BACKGROUND:

On January 10, 2006 the Board of Directors approved the Mecca Downtown Revitalization Plan which identifies facilities as a priority community development need in the unincorporated 4th district community of Mecca. In response to this need, the Redevelopment Agency intends to develop a new facility to replace the obsolete Mecca Post Office. For this purpose the RDA identified a preferred site, made findings, acquired property, established a relocation plan, relocated tenants and cleared the site. The existing facility will continue in its current capacity until the new facility is completed and operational.

Staff recommends that the new facility be constructed upon the 0.5 acre site located at 91-279 and 91307 2nd Street on the Southeast corner of 2nd Street and Date Palm in Mecca. This site is owned by the Redevelopment Agency.

Prior to the construction of the new facility, it is necessary to obtain comprehensive and detailed architectural and design services. Through a request for qualifications process, RDA staff solicited proposals from qualified firms to provide these services. STK Architecture, Inc., submitted the most responsive proposal and was selected to provide the following general range of services:

- Phase 1 Preliminary Design Services
- Phase 2 Final Design Services
- Phase 3 Construction Services

An agreement for architectural and design services between the Redevelopment Agency and STK Architecture, Inc is attached. County Counsel has reviewed and approved the agreement and the Redevelopment Agency recommends approval.

The project has been studied in accordance with CEQA and a Mitigated Negative Declaration was adopted by the Board September 1, 2009 Item 4.7.
