BACKGROUND: (Continued)

The RFQ's were submitted for the purpose of developing a pool of qualified design professionals and specialty consulting firms to perform project work on an as-needed basis.

Creating and building upon a pool of qualified firms conforms with Government Code 4525, and is intended to enable the agency to quickly respond to project area needs and accelerate the delivery of projects.

A selection committee made up of representatives from RDA was established to review the firm's qualifications. The RFQ's were evaluated based upon a firm's written presentation of their past projects, key personnel and references. Significant weight was placed upon a firm's successful experience with RDA projects and the firm's proximity to Riverside County project areas. After reviewing the submitted qualifications, 175 firms were selected for consulting services based upon their scoring in the above described areas.

Design and consulting services will be retained on an as-needed basis via the issuance of a contract or purchase order for negotiated services including, but not limited to, agreement on the scope of work, terms, conditions, and compensation. The design and consultant services fees will be limited to a range of \$500 to \$75,000 per project.

Firms will be selected by project managers of RDA based on the pre-qualified firm's current workload and the firm's particular qualifications for individual projects.

The period of qualification for the selected firms will remain in effect for a maximum of three years from the date of Board of Directors approval. RDA's Project Management Office will conduct the required annual performance reviews.

For larger more complex projects, a project-specific RFQ will be utilized to secure the design and consulting services.
