**BACKGROUND:**

The intra-operative monitoring services are requested by Riverside County Regional Medical Center's (RCRMC) surgeons for the monitoring of patients while in surgery. These services include experienced and certified neurophysiologist and the equipment to perform intra-operative studies.

In Fiscal Year 2009/2010, on behalf of RCRMC, County Purchasing released a Request for Proposal (RFP #MCARC123), to secure intra-operative monitoring services for the hospital. Based on the overall scores, Modern Diagnostic was determined to be the most responsive/responsible bid. On April 20, 2010, Agenda Item #3.62, the Board approved the Professional Services Agreement with Modern Diagnostic in the amount of \$139,000 to provide intra-operative monitoring services.

Currently, RCRMC's operating room expends an average of \$20,000 each month for intra-operative monitoring services and anticipates the volume of service will continue to rise the following fiscal year, FY11/12.

Therefore, the Director of RCRMC requests the Boards approval of the recommended motions.

**FINANCIAL IMPACT:**

There will be no financial impact or change to the hourly rate set for this service.

Funding for this service is 100% Hospital Enterprise funded and does not require additional County funds.
