

SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

653 A

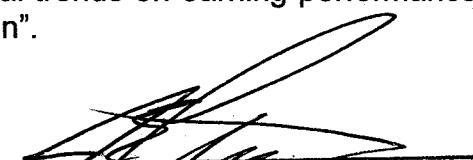

FROM: Don Kent, Treasurer-Tax Collector

SUBMITTAL DATE:
July 17, 2012

SUBJECT: Treasurer's Monthly Disclosure Report on Investments

RECOMMENDED MOTION: That the Board of Supervisors receives and files the Treasurer's "Monthly Disclosure Report on Investments" dated June 2012.

BACKGROUND: The County Treasurer and Tax Collector is submitting the above noted report to the County Board of Supervisors in keeping with Section 53607 of the California Government Code, which requires a quarterly report on the status of investments. The practice has been to provide the Board with a monthly report. The report gives the various statistics on the portfolio as to overall composition, liquidity structure, credit quality on the various securities, and provides several trends on earning performance, average weighted maturity, and the portfolio's "paper loss or gain".

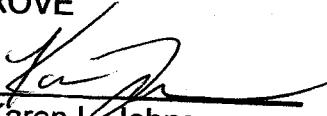

Jon Christensen on behalf of Don Kent,
Treasurer-Tax Collector

"Erased"

In the aftermath of the Great Recession and lingering recovery, it is noteworthy that so many aspects of our lives, both professionally and personally, have been affected. Savings, retirement and investment accounts, home equity, jobs and benefits have been erased or greatly diminished because of the financial turmoil. The not so Great Recession erased 18 years of household wealth.

This month, a study released from the Federal Reserve put all of this into perspective, and it is sobering. According to the FED, median net worth declined to \$77,300 in 2010 from \$126,400 in 2007 representing over a 38% decline for Americans. They stated, "Almost every demographic group experienced losses, which may hurt retirement prospects for middle-income families. The impact has been a massive destruction of wealth all across the board. What you see is an economy that's really very, very stressed for the bottom 60 to 70 percent of the population that's struggling just to make ends meet." The declines in household wealth in the course of the longest and deepest recession since the Great Depression have held back the consumer spending that makes up about 70 percent of the economy."

Moreover, the FED stated, "Although declines in the values of financial assets or business were important factors for some families, the decreases in median net worth appear to have been driven most strongly by a broad collapse in house prices." We all know far too well by now that the hit to our County was much

deeper than other areas; we had even been called one of the epicenters of the subprime crisis.

The Eurozone debt crisis continues and now with the Libor price fixing scandal putting Barclays on the hot seat, it may prove to be even more troublesome. Unemployment for June came in at 8.2% and is not showing signs of dramatic improvement. These and other troubling issues prompted some changes to the FOMC statement following the June 20th meeting in which the FED left rates unchanged at 0-.25%, with an extension to the end of year to the tune of \$267 billion more in Operation Twist.

The FED stated, "Growth in employment has slowed in recent months, household spending appears to be rising at a somewhat slower pace than earlier in the year". This continued financial malaise has forced the FED to continue its maturity extension program, to pressure long-term interest rates lower to make financial conditions more accommodative. They also stated it was prepared to take further action (easing), if you read between the lines. This could prove to be a long, hot drawn out summer for the financial markets with oodles of Eurocrisis and other economic drama. We will continue to read the FED's tea leaves and invest accordingly.
