CORONA DRAINS - EAST ONTARIO AVE. SD STAGES 1 AND 2

CORONA DRAINS LINE 1G STAGE 2

The Corona Drains East Ontario Avenue Storm Drain project involves the construction of about one mile of underground storm drain and channel reconstruction within the ElCerrito area of Riverside County and the City of Corona. This project should eliminate ongoing street flooding and backyard nuisance flooding affecting homes located north of Ontario Avenue, east of the 15 Freeway between State Street and Rising Sun Road and provide substantial relief for the older neighborhood between Ambassador Avenue and Envoy Avenue. The pipe size varies from 18 inches to 84 inches in diameter.

The Corona Drains Line 1G Stage 2 project involves the construction of the storm drain within the City of Corona. The project consists of constructing approximately 250 feet of reinforced concrete pipe ranging from 72 inches to 48 inches with multiple inlets and connector pipes. The storm drain connects to the existing facility in Olive Street and extends into Main Street where it will capture northbound flood flows.
