Social Worker Appreciation Month March 2012

WHEREAS social workers are committed to service in every facet of community life in schools, hospitals, mental health clinics, senior centers, elected office, private practices, prisons, military, corporations, and in numerous public and private agencies that serve individuals throughout their lifespan and families in need; and

WHEREAS, the business of social work is helping people help themselves, social workers are building on strengths for a better future every day by understanding and utilizing the strengths of people, guiding individuals and families they serve; thereby empowering people to help themselves; and

WHEREAS, social workers

- use their education, training, professional competence, and commitment to make a real difference in the lives of people; and
- save the community and taxpayer money in providing prevention and early intervention services that help individuals, families, and children cope with life issues; and
- maintain the highest degree of dedication and pursuit of social justice; and
- reflect a commitment to excellence and protection by advocating for others as they foster the values which demonstrate empathy, patience, regard for the quality of life; and
- guide individuals, families, and communities through complex issues and connect them with available resources; and
- have been the driving force behind important social movements in the United States and abroad.

Now, therefore, we, the Riverside County Board of Supervisors, in recognition of professional social workers and all they do to increase the well-being of individuals and of society, do hereby proclaim the month of March 2012 as Social Worker Appreciation Month in the County of Riverside, California, and call upon members of the community to join with us in celebration and support of social workers and the social work profession.
