north-south freeway facility that is part of the National Highway System. This interchange provides regional access to and from major redevelopment projects including the continuing expansion of the joint-use March Air Reserve Base/March Inland Port airport.

Proposed improvements for this Project include reconfiguration of the existing interchange, realignment of a portion of the I-215 Freeway, and new bridge structures spanning over the BNSF Railroad and I-215 Freeway. The new interchange requires widening of Van Buren Boulevard to accommodate existing and future traffic demand for the interchange. In addition, auxiliary lanes are planned to be added in both directions on I-215.

The County and WRCOG initially entered into a TUMF Funding Agreement for this Project in the amount of \$463,347, approved by the Board on June 22, 2010 (Agenda Item 3.43). This Amendment 1 would increase the TUMF funding amount for the Agreement by \$1,000,000 to a revised total of \$1,463,347 for the Engineering/Design phase of the Project which reimburses the County for costs spent on these phases. This amended amount is consistent with the revised budget amount currently programmed in the WRCOG Northwest Zone TIP for this Project. Construction is anticipated to start in early Summer 2012.
