FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD SUBMITTAL COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

SUBJECT: Pension Reform - New Employees

SUBMITTAL DATE: May 10, 2011

Page 2

BACKGROUND: Continued

The Flood Control District is a Special District (and not a County department) and, therefore, has its own CalPERS contract which must be amended separately from the County's.

It should be noted that through careful planning and accumulation of reserves over time, the District is well positioned to combat the economic hardships and severe budget distress that the County and many other governmental entities are now facing. For example, last fiscal year the District did not offer its employees the two-year retirement incentive, thus saving staff resources and reducing its CalPERS payments for the long run. Further, the District has taken steps to speed up its infrastructure construction program to avail itself of the cost savings in the current construction environment and allow the taxpayers to benefit from the current lower construction costs as well.

However, the District continually seeks prudent cost saving measures to maintain its fiscal flexibility and appreciates the benefits advantages to the County and the District of having similar retirement benefit packages in attracting and recruiting new employees. Therefore, the District is requesting this motion to reform its pension plan and further enhance its flexibility as it deals with the everchanging economic conditions of the County. Further though, the District will endeavor to explore other benefits that will help to maintain/enhance its ability to attract and retain high caliber employees.
