The Honorable Board of Supervisors

RE: Agreement between the State of California Department of California Highway Patrol (CHP) and the County of Riverside for traffic control services for the Clinton Keith Road at Interstate 15 Interchange Project.

to accommodate the increased traffic demand, and is a constriction point along Clinton Keith Road since the overcrossing accommodates only one lane in each direction with a single lane left turn pocket. The proposed improvements will widen the Clinton Keith overcrossing to its ultimate condition to accommodate six through traffic lanes, double back-to-back left turn lanes, expanded on and off ramps, sidewalks on both sides, and standard shoulders.

This agreement between the CHP and the County of Riverside is for traffic control services during the construction phase of the project. CHP traffic control services are required per the Transportation Management Plan, which was prepared for the Interchange Improvement Project and approved by Caltrans. The traffic control services aim to reduce the potential for traffic accidents within the construction zone by increased enforcement and encourage motorists to drive in a safe manner.

The Clinton Keith Road Interchange project is scheduled to start construction in January 2012. The project will create construction jobs, and vastly improve traffic operations and safety while reducing congestion on Clinton Keith Road.
