**TO: BOARD OF SUPERVISORS**

**DATE:** May 24, 2011

**SUBJECT:** Approval of Maintenance agreement with Microsoft Corporation for Premier Support Services

**BACKGROUND (Continued):**

Microsoft Premier Support Services provides problem resolution, support assistance, support account management, information and workshops to assist DPSS with strategic and technical advice on Microsoft technologies.

The County entered into a master services agreement with Microsoft on June 2, 1998 covering the provision of Premier Support Services.

The County renewed the Premier Support Services agreement on May 15, 2007.

**PRICE REASONABLENESS:**

Microsoft Premier Support Services are proprietary and cannot be competitively bid. All pricing for services are based on Microsoft's Public Sector Catalog rates.

**ATTACHMENT(S):**

"Microsoft Premier Support Services Description" agreement  
Sole Source Justification

**CONCUR/EXECUTE** – County Purchasing/ County Counsel/County Information Technology

SL:bt

Date: May 24, 2011  
From: Susan Loew, Director of the Department of Public Social Services  
To: Board of Supervisors  
Via: Purchasing Agent  
Subject: Request for a Sole Source Procurement

The below information is provided in support of the Department of Public Social Services requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for a sole source.

Supply/Service being requested:  
Microsoft Premier Agreement

Supplier being requested:  
Microsoft Corporation

Alternative suppliers that can or might be able to provide supply/service:  
None

Extent of market search conducted:  
None

Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:

Microsoft is the sole provider of the Premier Services for Support Assistance and Problem Resolution Support available through Premier Services for Microsoft products. Support assistance includes short-term advice and guidance for problems not covered with Problem Resolution Support as well as requests for consultative assistance for design, development and deployment issues.

Reasons why the Department of Public Social Services requires these unique features and what benefit will accrue to the county:

The Premier agreement gives DPSS access to Microsoft resources unavailable through other sources. It also gives DPSS access to Microsoft personnel for engagements of less than two weeks, which is the shortest engagement for which Microsoft will contract.

Price Reasonableness:

The rates for the Premier agreement are equal to Microsoft's published public sector rates. Microsoft public sector pricing represents a 1.4% off commercial pricing.

Does moving forward on this product or service further obligate the county to future similar contractual arrangements?

No.

Period of Performance:

June 8, 2011 through June 7, 2012.

**1. OVERVIEW.** This Services Description describes the various types of services that may be obtained (the "Services"). In addition, it sets forth the parties' respective responsibilities, prerequisites and assumptions that underlie the provision of the Services, applicable fees, and additional terms and conditions. The Services focus on the following key areas:

**Support Account Management** from an assigned Microsoft resource ("Services Resource") helps to build and maintain relationships with Your management and service delivery staff and helps You arrange each element of the Premier Support to meet Your business requirements.

**Workshops** help You to prevent problems, increase system availability and assist with creating products and solutions based on Microsoft technologies.

**Problem Resolution Support** provides assistance for problems with specific symptoms encountered while using Microsoft products, where there is a reasonable expectation that the problem is caused by Microsoft products.

**Support Assistance** provides short-term advice and guidance for problems not covered with Problem Resolution Service as well as requests for consultative assistance for design, development and deployment issues.

**Information Services** provide Your staff with the latest knowledge on Microsoft technologies to enhance Your in-house support capabilities.

**2. AVAILABLE SERVICES.** You may utilize any combination of the following Services. Unless We specify otherwise, the Services are charged on an hourly basis and will be deducted from the total number of hours You have purchased as set forth in the attached Fee and Named Contacts Schedule(s). The complete list of Services below may not be available in all countries. For a detailed list of Services available outside the US, please contact Your Services Resource.

**2.1 Support Account Management.** Support Account Management services are intended to help coordinate the support and services relationship. The Services Resource is Your advocate within Microsoft and facilitates a team that can provide Workshops, Problem Resolution Support, and Support Assistance. The Services Resource also serves as the point of information delivery and provides Your feedback regarding the Services to other Microsoft groups. The Services Resource can also provide the following services which will not be deducted from the pre-paid hours listed in the Fee and Named Contacts Schedule(s):

- a. Planning and Resource Facilitation. At the commencement of this Service Description, an orientation and planning session can be conducted with Your management and staff via teleconference or onsite if an onsite visit has been purchased. The purpose of this meeting is to discuss the Services available, gather input regarding Your support needs, and jointly plan Your use of the Services.
- b. Status Meetings and Reporting. A standard status report can be prepared on a regular basis, to summarize the Services delivered during the previous reporting period. Status meetings will be conducted to discuss Service activities, monitor Your satisfaction levels, and discuss actions or adjustments that may be required. Customized reporting can be provided at Your request and any additional related labor will be deducted from Your Support Assistance hours.
- c. Escalation Management. Support issues that require escalation to other resources within Microsoft can be closely managed by the Services Resource to expedite resolution.

**2.2 Workshops and Events.** The goal of Workshops and Events is to provide You proactive technical information to assist in the design, development or deployment of Microsoft technologies. Additional benefits may include instruction to help reduce the number and minimize the impact of problems related to Microsoft Products that You experience. Workshops and Events can include the following:

- a. Workshops. We can conduct instructor-led training sessions that emphasize Microsoft technologies at Your facility or on location at Microsoft. If You elect to have a Workshop conducted at Your facility, We will provide You with specifications for configuring Your environment prior to the delivery of the Workshops. Workshops are individually scoped and priced depending upon the length, delivery location and material presented. Your Services Resource can provide You with a current list of available Workshops.
- b. Events. We can provide broad and deep technical development-focused presentations, combined with hands-on labs that provide training and facilitate Your implementations of Microsoft technologies. These Events provide the opportunity to interact with Microsoft product groups, Premier support development resources and marketing contacts. Your Services Resource can provide You with notification of scheduled Events.

**2.3 Problem Resolution Support.** Problem Resolution Support provides assistance for problems with specific symptoms encountered while using Microsoft products, where there is a reasonable expectation that the problems are caused by Microsoft products. Problem Resolution Support is available 24 hours a day, 7 days a week. Requests for support may be submitted via telephone or electronically through the Premier online website by Your designated contacts, except for Severity 1 and A which must be submitted via telephone as set forth below in Section 2.3(a). Problem Resolution Support can include any combination of the following:

- a. **Problem Request (Break-Fix).** An assisted break-fix support request, also known as an incident, is defined as a single support issue and the reasonable effort needed to resolve it. A single support issue is a problem that cannot be broken down into subordinate issues. If a problem consists of subordinate issues, each shall be considered a separate incident. Incidents requiring an onsite visit will be charged on an hourly basis and will include charges for reasonable travel and living expenses. In certain situations, We may provide You with a modification to the commercially available Microsoft product software code to address specific critical problems ("Hotfix(es)") in response to an assisted break-fix support request. Hotfixes are designed to address Your specific problems and are not regression tested. Except as otherwise provided herein or in an Exhibit, Hotfixes may not be distributed to unaffiliated third parties without Our express written consent.

Problem resolution support is charged on an hourly basis and includes the commercially reasonable amount of hours of Services necessary to troubleshoot and help resolve the support issue. Hours-based incidents are deducted from the pre-paid hours set forth in the attached Fee and Named Contacts Schedule(s) or charged to You in arrears if all pre-paid hours have been exhausted.

You are responsible for setting the initial severity level in consultation with Us and You can request a change in severity level at any time. The incident severity will determine the response levels within Microsoft and estimated response times and Your responsibilities are defined in the following table:
