I would caution the board of supervisors, collectively and individually, regarding a matter of legal import which has come to my attention regarding actions against Riverside County Information Technology personnel having civil and Constitutional rights implications.

This is official notification to each of you, of your personal responsibility regarding enabling the rights violations surrounding security clearance background investigations, which will directly result in multiple wrongful terminations.

Your Human Resources Department has more detail. Your immediate action before close of business, November 15, 2011, may limit some of the impact on each of you and Riverside County.

Thank you.
