ORAL COMMUNICATIONS

Note: If you are here for an agenda item that is filed
for "Appeal", please state separately your position on
the appeal below:

_____ **Support** _____ **Oppose** _____ **Neutral**

I give my 3 minutes to: _____

Oct-4, 2011

I have 4 documents today for the clerk of the board.

Document No. 1: A report from Supervisor Younglove Dec 31st, 1992 who after personally inspecting the Bautista Canyon access road recorded May 12, 1988 determined:

- Page 1, 3c- that a review of the property raises serious questions as to the ability of the public road to satisfy the phrase public highway or street.
- Page 2, 111-Lake Hemet had rights prior to the recording of the public road that reduced the 40' public road to 20'.

Document No. 2: Agenda 10.3, Oct 3rd, 1995. In agenda 10.3 Riverside County Flood Control Director Kenneth Edwards recommended that the board approve resolution no. F95-50 authorization to convey 4 non exclusive easements for ingress and egress purposes over district owned land. Justification- side channel modification has landlocked 4 property owners and these easements will provide new unobstructed access to the property owners. Supervisor Buster and Supervisor Tavaglione voted yes. Supervisor Tavaglione signed the easements. Four easements were received by Kenneth Edwards for recording 10-25-95.

Document NO. 3-4: Two letters dated Dec 28th, 2010 and May 4th, 2011 from Riverside County Flood Control Assistant Chief Engineer, Steve Thomas to Robert Mabee stating his easement deed and three other easement deeds to the other property owners were never recorded and can not be found.

You have all heard Bob Buster in agenda 4-12-2011, 3.30 say he wasn't even in office at the time of this fraud. Supervisor Younglove personally delivered a copy of his report to Supervisor Buster. On the cover of this report is Bob Buster, Supervisor. Are you a liar Mr. Buster or senile?

Several weeks ago I filed a formal complain taken by Dan Stack in the District Attorney's office. I provided 27 public documents proving fraud corruption and misuse of public funds.. The complaint was against Supervisor Buster, Supervisor Stone and County Counsel. Supervisor Stone was previously investigated by the Attorney General in two cases and fined a total of \$26,000. One complaint was fraud and corruption filed by the State Pharmacy Board. District Attorney Paul Zellerback has compromised his office by accepting large sums of money from Stone and Buster before and after he was elected to office. How much money did you turn over to Zellerback Mr. Buster. Is it enough to buy his protection?

FLOOD CONTROL AND WATER CONSERVATION DISTRICT BOARD SUBMITTAL
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

SUBMITTAL DATE: October 3, 1995

SUBJECT: Authorization to Convey Non-Exclusive Easements
Bautista Creek Channel Project # 4-0-0030
Resolution No. F95-50

JUSTIFICATION:

The District's Bautista Creek Channel from Fairview Avenue upstream has experienced vandalism and trespassing. To prevent this and limit potential liabilities, the District fenced the 15-foot wide maintenance road and modified several side channel conveyances. Certain individuals by virtue of being successors in interest to an access easement (Instrument No. 91932) enjoyed the use of the 15-foot wide strip of land adjacent to said channel. Said access easement provided that if at any time a public highway or street was extended to the described lands in Section 22 lying easterly of Bautista Creek Channel said easement shall cease and determine. To this end, the District granted to the County a 40-foot wide strip of land adjacent to the 15-foot wide easement for acceptance in the County's non-maintained road system (Instrument No. 127298).

A portion of the 15-foot wide access easement is located within a drainage wash, making it dangerous and unusable during times of storm flow. In addition, the side channel modification has obstructed physical access to a portion of the 15-foot side easement. The granting of these easements will provide new unobstructed access to the property owners (see attached Exhibit A).

EASEMENT

RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

grant(s) to the County of Riverside, an easement for public road and drainage purposes, including public utility and public services purposes, over, upon, across, and within the real property in the County of Riverside, State of California, described as follows:

Parcel 4030-500 -

Being a portion of Sections 16, 21 and 22, Township 5 South, Range 1 East, San Bernardino Base and Meridian, lying within all or parts of Parcels 4030-16, 4030-17, 4030-17B, 4030-19A, 4030-20, 4030-21A and 4030-22 as shown on Record of Survey, Book 31, Pages 52-59, inclusive, Records of Riverside County, California, described as follows:

A strip of land 40 foot in width measured at right angles, lying Easterly of, parallel and concentric with a line which lies 60 feet Easterly of, parallel and concentric with the centerline of Bautista Creek as shown on said Record of Survey.

The side lines of said 40 foot wide strip of land shall be prolonged or shortened so as to terminate at the Northerly end with the Easterly right of way of Fairview Avenue and terminate at the Southerly end with the Southerly line of Section 22.

Grantor understands that the herein described road shall not become part of the county maintained road system until accepted by subsequent resolution of the Board of Supervisors pursuant to Section 941 of the Street and Highways Code

number and year of EASEMENT DEED

RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT hereby grants to RAYMOND DEICHSEL, JR. and LOLA H. DEICHSEL a non-exclusive private easement for ingress and egress over the land in the County of Riverside, State of California, described as:

The northeasterly 15.00 feet of the southwesterly 155.00 feet of that certain 200-foot wide right of way as shown on Record of Survey filed April 14, 1960, in Record of Survey Book 31, pages 52-59, inclusive, records of Riverside County, California, between the easterly right of way line of Fairview Avenue and the south line of Section 22, Township 5 South, Range 1 East, S.B.B. & M; together with an easement 15.00 feet in width northerly of, adjacent to, and parallel with the south line of said Section 22, extending from the easterly line of the above-described easement to the easterly line of Parcel 4030-22 as shown on Record of Survey filed April 14, 1960, in Record of Survey Book 31, pages 52-59, records of Riverside County, California.

This easement is granted pursuant to the contract between the parties, dated April 16, 1961, which provides that District shall grant to Deichsels this easement for ingress and egress to Deichsels landlocked remainder described as the South half of the South half of Section 22, Township 5 South, Range 1 East, S.B.B. & M; Excepting therefrom the Southeast-quarter of the Southeast quarter of the Southeast quarter of said Section 22.

This easement is subordinate to the rights of the District to construct, maintain and operate Bautista Creek Channel. If at any time a public highway or street shall be extended to the described lands in Section 22 lying easterly of Bautista Creek Channel, this easement shall cease and determine. If at any time this easement shall be intersected by a public highway or public street, the portion of this easement lying north and northwesterly of such intersection shall cease and determine.

BAUTISTA CREEK CHANNEL
PARCEL 4030-500A

Being a portion of the Southwest quarter of Section 22, Township 5 South, Range 1 East, San Bernardino Base and Meridian, described as follows:

Commencing at the Southwest corner of Section 22 as shown on Record of Survey Book 31, Pages 52 through 59, inclusive, Records of Riverside County, California;

Thence North $89^{\circ} 17' 26''$ East along the South line of said Section 22, a distance of 406.21 feet to the Southeast corner of Parcel 4030-22 as shown on said Record of Survey, said point being a point on a curve to which a radial bears North $39^{\circ} 54' 50''$ East, said curve is concaved Northeast, having a radius of 7,900.00 feet;

Thence Northwesterly along the arc of said curve through a central angle of $00^{\circ} 09' 42''$, an arc distance of 22.29 feet;

Thence North $40^{\circ} 47' 30''$ East, a distance of 67.77 feet to the Point of Beginning;

Thence South $68^{\circ} 16' 21''$ West, a distance of 25.02 feet to the beginning of a tangent curve concaved Northerly, having a radius of 140.00 feet;

Thence Westerly along the arc of said curve through a central angle of $24^{\circ} 25' 22''$, an arc distance of 59.68 feet;

Thence North $49^{\circ} 12' 30''$ West, a distance of 38.83 feet to the beginning of a non-tangent curve concaved Northerly, having a radius of 120.00 feet to which a radial bears North $17^{\circ} 27' 07''$ East;

Thence Easterly along the arc of said curve through a central angle of $39^{\circ} 10' 36''$, an arc distance of 82.05 feet;

Thence North $68^{\circ} 16' 21''$ East, a distance of 63.46 feet;

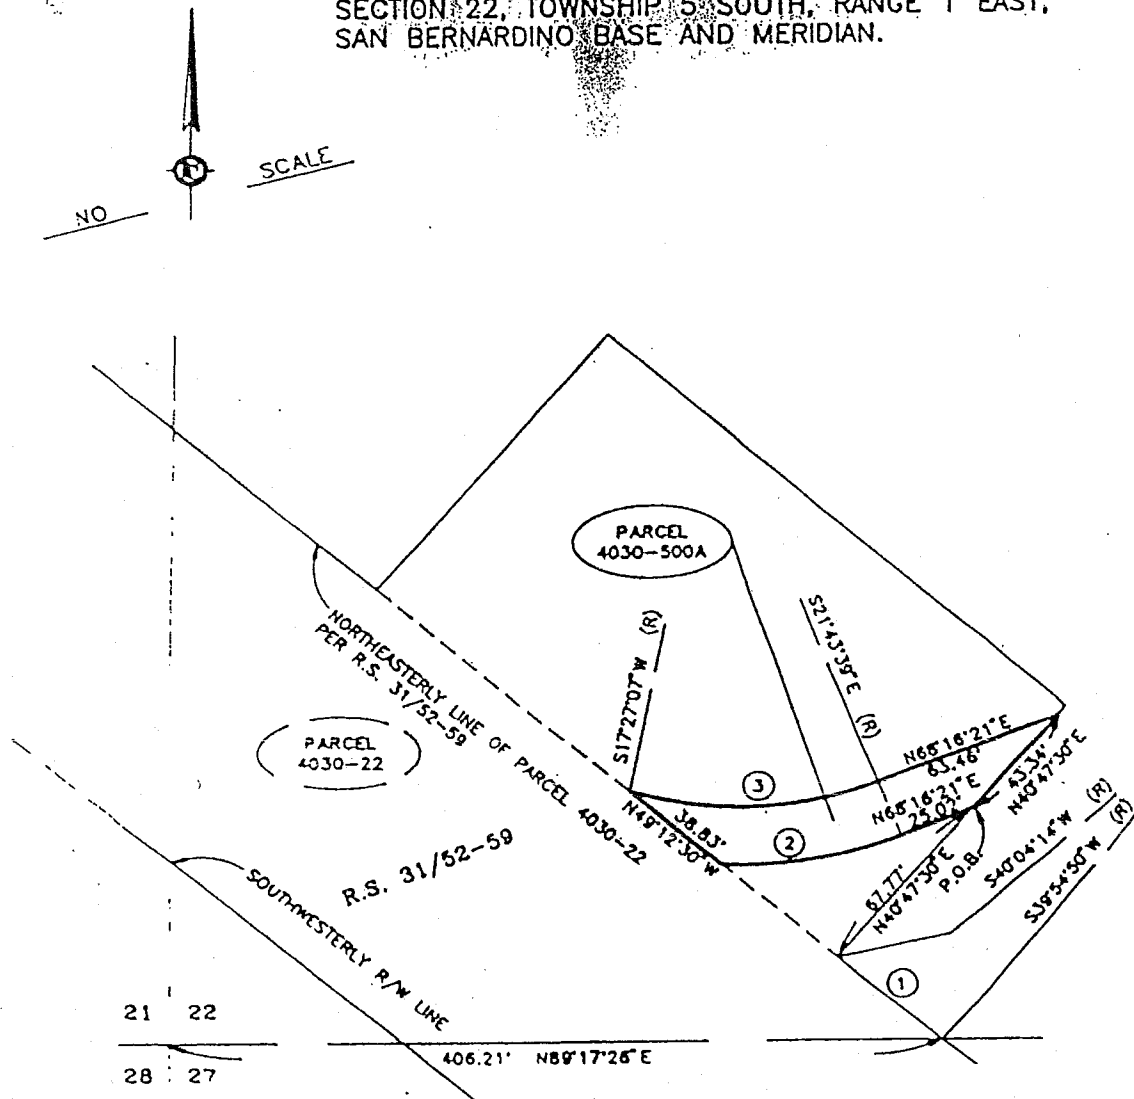

Thence South $40^{\circ} 47' 30''$ West, a distance of 43.34 feet to the Point of Beginning.

Mr. Robert Mabee
3086 Miguel Street
Riverside, CA 92506

Dear Mr. Mabee:

Re: Bautista Creek Channel

In correspondence dated December 28, 2010 the District informed you that we could not confirm that a certain easement deed, adjacent to what once was your property, had ever been recorded. Recently you asked that we confirm in writing whether or not similar easement deeds had been conveyed to other property owners along Bautista Creek Channel.

Be advised that following a search of our files, staff could not confirm that easements have been extended to other property owners along Bautista Creek Channel.

Should you have any questions concerning this matter, please do not hesitate to contact this office.

Very truly yours,

A handwritten signature in cursive script that reads "Steve Thomas".

RE: ROBERT MAYBEE DISPUTES

ATTACHED PLEASE FIND THE MAYBEE REPORT I PROMISED MANY WEEKS AGO.

WHAT DO YOU WISH DONE WITH IT? I HAVE SENT A COPY TO MR. MAYBEE.
I SUGGEST WE FOLLOW KAY'S DIRECTION; ESPECIALLY SINCE SHE WILL BE
CHAIR OF THE FLOOD CONTROL AND WATER CONSERVATION DISTRICT IN 1993.

December 30, 1992

A REPORT

RELATING TO THE DISPUTES OF ROBERT MAYBEE WITH FLOOD CONTROL

Too many weeks ago, I assured the Board and Mr. Maybee that I would personally review the records, ask questions and provide a report on the dispute between Mr. Maybee and our Flood Control District. I apologize for my slowness in getting this done. It is a very complicated subject which doesn't lend itself to easy analysis.

I. DISCLAIMERS

I am not an engineer nor am I surveyor, attorney etc. I also am not an arbitrator with any official duties or responsibilities. I have reviewed much but not all of the written records and have interviewed Mr. Maybee, Mr. Edwards and others. I have also viewed the property. The conclusions and recommendations are my own and do not necessarily reflect the view of any other person.

II. A BRIEF CHRONOLOGY

- ATTACHMENT #1 November 5, 1909. Joseph Crawford grants to the Lake Hemet Water Company a 32 foot wide easement for a "main flume" right-of-way, crossing both the current and previous road or easement right-of-way of Mr. Maybee. This right remains fully intact.
- ATTACHMENT #2 September 12, 1932. An easement is granted to Riverside County page 211 of official Records over the westerly 50' for roadway purposes affecting Parcel 1 as noted above.
- ATTACHMENT #3 July 24, 1946. Rights of Way, reservations, conditions and restrictions as set out in Deed from Hemet Land Company in Book 766, page 162.
- ATTACHMENT #4 May 12, 1960. Riverside County Flood Control District initiated action in Superior Court to condemn a portion of Parcel 1 (see above) for Bautista Creek Channel. Superior Court Case No. 72010 as recorded in Book 2694, Page 316.
- ATTACHMENT #5 The Maybees purchased the property on October 7, 1964. Grant Deed was recorded on the same date with instrument No. 121565. It is worth noting that the Maybee property is almost one half mile removed from the road right of way and therefore needs additional right of way to reach his property. Neither the county nor county flood control are involved in that, in so far as I know.

A 20' ROAD EASEMENT WAS RECORDED AFTER A SURVEY. R.M.L.
OCT-19-1965 - INSTRUMENT NO 119544 FROM THE ...

ATTACHMENT #6 August 9, 1965. Riverside County Flood Control grants a non-exclusive private easement for ingress and egress over the 15' most immediately adjacent to the Bautista Creek Channel to Raymond and Lola Deichsel; instrument 91932. County Counsel later opines that the Maybees are legitimate successors to this easement right. Significantly, this easement deed states in part: "If at any time a public highway or street shall be extended to the described lands in Section 22 lying easterly of Bautista Creek Channel, this easement shall cease and determine. If at any time this easement shall be intersected by a public highway or public street, the portion of this easement lying north and northwesterly of such intersection shall cease and determine".

ATTACHMENT #7 April 27, 1987. Superior Court Case #187104 filed by the Maybees. Ultimately appealed to the 4th Circuit Court of Appeals with a finding in favor of the County.

ATTACHMENT #8 May 12, 1988. Riverside County Flood Control grants to Riverside County for "public road and drainage purpose, including public utility and public services purposes", a strip of land 40' in width along the most easterly border of district Bautista Creek land and affecting Parcels 4030-16, 17, 17B, 19A, 20, 21A and 22. Riverside County's Recorder Instrument #127298.

III. BRIEF ADDITIONAL FACTS

As the Board has witnessed, Mr. Maybee is extremely difficult to get facts from; his mind runs to charges of lying, conspiracy, lawsuits, etc. The root of the problem lies on the fact that our Flood Control District was being subjected to increasing liability from increased use of the private use easement granted in 1965. The only solution was to fence off the easement next to the flood control channel and substitute a road outside the fence and adjacent to the private properties being served. This process took about a decade and involved many negotiations, considerations, etc. Including more than a few misunderstandings and disagreements but also included all the appropriate public hearings, notifications etc. in so far as I can determine.

It is unfortunate that two 30" syphons were built for Lake Hemet Water District in 1960 as a part of the necessities for the concrete lining of the channel in a location that precludes the current 'road' right-of-way being of sufficient width its full length to satisfy Road Commissioner requirements for a road to be accepted into the County-maintained road system.

The Maybees have an understandable desire to do some division of their land and apparently are not able to do so without adequate road access as defined by law and required by our Road Commissioner and the Board of Supervisors. This he does not have nor apparently has he ever had.

IV. QUESTIONS AND CONCLUSIONS.

- A. Have you found any indications of lying, conspiracy, etc. on the part of Mr. Edwards, Supervisor Cenicerros or anyone else?**

Conclusion: No. Misunderstandings, yes. Information which is confusing and easily misunderstood or not sufficiently understood by all parties, yes.

- B. Were the Maybees 'made-whole' by the transfer of their ingress/egress 15' easement next to the channel to a 40' easement with constrictions reducing to as little as 20' further removed from the channel but immediately adjacent to their property?**

Conclusion: Yes, in so far as right-of-way width and a lack of change in the Lake Hemet "main flume" right of crossing either road right-of-way. However, there is a further important consideration which I make subject of the next question.

- C. Does the transfer from flood to roads for road and related purposes satisfy the phrase "public highway or street" as found in the August 1965 grant deed by Flood Control?**

Is the condition of the road as constructed sufficient to satisfy that condition?

Conclusion: As to the first question, I don't know; legal counsel needs to answer it. As to the second question, a review of the property raises serious questions as to its ability to meet the condition. If the condition is not met then presumably Mr. Maybee still has rights to his initial 15' ingress and egress passage-way and Flood Control presumably should provide him access.

V. RECOMMENDATIONS

- A. The Board should direct Flood Control to prepare a base map with appropriate overlays showing each property rights change that relates in order that both the Board and Mr. Maybee can be assured as to which property is affected by what through the long and complicated series of transactions and also in order that we may all be assured that Flood Control**

had adequately perfected its rights prior to transfer of rights. Mr. Maybee claims that we, Flood Control, vested rights without first adequately owning the property.

- B. County Counsel should be directed to provide answers to the legal questions posed in "C" above.
- C. Roads and Flood Control should either provide clear evidence that the new substitute 'road' was in useable condition at the time of ingress/egress transfer, including sufficient compaction, turning angles and overall utility, to provide normal ingress/egress to the Maybee property or in the alternative put the 'new' access into useable condition.
- D. Embankment effects upon the Maybee access rights should be reviewed.
- E. Roads should be directed to work with the Maybees and other affected property owners in an attempt to provide a road right of way sufficient to allow access to the properties dependent upon the current 'road' but capable of being accepted into the county-maintained road system upon sufficient improvements by the affected property owners.
- F. Supervisor Younglove should never again volunteer for another assignment such as this.

Sincerely,

Norton Younglove, Supervisor
Fifth District
