FISCAL PROCEDURES APPROVED
IVAN M. CHAND, FINANCE DIRECTOR

BY *Warren J. Williams* 6/15/12
WARREN J. WILLIAMS

FROM: General Manager-Chief Engineer

SUBMITTAL DATE:
July 17, 2012

SUBJECT: Public Hearing – Confirmation of Fiscal Year 2012-13
Benefit Assessments for the Santa Margarita Watershed
District 1,3/District 1,3,5

RECOMMENDED MOTION: The Board conduct the public hearing concerning the "Engineer's Report on the NPDES Program for the Santa Margarita Watershed Benefit Assessment Area," dated July 2012, and if at the conclusion of the hearing a majority protest has not been received, adopt the following resolution:

RESOLUTION NO. F2012-19

ADOPTING AND CONFIRMING EACH AND ALL ASSESSMENTS ON PROPERTY IN THE SANTA MARGARITA WATERSHED BENEFIT ASSESSMENT AREA PURSUANT TO ORDINANCE NO. 14 PROVIDING FOR THE ESTABLISHMENT AND LEVY OF BENEFIT ASSESSMENTS FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) STORMWATER PROGRAM.

BACKGROUND: All the requirements of Ordinance No. 14, providing for the establishment and levy of the Fiscal Year 2012-13 Benefit Assessments have been satisfied; therefore, the public hearing may be closed and the assessments levied.

BOARD OF SUPERVISORS

RIVERSIDE COUNTY FLOOD CONTROL
AND WATER CONSERVATION DISTRICT

RESOLUTION NO. F2012-19

ADOPTING AND CONFIRMING EACH AND ALL ASSESSMENTS ON PROPERTY IN THE SANTA MARGARITA WATERSHED BENEFIT ASSESSMENT AREA PURSUANT TO ORDINANCE NO. 14 PROVIDING FOR THE ESTABLISHMENT AND LEVY OF BENEFIT ASSESSMENTS FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) STORMWATER PROGRAM

WHEREAS, the California Regional Water Quality Control Board - San Diego Region, on behalf of the Federal Environmental Protection Agency (the "EPA"), and consistent with Section 402 of the Federal Clean Water Act, as amended, and the regulations promulgated by the EPA pursuant thereto, has issued an area wide stormwater discharge permit under the National Pollutant Discharge Elimination System (the "NPDES Permit") to the Riverside County Flood Control and Water Conservation District (the "District"), the County of Riverside and certain cities within the Santa Margarita Watershed that are within the District's jurisdiction, and has named the District as the "Principal Permittee"; and

WHEREAS, under existing State and Federal regulations, the District must obtain and comply with the provisions of the NPDES Permit in order to legally discharge stormwater from its flood control and stormwater drainage facilities; and

WHEREAS, the NPDES Permit requires the District to develop, implement, and manage specific compliance programs dealing with stormwater runoff that will benefit all property within the Santa Margarita Watershed that lies within the District's jurisdiction; and

WHEREAS, the District's Board of Supervisors (the "Board") on May 14, 1991, adopted Resolution No. F91-22 pursuant to the provisions of Section 14 of the Riverside County Flood Control and Water Conservation District Act, which is Appendix 48 to the California Water Code (the "District Act"), and pursuant to Ordinance No. 14, that formed a Benefit Assessment Area (the "Benefit Assessment Area"), which encompasses all territory within the District's jurisdiction that is within the Santa Margarita Watershed as described in Ordinance No. 14, and has levied annually thereon a Benefit Assessment ("Benefit Assessment") to pay the District's annual costs associated with the NPDES Permit; and

WHEREAS, the Benefit Assessments collected are principally used to finance capital costs and to maintain and operate the flood control system as required by the terms of said Permit and must be expended in the Benefit Assessment Area in which they are collected; and

WHEREAS, the District initially levied the Benefit Assessment for 1991-92 Fiscal Year and has levied the Benefit Assessment in each successive fiscal year; and

WHEREAS, the voters of California on November 5, 1996, approved Proposition No. 218 which added Article XIII D to the California Constitution ("Article XIII D") effective November 6, 1996; and

WHEREAS, Section 5(a) of Article XIII D provides in pertinent part that "...any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for...flood control and drainage systems..." shall be exempt from the procedures and approval process set forth in Section 4 of Article XIII D until the assessment is increased; and

WHEREAS, the Benefit Assessment proposed to be levied and enrolled for the 2012-13 Fiscal Year is not greater than the Benefit Assessment that was levied for the 1996-97 Fiscal Year and all subsequent years; and

1 WHEREAS, at a duly noticed hearing as required by Ordinance No. 14, the Board heard and
considered all protests with respect to the amount of the Benefit Assessment to be levied for the 2012-13
Fiscal Year.

2 NOW THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED by the Board of
3 Supervisors of the Riverside County Flood Control and Water Conservation District, County of Riverside,
State of California, in regular session assembled on July 17, 2012, as follows:

4 Section 1. The above recitals are true and correct.

5 Section 2. That a public hearing has been duly held on this date and that each and every step in
6 the proceedings as required by the District Act and Ordinance No. 14 has been duly taken and all protests
considered, and that the Board does hereby close the public hearing.

7 Section 3. That the Board does hereby make its determination upon each parcel in the Benefit
8 Assessment Area as described in the Engineer's Report entitled "Engineer's Report to the Board of
Supervisors of the Riverside County Flood Control and Water Conservation District on the NPDES
9 Program for the Santa Margarita Watershed Benefit Assessment Area" (the "Engineer's Report"), dated
July 2012, filed with the Board and pursuant to Ordinance No. 14 and that the Board does hereby confirm
10 each and all Benefit Assessments on such parcels and thereby levies a Benefit Assessment in the Benefit
Assessment Area of the District for the Fiscal Year 2012-13 at a rate of \$4.00 per benefit assessment unit
11 (BAU).

12 Section 4. Pursuant to Section 5(a) of Article XIID, compliance with the procedures set forth in
Section (4) of Article XIID is not necessary and there will be no increase in the Benefit Assessment to be
13 enrolled for the 2012-13 Fiscal Year over the Benefit Assessment enrolled for the 1996-97 Fiscal Year
and all subsequent years.

14 Section 5. That a copy of this Resolution duly certified by the Clerk of this Board be recorded in
15 the Office of the Recorder of the County of Riverside and a copy of this Resolution duly certified by the
Clerk of this Board and the Engineer's Report be filed with the Auditor/Controller of the County of
16 Riverside.

SUBJECT: Santa Margarita Watershed Benefit Assessment
Resolution No. F2012-15
District 1,3/District 1,3,5

RECOMMENDED MOTION: The Board adopt Resolution No. F2012-15, which accepts the Engineer's Report on the NPDES Program for the Santa Margarita Watershed Benefit Assessment Area, dated June 2012, sets a public hearing on said report to be held at 1:30 p.m. on July 17, 2012, at a regular meeting of the Board, and instructs the Clerk of the Board to advertise said public hearing in accordance with Section 6066 of the California Government Code.

BACKGROUND: The Santa Margarita Watershed Benefit Assessment Area was established on May 14, 1991 by the adoption of Resolution No. F91-21 by the Board pursuant to Ordinance No. 14 of the Flood Control District and the Flood Control District Act. Said Ordinance No. 14 requires that the Chief Engineer shall prepare an annual report on the status of the program, and recommend the benefit assessment levy to be enrolled for the ensuing fiscal year. The Board, upon acceptance of said report, shall set a time and place for a public hearing to hear and consider all protests regarding the report and the amount of the proposed benefit assessment levy.

INTRODUCTION

In 1987, Congress amended the Federal Clean Water Act (CWA) to require public agencies which serve urbanized areas with a population greater than 100,000 and other designated areas to obtain permits to discharge urban stormwater runoff from municipally owned drainage facilities including streets, highways, storm drains and flood control channels. In November 1990, the United States Environmental Protection Agency (USEPA) promulgated enforceable regulations establishing Municipal Separate Storm Sewer System (MS4) Permit requirements under its National Pollutant Discharge Elimination System (NPDES) Program. In California, USEPA has delegated its NPDES permitting authority to the State Water Resources Control Board (SWRCB). The SWRCB issues and enforces NPDES MS4 Permits through its nine California Regional Water Quality Control Boards (CRWQCBs).

The Riverside County Flood Control and Water Conservation District (District) service area encompasses portions of three major watersheds (drainage areas): the Santa Ana, the Santa Margarita and the Whitewater. The discharge of stormwater from MS4s within each of these three watersheds is regulated pursuant to an NPDES MS4 Permit (NPDES Permit) administered by a separate CRWQCB. **The District must comply with the provisions of these NPDES Permits in order to legally operate and maintain its flood control and drainage system infrastructure.** The USEPA and the CRWQCB can impose significant penalties for non-compliance, as high as \$32,500 per day per violation. In addition, private citizens can pursue enforcement actions under the Federal CWA.

In the case of the Santa Margarita Watershed, the District, along with the County of Riverside (County) and the City of Temecula obtained an "early"¹ NPDES Permit from the CRWQCB - San Diego Region (Regional Board) on July 16, 1990. The Regional Board added the then newly incorporated City of Murrieta to the Permit on May 18, 1992.

This first NPDES Permit was considered a "Developmental Permit". The Permittees (District, County, and the cities of Temecula and Murrieta) were authorized to continue discharging stormwater from their municipally owned storm drains and flood control facilities while developing various elements of an area-wide stormwater management program. Although the initial NPDES Permit "expired" on July 16, 1995, its provisions remained in effect in accordance with the applicable provisions of the NPDES Permit Program regulations. The Regional Board adopted a "second-round" NPDES Permit (Board Order 98-02) for the Santa Margarita Watershed on May 13, 1998. However, USEPA Region IX raised an objection to specific language that was included in Board Order 98-02 at the direction of the SWRCB. Region IX subsequently took action to issue its own NPDES Permit (CAS0108766) in accordance with the Memorandum of Agreement between Region IX and the SWRCB and the NPDES regulations at 40 CFR123.44(h). On June 25, 1999, Region IX "returned" the NPDES Permit to the Regional Board for implementation. On November 8, 2000, the Regional Board issued Addendum No. 1 to Board Order No. 98-02, which incorporated, by reference, the EPA Permit into their Board Order.

In general, both Board Order No. 98-02 and the USEPA Permit validated the Permittees' overall stormwater management efforts by incorporating the major elements of the initial 1993 Drainage

¹ The term "early" is used to indicate permits that were issued prior to the promulgation of the final USEPA rules for permitting municipal stormwater discharges [40CFR122.26, November 1990].

Area Management Plan (1993 DAMP) and other stormwater management program elements that the Permittees have subsequently developed. However, both Board Order 98-02 and the USEPA Permit identified certain additional programs and activities that the Permittees were required to implement in accordance with specified time schedules in order to achieve compliance with Board Order No. 98-02, the USEPA Permit, and the Federal Clean Water Act. Board Order 98-02 expired on November 30, 2003. The Permittees submitted a joint Report of Waste Discharge (ROWD) on May 30, 2003, requesting renewal of the Permit by the Board. On July 14, 2004, the San Diego Regional Water Quality Board (Regional Board) adopted Board Order No. R9-2004-001, the Third-term Santa Margarita Region (SMR) MS4 Permit (Third-term SMR Permit). The Third-term SMR Permit required several additional or enhanced program elements, such as strict control on new developments, enhancements to construction, industrial and commercial inspection programs, and a new emphasis on water quality monitoring and program effectiveness evaluations. Compliance programs were developed or enhanced to address the Third-term MS4 Permit between July 2004 and July 2005. These program elements were then incorporated into the updated Drainage Area Management Plan for the Santa Ana/Santa Margarita Region (SA/SMR DAMP). The Permittees submitted a joint ROWD on January 15, 2009, requesting renewal of the Permit by the Regional Board. The Regional Board responded to the ROWD and permit renewal process on February 18, 2010. The District and Permittees worked with the Regional Board to develop the watershed's Fourth-term MS4 Permit which was adopted on November 10, 2010 and included the newly incorporated City of Wildomar.

From the beginning, the Permittees' Stormwater Management Program has been guided by the following principles:

1. Utilize existing municipal departments/programs to meet NPDES Permit requirements whenever possible.
2. Minimize duplication of effort through coordinated Permittee compliance actions.
3. When necessary, develop new or enhanced stormwater management programs (Best Management Practices) that are both cost-effective and acceptable to the public.

The Santa Margarita Watershed Benefit Assessment Area (SMWBAA) was established pursuant to District Ordinance No. 14 on May 14, 1991 (copy attached - see Appendix B). The SMWBAA was formed to offset the District's program and administrative costs associated with the development, implementation and management of identified stormwater management activities required by the federally mandated NPDES Permit Program. **The District must continue to develop and implement these stormwater management activities in order to legally operate and maintain its flood control and drainage facilities.** A map showing the boundaries of the SMWBAA is attached hereto as Appendix C.

The cost of the District's various NPDES Permit compliance activities fluctuates from year to year. Although some expenses do not change significantly on a yearly basis, certain costs are cyclical (e.g., preparing Permit applications and negotiating Permit provisions), while expenses associated with collecting water samples and laboratory analysis may vary according to the amount of rainfall occurring in a given year or in response to certain information requests from the Regional Board. Costs associated with the development and production of public education materials are not always incurred on a Fiscal Year basis. Occasionally, additional consultant services may be needed to assist the District with the development of a particular Permit requirement or program activity. Also, certain activities or programs may be expanded or

curtailed from time to time and, occasionally, new programs or activities must be developed and implemented.

Currently, the regulation and management of stormwater runoff is a topic of increasing interest amongst the public, municipalities, regulatory authorities, and legislators. Although new laws and/or regulations could result in changes to the assessment rate in future years, **the proposed assessment rate for Fiscal Year 2012-2013 is equal to or less than the assessment rate that was enrolled and levied for Fiscal Year 1996-1997 and all subsequent years.**

APPORTIONMENT METHODOLOGY

SMWBAA assessments are apportioned on the basis of proportionate stormwater runoff generated by each parcel. This method of assessment is consistent with State law and the District Act. The amount of benefit is computed based upon a parcel's size (acreage) and its use classification. A single-family residential structure on a 7,200 square foot lot (1/6 of an acre) is defined as one benefit assessment unit (BAU). The BAUs for other types of land use are calculated in proportion to the amount of runoff generated by a single-family residence on a 7,200 square foot lot.

In comparison with a typical single family residence, industrial and commercial properties typically generate more stormwater runoff and higher pollutant loads on a per acre basis. Thus, commercial/industrial parcels are assessed at a higher rate per acre than residential parcels. Because agricultural discharges are currently exempt under the NPDES Permit regulations, parcels within the SMWBAA that are used for agricultural purposes are exempted from the assessment. Vacant undeveloped parcels that effectively generate no urban pollutants are also exempt. In addition, large tracts of land that consist mostly of Federally or State owned forest or similar property have been excluded from the SMWBAA. Refer to Appendix B for a more detailed discussion of the apportionment methodology.

CURRENT YEAR ASSESSMENTS (FY 2011-2012)

In July 2011, the District's Board of Supervisors confirmed a benefit assessment rate for FY 2011-2012 of \$4.00 per BAU. Following is a summary of FY 2011-2012 assessments:

Rate	Billed Parcels	BAUs	Assessments	Corrections	Amount Paid*
\$4.00	82,478	130,871	\$523,484.58	\$0.00	\$490,609.75

* Through May 31, 2012

Property owners may request a review of their assessment(s) by contacting the District. District staff considers each request by reviewing information such as assessor's parcel maps, aerial photographs, and, when necessary, conducting site visits. The Auditor/Controller is notified of any needed corrections and a new tax bill is issued or, in cases where the assessment has been paid, a refund is made. Last year, no corrections were processed.

RECOMMENDED BENEFIT ASSESSMENT RATES (FY 2012-2013)

The District recommends that for FY 2012-2013, the SMWBAA assessment rate remain unchanged at \$4.00 per BAU. This BAU rate would result in an equivalent charge per acre for the following land uses:

Group	Land Use Category	BAU/Acre	Assessment Rate*
A	Commercial, Industrial	12	\$48.00/acre
B	Apartments/Mobile Home Parks, Churches and Schools	9	\$36.00/acre
C	Single-family Residential	6**	\$24.00/acre
D	Agricultural/Vacant Undeveloped	Exempt	\$0.00/acre
E	Golf Courses	0.10	\$0.40/acre
F	Undeveloped Portions of Parcels	0.05	\$0.20/acre

* Refer to Appendix B for a detailed discussion of the Benefit Assessment methodology.

** 1 BAU per single-family residence, assuming six equally sized residential parcels per acre.

The projected revenue for FY 2012-2013, using the proposed benefit assessment rate of \$4.00 per BAU is as follows:

Rate	Parcels*	BAUs	Assessment*	Projected Revenue**
\$4.00	82,478	130,871	\$523,484.58	\$484,223.24

* Based on FY 2011-2012 Assessor's information

** Assumes a 7.5% delinquency rate

The projected revenue along with any remaining portion of the ending fund balance from FY 2011-2012 will fund the District's NPDES Stormwater Management Program activities for the Santa Margarita Watershed area in FY 2012-2013. The proposed FY 2012-2013 budget is presented in Appendix A.

During the early years of the NPDES Program, there were many uncertainties regarding startup costs (consultant costs, amount of sampling that would be required, overall program scope, etc.) since the program was new for both the regulatory authorities and the Permittees. Consequently, the initial assessment rates were set conservatively to ensure that all permit obligations could be met. To date, the District has been able to maintain a modest fund balance since the benefit

assessments were first levied in FY 1991-1992. The District is gradually reducing the fund balance by maintaining the current assessment rate while sustaining expenditure levels that are slightly above projected revenues. It should also be noted here that the current trend in California is toward more stringent regulation of municipal stormwater runoff, and with the recent adoption of the fourth-term Santa Margarita NPDES MS4 Permit, it is expected that the District's NPDES Permit compliance costs will increase significantly in Fiscal Year 2012-2013 and over the next few years.

ASSESSMENT ROLL

The SMWBAA Assessment Roll provides a listing by Assessor's Parcel Number of the proposed FY 2012-2013 Benefit Assessment to be levied on each parcel of property in the SMWBAA. The Assessment Roll is identified as Appendix D and incorporated herein by this reference. This Engineer's Report along with the SMWBAA Assessment Roll will be placed at the following locations for review by the public:

Clerk of the Board of Supervisors
4080 Lemon Street, 1st floor
Riverside, CA 92501

Riverside County Flood Control
and Water Conservation District
1995 Market Street
Riverside, CA 92501

City of Murrieta
24601 Jefferson Avenue
Murrieta, CA 92562

City of Temecula
41000 Main Street
Temecula, CA 92590

**The Engineer's Report may also be viewed or downloaded at
<http://rcflood.org/NPDES/>**

NPDES PROGRAM HIGHLIGHTS (FY 2011-2012)

The following tasks were accomplished or are ongoing for the year ending June 30, 2012 in compliance with the 2010 Santa Margarita NPDES Permit:

- A. Began participation in what will be a series of meetings with stakeholders and staff at the Regional Board, discussing the draft Regional NPDES Permit which the Regional Board proposes to adopt by mid-FY 2012-2013. If adopted, the District and Santa Margarita Permittees will be regulated under the Regional NPDES Permit, once the current 2010 NPDES Permit expires.
- B. Developed the Water Quality Management Plan (WQMP) Template and Guidance documents for new development, in accordance with the 2010 NPDES Permit. The WQMP requires developers to submit a project-specific WQMP for qualified new development and redevelopment projects, and identifies water quality impacts of the proposed development, and mitigation measures for those impacts. The Regional Board required revision of the WQMP to incorporate an increased focus on low impact development (LID) design practices and BMPs..
- C. Developed the Transportation Project Guidance (TPG) Template and Guidance documents for Permittee road projects, in accordance with the 2010 NPDES Permit. The TPG requires the development and implementation of standard roadway design and post-construction BMP guidance that comply with the Development Planning requirements of the 2010 NPDES Permit as an alternative to preparing a project-specific WQMP.
- D. Completed and submitted for Regional Board approval, the Jurisdictional Runoff Management Plan (JRMP). The JRMP is a Copermittee specific document which describes the programs and procedures the Copermittees will implement to comply with the provisions of the 2010 NPDES Permit, and the responsible departments and staff. Moving forward, the JRMP will replace the two current compliance documents: the Drainage Area Management Plan (DAMP) and the individual Storm Water Management Plans (SWMP).
- E. Initiated a Hydromodification Mapping study, which will be used as a regional Planning tool, and details rivers, streams and receiving waters within the Santa Margarita River watershed that will be susceptible to the effects of hydromodification from increased run-off due to new development.
- F. Developed a Retrofit study and Retrofit Program Framework that describes the processes that the Copermittees will go through to determine when Retrofit projects in areas of existing development may be necessary to reduce pollutant discharges from the MS4. The programmatic elements of this study were incorporated into the JRMP.
- G. Completed and submitted the Watershed Workplan which identifies and prioritizes areas within the Santa Margarita River watershed that require action to improve water quality, likely sources causing water quality problems, likely sources of pollutants, and an implementation strategy and schedule to attain receiving water quality objectives.
- H. The District completed development of an enhanced LID BMP Design Manual, focused on landscape-based LID BMPs and infiltration BMPs capable of addressing identified water

quality impairments across Riverside County. The LID BMP Design Manual is available on the District's website.

- I. Completed construction of the District's \$2.5 million Low Impact Development (LID) Project; this project will implement a variety of LID BMPs, and will be used to test and demonstrate the effectiveness of these practices in contributing to stormwater capture and management, treating pollutants of concern associated with urban runoff, mitigating the impacts of hydromodification from urban development, and identifying optimum design criteria and standards for LID BMPs in Riverside County. Data collected will also be provided to the regional SMC LID Project. The project provides a facility that will be used for demonstrating and evaluating the effectiveness of LID BMP techniques in Southern California, and the centralized location is convenient for educating residents, regulators, developers, municipal employees, engineers and other interested stakeholders from many Southern California communities. As this project will have statewide and regional benefits, the project is partially funded by a proposition 13 grant and in partnership with SAWPA.
- J. Continued implementation of a Commercial/Industrial Compliance Assistance Program (CAP) to conduct focused outreach to restaurants, automotive repair shops and certain other commercial and industrial establishments. The CAP encourages the implementation of stormwater BMPs and facilitates consistent and coordinated enforcement of local stormwater quality ordinances. Site visits include use of a survey checklist to document stormwater management practices for each facility.
- K. Continued financial support to area-wide stormwater pollution prevention programs, including the Hazardous Materials Response (HAZMAT) Team, temporary and permanent Household Hazardous Waste (HHW) collection events, and the "ABOP" (Antifreeze, Batteries, used motor Oil, and latex Paint) program.
- L. Attended various community events to educate the general public and provide information and brochures on stormwater pollution prevention, recycling and proper disposal of household hazardous waste.
- M. Continued to chair the Public Education Subcommittee. Meetings include Copermittee representation from each watershed to review elements of regional public education programs and program materials.
- N. Continued offering municipal employee-training sessions to provide an overview of the Municipal Stormwater Program including topics such as stormwater regulations and NPDES Permits, storage and disposal of hazardous materials, BMPs for parks and recreation activities, animal control facilities, vehicle and equipment cleaning, outdoor cleaning activities, pesticides/fertilizers, painting, dumpster areas, etc. Attendees included Santa Margarita Copermittee code enforcement and field maintenance staff, construction site inspectors, and personnel involved in conducting industrial/commercial facility inspections. Training focused on compliance requirements and ordinance enforcement processes required by the NPDES Permit. Training for municipal planners and engineers regarding the WQMP was also provided. Training also included a brief summary of new program requirements to come and development of new compliance documents in progress to comply with the 2010 Santa Margarita NPDES Permit.

- O. Continued distribution of focused BMP Brochures targeting Construction Activities, Bank Stabilization, Pet Care, Guidelines for Maintaining your Swimming Pool, Jacuzzi and Garden Fountains, Septic Tank Maintenance, Restaurant/Food Service Industry, Professional Mobile Services, Automotive Service Industry, Outdoor Cleaning Activities and Industrial Facilities. Efforts continue to ensure the brochures are updated as necessary.
- P. Conducted Stormwater Pollution Prevention Program presentations at elementary schools in the Santa Margarita River watershed. Developed a new Stormwater Pollution Prevention presentation for elementary schools, to be presented by the District's consultant.
- Q. Implemented a new series of Home Gardening Workshops at local nurseries and garden centers to promote alternatives to fertilizer and pesticide usage, presented by the District's consultant. Store staff is trained and point-of-purchase displays are placed at paint, pesticide and fertilizer departments.
- R. Continued an ongoing effort to redesign the District's NPDES Public Education webpage to improve its effectiveness, usability and quality of information regarding MS4 compliance programs. The webpage is currently being reformatted extensively to add more usable and interactive data as well as add information pertinent to new permit requirements, based on recommendations from the District's consultant. The webpage will provide information for the general public, Copermittees, regulators, public and in-house personnel.
- S. Developed Branding for the "Only Rain Down the Storm Drain" program to better convey the purpose and goals of the stormwater program. This program branding will be used in the development of new outreach materials, and incorporated into major updates to existing materials, to provide a consistent look and feel across all mediums of outreach.
- T. Continued to provide outreach material for County and District new employee orientation sessions regarding appropriate stormwater stewardship practices including clean water information and promotional items that link back to the County's "Only Rain Down the Storm Drain" message. Attendees receive a carry bag containing After the Storm, Outdoor Cleaning Activities, Pool and Spa Maintenance, Pet Care and Tips for Horse Care brochures. Various promotional items that reinforce outreach messages such as dust pans (use dry cleanup methods), imprinted with the "Only Rain Down the Storm Drain" logo and the 1-800 Toll Free line are also distributed.
- U. Developed and issued several informative e-newsletters. E-newsletters are currently sent out quarterly and focus on one key area of pollution prevention in each issue, for a variety of target audiences. The e-newsletters are tightly integrated with the revised District website to enhance the ability to outreach to target audiences.
- V. Continued participation in the California Stormwater Quality Association, including the leadership roles of Board Member, Legislative Chair and 2010 and 2011 Conference Chair and membership roles in the Monitoring Science, Pesticides, Industrial and Construction Subcommittees.

- W. Developed, prepared and submitted a comprehensive District annual report and Watershed Annual Report to the Regional Board.
- X. Continued enhancement of the collection and analysis of water quality samples in accordance with the NPDES Permit's Monitoring and Reporting Program. Mass load sampling of three monitoring stations during three winter storms continues to be conducted.
- Y. Developed an updated Consolidated Monitoring Program (CMP) to describe the monitoring efforts that must be implemented to comply with the 2010 NPDES Permit. The 2010 NPDES Permit includes significant increases in monitoring requirements.
- Z. Continued participation in the Southern California Stormwater Monitoring Coalition (SMC), a regional monitoring group comprised of Southern California Phase 1 Municipal NPDES Permit holders. The focus is developing effective, meaningful stormwater quality monitoring techniques.
- AA. Continued coordination with the SMC on a southern California bioassessment monitoring program.
- BB. Continued coordination efforts with CASQA and others on the development of legislation, regulations and programs to address potential sources of pyrethroid toxicity in receiving waters. Activities included meetings with Department of Pesticide Regulation Management Staff and various presentations to interested parties regarding the impacts of pyrethroid pesticides.
- CC. Applied for Proposition 84 Grant funding through the Upper Santa Margarita Watershed Integrated Regional Watershed Management Plan, for planning projects within the Santa Margarita Region that would additionally help provide funding for compliance document development required by the 2010 NPDES Permit.
- DD. Finalized a new Santa Margarita Region Implementation Agreement to cover the additional costs required for program development to comply with the 2010 NPDES Permit and include the newly incorporated City of Wildomar.

PROGRAM/WORK ITEMS (FY 2012-2013)

With adoption of the 4th Term NPDES Permit, Board Order No. R9-2010-0016, on November 10, 2010, significant development and revisions to compliance documents and programs have commenced in order to comply with the new requirements..

The following program activities will be emphasized for the coming year:

REGIONAL NPDES PERMIT

The District will meet as requested with Regional Board staff regarding the Regional NPDES Permit that is being proposed by Regional Board staff. These discussions are to gain a mutual understanding of what issues need to be addressed in the Regional NPDES Permit, and how the permit requirements will be written to address those issues. The Regional NPDES Permit is intended to govern portions of three counties: San Diego, Orange and Riverside.

NPDES PERMIT COMPLIANCE PROGRAM IMPLEMENTATION

Board Order No. R9-2010-0016 was adopted by the Regional Board on November 10, 2010. Following the adoption of the NPDES Permit, the District was designated as the Principal Copermittee and began establishing teams of consultants to revise and develop compliance programs. Compliance documents which have been finalized and require implementation during FY 2012-2013 specifically include the:

- Jurisdictional Runoff Management Plan (JRMP),
- Water Quality Management Plan (WQMP),
- Watershed Workplan, and
- Consolidated Monitoring Program (CMP).

Costs to implement these programs will be significant; where feasible, these programs have been coordinated with the development of the Santa Ana NPDES Permit programs. However, there are many requirements in the Santa Margarita NPDES Permit that are unique from the Santa Ana Permit programs. For such requirements, the District's share of the cost for implementing these programs will be wholly from the SMWBAA funds. Additional information on these new compliance efforts is provided below

LID PROJECT

Construction of the District's \$2.5 million Low Impact Development (LID) Project was completed in Spring of 2012; this project implements a variety of LID BMPs, and will be used to test and demonstrate the effectiveness of these practices in contributing to stormwater capture and management, treating pollutants of concern associated with urban runoff, mitigating the impacts of hydromodification from urban development, and identifying optimum design criteria and standards for LID BMPs in Riverside County. Water quality monitoring and hydrology studies will continue to be conducted over the coming years; data collected will also be provided to the regional SMC LID Project.

The project provides a facility that will be used for demonstrating and evaluating the effectiveness of LID BMP techniques in Southern California, and the centralized location is convenient for educating residents, regulators, developers, municipal employees, engineers and other interested stakeholders from many Southern California communities.

PROGRAM MANAGEMENT

As Principal Permittee, the District conducts certain activities to coordinate the efforts of the other Copermitees and facilitate compliance with the 2010 NPDES Permit. These activities include chairing quarterly meetings of the Santa Margarita Technical Advisory Committee, administration of area-wide programs (e.g., public education, household hazardous waste collection, hazardous material spill response, stormwater sample collection and analysis), program development and preparation of the Annual Report to the Regional Board. Per the 2010 NPDES Permit requirement, and due to an increase in program compliance documentation development, implementation of the programs detailed in the JRMP will be the most significant program management activity for FY 2012-2013. The District will also focus its efforts on identifying and commenting on statewide issues that affect local stormwater programs.

AREA-WIDE PROGRAMS

The District will also continue to provide financial support for several important "area-wide" BMP programs implemented on behalf of the Copermitees, including:

Public Education

Coordination and oversight of the area-wide NPDES public education and outreach efforts, including public events, school and adult education programs, printed brochures and commercial mass-media campaigns. Continued development and distribution of focused educational outreach materials for specific industries and businesses such as restaurants, auto repair shops, outdoor cleaning businesses, and other commercial and industrial activities that are potential sources of stormwater pollution. Additionally, new e-newsletters will be developed and distributed, and the public education webpage will be revised and enhanced.

Training for Municipal Employees

Municipal training programs to improve understanding of NPDES Permit requirements and stormwater BMPs. The classes focus on methods to reduce and/or eliminate sources of stormwater pollution from public agency facilities and activities. Training is conducted specifically for construction inspection staff, industrial/commercial facilities inspection staff, municipal facilities maintenance staff, and staff responsible for new development/re-development project review.

Hazardous Materials Emergency Spill Response

Providing financial support to the County Fire Department's Hazardous Materials Emergency Spill Response Team to ensure that hazardous chemical incidents (spills or illegal dumping) are responded to quickly and effectively cleaned up.

Household Hazardous Waste Collection / ABOP

Providing financial support to the County Waste Management Department to support ongoing mobile Household Hazardous Waste (HHW) collection events and operation of the "ABOP" (Antifreeze, Batteries, used motor Oil, and latex Paint) program, which provide local residents with opportunities to properly dispose of HHW.

Compliance Assistance Program

Continuation of a partnership with the County Environmental Health Department to conduct outreach and education to specific commercial establishments and industrial facilities in conjunction with existing Facility Inspection Programs. In addition, this

program provides feedback through survey forms concerning the compliance status of commercial and industrial facilities to both the Copermittees and the Regional Board.

WATER QUALITY MONITORING

On behalf of all Permittees, the District conducts both wet and dry weather sample collection and analysis in accordance with the 2010 NPDES Permit's Monitoring and Reporting Program. Program development for the additional monitoring required in the NPDES Permit's MRP was completed during FY 2011-2012. The Permittees have also been participating in a study of the Santa Margarita River to develop Numeric Nutrient Endpoints for a Santa Margarita River Nutrient TMDL. Additionally, based on the results of the TRE special study, the District will continue to verify and address potential Pyrethroid Toxicity in both Murrieta and Temecula Creeks.

NEW DEVELOPMENT

The District will continue to review new developments and redevelopments within the unincorporated area of Riverside County for compliance with the WQMP and other development related requirements of the 2010 NPDES Permit on behalf of the County of Riverside.

In order to comply with the 2010 NPDES Permit requirements, the WQMP was revised during FY 2011-2012. The revised WQMP requirements impact both public and private projects. Significant revisions include the expansion of project types subject to the WQMP, LID and hydromodification requirements, requirements to establish an urban runoff fund or water quality credit system for those projects that cannot implement LID, and development of a database and inspection program to track and ensure maintenance of structural post-construction BMPs.

To implement these requirements, the Permittees will have to utilize and fine tune the following program items, which were created during the past fiscal year:

- GIS level mapping of stream segments in the Santa Margarita River Watershed which has determined streams that are susceptible to Hydromodification from new or existing development.
- Feasibility criteria for determining when infiltration, capture and re-use or evapotranspiration are not feasible for a specific development site. The NPDES Permit requires that these BMPs be used unless a technical feasibility study indicates that they are not feasible for a particular project.
- The revised LID BMP Design Manual to incorporate LID concepts including infiltration and filtration BMPs, capture and re-use technologies and evapotranspiration.
- The updated project-specific WQMP Template, Guidance and training to assist Permittees and developers with the transition to the new requirements.
- The TPG Template and TPG Guidance to assist Copermittee transportation engineers to comply with the new requirements.

These program items will be implemented during FY 2012-2013.

INDIVIDUAL JURISDICTION RUNOFF MANAGEMENT PLANS

As part of the 2010 NPDES Permit, the District will implement a JRMP that describes their compliance programs to address the 2010 NPDES Permit.

WATERSHED WORKPLAN IMPLEMENTATION

In accordance with 2010 NPDES Permit requirements, the District developed a plan to identify, prioritize, address and mitigate the highest priority water quality issues and/or pollutants in the Upper Santa Margarita River watershed. During FY 2012-2013, the items detailed within the Workplan will be implemented.

HYDROMODIFICATION MANAGEMENT PLAN (HMP) DEVELOPMENT

In accordance with 2010 NPDES Permit requirements, the District will develop a plan to manage increases in runoff discharge rates and durations from all Priority Development Projects. The plan will require projects to have estimated post-project runoff discharge rates and durations that do not exceed pre-development discharge rates and durations.

CONSOLIDATED MONITORING PROGRAM

The District updated the Consolidated Monitoring Program (CMP) to describe the monitoring efforts that will be implemented to comply with the 2010 NPDES Permit, and during FY 2012-2013 these monitoring efforts will be implemented. The update describes significant increases in monitoring requirements including:

- Expansion of the IC/ID Program to require implementation of a more rigorous and proactive detection and elimination program based action levels. This includes development and implementation of Permittee specific schedules to conduct systematic investigations of MS4 facilities and outfalls with a diameter of 36 inches or larger to receiving waters as well as industrial areas tributary to outfalls with a diameter 18 inches or larger and with specified acreage as outlined in the NPDES Permit.
- Additional Bioassessment requirements, which require reconnaissance of three new viable sampling locations.
- New High Priority Inland Aquatic Habitat monitoring.
- Five special monitoring studies.

INTEGRATED REGIONAL WATERSHED MANAGEMENT PLAN

The District and the County of Riverside are continuing to support Rancho California Water District in the implementation of an Integrated Regional Watershed Management Plan for the Santa Margarita River region in Riverside County. The plan identifies necessary coordination and projects to sustain water quality and water supply, control flooding, and protect and/or enhance open space and critical habitat areas. Several other agencies are also participating in the effort. The plan will not only provide guidance for future planning efforts, it will also open the Santa Margarita Region to participate in solicitation of funds for various Integrated Watershed Management Plan grant programs associated with Propositions 40, 50 and 84.

CONCLUSIONS AND RECOMMENDATIONS

The area-wide Municipal Stormwater Program for the Santa Margarita Watershed has been implemented in an efficient, cost-effective manner through the ongoing cooperative efforts of the District, the Co-Permittees, the Regional Board and the Riverside County Fire Department and Environmental Health Department. The District's NPDES Program activities, which are funded by these SMWBAA assessments, are required to comply with the current NPDES Permit for the

Santa Margarita Watershed and enforceable provisions of the California Water Code and the Federal Clean Water Act which regulate the discharge of stormwater from MS4s. These mandatory stormwater management program activities are an essential component of the District's continuing operation and maintenance of its critical public safety facilities; therefore, the following action is recommended:

Levy a Flood Control Benefit Assessment in the Santa Margarita Watershed Benefit Assessment Area at an unchanged rate of \$4.00 per benefit assessment unit for FY 2012-2013.

GLOSSARY

ABOP – A permanent collection facility that accepts Anti-freeze, Batteries, Oil and latex Paint for recycling and/or proper disposal

BAU – Benefit Assessment Unit

BMP – Best Management Practice

CAP - Compliance Assistance Program. A stormwater outreach and reporting program conducted in conjunction with selected facility inspection programs conducted by the Riverside County Environmental Health Department.

CMP – Consolidated Monitoring Program

CRWQCB – California Regional Water Quality Control Board

CWA - Clean Water Act

DAMP – Drainage Area Management Plan

District – Riverside County Flood Control and Water Conservation District

FY – Fiscal Year

HAZMAT Team –Hazardous Materials Emergency Response Team

HHW – Household Hazardous Waste. Commonly used household chemicals that may be toxic or require special handling for proper disposal, *e.g.*, automotive fluids, pesticides, fertilizers, paint, cleaning products, pool chemicals, etc.

HMP – Hydromodification Management Plan

JRMP – Jurisdictional Runoff Management Plan

LID – Low Impact Development

MS4 – Municipal Separate Storm Sewer System

NPDES – National Pollutant Discharge Elimination System.

Board Order No. R9-2004-001 – An Order of the California Regional Water Quality Control Board – San Diego Region to regulate stormwater discharges from municipal stormwater facilities owned or operated by the District, County of Riverside, or the Cities of Murrieta and Temecula.

Board Order No. R9-2010-0016 - An Order of the California Regional Water Quality Control Board – San Diego Region to regulate stormwater discharges from municipal stormwater facilities owned or operated by the District, County of Riverside, or the Cities of Murrieta, Temecula and Wildomar.

Regional Board – San Diego Regional Water Quality Control Board

ROWD – Report of Waste Discharge

SA – Santa Ana

SA/SMR DAMP – Santa Ana and Santa Margarita Regional Drainage Area Management Plan.

SAWPA – Santa Ana Watershed Project Authority

SMR – Santa Margarita Region of Riverside County

SMWBAA – Santa Margarita Watershed Benefit Assessment Area

SWRCB – State Water Resources Control Board

USEPA – United States Environmental Protection Agency

WQMP - Watershed Quality Management Plan

**RCFC&WCD Ordinance No. 14
(May 14, 1991)**

0596

ORDINANCE NO. 14

AN ORDINANCE OF THE RIVERSIDE COUNTY FLOOD
CONTROL AND WATER CONSERVATION DISTRICT
ESTABLISHING A BENEFIT ASSESSMENT FOR THE
NATIONAL POLLUTANT DISCHARGE ELIMINATION
SYSTEM (NPDES) STORMWATER PROGRAM

The Board of Supervisors of the Riverside County Flood Control
and Water Conservation District, State of California, do ordain as
follows:

ARTICLE I

GENERAL

Section 1. Title.

This Ordinance shall be known as the "NPDES Program -
Benefit Assessment Ordinance" of the Riverside County Flood
Control and Water Conservation District.

Section 2. Purpose.

The United States Environmental Protection Agency (the
"EPA") has, consistent with Section 402 of the Federal Clean Water
Act, as amended, promulgated the National Pollutant Discharge
Elimination System Regulations (the "NPDES Regulations") pursuant
to which the EPA, through the appropriate California Regional
Water Quality Control Board (the "CRWQCB") has required the
Riverside County Flood Control and Water Conservation District
(the "District") and other affected public entities to secure a
National Pollutant Discharge Elimination System Stormwater Permit
(the "NPDES Permit") which does require the District to develop,
implement and manage identified programs dealing with stormwater
runoff. The parcels of land within the respective watersheds
within the District's jurisdiction for which a NPDES Permit is

6-4-91
12

1 required will benefit from these programs. The Board of
2 Supervisors of the District has determined, pursuant to the
3 Riverside County Flood Control and Water Conservation Act (the
4 "District Act"), which is Chapter 48, as amended, of the
5 California Water Code Appendix, to establish certain Benefit
6 Assessment Areas in which the District will annually levy a
7 Benefit Assessment to pay the cost of these programs required by
8 the NPDES Permit. The Board of Supervisors of the District,
9 consistent with Section 48-14 of the District Act, held a noticed
10 public hearing at which time all testimony, oral and written, was
11 considered. As the conclusion of the public hearing, the Board of
12 Supervisors of the District adopted resolutions establishing the
13 Benefit Assessment Areas. The provisions of this Ordinance
14 confirming the establishment of the Benefit Assessment Areas and
15 providing for the annual levy of a Benefit Assessment are
16 consistent with the District Act and the reports prepared by the
17 Chief Engineer of the District and accepted by the Board of
18 Supervisors of the District.

19 The Board of Supervisors of the District finds that
20 the Benefit Assessment to be annually levied shall be based on the
21 proportional stormwater runoff generated by each lot or parcel
22 within the Benefit Assessment Area. Revenues derived from the
23 Benefit Assessment shall be applied exclusively to pay the
24 District's administrative and program costs associated with the
25 NPDES Permit required for the Benefit Assessment Area and are to
26 be apportioned to the Benefit Assessment Area in which they are
27 collected.

28 ////

1 ARTICLE II

2 DEFINITIONS

3 Section 1. Unless otherwise specifically provided or required by
4 the context, certain terms or expressions used herein have the
5 meanings set forth below:

6 a.) "Benefit Assessment" means the Benefit Assessment
7 to be levied annually on each Parcel within a Benefit
8 Assessment Area pursuant to Article IV of this Ordinance.

9 b.) "Benefit Assessment Area" means a Benefit Assessment
10 Area formed pursuant to Section 48-14 of the District Act
11 by the Board of Supervisors and identified in Article III
12 of this Ordinance.

13 c.) "Board of Supervisors" means the Board of Supervisors
14 of the Riverside County Flood Control and Water
15 Conservation District.

16 d.) "Chief Engineer" means the Chief Engineer of the
17 Riverside County Flood Control and Water Conservation
18 District.

19 e.) "County" means the County of Riverside, State of
20 California.

21 f.) "CRWQCB" means the California Regional Water Quality
22 Control Board for the region in which the Benefit
23 Assessment Area has been established.

24 g.) "District" means the Riverside County Flood Control
25 and Water Conservation District.

26 h.) "District Act" means the Riverside County Flood
27 Control and Water Conservation District Act, Statutes
28 1945, Chapter 1122, as amended; California Water Code,

1 Appendix, Chapter 48.

2 i.) "EPA" means the United States Environmental
3 Protection Agency, which, pursuant to the Clean Water
4 Act of 1976, as amended by the Water Quality Act of 1987,
5 has jurisdiction to establish the NPDES program and
6 promulgate regulations pursuant thereto.

7 j.) "NPDES Permit" means the permit, issued by the
8 regional CRWQCB, dealing with stormwater runoff in
9 association with the National Pollutant Discharge
10 Elimination System (NPDES) and the regulations
11 promulgated by the EPA.

12 k.) "NPDES Regulations" means the final regulations dated
13 November 16, 1990, and any subsequent amendments thereto
14 promulgated by the EPA governing the National Pollutant
15 Discharge Elimination System (NPDES).

16 l.) "Ordinance" means this Ordinance No. 14 of the
17 Riverside County Flood Control and Water Conservation
18 District.

19 m.) "Parcel" means a parcel of property identified by
20 Assessor parcel number as shown on the equalized tax
21 rolls of the County of Riverside, State of California.

22 ARTICLE III

23 ESTABLISHMENT OF BENEFIT ASSESSMENT AREAS

24 Section 1. Formation of Benefit Assessment Areas.

25 Pursuant to Section 48-14 of the District Act, the
26 Board of Supervisors noticed three public hearings to consider the
27 establishment of three Benefit Assessment Areas for each of which
28 a NPDES Permit would be required by the NPDES Regulations. At the

1 conclusion of the hearings, the Board of Supervisors adopted
2 Resolutions Nos. F91-21, F91-22, and F91-23 which established,
3 respectively, the Santa Ana Watershed Benefit Assessment Area, the
4 Santa Margarita Watershed Benefit Assessment Area, and the
5 Whitewater Watershed Benefit Assessment Area. The legal
6 descriptions for each of the Benefit Assessments Areas are
7 attached hereto, marked respectively Exhibits A, B, and C, and are
8 by this reference incorporated herein.

9 Section 2. Amendment to or Additional Benefit Assessment Areas.

10 The District may amend the boundaries of each of the
11 Benefit Assessment Areas or create additional Benefit Assessment
12 Areas, if in the District's administrative judgment the NPDES
13 Regulations and the NPDES Permits issued pursuant thereto so
14 require. To amend the boundaries to a Benefit Assessment Area or
15 to create an additional Benefit Assessment Area, the District is
16 to comply with provisions of the District Act then governing the
17 creation of a benefit assessment area.

18 ARTICLE IV

19 REPORT OF CHIEF ENGINEER, HEARING THEREON;

20 CONFIRMATION OF BENEFIT ASSESSMENT BY THE

21 BOARD OF SUPERVISORS

22 Section 1. Report.

23 The Chief Engineer shall cause to be prepared annually
24 a written report for each Benefit Assessment Area regarding the
25 Benefit Assessment to be levied and shall file each report with
26 the Clerk of the Board of Supervisors.

27 Section 2. Content of the Report.

28 Each report shall contain the District's estimate of

1 its administrative and program costs in association with the NPDES
2 Permit for the Benefit Assessment Area for the ensuing fiscal
3 year. Said estimate of cost shall be apportioned to each Parcel
4 on the basis of proportionate stormwater runoff generated from
5 each Parcel to be assessed. Only Parcels not otherwise exempted
6 by this Ordinance or the NPDES Regulations shall have a Benefit
7 Assessment levied on them. The report shall identify all Parcels
8 by Assessor parcel number on which a Benefit Assessment is to be
9 levied and the amount of the assessment.

10 Section 3. Resolution Accepting Report and Noticing Public
11 Hearing.

12 Upon the report being filed with the Clerk of the
13 Board of Supervisors, the Board of Supervisors is, by resolution,
14 to accept, if appropriate, the report and to set a date, time and
15 place for a hearing on said report. Prior to the date of the
16 hearing, a notice specifying the date, time, place and purpose of
17 the hearing and identifying those locations at which a property
18 owner may review the report shall be published in a newspaper of
19 general circulation within the Benefit Assessment Area pursuant to
20 the provisions of Section 6066 of the California Government Code.
21 In addition, the District shall cause the notice of the hearing to
22 be posted in at least three public places within the boundaries of
23 the Benefit Assessment Area at least seven (7) days prior to the
24 date of the hearing.

25 Section 4. Hearing.

26 The Board of Supervisors shall hear the matter on the
27 date and at the time specified in the notice, or as continued for
28 good cause. At the hearing, the Board of Supervisors shall hear

1 and consider all testimony, oral and written, presented, including
2 all written protests. At the conclusion of the hearing, the Board
3 of Supervisors may revise, change, reduce or modify any Benefit
4 Assessment and shall make its determination upon each Benefit
5 Assessment identified in the report. Thereafter, by resolution it
6 shall confirm the assessments. Such confirming resolution shall
7 be adopted no later than August 10 of each fiscal year in which
8 the Benefit Assessment is to be levied and collected.

9 Section 5. Enrollment.

10 The District shall provide certified copies of the
11 confirming resolutions and the roll of confirmed Benefit
12 Assessments, in an acceptable format, to the Auditor-Controller of
13 the County on or before August 10 of each fiscal year.

14 ARTICLE IV

15 LEVY OF BENEFIT ASSESSMENT

16 Section 1. Determination of the Amount to be Assessed.

17 The District is to estimate for the fiscal year in
18 which the Benefit Assessment is to be levied the administrative
19 and program costs that it will incur pursuant to the NPDES Permit
20 issued for each Benefit Assessment Area. This estimate of costs
21 is to be apportioned among the Parcels within each Benefit
22 Assessment Area on the basis of proportionate stormwater runoff
23 generated by each Parcel. The Benefit Assessment levied and
24 collected within each Benefit Assessment Area may only be applied
25 toward the costs incurred pursuant to the NPDES Permit for that
26 Benefit Assessment Area. If at the conclusion of any fiscal year
27 there remains in the account for a Benefit Assessment Area
28 unexpended funds, the remaining balance shall be applied toward

1 the estimated costs for the next fiscal year and thereby reduce
2 the amount of the Benefit Assessment to be levied. Benefit
3 Assessments levied and collected pursuant to this Ordinance may
4 not be applied toward any other costs or expenses of the District
5 nor may they be applied to the costs of a Benefit Assessment Area
6 other than the Benefit Assessment Area for which they were levied
7 and collected.

8 Section 2. Determination of Proportionate Storm Water Runoff and
9 Amount of Benefit Assessment to be Levied.

10 a.) Benefit Assessment Unit. The District shall
11 express the of proportionate stormwater runoff factor as a
12 decimal. The standard against which all property is to be
13 measured shall be a single-family residential parcel of 7,200-
14 square feet (1/6 acre) in size to which a runoff factor of 0.40 is
15 ascribed and shall be called a Benefit Assessment Unit (BAU).

16 The runoff factor for each of the classes listed in subsection
17 (b) below are as follows:

18	Group A	0.80
19	Group B	0.60
20	Group C	0.40
21	Group D	Exempt
22	Group E	0.0067
23	Group F	0.0033

24 The runoff factor for each group is compared to the
25 runoff factor of the standard Benefit Assessment Unit (Group C) as
26 described above. This results in a runoff factor ratio. The
27 runoff factor ratio shall be that ratio established by comparing
28 Benefit Assessment Units assigned to one of the groups listed

1 above, compared to the standard Benefit Assessment Unit
2 represented by Group C. The number of Benefit Assessment Units
3 per parcel size for each of the classes listed in subsection (b)
4 below are as follows:

5	Group A	12 BAU/acre
6	Group B	9 BAU/acre
7	Group C	1 BAU/7200 sq. ft. lot
8	Group D	Exempt
9	Group E	0.10 BAU/acre
10	Group F	0.05 BAU/acre

11 b.) Classification of Parcels. All Parcels shall be
12 assigned to one of the following classifications based on land use:

- 13 Group A: Commercial or industrial use
- 14 Group B: Institutional uses, ie. churches, or
15 hospitals, or multiple family residential
16 use having four or more units per parcel,
17 ie. apartments or mobile home parks.
- 18 Group C: Single family residential or multiple
19 family residential having three or fewer
20 units on 1/6 of an acre parcel.
- 21 Group D: Agricultural uses, including dairies,
22 poultry, livestock, groves, orchards,
23 row crops, field crops, vines or dry farming.
- 24 Group E: Golf courses, cemeteries, etc. and that
25 portion of a single family residential
26 parcel in excess of 7,200 square feet (1/6
27 acre) but less than 2.5 acres.
- 28 Group F: The undeveloped portion of a parcel such

1 as the portion of a single family
2 residential parcel exceeding 2.5 acres.

3 Calculation of the Benefit Assessment Units to be
4 attributed to a single family residential unit on a Parcel larger
5 than 1/6 acre is cumulative with that portion of the Parcel in
6 excess of the 1/6 acre which falls in either Group E or F being
7 assigned the appropriate BAU for the amount of acreage falling
8 within either Group E or F.

9 It is determined that Parcels used as a railroad, gas,
10 water, telephone, cable television, electric utility right-of-way,
11 electric line right-of-way or other utility right-of-way will
12 benefit from the programs required by the NPDES Permit and will be
13 subject to the Benefit Assessment to be levied pursuant to this
14 Ordinance.

15 c.) Exempted Land Uses. All land uses expressly
16 exempted by the NPDES Regulation will be exempted from the levy of
17 a Benefit Assessment pursuant to this Ordinance. Those land uses
18 exempted are:

- 19 1.) Agricultural uses, including dairies,
20 poultry, livestock, groves, orchards, row
21 crops, field crops, vines or dry farming.
- 22 2.) Vacant, undeveloped parcels.
- 23 3.) Publicly owned parcels which are parcels
24 owned by a Federal, State or local public
25 entity or agency and used for public
26 purposes.

27 d.) Determination of Benefit Assessment Units per
28 Parcel. Once a Parcel is classified and its acreage is

1 determined, the appropriate BAU's per acre for its classification
2 will be multiplied by the acreage to determine the total Benefit
3 Assessment Units for the Parcel

4 e.) Determination of Benefit Assessment to be levied
5 per Benefit Assessment Unit. The aggregate number of Benefit
6 Assessment Units within a Benefit Assessment Area will be divided
7 into the estimated administrative and program costs for the
8 Benefit Assessment Area to determine the amount of Benefit
9 Assessment to be levied per Benefit Assessment Unit. The Benefit
10 Assessment to be levied on a Parcel is determined by the number of
11 Benefit Assessment Units ascribed to the Parcel and the assessment
12 value of each unit.

13 ARTICLE V

14 COLLECTION OF BENEFIT ASSESSMENT.

15 Section 1. Collection by Treasurer/Tax Collector.

16 The confirmed Benefit Assessment for each Parcel shall
17 appear as a separate item on the tax bill issued by the
18 Treasurer-Tax Collector of the County. The Benefit Assessment
19 shall be levied and collected at the same time and in the same
20 manner as the general ad valorem property taxes and shall be
21 subject to the same penalties and the same procedures for sale in
22 case of delinquency. If, for the first year the Benefit
23 Assessment is levied, the property on which the Benefit Assessment
24 is levied has been transferred or conveyed to a bona fide
25 purchaser for value, or if a lien of a bona fide encumbrancer for
26 value has been created and attached thereon, prior to the date on
27 which the first installment of ad valorem property taxes would
28 become delinquent, the Benefit Assessment shall not result in a

1 lien against the real property but shall be transferred to the
2 unsecured roll.

3 Section 2. Applicable Law.

4 All laws applicable to the levy, collection and
5 enforcement of ad valorem property taxes shall be applicable to
6 Benefit Assessments, except as otherwise provided herein.

7 Section 3. Validity of Benefit Assessment Not Affected by Time
8 Limits.

9 Failure to meet the time limits set forth in this
10 Ordinance for whatever reason shall not invalidate any Benefit
11 Assessment levied hereunder.

12 ARTICLE VI

13 CORRECTION OR CHANGE TO THE TAX ROLL

14 Section 1. Initiation of the Correction or Change.

15 A correction or change to the tax roll with respect to
16 a Benefit Assessment may be made by the Chief Engineer, either on
17 his own initiative, or on application by a property owner (the
18 "Assessee").

19 Section 2. Initiation by Flood Control Engineer.

20 The Chief Engineer may initiate a correction or change
21 to the tax roll at any time within four (4) years of the date of
22 the resolution of the Board of Supervisors confirming Benefit
23 Assessments placed upon the tax roll.

24 Section 3. Initiation by the Assessee.

25 The Assessee may initiate a correction or change to
26 the tax roll by filing a written application with the Chief
27 Engineer within 60 days following his/her receipt of the tax bill
28 reflecting the Benefit Assessment. The application shall contain

1 or include the following information, together with such
2 additional information deemed relevant by the Assessee or
3 requested by the Chief Engineer:

- 4 1. Assessor's parcel number.
- 5 2. Gross acreage.
- 6 3. Use of property as of the preceding March 1st.
- 7 4. Measurements of man-made impervious area, if known.
- 8 5. Copy of the tax bill containing the benefit
9 assessment.

10 Section 4. Categories of Corrections or Changes.

11 Upon approval of the Chief Engineer, corrections or
12 changes shall be made with respect to:

- 13 1. Ownership of a Parcel;
- 14 2. Address of an owner of a Parcel;
- 15 3. Subdivision of an existing Parcel;
- 16 4. Land use category of all or part of a Parcel;
- 17 5. Computation of the area of a Parcel;
- 18 6. Erroneous computation of the Benefit Assessment.

19 Corrections to the tax roll shall not be valid unless and
20 until approved by the Board of Supervisors. All corrections or
21 changes must be reported by the Chief Engineer to the
22 Auditor-Controller of the County, who shall prepare the amended
23 billing, as the case may be. The Chief Engineer shall give
24 written notice to the Assessee of the action taken on the
25 application.

26 If the Assessee disagrees with the Chief Engineer's
27 determination, he/she may file an appeal with the Board of
28 Supervisors within 30 days after receipt of the written notice.

1 The appeal shall be initiated by a written application filed with
2 the Clerk of the Board of Supervisors for refund of all or part of
3 the Benefit Assessment. The decision of the Board of Supervisors
4 shall be final and shall complete the administrative process. Any
5 further action by the Assessee for recovery of any part of the
6 Benefit Assessment shall be by complaint for refund filed in the
7 Superior Court.

8 ARTICLE VII

9 EFFECTIVE DATE OF ORDINANCE

10 This Ordinance shall take effect and be in force 30 days
11 after the adoption by the Board of Supervisors. Before the
12 expiration of fifteen (15) days after the effective date of this
13 Ordinance it shall be published once in The Press-Enterprise, a
14 newspaper of general circulation in the County of Riverside.

NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS
OF RIVERSIDE COUNTY FLOOD CONTROL AND WATER
CONSERVATION DISTRICT ON THE NPDES BENEFIT ASSESSMENT PROGRAM FOR

THE SANTA MARGARITA WATERSHED BENEFIT ASSESSMENT AREA

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, acting as the governing board of the Riverside County Flood Control and Water Conservation District, County Administrative Center, 4080 Lemon Street, Riverside, California, on July 17, 2012 at 1:30 p.m., relative to the Flood Control Engineer's Report on the NPDES Program for the Santa Margarita Watershed Benefit Assessment Area. The Board will hear and consider all protests with regard to the program, if any, including protests with regard to the amount of the proposed assessment to be levied. At the conclusion of the hearing, the board may adopt, revise, change, reduce, or modify any assessment and shall make its determination upon each assessment described in the report for Fiscal Year 2012-13.

NOTICE IS FURTHER GIVEN that pursuant to statutory authorization, a written report by the Chief Engineer to the District describing the Benefit Assessment Program has been filed with the Clerk of the District's Board. The report contains a description of each parcel of property within the boundaries of the Santa Margarita Watershed Benefit Assessment Area of the District on which a benefit assessment is proposed to be levied, and sets forth the amount of the proposed benefit assessment for each such parcel. The report contains a schedule of the benefit assessment rates for the 2012-13 Fiscal Year. Copies of the report, together with copies of the assessment rolls for the Santa Margarita Watershed Benefit Assessment Area, and of the official Riverside County Assessor's Map Books, are on file and available for review by the public at the office of the Clerk of the District's Board, at the County Administrative Center, 4080 Lemon Street, Riverside, California, the District's office at 1995 Market Street, Riverside, California, the City of Temecula, 41000 Main Street, Temecula, California, and the City of Murrieta, 24601 Jefferson Avenue, Murrieta, California. By reference to the Chief Engineer's report, the assessment rolls and the map books, each property owner may verify the area of his or her parcel, its land use, and the amount of the 2012-13 Benefit Assessment.

NOTICE IS FURTHER GIVEN THAT the proposed benefit assessment rate for Fiscal Year 2012-13 is the same benefit assessment rate as Fiscal Year 1996-97 and all subsequent years.

Please send all written correspondence to:

Clerk of the Board
