So a hundred loads going out a day normally. There is no real odor associated with this plant. It's a state of the art plant, it's got odor containment...Even though the plant opens at 4:00 am... We are doing a disclosure document with this neg. dec. so we have to be conservative and even though we say hours of operation 4:00 am to 6:00 pm typically you are not going to start running loads out of there at 4:00 am maybe 5:00 or 5:30 am which would be the first loads going out and typically they have a shut down and so five (am) to five (pm) is probably more accurate for actual operation of the facility."

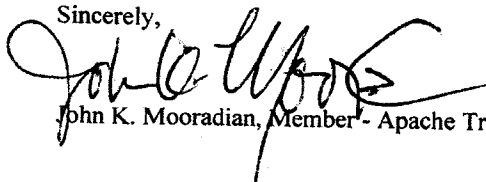

As you can see from the comments above, Match Corporation clearly represented to the Board of Supervisors that, even in a miraculous economy, the proposed batch plant could only handle a maximum production amount equal to 150 outbound truck loads of asphalt. Even if they are to argue that this recessionary economic environment we are experiencing in California, the nation and the world is somehow a "miraculous economy", Match Corporation also represented that the hours of operation originally asked for was more than enough as they were being "conservative" in their disclosure document tied to the negative declaration.

In short, Match Corp. was able to go on fast track and make use of a negative declaration based on limited hours of operation; they avoided an EIR based on those initial suppositions; they downplayed the number of truck load trips that the plant could physically handle; they said, in actuality, trucks would be entering and leaving the facility from 5 am to 5 pm Mon. thru Fri; they never hinted at the need for additional hours for regular work loads; they already have emergency operation use hours and abilities in the current CUP; they have received complaints from nearby residents about operating outside the prescribed hours; and now they wish to gain approval of more than twice the number of hours of operation originally granted by CUP 3574.

This is outrageous and shows total disregard for nearby residents and property owners. I am a member of an LLC which owns property on Apache Trail known as APN No's 519-210-018, 020, 021, 022 and 023 which is in close proximity to the asphalt plant site. We previously had accepted an offer to purchase our parcels by a developer who had informally conferred with the county which responded favorably their construction plans on our site. Shortly after we informed the buyer of CUP 3574, they withdrew their offer to purchase our property stating that the approval of such a plant on a nearby property and the estimated 300 trucks per day beginning at 4:00 a.m. causing noise, smells and dust would not be acceptable. Additionally, we currently have a tenant on one of our parcels and he has stated that he frequently smells the asphalt odors while he is on his leased parcel. Our ownership and our tenant have rights of quiet enjoyment to our property. The expansion of hours to 24 hours a day and 7 days a week goes against the grain of the standard caveat that all private uses of property shall not negate nor infringe upon the rights or potential uses of others on their property. Approval of the amended hours will deteriorate the value of our parcels and cause disturbance to our tenant who also has rights.

I ask the Board of Supervisors of Riverside County to do as it is required and act in the best interests of the citizens of the area and reject this request by Match Corporation. Match Corporation has been granted enough privileges even according to their own video taped statements before Board and they can and should operate within the prescribed limits of the approved CUP 3574 so that others can also enjoy their property rights.

Sincerely,

John K. Mooradian, Member - Apache Trail Venture, LLC

Southerly of Interstate 10 and westerly of Apache Trail in the Cabazon area.

*Project Location*

Modify the previously approved hours of operation up to 24-hours a day, seven days a week for an existing asphalt batch plant.

*Project Description*

This is to advise that the Riverside County Board of Supervisors, as the lead agency, has approved the above-referenced project on 7/12/11, and has made the following determinations regarding that project:

1. The project WILL NOT have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act (\$2,044.00 + \$64.00).
3. Mitigation measures WERE made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Plan/Program WAS adopted.
5. A statement of Overriding Considerations WAS NOT adopted for the project.

This is to certify that the Mitigated Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 4080 Lemon Street, 12th Floor, Riverside, CA 92501.

## **COUNTY OF RIVERSIDE PLANNING DEPARTMENT STAFF REPORT**

### **PROJECT DESCRIPTION AND LOCATION:**

The revised permit proposes to modify the previously approved hours of operation to 24-hours a day for an existing asphalt batch plant. CUP03574 was originally approved in 2008 with operating hours from 4:00 a.m. to 6:00 p.m. with occasional Saturdays for emergency services. The applicant is now proposing up to 24-hours per day, seven days a week, for all projects including for public or emergency work. No other site modifications are proposed. The existing asphalt batch plant has an average annual production of up to 750,000 tons of asphalt. The existing plant includes three silos for dispensing product into delivery trucks. The total truck trips are estimated for the existing project to not exceed 300 per day. The plant is located on the Cabazon Quarry, operated by Robertson's Ready Mix. The project will use existing lighting and will not add any additional lighting than is currently on-site.

The mining site is located on 517 acres, south of Interstate 10, between Apache Trail and Fields Road in the Cabazon area. The proposed asphalt plant is constructed on a 55.44 acre parcel within the surface mining boundaries.

### **BACKGROUND:**

The existing surface mining operation was originally approved in 1964 and subsequently renewed in 1974. In 1987, an application for new surface mine was submitted and was subsequently approved in 1991. In 1998, the original owner Beaumont Concrete Company sold the operation to Robertson's Ready Mix. In 2008, CUP03574 was approved to add an asphalt batch plant. Due to recent code enforcement activity on the property due to overnight batch plant operations, the owner submitted the current Revised CUP proposing up to 24 hours per day, seven days a week.

### **ISSUES OF POTENTIAL CONCERN:**

The overall site is located within a portion of the Cabazon Conservation Area of the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP). The site was previously reviewed by the Coachella Valley Conservation Commission (CVCC) in 2007 and was found that no further review was required and no conservation or allocation of take requirements were to be imposed as there was only a small portion of fluvial sand transport area on the site (see attached letter from Coachella Valley Association of Governments dated December 14, 2007).

Due to adoption of the CVMSHCP in 2007, staff reviewed Land Use Adjacency Guidelines in Section 4.5 of the CVMSHCP. Staff reviewed a Land Use Adjacency biological report prepared by AMEC on the applicant's behalf dated February 1, 2011 addressing Land Use Adjacency Guidelines compliance. The Land Use Adjacency Report was reviewed and cleared by the Environmental Programs Division which found no biological concerns due to limited changes as the result of up to 24 hour use of the asphalt batch plant.

**CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1**

**BOS Staff Report:**

**Page 2 of 4**

---

**SUMMARY OF FINDINGS:**

1. Existing General Plan Land Use (Ex. #5): Rural Desert (R: RD), Rural Residential (R: RR) and Light Industrial (CD: LI)
2. Surrounding General Plan Land Use (Ex. #5): Rural Desert (R: RD), Rural Residential (R: RR), Light Industrial (CD: LI), Commercial Retail (CR)
3. Existing Zoning (Ex. #2): W-2-10 (Controlled Development – 10 acre minimum) and M-SC (Manufacturing – Service Commercial)
4. Surrounding Zoning (Ex. #2): W-2-10 (Controlled Development – 10 acre minimum), M-SC (Manufacturing – Service Commercial), Scenic Highway Commercial (C-P-S)
5. Existing Land Use (Ex. #1): Asphalt Batch Plant & Surface Mine
6. Surrounding Land Use (Ex. #1):  
South and West: Surface mining  
North: Commercial Retail  
East: Union Pacific Railroad and commercial
7. Project Data:  
Total Acreage: 55.4  
Batch Plant Acreage: 6.9
8. Environmental Concerns: See Attached Environmental Assessment

**RECOMMENDATIONS:**

**ADOPTION** of a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 42438**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

**APPROVAL** of **CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1**, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

**CONCLUSIONS:**

1. The proposed project is in conformance with the Pass Area Plan: Rural Desert Land, Rural Residential and Light Industrial Land Use Designations, and with all other elements of the Riverside County General Plan.
2. The proposed project is consistent with the W-2-10 (Controlled Development Areas) and M-SC (Manufacturing Service Commercial) zoning classifications of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
3. The public's health, safety, and general welfare are protected through project design.
4. The proposed project is conditionally compatible with the present and future logical development of the area.
5. The project will not have a significant effect on the environment and there is evidence that the project will have potential for adverse, but non-significant, effects on wildlife resources.

**CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1**

**BOS Staff Report:**

**Page 3 of 4**

---

6. The proposed project will not preclude reserve design for the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP).

**FINDINGS:** The following findings are in addition to those incorporated in the summary of findings, which are incorporated herein by reference.

1. The project site is designated Rural Desert, Rural Residential and Light Industrial, in the Pass Area Plan.
2. The existing use, an asphalt batch plant, which proposes to extend the previously approved hours of operation to 24-hours per day, is a permitted use in the Rural Desert, Rural Residential and Light Industrial designations.
3. The project site is surrounded by properties which are designated Rural Residential (R: RR) to the north and south; Rural Desert (R: RR) to the west and south; Commercial Retail (CD: CR) to the north and east; and Light Industrial (CD: LI) to the south.
4. The zoning for the subject site is W-2-10 (Controlled Development with a 10 acre minimum) and M-SC (Manufacturing Service Commercial).
5. The existing use, an asphalt batch plant, is a permitted use subject to approval of a conditional use permit, in the W-2-10 (Controlled Development with a 10 acre minimum) and M-SC (Manufacturing Service Commercial) zones.
6. The existing asphalt batch plant with proposal to modify previously approved hours of operation to 24-hours a day, is consistent with the development standards set forth in the W-2-10 (Controlled Development with a 10 acre minimum) and M-SC (Manufacturing Service Commercial) zones.
7. The current surface mine (SMP162) has been operational since 1964 and currently meets the requirements of County Ordinance No. 555 and the California Surface Mining and Reclamation Act.
8. The project site is surrounded by properties which are zoned C-P-S (Scenic Highway Commercial to the north and east; W-2-10 (Controlled Development - 10 acre minimum) to the north, south, east and west; and M-SC (Manufacturing Service Commercial) to the east and south.
9. Mining, manufacturing and commercial uses have been constructed and are operating in the project vicinity.
10. This project is located within the Cabazon Conservation Area of the Coachella Valley Multiple Species Habitat Conservation Plan that focuses on the conservation of sand transport functions. There is only a small portion of Fluvial Sand Transport Only Conservation Area on the parcel. There is no acreage limit in a Fluvial Sand Transport Only Conservation Area, therefore, no take allocation is required (CVAG letter dated December 14, 2007).

**CONDITIONAL USE PERMIT NO. 3574, REVISED PERMIT NO. 1**

**BOS Staff Report:**

**Page 4 of 4**

---

11. The initial study performed pursuant to Environmental Assessment No. 42438 identified the following potentially significant impacts:

- a) Aesthetics
- b) Air Quality
- c) Hydrology
- d) Noise
- e) Transportation/Traffic

These listed impacts will be fully mitigated by the measures indicated in the initial study, conditions of approval, and attached government agency letters. No other significant impacts were identified.

12. This project is a "Fast Track" (FTA-2007-39) project designated by the Economic Development Agency (EDA) and is intended to provide for beneficial jobs and economic growth.

**INFORMATIONAL ITEMS:**

1. As of this writing (5/23/11), no letters, in support or opposition have been received.

2. The project site is not located within:

- a. A City sphere of influence;
- b. A mapped fault zone;
- c. A Recreation and Parks District;
- d. California Gnatcatcher, Quino Checkerspot Butterfly habitat.

3. The project site is located within:

- a. The boundaries of the Banning Unified School District;
- b. A high fire area;
- c. A 100 year flood plain (Zone A)
- d. A moderate liquefaction area;
- e. The Cabazon Redevelopment Area
- f. Cabazon Conservation Area

4. The subject site is currently designated as Assessor's Parcel Number 519-170-007.

## ENVIRONMENTAL ASSESSMENT FORM: INITIAL STUDY

**Environmental Assessment (E.A.) Number:** 42438  
**Project Case Type (s) and Number(s):** Conditional Use Permit No. 3574, Revised Permit No. 1  
**Lead Agency Name:** County of Riverside Planning Department  
**Address:** P.O. Box 1409, Riverside, CA 92502-1409  
**Contact Person:** Jay Olivas  
**Telephone Number:** (951) 955-1195  
**Applicant's Name:** Match Corporation  
**Applicant's Address:** 1596 Harry Sheppard Blvd., San Bernardino, CA 92408  
**Engineer's Name:** Albert A. Webb Associates  
**Engineer's Address:** 3788 McCray Street, Riverside, CA 92506

### I. PROJECT INFORMATION

**A. Project Description:** The revised conditional use permit proposes to modify the previously approved hours of operation to 24-hours a day for an existing asphalt batch plant. CUP03574 was originally approved in 2008 with operating hours from 4:00 a.m. to 6:00 p.m. with occasional Saturdays for emergency services. The applicant is now proposing up to 24-hours per day, seven days a week, for all projects including for public and emergency work. No other site modifications are proposed. The existing asphalt batch plant has an average annual production of up to 750,000 tons of asphalt. The plant includes three silos for dispensing product into delivery trucks; truck trips estimated not to exceed 300 per day. The plant is located on the Cabazon Quarry, operated by Robertson's Ready Mix. The project will use existing lighting and will not add any additional lighting than is currently on-site.

**B. Type of Project:** Site Specific ; Countywide ; Community ; Policy .

**C. Total Project Area:** 55.44 gross acres

<b>Residential Acres:</b>	<b>Lots:</b>	<b>Units:</b>	<b>Projected No. of Residents:</b>
<b>Commercial Acres:</b>	<b>Lots:</b>	<b>Sq. Ft. of Bldg. Area:</b>	<b>Est. No. of Employees:</b>
<b>Industrial Acres:</b>	<b>Lots:</b>	<b>Sq. Ft. of Bldg. Area:</b>	<b>Est. No. of Employees:</b>
<b>Other:</b> 6.9 acre Batch Plant			

**D. Assessor's Parcel No(s):** 519-170-007

**E. Street References:** The site is located south of Interstate 10, between Apache Trail and Fields Road in the Cabazon area.

**F. Section, Township & Range Description or reference/attach a Legal Description:**  
Township 3 South, Range 2 East, Section 7

**G. Brief description of the existing environmental setting of the project site and its surroundings:** The existing Cabazon mine is on either side of the San Gorgonio River, on the sandy bajada in the San Gorgonio Pass area, between the San Bernardino and San Jacinto mountains. The existing sand and gravel mine is located on the eastern and western side of the San Gorgonio River wash. The area west of the wash is covered by desert transition shrubland largely dominated by catclaw acacia and a mix of common chaparral or coastal sage scrub shrubs. The San Gorgonio River wash was scoured by flooding in 2004-2005, and now supports limited vegetation. Smith Creek Channel, at the southern margin of

the property, supports an open shrubland of the same species named above, plus desert willow. Desert Willow is common in dry channels crossing the site.

The project is within the area addressed by the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP), which seeks to conserve fluvial sand transport through the area and to maintain function of the San Gorgonio River for wildlife movement. The CVMSHCP indicates that the only restrictions on the site are those designated by the Riverside County Flood Control.

## II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

### A. General Plan Elements/Policies:

1. **Land Use:** The proposed project is consistent with the current land use designation of Rural Desert (R: RD), Rural Residential (R: RR), and Light Industrial (CD: LI).
2. **Circulation:** The project has adequate circulation to the site and is therefore consistent with the Circulation Element of the General Plan. The proposed project meets all other applicable circulation policies of the General Plan.
3. **Multipurpose Open Space:** Maintain open space and wildlife movements along the San Gorgonio River and Smith Creek. The proposed project meets with all other applicable Multipurpose Open Space element policies.
4. **Safety:** Surface Mine operations are allowed within the 100 year flood plain.
5. **Noise:** Sufficient mitigation against any foreseeable noise sources in the area have been provided for in the design of the project. The project will not generate noise levels in excess of standards established in the General Plan or noise ordinance. The project meets all other applicable Noise Element Policies.
6. **Housing:** The proposed project does not impact Housing Element Policies.
7. **Air Quality:** The proposed project has been conditioned to control any fugitive dust during grading and construction activities and shall adhere to SCQAMD standards for all batch plant facilities. The proposed project meets all other applicable Air Quality element policies.

**B. General Plan Area Plan(s):** The Pass Area Plan

**C. Foundation Component(s):** Rural and Community Development (CD)

**D. Land Use Designation(s):** Rural Desert (RD), Rural Residential (R-R), and Light Industrial (LI)

**E. Overlay(s), if any:** Not Applicable

**F. Policy Area(s), if any:** Cabazon Policy Area

**G. Adjacent and Surrounding Area Plan(s), Foundation Component(s), Land Use Designation(s), and Overlay(s) and Policy Area(s), if any:** The project site is surrounded by properties which are designated Rural Residential (R: RR) to the north and south; Rural

Desert (R: RR) to the west and south; Commercial Retail (CD: CR) to the north and east; and Light Industrial (CD: LI) to the south.

**H. Adopted Specific Plan Information**

1. **Name and Number of Specific Plan, if any:** Not Applicable

2. **Specific Plan Planning Area, and Policies, if any:** Not Applicable

I. **Existing Zoning:** W-2-10 (Controlled Development 10 acre minimum) and M-SC (Manufacturing - Service Commercial).

J. **Proposed Zoning, if any:** Not Applicable

K. **Adjacent and Surrounding Zoning:** W-2-10 (Controlled Development 10 acre minimum) to the west and south, M-SC (Manufacturing-Service Commercial), C-P-S (Scenic Highway Commercial) to the north.

**III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED**

The environmental factors checked below ( x ) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.

- |   |   |  |
|---|---|--|
| <input checked="" type="checkbox"/> Aesthetics          | <input type="checkbox"/> Hazards & Hazardous Materials        | <input type="checkbox"/> Recreation                          |
| <input type="checkbox"/> Agriculture & Forest Resources | <input checked="" type="checkbox"/> Hydrology / Water Quality | <input checked="" type="checkbox"/> Transportation / Traffic |
| <input checked="" type="checkbox"/> Air Quality         | <input type="checkbox"/> Land Use / Planning                  | <input type="checkbox"/> Utilities / Service Systems         |
| <input type="checkbox"/> Biological Resources           | <input type="checkbox"/> Mineral Resources                    | <input type="checkbox"/> Other:                              |
| <input type="checkbox"/> Cultural Resources             | <input checked="" type="checkbox"/> Noise                     | <input type="checkbox"/> Other:                              |
| <input type="checkbox"/> Geology / Soils                | <input type="checkbox"/> Population / Housing                 | <input type="checkbox"/> Mandatory Findings of Significance  |
| <input type="checkbox"/> Greenhouse Gas Emissions       | <input type="checkbox"/> Public Services                      |  |

**IV. DETERMINATION**

On the basis of this initial evaluation:

**A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED**

I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. **A MITIGATED NEGATIVE DECLARATION** will be prepared.

I find that the proposed project **MAY** have a significant effect on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required.

**A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED**

I find that although the proposed project could have a significant effect on the environment, **NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED** because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the

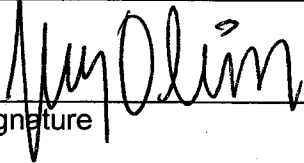

proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have become feasible.

I find that although all potentially significant effects have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are necessary but none of the conditions described in California Code of Regulations, Section 15162 exist. An **ADDENDUM** to a previously-certified EIR or Negative Declaration has been prepared and will be considered by the approving body or bodies.

I find that at least one of the conditions described in California Code of Regulations, Section 15162 exist, but I further find that only minor additions or changes are necessary to make the previous EIR adequately apply to the project in the changed situation; therefore a **SUPPLEMENT TO THE ENVIRONMENTAL IMPACT REPORT** is required that need only contain the information necessary to make the previous EIR adequate for the project as revised.

I find that at least one of the following conditions described in California Code of Regulations, Section 15162, exist and a **SUBSEQUENT ENVIRONMENTAL IMPACT REPORT** is required: (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (2) Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any the following:(A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;(B) Significant effects previously examined will be substantially more severe than shown in the previous EIR or negative declaration;(C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measures or alternatives; or,(D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR or negative declaration would substantially reduce one or more significant effects of the project on the environment, but the project proponents decline to adopt the mitigation measures or alternatives.

**V. ENVIRONMENTAL ISSUES ASSESSMENT**

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>AESTHETICS</b> Would the project				
<b>1. Scenic Resources</b>				
a) Have a substantial effect upon a scenic highway corridor within which it is located?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure C-9 "Scenic Highways"

Findings of Fact:

- a) Interstate 10 in the Cabazon area is a State Eligible scenic highway. The existing mining operation has been in the area since 1964. The existing batch plant has existed since 2008 and is visible from Interstate 10. The existing batch plant shall be maintained in a color scheme that was previously pre-approved by Building and Safety.
- b) The proposed project will not substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>2. Mt. Palomar Observatory</b>				
a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: GIS database, Ord. No. 655 (Regulating Light Pollution)

Findings of Fact:

a) According to GIS database, the project site is located 39 miles away from Mt. Palomar Observatory. The project shall comply with low pressure sodium requirements (COA 10.PLANING.28)

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**3. Other Lighting Issues**

a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

b) Expose residential property to unacceptable light levels?

Source: Site Visit, Project Description

Findings of Fact:

- a) The operation of the proposed project will add no new lighting sources, existing lighting shall be hooded and directed no further than property boundaries as indicated by (COA 10.PLANING.27).
- b) The proposed project will not expose residential property to unacceptable light levels.

Mitigation: No mitigation is required.

Monitoring: No monitoring is required.

**AGRICULTURE & FOREST RESOURCES** Would the project

**4. Agriculture**

a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

b) Conflict with existing agricultural zoning, agricultural use or with land subject to a Williamson Act contract or land within a Riverside County Agricultural Preserve?

c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 "Right-to-Farm")?

d) Involve other changes in the existing environment

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?

Source: GIS database, and Project Application Materials.

Findings of Fact:

- a) The project is not located within the boundaries of designated farmland – as designated by the most recent version of the Important Farmland Map (as prepared by the California Department of Conservation, Farmland Mapping and Monitoring Program). Therefore the proposed project will not impact land designated as Prime, Unique, or Farmland of Statewide Importance to a non-agricultural use.
- b) According to GIS database, the project is not located within an Agriculture Preserve or under a Williamson Act contract; therefore, no impact will occur as a result of the proposed project.
- c) The project site is not surrounded by agriculturally zoned land. Therefore, the project will not cause development of a non-agricultural use within 300 feet of agriculturally zoned property.
- d) The project will not involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**5. Forest**

a) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g))?

b) Result in the loss of forest land or conversion of forest land to non-forest use?

c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use?

Source: Riverside County General Plan Figure OS-3 "Parks, Forests and Recreation Areas," and Project Application Materials.

Findings of Fact:

- a) The project is not located within the boundaries of a forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g)). Therefore, the proposed project will not impact land designated as forest land, timberland, or timberland zoned Timberland Production.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

b) According to General Plan, the project is not located within forest land and will not result in the loss of forest land or conversion of forest land to non-forest use; therefore, no impact will occur as a result of the proposed project.

c) The project will not involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**AIR QUALITY** Would the project

**6. Air Quality Impacts**

a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: SCAQMD CEQA Air Quality Handbook Table 6-2

Findings of Fact:

- a) The proposed project will not conflict with or obstruct implementation of the applicable air quality plan.
- b) The proposed project will not violate any air quality standard or contribute substantially to an existing or projected air quality violation.
- c) The proposed project will not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors; however, measurements have shown that dust lofting of silts and clay occurs at wind speeds of approximately 15 miles per hour and that sand grains begin to creep and bounce at approximately 25 miles per hour.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

- d) The project will not expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions.
- e) The project will not involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter.
- f) The project will not create objectionable odors affecting a substantial number of people.

**Mitigation:** The project is conditioned to comply with all SCAQMD requirements (COA 10.PLANNING.20). The approved surface mining permit (SMP162) was condition to suspend mining operations when wind speeds exceed 25 miles per hour.

**Monitoring:** Monitoring will be conducted by the Department of Building and Safety.

**BIOLOGICAL RESOURCES** Would the project

**7. Wildlife & Vegetation**

a) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan?

b) Have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12)?

c) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service?

d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?

e) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?

f) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?

g) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: GIS database, WRC-MSHCP and/or CV-MSHCP, Environmental Programs Department (EPD) review; Robertson's Proposed Cabazon West Basin Quarry: Biological Technical Report, by White & Leatherman Bioservices, dated July 14, 2005; CVMSHCP Land Use Adjacency Report by AMEC dated February 1, 2011.

Findings of Fact: The site is within the area to be covered under the Coachella Valley Multiple Species Habitat Conservation Plan (CVMSHCP), within the Cabazon Conservation Area, and is designated for preservation of sand transport functions. There is only a small portion of Fluvial Sand Transport Only Conservation Area on the parcel. There is no acreage limit in a Fluvial Sand Transport Only Conservation Area, therefore, no take allocation is required (CVAG letter dated December 14, 2007). In addition, no listed threatened or endangered plants or animals were found on the site. Based upon habitat and geographic ranges, no listed species or special status species meeting CEQA guidelines for a mandatory finding of significance is likely to occur; therefore, the project will not:

- a) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan.
- b) Have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12)
- c) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service
- d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites.
- e) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service.
- f) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means.
- g) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.
- h) The Land Use Adjacency Report was reviewed and cleared by the Environmental Programs Division which found no additional biological concerns or inconsistency

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

issues with Land Use Agency Guidelines listed in the CVMSHCP as a result of nighttime use of the asphalt batch plant.

**Mitigation:** A Revegetation Plan has been approved as part of the SMP00162. While desert tortoise are extremely rare in the area, the facility staff should be trained to recognize the tortoise and search under equipment prior to moving machinery that has been stationary over night.

**Monitoring:** Monitoring will be conducted by the Riverside County Flood Control District and the CVMSHCP staff.

**CULTURAL RESOURCES** Would the project

**8. Historic Resources**

a) Alter or destroy an historic site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Source:** Project Application Materials, "A Cultural Resource Investigation of the 140 acre Robertson's Ready Mix Expansion area near Cabazon, Riverside County, California" McKenna et al, dated March 10, 2005.

**Findings of Fact:** There was no surface evidence of paleontological, historic or prehistoric archaeological resources within the project area. The project has been conditioned to alert property authorities if an inadvertent archeological find is discovered; however, this is considered a standard condition; therefore, the proposed project will not:

- a) Alter or destroy an historic site.
- b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**9. Archaeological Resources**

a) Alter or destroy an archaeological site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Restrict existing religious or sacred uses within the potential impact area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Source:** Project Application Materials, "A Cultural Resource Investigation of the 140 acre Robertson's Ready Mix Expansion area near Cabazon, Riverside County, California" McKenna et al, dated March 10, 2005.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Findings of Fact:** There was no surface evidence of paleontological, historic or prehistoric archaeological resources within the project area. The project has been conditioned to alert property authorities if an inadvertent archeological find is discovered; however, this is considered a standard condition; therefore, the proposed project will not:

- a) Alter or destroy an archaeological site
- b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5.
- c) Disturb any human remains, including those interred outside of formal cemeteries.
- d) Restrict existing religious or sacred uses within the potential impact area.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required

**10. Paleontological Resources**

a) Directly or indirectly destroy a unique paleontological resource, or site, or unique geologic feature?

**Source:** GIS database, County Geologist review

**Findings of Fact:**

a) According to GIS database, this site has been mapped as having a low potential for paleontological resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low potential for containing significant paleontological resources subject to adverse impacts. As such, this project is not anticipated to require any direct mitigation for paleontological resources. This is a standard condition and not considered mitigation for CEQA purposes. Therefore, the impact is considered less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required

**GEOLOGY AND SOILS** Would the project

**11. Alquist-Priolo Earthquake Fault Zone or County Fault Hazard Zones**

a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death?

b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault?

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: Geologist Comments, County Geologic Report (GEO) No. 1614

**Findings of Fact:** County Geologic Report (GEO) No. 1614, prepared for related SMP 00162R2, was prepared by C.H.J., Inc. and is entitled: "Slope Stability Investigation, Proposed Cabazon Quarry Reclamation, Banning Area, Riverside County, California" dated November 11, 2005. In addition a supplemental letter dated March 31, 2006, from Robertson's Ready Mix is included as part of GEO No. 1614. GEO No. 1614 concluded:

There is no evidence of active faulting on the site. The site is likely to be subjected to moderate ground shaking during the expected life span of the project. The nearest active fault is the local segment of the San Andreas Fault Zone, referred to as the San Bernardino strand. Therefore the proposed project will not:

- a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death.
- b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**12. Liquefaction Potential Zone**

- a) Be subject to seismic-related ground failure, including liquefaction?

Source: Riverside County General Plan Figure S-3 "Generalized Liquefaction", County Geologic Report (GEO) No. 1614

**Findings of Fact:**

- a) Liquefaction potential resulting from the effects of strong ground shaking are considered to be negligible due to the relatively high density of the on-site materials and fact that groundwater in the vicinity of the site is deeper than 100 below ground level. A return to historic high groundwater levels would result in about 75 feet of ponding in the lowest area of the reclaimed pit which is still considerably below 100 feet from the existing ground surface. However, such a rise to the historic high groundwater level is considered negligible.

**Mitigation:** No mitigation measures required.

**Monitoring:** No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**13. Ground-shaking Zone**

Be subject to strong seismic ground shaking?

Source: Riverside County General Plan Figure S-4 "Earthquake-Induced Slope Instability Map," and Figures S-13 through S-21 (showing General Ground Shaking Risk), County Geologist review (GEO01614)

Findings of Fact:

There are no known active or potentially active faults that traverse the site and the site is not located within an Alquist-Priolo Earthquake Fault Zone. The principal seismic hazard that could affect the site is ground shaking resulting from an earthquake occurring along several major active or potentially active faults in southern California. California Building Code (CBC) requirements pertaining to development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all development, they are not considered mitigation for CEQA implementation purposes.

Mitigation: No mitigation measures are required.

Monitoring: No mitigation measures are required.

**14. Landslide Risk**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, collapse, or rockfall hazards?

Source: Riverside County General Plan Figure S-5 "Regions Underlain by Steep Slope", Geologist review (GEO01614)

Findings of Fact:

a) According to the County Geologist, landslides are not a potential hazard to the site. The project will have no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**15. Ground Subsidence**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in ground subsidence?

Source: GIS database, County Geologist review

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Findings of Fact:**

a) According to GIS database, the site is located in an area susceptible to subsidence. However, subsidence in the area will not cause any differential settlement or cracking of the foundation and will therefore have a minimal impact on the existing development.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**16. Other Geologic Hazards**

a) Be subject to geologic hazards, such as seiche, mudflow, or volcanic hazard?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

**Source:** Project Application Materials, County Geologist review

a) According to the County Geologist, tsunamis and seiching are not potential hazards to the site. The project will have no impact.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**17. Slopes**

a) Change topography or ground surface relief features?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Create cut or fill slopes greater than 2:1 or higher than 10 feet?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Result in grading that affects or negates subsurface sewage disposal systems?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Source:** Riv. Co. 800 Scale Slope Maps, County Geologic Report (GEO) No. 1614

**Findings of Fact:** County Geologic Report (GEO) No. 1614, prepared for related SMP 00162R2, was prepared by C.H.J., Inc. and is entitled: "Slope Stability Investigation, Proposed Cabazon Quarry Reclamation, Banning Area, Riverside County, California" dated November 11, 2005. In addition a supplemental letter dated March 31, 2006, from Robertson's Ready Mix is included as part of GEO No. 1614. GEO No. 1614 concluded that the proposed reclamation slopes are considered to be stable as designed and should remain; therefore, the proposed project site will not:

- a) Change topography or ground surface relief features.
- b) Create cut or fill slopes greater than 2:1 or higher than 10 feet.
- c) Result in grading that affects or negates subsurface sewage disposal systems.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**18. Soils**

a) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Be located on expansive soil, as defined in Section 1802.3.2 of the California Building Code (2007), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Have soils incapable of adequately supporting use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: General Plan figure S-6 "Engineering Geologic Materials Map", Project Application Materials, Building and Safety Grading review

Findings of Fact:

- a) The project site is located on an existing mine; therefore, it will not result in substantial soil erosion or the loss of topsoil.
- b) The project site will not be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**19. Erosion**

a) Change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in any increase in water erosion either on or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Flood Control District review, Project Application Materials

Findings of Fact: Surface Mining Permit No. 162, Substantial Conformance No. 2 was approved to construct a privately owned levee to prevent flows of the San Gorgonio River and Smith Creek from entering the project site.

- a) This project will not change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake.
- b) The proposed project will result in any increase in water erosion either on or off site.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>20. Wind Erosion and Blowsand from project either on or off site.</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

a) Be impacted by or result in an increase in wind erosion and blowsand, either on or off site?

Source: Riverside County General Plan Figure S-8 "Wind Erosion Susceptibility Map," Ord. 460, Sec. 14.2 & Ord. 484

Findings of Fact:

- a) Measurements have shown that dust lofting of silts and clay occurs at wind speeds of approximately 15 miles per hour and that sand grains begin to creep and bounce at approximately 25 miles per hour. This project will not be impacted by or result in a substantial increase in wind erosion and blowsand, either on- or off-site.

Mitigation: The project is conditioned to comply with all SCAQMD requirements. (COA 10.PLANNING 20) The surface mining permit was condition to suspend mining operations when wind speeds exceed 25 miles per hour.

Monitoring: Monitoring will be conducted by the Department of Building and Safety.

**GREENHOUSE GAS EMISSIONS** Would the project

<b>21. Greenhouse Gas Emissions</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
-------------------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?

b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Project application materials

Findings of Fact:

a) The existing asphalt batch plant does not involve any new construction and complies with current AQMD guidelines. Therefore, the project is not anticipated to generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment.

b) The project will not conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases. The project will have less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>HAZARDS AND HAZARDOUS MATERIALS</b> Would the project				
<b>22. Hazards and Hazardous Materials</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Project Application Materials

Findings of Fact: No additional hazardous materials are anticipated that were not covered under EIR 238 for Surface Mining Permit No. 152. This project will not:

- a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials.
- b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment.
- c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan.
- d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.
- e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>23. Airports</b>				
a) Result in an inconsistency with an Airport Master Plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Require review by the Airport Land Use Commission?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) For a project within the vicinity of a private airstrip, or heliport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure S-19 "Airport Locations," GIS database

- a) The project site is not located within an Airport Influence Area, the project will not result in an inconsistency with the Airport Master Plan.
- b) The project site is located within the vicinity of a private airport; but will not require review by the Airport Land Use Commission.
- c) The project is located within an airport land use plan but would not result in a safety hazard for people residing or working in the project area.
- d) The project is not within the vicinity of a private airstrip, or heliport and would not result in a safety hazard for people residing or working in the project area.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>24. Hazardous Fire Area</b>				
a) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure S-11 "Wildfire Susceptibility," GIS database

Findings of Fact:

- a) The project site is not located in a high fire area. The project will have no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**HYDROLOGY AND WATER QUALITY** Would the project

**25. Water Quality Impacts**

a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors or odors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County Flood Control District Flood Hazard Report/Condition.

Findings of Fact:

- a) The SMP site is within the historical San Gorgonio Riverbed. A large portion of the site is mapped as within the 100-year Zone A floodplain limits for the San Gorgonio River and Smith Creek as delineated on Panel No. 060245 0840B of the Flood Insurance Rate Maps issued in conjunction with the National Flood Insurance Program administered by the Federal Emergency Management Agency (FEMA). The final approved SMP162 Substantial Conformance No. 2 project called for the construction of a large privately owned levee to prevent flows from entering the existing pit and its proposed expansion. This levee was completed in October 2004.

DESCRIPTION OF HAZARD and MITIGATION MEASURES: If the river were to breach the existing levee and be captured by the pit, it is likely that two high-pressure gas lines, a petroleum line, the Union Pacific Railroad and Interstate-10

would be severed by the resultant headcutting. To minimize this risk, the levee was designed conservatively, sensors were installed in the levee to monitor subsidence and the owner agreed to allow the District to enter the property and inspect the levee at will. Moreover, the project proponent has been required to deposit (incrementally, as the pit is expanded) 3 million dollars into a "sinking fund" to assure that maintenance is assured in perpetuity.

SMP 162 identified a flood hazard to the proposed batch plant area from a freeway culvert to the north which delivers storm flows from a large drainage area north of the freeway. A flow rate of 1,550 cfs was identified by the SMP exhibit. The SMP proposed a rectangular channel which would protect this area. In the Conditions of Approval for the SMP, the District conditioned the SMP to construct this channel prior to the initiation of Phase 2 of the SMP, or any subsequent phases of the mining operation.

The batch plant shall not be allowed to operate until a functional channel is constructed which provides this project protection from flood hazard. Once this channel is constructed, the site is subject to nuisance nature local runoff. However, a storm of unusual magnitude could cause damage. Unless otherwise approved by the District, the batch plant shall be graded to drain to an adjacent mining pit. Access may still be impaired during large storm events.

- b) The proposed project will not violate any water quality standards or waste discharge requirements.
- c) The proposed project will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted).
- d) The proposed project will not create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff.
- e) The proposed project does not include housing; therefore, will not place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map.
- f) The proposed project will be located on a site within the 100-year Zone A floodplain limits for the San Gorgonio River and Smith Creek; however, the project will not place within a 100-year flood hazard area structures which would impede or redirect flood flows.
- g) The proposed project will not substantially degrade water quality.
- h) The proposed project will not include new or retrofitted Stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins,

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors).

**Mitigation:** To protect the batch plant area from flood hazard would require approximately 1,400 lineal feet of channel to be constructed from the freeway culvert southeast past the patch plant area. A March 2, 2008 letter from Robertson's Ready Mix indicated their intention to construct this channel. While the channel would be privately owned, the district conditioned the SMP to submit improvement plans to the District for review and approval. Plans for the channel shall be submitted to the District for review and approval prior to the issuance of any grading or building permits for the proposed batch plant.

**Monitoring:** Monitoring shall be through the Riverside County Flood Control District.

**26. Floodplains**

Degree of Suitability in 100-Year Floodplains. As indicated below, the appropriate Degree of Suitability has been checked.

NA - Not Applicable <input type="checkbox"/>	U - Generally Unsuitable <input checked="" type="checkbox"/>	R - Restricted <input type="checkbox"/>
a) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Changes in absorption rates or the rate and amount of surface runoff?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam (Dam Inundation Area)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Changes in the amount of surface water in any water body?	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Source:** Riverside County General Plan Figure S-9 "100- and 500-Year Flood Hazard Zones," Figure S-10 "Dam Failure Inundation Zone," Riverside County Flood Control District Flood Hazard Report/Condition, GIS database

**Findings of Fact:**

- a) SMP 162 identified a flood hazard to the proposed batch plant area from a freeway culvert to the north which delivers storm flows from a large drainage area north of the freeway. A flow rate of 1,550 cfs was identified by the SMP exhibit. The SMP proposed a rectangular channel which would protect this area. In the Conditions of Approval for the SMP, the District conditioned the SMP to construct this channel prior to the initiation of Phase 2 of the SMP, or any subsequent phases of the mining operation. The batch plant shall not be allowed to operate until a functional channel is constructed which provides this project protection from flood hazard. Once this channel is constructed, the site is subject to nuisance nature local runoff. However, a storm of unusual magnitude could cause damage. Unless otherwise approved by the District, the batch plant shall be graded to drain to an adjacent mining pit. Access may still be impaired during large storm events

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

- b) The project will not cause a change in absorption rates or the rate and amount of surface runoff.
- c) The SMP site is within the historical San Gorgonio Riverbed. A large portion of the site is mapped as within the 100-year Zone A floodplain limits for the San Gorgonio River and Smith Creek as delineated on Panel No. 060245 0840B of the Flood Insurance Rate Maps issued in conjunction with the National Flood Insurance Program administered by the Federal Emergency Management Agency (FEMA). The final approved SMP162 Substantial Conformance No. 2 project called for the construction of a large privately owned levee to prevent flows from entering the existing pit and its proposed expansion. This levee was completed in October 2004.

**DESCRIPTION OF HAZARD and MITIGATION MEASURES:** If the river were to breach the existing levee and be captured by the pit, it is likely that two high-pressure gas lines, a petroleum line, the Union Pacific Railroad and Interstate-10 would be severed by the resultant headcutting. To minimize this risk, the levee was designed conservatively, sensors were installed in the levee to monitor subsidence and the owner agreed to allow the District to enter the property and inspect the levee at will. Moreover, the project proponent has been required to deposit (incrementally, as the pit is expanded) 3 million dollars into a "sinking fund" to assure that maintenance is assured in perpetuity.

- d) The proposed project will not change in the amount of surface water in any water body.

**Mitigation:** To protect the batch plant area from flood hazard would require approximately 1,400 lineal feet of channel to be constructed from the freeway culvert southeast past the patch plant area. A March 2, 3008 letter from Robertson's Ready Mix indicated their intention to construct this channel. While the channel would be privately owned, the district conditioned the SMP to submit improvement plans to the District for review and approval. Plans for the channel shall be submitted to the District for review and approval prior to the issuance of any grading or building permits for the proposed batch plant.

**Monitoring:** Monitoring shall be through the Riverside County Flood Control District.

**LAND USE/PLANNING** Would the project

**27. Land Use**

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Result in a substantial alteration of the present or planned land use of an area?                   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Affect land use within a city sphere of influence and/or within adjacent city or county boundaries? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

**Source:** Riverside County General Plan, GIS database, Project Application Materials

**Findings of Fact:**

- a) An existing surface mine is currently operation on the proposed site. The proposed project to extend the hours of operation will not result in a substantial alteration of the present or planned land use of the area.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

- b) The project is not located within a city sphere of influence or within adjacent city or county boundaries; therefore, the project will not affect the land use of either.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**28. Planning**

a) Be consistent with the site's existing or proposed zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Be compatible with existing surrounding zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be compatible with existing and planned surrounding land uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be consistent with the land use designations and policies of the Comprehensive General Plan (including those of any applicable Specific Plan)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Land Use Element, Staff review, GIS database

Findings of Fact:

- a) The proposed project is consistent with the existing W-2-10 (Controlled Development with a 10 acre minimum) and M-SC (Manufacturing Service Commercial) zoning.
- b) The proposed project is compatible with existing surrounding zoning.
- c) The proposed is consistent with the land use designations and policies of the Comprehensive General Plan (including those of any applicable Specific Plan).
- d) The project does not Disrupt or divide the physical arrangement of an established community (including a low-income or minority community).

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required

**MINERAL RESOURCES** Would the project

**29. Mineral Resources**

a) Result in the loss of availability of a known mineral resource that would be of value to the region or the residents of the State?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?				
c) Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or property to hazards from proposed, existing or abandoned quarries or mines?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure OS-5 "Mineral Resources Area"

Findings of Fact: The proposed project is an asphalt batch plant; therefore, will not:

- a) Result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State.
- b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan.
- c) Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine.
- d) Expose people or property to hazards from proposed, existing or abandoned quarries or mines.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**NOISE** Would the project result in

**Definitions for Noise Acceptability Ratings**

Where indicated below, the appropriate Noise Acceptability Rating(s) has been checked.

NA - Not Applicable

A - Generally Acceptable

B - Conditionally Acceptable

C - Generally Unacceptable

D - Land Use Discouraged

**30. Airport Noise**

a) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport would the project expose people residing or working in the project area to excessive noise levels?

NA  A  B  C  D

b) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?

NA  A  B  C  D

Source: Riverside County General Plan Figure S-19 "Airport Locations," County of Riverside Airport Facilities Map

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Findings of Fact:**

- a) The proposed project is not located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport; therefore will not expose people residing or working in the project area to excessive noise levels.
- b) The proposed project is not within the vicinity of a private airstrip; therefore, will not expose people residing or working in the project area to excessive noise levels.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**31. Railroad Noise**

NA  A  B  C  D

**Source:** Riverside County General Plan Figure C-1 "Circulation Plan", GIS database, On-site Inspection

**Findings of Fact:** The proposed project is located adjacent to the Southern Pacific Railroad tracks. The majority of the material extracted from the surface mine is shipped via rail; however, the proposed project will have not impact on railroad noise.

**Mitigation:** All appropriate mitigation was analyzed by EIR 238 for SMP 162. No further mitigation required.

**Monitoring:** No further monitoring is required.

**32. Highway Noise**

NA  A  B  C  D

**Source:** On-site Inspection, Project Application Materials

**Findings of Fact:** The project is directly adjacent to Interstate 10. There will be no impact due to the commercial/industrial nature of the project.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**33. Other Noise**

NA  A  B  C  D

**Source:** Project Application Materials, GIS database

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Findings of Fact:** All impacts were analyzed within EIR 238. No new noise impacts are anticipated by the batch plant facility. The project was condition to mitigate exterior noise levels (COA's 10. PLANNING 11 and 10. PLANNING 12) as required by the Department of Public Health, Office of Industrial Hygiene (per transmittal letters dated May 20, 2008 and January 27, 2011); however, this is considered standard mitigation.

**Mitigation:** EIR 238 required mitigation for noise. No additional mitigation is required.

**Monitoring:** No additional monitoring is required

**34. Noise Effects on or by the Project**

a) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Exposure of persons to or generation of excessive ground-borne vibration or ground-borne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Source:** Riverside County General Plan, Table N-1 ("Land Use Compatibility for Community Noise Exposure"); Project Application Materials; Noise Report by Albert A. Webb & Associates date April 24 2008 and letters from Department of Public Health, Office of Industrial Hygiene dated May 20, 2008 and May January 27, 2011

**Findings of Fact:**

- a) The proposed project will not cause a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project.
- b) The proposed project will not cause a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.
- c) The proposed project will not cause exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies.
- d) The proposed project will not cause exposure of persons to or generation of excessive ground-borne vibration or ground-borne noise levels.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No mitigation measures are required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>POPULATION AND HOUSING</b> Would the project				
<b>35. Housing</b>				
a) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Create a demand for additional housing, particularly housing affordable to households earning 80% or less of the County's median income?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Affect a County Redevelopment Project Area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Cumulatively exceed official regional or local population projections?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Project Application Materials, GIS database, Riverside County General Plan Housing Element

Findings of Fact:

- a) The scope of the development is not substantial enough to displace a number of housing, necessitating the construction of replacement housing elsewhere. The project will have no impact.
- b) The project will not create a demand for additional housing, particularly housing affordable to households earning 80% or less of the County's median income. The project will have no impact.
- c) The project will not displace substantial numbers of people, necessitating the construction of replacement housing elsewhere. The project will have no impact.
- d) The project is located within a Redevelopment Area. The project will have no impact.
- e) The project will not cumulatively exceed official regional or local population projections. The project will have no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**PUBLIC SERVICES** Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

<b>36. Fire Services</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------	--------------------------

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: Riverside County General Plan Safety Element

The project area is serviced by the Riverside County Fire Department. The project will not directly physically alter existing facilities or result in the construction of new facilities. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards. The project shall comply with required standards and inspections by the County Fire Department (COA 90.FIRE.1, 90.FIRE.2, 90.FIRE.2).

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**37. Sheriff Services**

Source: Riverside County General Plan

The proposed area is serviced by the Riverside County Sheriff's Department. The proposed project would not have an incremental effect on the level of sheriff services provided in the vicinity of the project area. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**38. Schools**

Source: Palm Springs Unified School District correspondence, GIS database

Findings of Fact: The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The proposed project is located within the Banning Unified School District. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**39. Libraries**

Source: Riverside County General Plan

The proposed project will not create a significant incremental demand for library services. The project will not require the provision of new or altered government facilities at this time. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**40. Health Services**

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan

The use of the proposed lease area would not cause an impact on health services. The site is located within the service parameters of County health centers. The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The project will have no impact. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**RECREATION**

**41. Parks and Recreation**

a) Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

b) Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Is the project located within a Community Service Area (CSA) or recreation and park district with a Community Parks and Recreation Plan (Quimby fees)?

--------------------------	--------------------------	-------------------------------------	--------------------------

g) Cause an effect upon circulation during the project's construction?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

h) Result in inadequate emergency access or access to

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

nearby uses?

i) Conflict with adopted policies, plans or programs regarding public transit, bikeways or pedestrian facilities, or otherwise substantially decrease the performance or safety of such facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Riverside County General Plan

Findings of Fact:

- a) The Transportation Department has reviewed the traffic study submitted for the referenced project. The study has been prepared in accordance with the County-approved guidelines.

The Department generally concurs with the findings relative to the traffic impacts. The Comprehensive General Plan circulation policies require a minimum of Level of Service 'C', except that Level of Service 'D' may be allowed in community development areas at intersections of any combination of secondary highways, major highways, arterials, urban arterials, expressways or state highways and ramp intersections.

The study indicates that it is possible to achieve adequate levels of service for the following intersections based on the traffic study assumptions:

- Apache Trail (NS) At:
- \*Site Driveway (EW)
- \*Main Street (EW)
- \*I-10 Eastbound Ramps (EW)
- \*I-10 Westbound Ramps (EW)
- Seminole Road (EW)

As such, the proposed project is consistent with this General Plan policy.

- b) The proposed project will not affect parking capacity.
- c) The proposed project will not exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated road or highways.
- d) The proposed project will not result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks.
- e) The proposed project will not alter waterborne, rail or air traffic.
- f) The proposed project will not substantially increase hazards to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment).

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

- g) The proposed project will not cause an effect upon, or a need for new or altered maintenance of roads.
- h) The proposed project will not cause an effect upon circulation during the project's construction.
- i) The proposed project will not Result in inadequate emergency access or access to nearby uses.
- j) The proposed project will not conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks).

**Mitigation:** The intersection of Apache Trail (NS) at Site Access Driveway (EW) shall be re-aligned per Figure 6-A of the traffic study and shall be improved to provide the following geometrics (80.TRANS.2):

- Northbound: one left-turn lane, one through lane
- Southbound: one shared through/right-turn lane
- Eastbound: one shared left-turn/right-turn lane
- Westbound: N/A

All improvements listed are requirement for interim conditions only. Full right-of-way and roadway half sections adjacent to the property for the ultimate roadway cross-section per the County's Road Improvement Standards and Specifications must be provided.

Any off-site widening required to provide these geometrics shall be the responsibility of the landowner/developer.

**Monitoring:** The Department of Transportation will monitor this condition.

<b>44. Bike Trails</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

**Source:** Riverside County General Plan

**Findings of Fact:** The General Plan does not identify a Class I Bikeway/Regional Trail.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**MANDATORY FINDINGS OF SIGNIFICANCE**

50. Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Staff review, Project Application Materials

Findings of Fact: Implementation of the proposed project would not substantially degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife populations to drop below self-sustaining levels, threaten to eliminate a plant or animal community, or reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.

51. Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, other current projects and probable future projects)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Staff review, Project Application Materials

Findings of Fact: The project does not have impacts which are individually limited, but cumulatively considerable.

52. Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Staff review, project application

Findings of Fact: The proposed project would not result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact

**VI. EARLIER ANALYSES**

Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration as per California Code of Regulations, Section 15063 (c) (3) (D). In this case, a brief discussion should identify the following:

Earlier Analyses Used, if any:

- SCAQMD CEQA Air Quality Handbook
- RCIP: Riverside County Integrated Project.
- RCLIS: Riverside County Land Information System
- Geology: Geology Report No. 1614
- "Environmental Impact Report No. 238 for Beaumont Concrete Company's Application for Surface Mining Permit No. 162", dated July 1990 (SCH#87122129)
- "Environmental Assessment No. 39969 for Surface Mining Permit No. 162, Revision 2", dated June 28, 2006
- Environmental Assessment No. 41584 for Conditional Use Permit No. 3574

Location Where Earlier Analyses, if used, are available for review:

Location: County of Riverside Planning Department  
 4080 Lemmon Street, 12<sup>th</sup> Floor  
 Riverside, CA 92505

Revised: 4/28/2011 11:05 AM

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1 USE - PROJECT DESCRIPTION

RECOMMND

The use hereby permitted is for an existing asphalt batch plant with an average annual production of up to 750,000 tons of asphalt and this revised permit is to modify the previously approved hours of operation to 24-hours a day. Operating hours are normally 4:00 a.m. to 6:00 p.m., Monday thru Friday, but may be allowed up to 24-hours per day, seven days a week for all projects including for public and emergency services. The plant will be located on the Cabazon Quarry, operated by Robertson's Ready Mix. The project will use existing lighting and will not add any additional lighting.

10. EVERY. 2 USE - HOLD HARMLESS

RECOMMND

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside or its agents, officers, and employees (COUNTY) from the following:

(a) any claim, action, or proceeding against the COUNTY to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning CUP03574R1; and,

(b) any claim, action or proceeding against the COUNTY to attack, set aside, void or annul any other decision made by the COUNTY concerning CUP03574R1, including, but not limited to, decisions made in response to California Public Records Act requests.

The COUNTY shall promptly notify the applicant/permittee of any such claim, action, or proceeding and shall cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify or hold harmless the COUNTY.

The obligations imposed by this condition include, but are not limited to, the following: the applicant/permittee shall pay all legal services expenses the COUNTY incurs in connection with any such claim, action or proceeding, whether it incurs such expenses directly, whether it is

10. GENERAL CONDITIONS

10. EVERY. 2 USE - HOLD HARMLESS (cont.) RECOMMND

ordered by a court to pay such expenses, or whether it incurs such expenses by providing legal services through its Office of County Counsel.

10. EVERY. 3 USE - DEFINITIONS RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Conditional Use Permit No. 3574, Revised Permit No. 1 shall be henceforth defined as follows:

APPROVED EXHIBIT A = Site Plan for Conditional Use Permit No. 3574, Revised Permit No. 1, Exhibit A, sheets 1-3, dated November 22, 2010.

BS GRADE DEPARTMENT

10.BS GRADE. 1 USE - GENERAL CONDITION RECOMMND

Conditional Use Permit 03574, Revised Permit No. 1, proposes to modify the hours of operation for an existing batch plant. No other modifications or improvements are proposed.

The Grading Division has no objections to this proposal.

E HEALTH DEPARTMENT

10.E HEALTH. 1 USE - GENERAL COMMENTS RECOMMND

All conditions under CUP#3574 remain "INEFFECT" for this revised permit.

EPD DEPARTMENT

10.EPD. 1 EPD- LAND USE ADJACENCY RECOMMND

Environmental Programs has received and reviewed report titled Coachella Valley Multiple Species Habitat Conservation Plan Land Use Adjacency Report for CUP03574R1, dated February 1, 2011 prepared by AMEC (PDB05730). The report addresses the consistency of the project with Land Use Adjacency Guidelines 4.5.1, 4.5.2, 4.5.3, 4.5.4, and 4.5.5 of the CVMSHCP and is on file with the Environmental Programs Division.

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

FIRE DEPARTMENT

10.FIRE. 1 USE-#89-RAPID HAZMAT BOX RECOMMND

Rapid entry Hazardous Material data and key storage cabinet shall be installed outside of the main access of the facility. The box may be affixed to a building or a gate/fence. Plans shall be submitted to the Riverside County Fire Department for approval prior to installation.

10.FIRE. 2 USE-#25-GATE ENTRANCES RECOMMND

ny gate providing access from a road to a driveway shall be located at least 35 feet from the roadway and shall open to allow a vehicle to stop without obstructing traffic on the road. Where a one-way road with a single traffic lane provides access to a gate entrance, a 38 foot turning radius shall be used.

10.FIRE. 3 USE-#88A-AUTO/MAN GATES RECOMMND

IF APPLICABLE: Gate(s) shall be automatic operated, minimum 20 feet in width, with a setback of 35 feet from face of curb/flow line. Gate access shall be equipped with a rapid entry system. Plans shall be submitted to the Fire Department for approval prior to installation. Automatic/manual gate pins shall be rated with shear pin force, not to exceed 30 foot pounds. Automatic gates shall be equipped with emergency backup power. Gates activated by the rapid entry system shall remain open until closed by the rapid entry system.

FLOOD RI DEPARTMENT

10.FLOOD RI. 1 USE FLOOD HAZARD REPORT RECOMMND

Conditional Use Permit 03574, Revised Permit No. 1, is a request to modify the hours of operation of an existing asphalt batch plant. This plant is located within the boundaries of Surface Mining Permit (SMP) 163 (Robertson's Ready Mix) in the Cabazon area south of the Interstate 10 freeway, west of Apache Trail.

No site modifications or other improvements are proposed. Only the hours of operation of the batch plant are being modified.

The District does not object to this request.

Parcel: 519-170-007

10. GENERAL CONDITIONS

PLANNING DEPARTMENT

10.PLANNING. 1

GEN - IF HUMAN REMAINS FOUND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following codes for the life of this project:

If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resources Code Section 5097.98 (b), remains shall be left in place and free from disturbance until a final decision as to the treatment and their disposition has been made. If the Riverside County Coroner determines the remains to be Native American, the Native American Heritage Commission shall be contacted within the period specified by law. Subsequently, the Native American Heritage Commission shall identify the "Most Likely Descendant." The Most Likely Descendant shall then make recommendations and engage in consultation with the County and the property owner concerning the treatment of the remains as provided in Public Resources Code Section 5097.98. Human remains from other ethnic/cultural groups with recognized historical associations to the project area shall also be subject to consultation between appropriate representatives from that group and the County Planning /Director.

10.PLANNING. 2

GEN - INADVERTANT ARCHAEO FIND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:

If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to its sacred or cultural importance.

1.All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.PLANNING. 2                    GEN - INADVERTANT ARCHAEO FIND (cont.)                    RECOMMND

archaeologist, the Native American tribal representative (or other appropriate ethic/cultural group representative), and the Planning Director to discuss the significance of the find.

2.At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance, etc) for the cultural resource.

3.Further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate preservation or mitigation measures.

10.PLANNING. 3                    USE - COMPLY WITH ORD./CODES                    RECOMMND

The development of these premises shall comply with the standards of Ordinance No. 348 and all other applicable Riverside County ordinances and State and Federal codes.

The development of the premises shall conform substantially with that as shown on APPROVED EXHIBIT A, unless otherwise amended by these conditions of approval.

10.PLANNING. 4                    USE - FEES FOR REVIEW                    RECOMMND

Any subsequent submittals required by these conditions of approval, including but not limited to grading plan, building plan or mitigation monitoring review, shall be reviewed on an hourly basis (research fee), or other such review fee as may be in effect at the time of submittal, as required by Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 6                    USE - LAND DIVISION REQUIRED                    RECOMMND

Prior to the sale of any individual structure as shown on APPROVED EXHIBIT A, a land division shall be recorded in accordance with verside County Ordinance No. 460, and any other pertinent ordinance.

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.PLANNING. 7 USE - HOURS OF OPERATION RECOMMND

Use of the facilities approved under this conditional use permit is normally allowed from 4:00 a.m. to 6:00 p.m., Monday thru Friday, but will allow up to 24-hours per day, seven days a week, as needed for all projects including public and emergency services.

10.PLANNING. 10 USE - NO OFF-ROAD USES ALLOWED RECOMMND

Trail bikes, dune buggies, off-road vehicles and other similar powered apparatus shall not be operated for purposes such as, but not limited to, hill climbing, trail riding, scrambling, racing and riding exhibitions.

10.PLANNING. 11 USE - EXTERIOR NOISE LEVELS RECOMMND

Exterior noise levels produced by any use allowed under this permit, including, but not limited to, any outdoor public address system, shall not exceed 45 db(A), 10-minute LEQ, between the hours of 10:00 p.m. to 7:00 a.m., and 65 db(A), 10-minute LEQ, at all other times as measured at any residential, hospital, school, library, nursing home or other similar noise sensitive land use. In the event noise exceeds this standard, the permittee or the permittee's successor-in-interest shall take the necessary steps to remedy the situation, which may include discontinued operation of the facilities. The permit holder shall comply with the applicable standards of Ordinance No. 847.

10.PLANNING. 12 USE - NOISE MONITORING REPORTS RECOMMND

The permit holder may be required to submit periodic noise monitoring reports as determined by the Department of Building and Safety as part of a code enforcement action. Upon written notice from the Department of Building and Safety requiring such a report, the permittee or the permittee's successor-in-interest shall prepare and submit an approved report within thirty (30) calendar days to the Department of Building and Safety, unless more time is allowed through written agreement by the Department of Building and Safety. The noise monitoring report shall be approved by the Office of Industrial Hygiene of the Health Service Agency (the permittee or the permittee's successor-in-interest shall be required to place on deposit sufficient funds to cover the costs of this approval prior to commencing the required report).

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.PLANNING. 13 USE - 90 DAYS TO PROTEST RECOMMND

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, The imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of this approval or conditional approval of the project.

10.PLANNING. 17 USE - CEASED OPERATIONS RECOMMND

In the event the use hereby permitted ceases operation for a period of one (1) year or more, this approval shall become null and void.

10.PLANNING. 18 USE - CAUSES FOR REVOCATION RECOMMND

In the event the use hereby permitted under this permit,  
a) is found to be in violation of the terms and conditions of this permit,  
b) is found to have been obtained by fraud or perjured testimony, or  
c) is found to be detrimental to the public health, safety or general welfare, or is a public nuisance, this permit shall be subject to the revocation procedures.

10.PLANNING. 19 USE - BUSINESS LICENSING RECOMMND

Every person conducting a business within the unincorporated area of Riverside County, as defined in Riverside County Ordinance No. 857, shall obtain a business license. For more information regarding business registration, contact the Business Registration and License Program Office of the Building and Safety Department at [www.rctlma.org.buslic](http://www.rctlma.org.buslic).

10.PLANNING. 20 USE - COMPLY W/SCAQMD RULES RECOMMND

The permittee shall comply with all applicable South Coast Air Quality Management District (SCAQMD) rules and regulations, including, but not limited to, New Source Review Regulations, Standards of Performance for Asphaltic Concrete Plants, Rule 403 for fugitive dust, and PM10 requirements.

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.PLANNING. 21 USE - DUST PREVENTION MEASURE RECOMMND

During the life of the permit, all roads, driveways and mining areas shall be kept continuously wetted while being used, and shall be treated with EPA approved dust suppressants.

10.PLANNING. 22 USE - LOADED TRUCK CARE RECOMMND

All loaded trucks egressing from the subject property shall be properly trimmed with a two (2) foot freeboard height and/or covered and sprayed with water so as to minimize dust and prevent spillage onto the public roadway. In the event that spillage onto the road does occur, and spillage shall be removed immediately (within one hour of the spillage) from the road right of way.

10.PLANNING. 23 USE - STOCKPILE PROTECTION RECOMMND

Stockpile shall be protected against water and wind erosion by covering with burlap or other Riverside County approved materials, wetting, and/or temporary hydroseeding with native plant species.

10.PLANNING. 24 USE - PERMIT SIGNS RECOMMND

No signs are approved pursuant to this project approval. Prior to the installation of any on-site advertising or directional signs, a signing plan shall be submitted to and approved by the Planning Department pursuant to the requirements of Section 18.30 (Planning Department review only) of Ordinance No. 348.

10.PLANNING. 25 USE - NO OUTDOOR ADVERTISING RECOMMND

No outdoor advertising display, sign or billboard shall be constructed or maintained within the property subject to this permit.

10.PLANNING. 26 USE - SMP AMENDMENT REQUIRED RECOMMND

Pursuant SMARA and Ord. 555, Surface Mining Permit No. 162, shall be required to amend the approved mining plan (Exhibit A, for SMP 162) and reclamation plan (Exhibit B, for SMP 162) to incorporate Conditional Use Permit No. 3574R1. This non-substantial modification may be addressed through Substantial Conformance application filed with the Planning Department prior to the date of the 2011-2012

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.PLANNING. 26 USE - SMP AMENDMENT REQUIRED (cont.) RECOMMND

annual mine inspection for SMP 162.

10.PLANNING. 27 USE - LIGHTING HOODED/DIRECTED RECOMMND

Any outside lighting shall be hooded and directed so as not to shine directly upon adjoining property or public rights-of-way.

10.PLANNING. 28 USE - MT PALOMAR LIGHTING AREA RECOMMND

Within the Mt. Palomar Special Lighting Area, as defined in Ordinance No. 655, low pressure sodium vapor lighting or overhead high pressure sodium vapor lighting with shields or cutoff luminaires, shall be utilized.

TRANS DEPARTMENT

10.TRANS. 1 USE-STD INTRO 3 (ORD 460/461) RECOMMND

With respect to the conditions of approval for the referenced tentative exhibit, the landowner shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Ordinance 460 and Riverside County Road Improvement Standards (Ordinance 461). It is understood that the exhibit correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptability may require the exhibit to be resubmitted for further consideration. These ordinances and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

10.TRANS. 2 USE - COUNTY WEB SITE RECOMMND

Additional information, standards, ordinances, policies, and design guidelines can be obtained from the Transportation Department Web site:  
<http://rctlma.org/trans/>. If you have questions, please call the Plan Check Section at (951) 955-6527.

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

10.TRANS. 3

USE - TS/CONDITIONS

RECOMMND

The Transportation Department has reviewed the traffic study submitted for the referenced project. The study has been prepared in accordance with County-approved guidelines. We generally concur with the findings relative to traffic impacts.

The Comprehensive General Plan circulation policies require a minimum of Level of Service 'C', except that Level of Service 'D' may be allowed in community development areas at intersections of any combination of secondary highways, major highways, arterials, urban arterials, expressways or state highways and ramp intersections.

The study indicates that it is possible to achieve adequate levels of service for the following intersections based on the traffic study assumptions.

Apache Trail (NS) at:  
Site Driveway (EW)  
Main Street (EW)  
I-10 Eastbound Ramps (EW)  
I-10 Westbound Ramps (EW)  
Seminole Road (EW)

As such, the proposed project is consistent with this General Plan policy.

The associated conditions of approval incorporate mitigation measures identified in the traffic study, which are necessary to achieve or maintain the required level of service.

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 1

USE - LIFE OF THE PERMIT

RECOMMND

The life of Conditional Use Permit No. 3574, Revised Permit No. 1 shall terminate with the expiration of the surface mining permit (Surface Mining Permit No. 162). This permit shall thereafter be null and void and of no effect whatsoever and the asphalt batch plant approved under this CUP shall be removed from the site and all disturbed areas shall be reclaimed per the requirements of the approved reclamation plan under SMP No. 162.

20.PLANNING. 1 USE - LIFE OF THE PERMIT (cont.)

RECOMMND

Note: Permit life extensions approved for the Surface Mining Permit No. 162 shall extend to this Conditional Use Permit No. 3574R1.

90. PRIOR TO BLDG FINAL INSPECTION

FIRE DEPARTMENT

90.FIRE. 1 USE-#45-FIRE LANES

RECOMMND

The applicant shall prepare and submit to the Fire Department for approval, a site plan designating required fire lanes with appropriate lane painting and/or signs.

90.FIRE. 2 USE-#27-EXTINGUISHERS

RECOMMND

Install portable fire extinguishers with a minimum rating of 2A-10BC and signage. Fire Extinguishers located in public areas shall be in recessed cabinets mounted 48" (inches) to center above floor level with maximum 4" projection from the wall. Contact Fire Department for proper placement of equipment prior to installation.

90.FIRE. 3 FINAL INSPECTION

RECOMMND

Prior to occupancy a Fire Department inspection is required to verify all conditions stated at plan check are met.

PLANNING DEPARTMENT

90.PLANNING. 1 USE - EXISTING STRUCTURES

RECOMMND

All existing buildings, structures and uses on the entire property shall conform to all the applicable requirements of Ordinance No. 348 and Ordinance No. 457, and the conditions of this permit.

January 27, 2011

TO: Jay Olivas, Project Planner

FROM: Steven Hinde, CIH, Senior Industrial Hygienist

RE: Conditional Use Permit No. 3574

A new noise study is not required looking at the diagram, zoning, distance from sensitive receivers, topography and existing barrier. The original noise report done on April 24, 2008 by Albert Webb & Associates is still valid. Our recommendations, from May 20, 2008, remain the same with the modification of allowing 24 hour operations from the existing asphalt batch plant. However, they still need to follow:

1. Facility-related noise, as projected to any portion of any surrounding property containing a "sensitive receiver, habitable dwelling, hospital, school, library or nursing home", must not exceed the following worst-case noise levels 45 dB(A) – 10 minute noise equivalent level ("leq"), between the hours of 10:00 p.m. to 7:00 a.m. (nighttime standard) and 65 dB (A) – 10 minute leq, between 7:00 a.m. and 10:00 p. m. (daytime standard).

Please contact Steve Hinde if you have any questions.

## Noise Standards For Stationary Noise Sources:

### A. Standards:

Facility-related noise, as projected to any portion of any surrounding property containing a "habitable dwelling, hospital, school, library or nursing home", must not exceed the following worst-case noise levels:

- a) 45 dB(A) – 10 minute noise equivalent level ("leq"), between the hours of 10:00 p.m. to 7:00 a.m. (nighttime standard).
- b) 65 dB (A) – 10 minute leq, between 7:00 a.m. and 10:00 p.m. (daytime standard).

### B. Requirement for Determination of Community Noise Impact:

- a) Noise originating from operations within the facility grounds shall be treated as "stationary" noise sources for which this standard will apply.
- b) Noise Modeling Methodology: Noise predictions are to be made by an engineer, acoustical consultant or other similar professional with experience in predicting community noise exposure using standard methods and practices of the noise consulting industry.
- c) Required Modeling Parameters for Stationary Sources:
  - i. Stationary sources are to be modeled as "point" sources.
  - ii. Mobile point sources are to be modeled as emanating from the acoustical centroid of the activity, or at its closest approach to potentially impacted residential property lines, which ever yields the worst-case results.
  - iii. Noise modeling for each piece of acoustical equipment, process or activity must be based on Reference Noise Levels (RNL). RNL may be obtained directly from the manufacturer (in case of equipment) or generated from field studies. Regardless, the data must be representative of worst-case conditions. Directionality of the noise source must be taken into consideration if applicable.
  - iv. Predicted noise levels are to be expressed in terms of worst-case "equivalent continuous sound levels" [or, Leq] averaged over a ten minute period.
  - v. For modeling purposes, receivers are assumed to be positioned at the property line boundary at an elevation of five feet off the ground.

- vi. Terrain conditions for modeling noise propagation: Assumptions regarding ground effects, atmospheric absorption and other forms of noise attenuation must be fully justified.

### **Findings:**

The consultant's report is adequate. Based on our calculations the recommendation listed below should provide sufficient attenuation to reduce the exterior noise levels to below 65 dB (A) during the day and 45 dB (A) at night.

### **Recommendations:**

The following conditions shall be applied to the project based on the information provided by the acoustical consultant:

1. Facility-related noise, as projected to any portion of any surrounding property containing a "sensitive receiver, habitable dwelling, hospital, school, library or nursing home", must not exceed the following worst-case noise levels 45 dB(A) – 10 minute noise equivalent level ("leq"), between the hours of 10:00 p.m. to 7:00 a.m. (nighttime standard) and 65 dB (A) – 10 minute leq, between 7:00 a.m. and 10:00 p. m. (daytime standard).
2. Whenever a construction site is within one-quarter (1/4) of a mile of an occupied residence or residences, no construction activities shall be undertaken between the hours of 6:00 p.m. and 6:00 a.m. during the months of June through September and between the hours of 6:00 p.m. and 7:00 a.m. during the months of October through May. Exceptions to these standards shall be allowed only with the written consent of the building official.
3. All construction vehicles, equipment fixed or mobile shall be equipped with properly operating and maintained mufflers.
4. During construction, best efforts should be made to locate stockpiling and/or vehicle staging area as far as practicable from existing residential dwellings.
5. An **eight foot high control barrier** already exists around the closest residences located east of the project site. The barrier is sufficient to achieve maximum noise attenuation.

RE: Application for Interim Project Review (IPR) for CUP03574

Dear Ms. McGee:

The Coachella Valley Conservation Commission has received your application for an Interim Project Review (IPR) on CUP03574. We have examined the proposed activity and the parcel and have concluded that there does not need to be an IPR. There is only a small portion of Fluvial Sand Transport Only Conservation Area on the parcel. There is no acreage limit in a Fluvial Sand Transport Only Conservation Area so there is no need to allocate Take.

We appreciate your efforts to ensure compliance with the Coachella Valley Multiple Species Habitat Conservation Plan. If you have any further questions on this matter, please do not hesitate to contact Jim Sullivan or myself at CVAG, (760) 346-1127.

Sincerely,

*Katie Barrows*

### Project Description:

The proposed project is an asphalt manufacturing facility with an average annual production of 650,000 to 750,000 tons of asphalt, which includes 100,000 to 125,000 tons of recycled asphalt.

The Economic Development Agency (EDA) hereby acknowledges that the above referenced development warrants special consideration relative to the permit processing as required by the County of Riverside, and encourages the affected County agencies to immediately institute "FAST TRACK" procedures to enable the project to proceed as soon as possible, in accordance with Board Fast Track Policy A-32. \*This Authorization contains preliminary project information and serves as a basis for determining "FAST TRACK" eligibility. During the county's development review process, the proposed project size and configuration may be altered.

If the property is owned by more than one person, attach a separate page that reference the application case number and lists the names, mailing addresses, and phone numbers of all persons having an interest in the real property or properties involved in this application.

The Planning Department will primarily direct communications regarding this application to the person identified above as the Applicant. The Applicant may be the property owner, representative, or other assigned agent.

**APPLICATION FOR LAND USE AND DEVELOPMENT**

**AUTHORIZATION FOR CONCURRENT FEE TRANSFER**

The signature below authorizes the Planning Department and TLMA to expedite the refund and billing process by transferring monies among concurrent applications to cover processing costs as necessary. Fees collected in excess of the actual cost of providing specific services will be refunded. If additional funds are needed to complete the processing of your application, you will be billed, and processing of the application will cease until the outstanding balance is paid and sufficient funds are available to continue the processing of the application. The applicant understands the deposit fee process as described above, and that there will be NO refund of fees which have been expended as part of the application review or other related activities or services, even if the application is withdrawn or the application is ultimately denied.

All signatures must be originals ("wet-signed"). Photocopies of signatures are not acceptable.

**CONDITIONAL USE PERMIT #3574 R1**

**Project Description**

Conditional Use Permit #3574 was approved on July 15, 2008 and permitted the construction and operation of an asphalt manufacturing facility with an average annual production of 650,000 to 750,000 tons of asphalt, which includes 100,000 to 125,000 tons of recycled asphalt. The proposed facility is a state of the art asphalt production plant with three silos for dispensing product into the delivery trucks. It is located within the boundary of approved Surface Mining Permit #00162.

Conditional Use Permit #3574 R1 requests to amend Condition of Approval 10.PLANNING.8 – HOURS OF OPERATION to include occasional night-time operation. Occasional night paving or weekend paving is required by agencies for the convenience of the public or for emergency work.

**Hours of Operation**

The facility operates 5 days per weeks (Monday through Friday) and occasionally on Saturdays for emergency services. The normal operational hours are 4:00 AM to 6:00 PM of which 3 to 4 hours per day will be for maintenance.

**Number of Employees**

This facility employs 4 full time positions.

**Daily Vehicle Trips**

The estimated daily truck trips are estimated to be 200 to 300 per day.

**Oil Truck Deliveries**

We estimate 6 oil truck deliveries over a 24 hour period, starting in the evening hours.

**Typical Asphalt Delivery Hours**

5:30 AM to 4:00 PM

Occasionally night paving or weekend paving is required by agencies for the convenience of the public or for emergency work.

**Site Permitting History (see attached)**

**SMP #162** approved for Surface Mine Permit for Cabazon Quarry

**SMP #162R1** for expanding project was withdrawn 10/11/2007

**SMP #162R2** for expanding mining and reclamation plan approved 9/26/2006

**SMP #162R3** for asphalt facility w/3 silos withdrawn 3/31/2008

**CUP #3574** approved on 7/15/2008 for asphalt facility w/3 silos located within  
SMP #162

**CUP #3574R1** currently in review to modify Condition of approval relating to hours  
of operation.

**SECTION 2**

Total Acres planned for Development: 56± acres

Project Description: This is an existing surface mining facility with a ongoing operations. The proposed project is an asphalt manufacturing facility with an average annual production of 650,000 to 750,000 tons of asphalt which includes 100,000 to 125,000 tons of recycled asphalt. Facility is state of the art asphalt production plant with three silos for dispensing product into delivery trucks.

Optional: Is any part of the property proposed for permanent conservation? Is so, attach map delineating the area proposed for permanent conservations. How many acres? 0

- Attach a map of the project location
- Attach a map delineating the area proposed for disturbance. Include all areas that would be graded for any purpose.

All documentation supplied must be in a hard copy format. To further expedite the review process it is recommended that maps also be submitted as ESRI shapefiles via CD-Rom. For import into the CVCC GIS, please assign a coordinate system to any data provided. Technical GIS digital data submission specifications are included in Table 1 below.

Version 110502

**PROPERTY OWNERS CERTIFICATION FORM**

I, VINNIE NGUYEN, certify that on 5/18/2011.

The attached property owners list was prepared by Riverside County GIS,

APN (s) or case numbers CUPO3574R1 For

Company or Individual's Name Planning Department,

Distance buffered 1000'.

Pursuant to application requirements furnished by the Riverside County Planning Department, Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

Board Assistant to the  
Clerk of the Board of Supervisors  
951-955-8464

***THE COUNTY ADMINISTRATIVE CENTER IS CLOSED EVERY FRIDAY UNTIL FURTHER NOTICE.  
PLEASE CONSIDER THE ENVIRONMENT BEFORE PRINTING.***

**NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY ON A FAST TRACK CONDITIONAL USE PERMIT REVISED PERMIT NO. 1 IN THE PASS & DESERT ZONING DISTRICT – THE PASS AREA PLAN, FIFTH SUPERVISORIAL DISTRICT AND NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1<sup>st</sup> Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on **Tuesday, July 12, 2011 at 1:30 P.M.** to consider the application submitted by Matich Corp. – Albert A. Webb Associates, on **Fast Track Conditional Use Permit No. 3574 Revised Permit No. 1 (FTA No. 2007-39)**, which proposes to modify the previously approved hours of operation to 24-hours a day, seven days a week for an existing asphalt batch plant for all projects including for public and emergency work (“the project”). No other site modifications are proposed. The project is located southerly of Interstate 10 and westerly of Apache Trail in the Pass & Desert Zoning District – The Pass Area Plan, Fifth Supervisorial District.

The Planning Department has determined that the project will not have a significant effect on the environment and recommends the adoption of a Mitigated Negative Declaration for **Environmental Assessment No. 42438**.

The project case file may be viewed from the date of this notice until the public hearing, Monday through Thursday, from 7:30 a.m. to 5:30 p.m. at the Clerk of the Board of Supervisors at 4080 Lemon Street, 1st Floor, Riverside, California 92501, and at the Riverside County Planning Department at 4080 Lemon Street, 12<sup>th</sup> Floor, Riverside, California 92501.

FOR FURTHER INFORMATION REGARDING THIS PROJECT, PLEASE CONTACT JAY OLIVAS, PROJECT PLANNER, AT (951) 955-1195 OR EMAIL [jolivas@rctlma.org](mailto:jolivas@rctlma.org).

Any person wishing to testify in support of or in opposition to the project may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on the project.

If you challenge the above item in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence to the Planning Commission or Board of Supervisors at, or prior to, the public hearing. Be advised that as a result of the public hearing and the consideration of all public comment, written and oral, the Board of Supervisors may amend, in whole or in part, the project and/or the related environmental document. Accordingly, the designations, development standards, design or improvements, or any properties or lands within the boundaries of the project, may be changed in a way other than specifically proposed.

Please send all written correspondence to: Clerk of the Board, 4080 Lemon Street, 1st Floor, Post Office Box 1147, Riverside, CA 92502-1147

## CERTIFICATE OF MAILING

(Original copy, duly executed, must be attached to  
the original document at the time of filing)

I, Cecilia Gil, Board Assistant, for the  
(NAME and TITLE)

County of Riverside, do hereby certify that I am not a party to the within action or proceeding; that on June 20, 2011, I mailed a copy of the following document:

### NOTICE OF PUBLIC HEARING

CUP 3574 REVISED PERMIT NO. 1 (FTA 2007-39)

to the parties listed in the attached labels, by depositing said copy with postage thereon fully prepaid, in the United States Post Office, 3890 Orange St., Riverside, California, 92501.

**Board Agenda Date:** July 12, 2011 @ 1:30 PM

SIGNATURE: *Mcgil*                      DATE: June 20, 2011  
Cecilia Gil

**PROPERTY OWNERS CERTIFICATION FORM**

I, VINNIE NGUYEN, certify that on 5/18/2011,

The attached property owners list was prepared by Riverside County GIS,

APN (s) or case numbers CUPO3574R1 For

Company or Individual's Name Planning Department,

Distance buffered 1000'.

Pursuant to application requirements furnished by the Riverside County Planning Department, Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

**NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY ON A FAST TRACK CONDITIONAL USE PERMIT REVISED PERMIT NO. 1 IN THE PASS & DESERT ZONING DISTRICT – THE PASS AREA PLAN, FIFTH SUPERVISORIAL DISTRICT AND NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1<sup>st</sup> Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on **Tuesday, July 12, 2011 at 1:30 P.M.** to consider the application submitted by Match Corp. – Albert A. Webb Associates, on **Fast Track Conditional Use Permit No. 3574 Revised Permit No. 1 (FTA No. 2007-39)**, which proposes to modify the previously approved hours of operation to 24-hours a day, seven days a week for an existing asphalt batch plant for all projects including for public and emergency work (“the project”). No other site modifications are proposed. The project is located southerly of Interstate 10 and westerly of Apache Trail in the Pass & Desert Zoning District – The Pass Area Plan, Fifth Supervisorial District.

The Planning Department has determined that the project will not have a significant effect on the environment and recommends the adoption of a Mitigated Negative Declaration for **Environmental Assessment No. 42438**.

The project case file may be viewed from the date of this notice until the public hearing, Monday through Thursday, from 7:30 a.m. to 5:30 p.m. at the Clerk of the Board of Supervisors at 4080 Lemon Street, 1st Floor, Riverside, California 92501, and at the Riverside County Planning Department at 4080 Lemon Street, 12<sup>th</sup> Floor, Riverside, California 92501.

FOR FURTHER INFORMATION REGARDING THIS PROJECT, PLEASE CONTACT JAY OLIVAS, PROJECT PLANNER, AT (951) 955-1195 OR EMAIL [jolivas@rctlma.org](mailto:jolivas@rctlma.org).

Any person wishing to testify in support of or in opposition to the project may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on the project.

If you challenge the above item in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence to the Planning Commission or Board of Supervisors at, or prior to, the public hearing. Be advised that as a result of the public hearing and the consideration of all public comment, written and oral, the Board of Supervisors may amend, in whole or in part, the project and/or the related environmental document. Accordingly, the designations, development standards, design or improvements, or any properties or lands within the boundaries of the project, may be changed in a way other than specifically proposed.

Please send all written correspondence to: Clerk of the Board, 4080 Lemon Street, 1st Floor, Post Office Box 1147, Riverside, CA 92502-1147

**NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY ON A FAST TRACK CONDITIONAL USE PERMIT REVISED PERMIT NO. 1 IN THE PASS & DESERT ZONING DISTRICT - THE PASS AREA PLAN, FIFTH SUPERVISORIAL DISTRICT AND NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION**

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 1st Floor Board Chambers, County Administrative Center, 4080 Lemon Street, Riverside, on **Tuesday, July 12, 2011 at 1:30 P.M.** to consider the application submitted by Matich Corp. - Albert A. Webb Associates, on **Fast Track Conditional Use Permit No. 3574 Revised Permit No. 1 (FTA No. 2007-39)**, which proposes to modify the previously approved hours of operation to 24-hours a day, seven days a week for an existing asphalt batch plant for all projects including for public and emergency work ("the project"). No other site modifications are proposed. The project is located southerly of Interstate 10 and westerly of Apache Trail in the Pass & Desert Zoning District - The Pass Area Plan, Fifth Supervisorial District.

The Planning Department has determined that the project will not have a significant effect on the environment and recommends the adoption of a Mitigated Negative Declaration for Environmental Assessment No. 42438.

The project case file may be viewed from the date of this notice until the public hearing, Monday through Thursday, from 7:30 a.m. to 5:30 p.m. at the Clerk of the Board of Supervisors at 4080 Lemon Street, 1st Floor, Riverside, California 92501, and at the Riverside County Planning Department at 4080 Lemon Street, 12th Floor, Riverside, California 92501.

FOR FURTHER INFORMATION REGARDING THIS PROJECT, PLEASE CONTACT JAY OLIVAS, PROJECT PLANNER, AT (951) 955-1195 OR EMAIL jolivas@rcplma.org.

Any person wishing to testify in support of or in opposition to the project may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on the project.

If you challenge the above item in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence to the Planning Commission or Board of Supervisors at, or prior to, the public hearing. Be advised that as a result of the public hearing and the consideration of all

public comment, written and oral, the Board of Supervisors may amend, in whole or in part, the project and/or the related environmental document. Accordingly, the designations, development standards, design or improvements, or any properties or lands within the boundaries of the project, may be changed in a way other than specifically proposed. Please send all written correspondence to: Clerk of the Board, 4080 Lemon Street, 1st Floor, Post Office Box 1147, Riverside, CA 92502-1147

Re: Conditional Use Permit No. 3574 (FTA 2007-39)

Dear Clerk,

Please accept this letter as a formal statement of opposition to the proposed amendment of Conditional Use Permit No. 3574 (FTA 2007-39) by Match Corporation – Albert A Webb Associates to change the hours of operation from 4:00 am to 6:00 pm Monday thru Friday to 24 hours a day 7 days a week. Please distribute this letter to each member of the Riverside County Board of Supervisors and place it in the public record for consideration (public hearing to be held July 12, 2011).

At the Board of Supervisors meeting on July 15, 2008 in which the Board unanimously approved Cup No. 3574, Roger Prinn made the following statements before the Board on behalf of Match Corporation: “First of all, I just wanted to address the truck traffic issue because there is a little misconception on the part of the project opponent. The way we came up with the truck trip generation rate is the maximum capacity of this asphalt plant is about 400 tons a day, so if you back that out to number of truck trips, assuming you are running full speed for the maximum capacity of this thing all the time, you end up with about 300 trips or two hundred and ninety some trips a day which is two ways so it’s about a 150 loads going out a day. That would be in a miraculous economy but in speaking with Mr. Match and his representatives they think it’s more like 200 trips a day which would be a healthy economy number of trips a day. So a hundred loads going out a day normally. There is no real odor associated with this plant. It’s a state of the art plant, it’s got odor containment...Even though the plant opens at 4:00 am... We are doing a disclosure document with this neg. dec. so we have to be conservative and even though we say hours of operation 4:00 am to 6:00 pm typically you are not going to start running loads out of there at 4:00 am maybe 5:00 or 5:30 am which would be the first loads going out and typically they have a shut down and so five (am) to five (pm) is probably more accurate for actual operation of the facility.”

As you can see from the comments above, Match Corporation clearly represented to the Board of Supervisors that, even in a miraculous economy, the proposed batch plant could only handle a maximum production amount equal to 150 outbound truck loads of asphalt. Even if they are to argue that this recessionary economic environment we are experiencing in California, the nation and the world is somehow a “miraculous economy”, Match Corporation also represented that the hours of operation originally asked for was more than enough as they were being “conservative” in their disclosure document tied to the negative declaration.

In short, Match Corp. was able to go on fast track and make use of a negative declaration based on limited hours of operation; they avoided an EIR based on those initial suppositions; they downplayed the number of truck load trips that the plant could physically handle; they said, in actuality, trucks would be entering and leaving the facility from 5 am to 5 pm Mon. thru Fri; they never hinted at the need for additional hours for regular work loads; they already have emergency operation use hours and abilities in the current CUP; they have received complaints from nearby residents about operating outside the prescribed hours; and now they wish to gain approval of more than twice the number of hours of operation originally granted by CUP 3574.

This is outrageous and shows total disregard for nearby residents and property owners. I am a member of an LLC which owns property on Apache Trail known as APN No’s 519-210-018, 020, 021, 022 and 023 which is in close proximity to the asphalt plant site. We previously had accepted an offer to purchase our parcels by a developer who had informally conferred with the county which responded favorably their construction plans on our site. Shortly after we informed the buyer of CUP 3574, they withdrew their offer to purchase our property stating that the approval of such a plant on a nearby property and the estimated 300 trucks per day beginning at 4:00 a.m. causing noise, smells and dust would not be acceptable. Additionally, we currently have a tenant on one of our parcels and he has stated that he frequently smells the asphalt odors while he is on his leased parcel. Our ownership and our tenant have rights of quiet enjoyment to our property. The expansion of hours to 24 hours a day and 7 days a week goes against the grain of the standard caveat that all private uses of property shall not negate nor infringe upon the rights or potential uses of others on their property. Approval of the amended hours will deteriorate the value of our parcels and cause disturbance to our tenant who also has rights.

I ask the Board of Supervisors of Riverside County to do as it is required and act in the best interests of the citizens of the area and reject this request by Match Corporation. Match Corporation has been granted enough privileges even according to their own video taped statements before Board and they can and should operate within the prescribed limits of the approved CUP 3574 so that others can also enjoy their property rights.

Sincerely,

John K. Mooradian, Member - Apache Trail Venture, LLC

RE: Conditional Use Permit 763574  
Revised Permit No. 1  
( FTA ) No. 2007-39

Dear Clerk of the Board.

As a member of Apache Trail Venture, LLC, I strongly oppose the idea that the Matich asphalt plant can operate 24/7. It de-values our commercially zoned 5 acres and could be considered a form of inverse condemnation. The Supervisors must be concerned with the health and welfare of those living in the Southern area of Cabazon, if trucks are allowed 24/7.

I urge the Board to deny this Conditional Use Permit as fourteen hours as granted previously is long enough for this operation. As you may recall Matich was allowed to operate extra hours if any emergency arose. Please do the right thing and deny.

Very Truly Yours

RE: Conditional Use Permit 763574  
Revised Permit No. 1  
( FTA ) No. 2007-39

Dear Clerk of the Board.

This public hearing is preposterous. The people of Cabazon South of Interstate 10 deserve better. If Mr. Ashley is concerned with the health and welfare of citizens living South of Interstate 10, then this Conditional use Permit should be rejected immediately. I have been told by my tenant and others in the vicinity that an awful smell of asphalt occurs every day the wind blows easterly. That is 90% of the time.

This batch plant was approved and the hours were limited for a reason and the supervisors know why. The people breathing this toxic smell will unite and must be heard. We urge the supervisors to reject the operation of the batch plant from 24 – hours a day, seven days a week to its original hours and days.

Sincerely

George Mooradian

PS Let us remind the board since our property is 5 acres and zoned commercial it could be construed as a taking by a Judge, as the proposed conditional use permit could severely downgrade the value of our 5 acres. The supervisors should not permit this to happen.

**Item 1 – Modified Conditions for Project Description, Hours of Operation, and Maximum Truck Trips**

7/12/11  
8:09

Riverside County LMS  
CONDITIONS OF APPROVAL

Page: 1

CONDITIONAL USE PERMIT Case #: CUP03574R1

Parcel: 519-170-007

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1 USE - PROJECT DESCRIPTION

RECOMMND

The use hereby permitted is for an existing asphalt batch plant with an average annual production of up to 750,000 tons of asphalt and this revised permit is to modify the previously approved hours of operation to 24-hours a day, seven days a week. The plant includes three silos for dispensing product into delivery trucks. The plant will be located on the Cabazon Quarry, operated by Robertson's Ready Mix. The project will use existing lighting and will not add any additional lighting.

PLANNING DEPARTMENT

10. PLANNING. 7 USE - HOURS OF OPERATION

RECOMMND

Operating hours for the asphalt batch plant shall be 24 hours per day, seven days a week.

10. PLANNING. 29 USE - MAXIMUM TRUCK TRIPS

RECOMMND

Truck trips shall not exceed 300 per day in accordance with the Traffic Impact Study Report prepared by Albert A. Webb Associates for Matich Corp. dated March 3, 2008.
