**BACKGROUND:**

On February 1, 2012, and February 8, 2012, the Economic Development Agency (EDA) advertised a Request for Qualifications (RFQ) for pre-qualifying consultant service contracts. The RFQ included various design and consultant related services, including civil engineering / land survey, construction management, environmental, geotechnical, and materials and deputy inspection services.

The RFQ's were submitted for the purpose of developing a pool of pre-qualified consulting firms in various disciplines to perform project work on an as-needed basis.

Creating a list of pre-qualified consulting firms is in conformance with Board Policy H-7, and is intended to enable EDA to quickly respond to client needs and accelerate the delivery of projects.

Per Board Policy H-7 and the Government Code, a selection committee was established to review each firm's qualifications. After reviewing the submitted qualifications, thirty-three firms were selected for Civil Engineering and Land Survey services, fifteen firms were selected for Construction Management services, twenty-eight firms were selected for Environmental services, seventeen firms were selected for Geotechnical services, and twenty-one firms were selected for Materials Testing and Inspection Services (three of these firms can provide OSHPD inspection services) on the basis of achieving a pre-determined minimum collectively related score. Each firm offers particular strengths that apply to the different types of projects.

Consulting services will be retained on an as-needed basis via the issuance of a contract or purchase order for negotiated services including, but not limited to, agreement on the scope of work, terms, conditions and compensation. The consultant service fees range from \$500 to \$100,000 per project.

Firms will be selected by EDA staff based on the pre-qualified firm's current workload and the firm's particular qualifications for individual projects.

In accordance with Board Policy H-7, the period of qualification for the selected firms will remain in effect for a maximum of three years from the date of Board approval. EDA staff will conduct the required annual performance reviews.

For larger, more complex projects, a project-specific Request for Proposal will be utilized to secure the consulting services.
