As provided in County Ordinance 573, the rate of charge for each County Service Area is calculated by dividing the net cost of the service of the total number of parcels receiving the service. In addition, some CSA special assessments were established by an engineer's report that includes an annual adjustment by the greater of two percent (2.0%) or the cumulative percentage increase in the Consumer Price Index for all Urban Consumers (CPI-U) as it stands on March of 2011 and were increased accordingly.
