

**SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

701B

**FROM:** TLMA - Planning Department

**SUBMITTAL DATE:**  
July 23, 2012

**SUBJECT: AGRICULTURAL PRESERVE NO. 1011, ENVIRONMENTAL ASSESSEMENT NO. 41524**— Applicant: Jim Carter – Engineer/Representative: Hunsaker & Associates – Third/Third Supervisorial District – Rancho California Zoning Area - Southwest Area Plan: Agriculture: Agriculture (AG: AG) (10 Acre Minimum) – Citrus Vineyard Rural Policy Area – Location: Northerly of Rancho California Road, southeasterly of Anza Road, and westerly of Calle Contento – 112.68 Gross Acres - Zoning: Citrus Vineyard – 20 Acre Minimum (C/V-20) – **REQUEST: Agricultural Preserve No. 1011** proposes to diminish Rancho California Agricultural Preserve No. 12 and cancel the associated land conservation contract on a portion of the site consisting of 5.65 acres.

**RECOMMENDED MOTION:**

The Planning Director recommends to the Board of Supervisors:

**ADOPTION** of a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 41524**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

**ADOPTION** of **Resolution No. 2012-046**, approving Agricultural Preserve No. 1011, issuing Certificate of Tentative Cancellation and Diminishing Rancho California Agricultural Preserve No. 12.

Dept't Recomm.:  Consent  Policy   
 Per Exec. Ofc.:  Consent  Policy

**TENTATIVE APPROVAL** of AGRICULTURAL PRESERVE CASE NO. 1011, a proposal to diminish Rancho California Agricultural Preserve No. 12, as amended, and cancel a portion of the associated land conservation contract as depicted on Map No. 1011; subject to final adoption of the Contract Cancellation of the Agricultural Preserve.

**BACKGROUND:**

Agricultural Preserve Case No. 1011 (AG01011) is a request to diminish Rancho California Agricultural Preserve No. 12, Map No. 322, and cancel a portion of the land conservation contract as it applies to 5.65 acres of the subject site.

Plot Plan No. 23017 is the applicant's proposed alternative land use for the subject site and is currently under review by the Planning Department. Plot Plan No. 23017 consists of a 5,800 square foot winery and wine sampling facility, a 35,160 square foot resort, a 138 space parking lot, and a 1,200 square foot building for housekeeping and pool maintenance. The Project will include 21 buildings, 42 casitas, pool and spa areas. Access to the Project will be provided by a driveway approximately 560 feet in length and ranging in width from 24 to 52 feet. A pedestrian walkway approximately 2,000 feet in length and ranging in width from 24 to 29 feet will also provide access to the Project. AG01011 is necessary because the proposed alternative use for the 5.65 acres is not allowed within an agricultural preserve pursuant to County Ordinance No. 509. Plot Plan No. 23017 will be processed subsequent to AG01011 and will be the subject of a separate discretionary action.

Pursuant to Government Code Section 51284.1, a copy of the complete Diminishment/Cancellation Application for AG01011 was submitted to the State Department of Conservation (SDC) on September 28, 2011, for a mandatory 30-day review and comment period. Staff received no responses. Appraisals are included as Exhibit B.

On October 18, 2011, the Comprehensive Agricultural Preserve Technical Advisory Committee (CAPTAC) considered the application to diminish Rancho California Agricultural Preserve No. 12, Map No. 322, as depicted on Map No. 1011. CAPTAC recommended DENIAL of the proposed application citing that the cancellation was not consistent with the provisions of the Agricultural Land Conservation Act of 1965; however, the Planning Department does not concur with CAPTAC's conclusion and is recommending APPROVAL of the diminishment of the agricultural preserve and cancellation of a portion of the associated land conservation contract based on the conditions of approval, findings, and conclusions set forth in Resolution No. 2012-046.

Should the Board of Supervisors tentatively approve the proposed partial cancellation and diminishment, the applicant would be required to comply with the conditions of approval identified in Resolution No. 2012-046 prior to the issuance of a Certificate of Final Cancellation as outlined in Government Code Section 51283.4.

Project Location

Agricultural Preserve Case No. 1011 (AG01011) is a request to diminish Rancho California Agricultural Preserve No. 12, Map No. 322, and cancel a portion of the land conservation contract as it applies to 5.65 acres of the subject site. The plot plan proposes 21 buildings with 42 casitas totaling 35,160 square feet; a 5,800 square foot building for a winery and tasting room; and a 1,200 square foot building used for housekeeping and pool maintenance. The project includes 138 parking spaces. A farming operation with employee housing that includes four (4) mobile home dwelling units is also proposed. The tasting room will be open daily from 10 a.m. to 6 p.m. 100 special occasions per year with 100 guests per occasion are proposed. Special occasions are proposed to occur from 10 a.m. to 10 p.m. Friday and Saturday and 10 a.m. to 9 p.m. Sunday through Thursday.

Project Description

To advise that the Riverside County Board of Supervisors, as the lead agency, has approved the above-referenced project on August 28, 2012, and has the following determinations regarding that project:

1. The project WILL NOT have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act (\$2,101.50 + \$64.00).
3. Mitigation measures WERE NOT made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Plan/Program WAS NOT adopted.
5. A statement of Overriding Considerations WAS NOT adopted for the project.

This is to certify that the Mitigated Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 4080 Lemon Street, 12th Floor, Riverside, CA 92501.

APPROVING AGRICULTURAL PRESERVE NO. 1011,  
ISSUING CERTIFICATE OF TENTATIVE CANCELLATION  
AND DIMINISHING RANCHO CALIFORNIA AGRICULTURAL PRESERVE No. 12  
(Government Code Section 51283.4)**

**WHEREAS**, a contract was executed pursuant to the Land Conservation Act of 1965 (Government Code Section 51200 et. seq.) for land within Rancho California Agricultural Preserve No. 12; and,

**WHEREAS**, Milo David Rowell and Chester S. Rowell entered into this land conservation contract dated January 1, 1975, with the County of Riverside for land that is currently identified as Assessor’s Parcel No. (“APN”) 943-230-001-4 (the “Property”), which was recorded on February 28, 1975, as Instrument No. 24233, in the Office of the County Recorder of Riverside County, California (the “Land Conservation Contract”); and,

**WHEREAS**, the Property is described in Exhibit A, attached hereto and incorporated herein by reference, entitled “MAP NO. 322, RANCHO CALIFORNIA AGRICULTURAL PRESERVE NO. 12, AMENDED BY MAP NO. 1011, AMENDMENT NO. 1, (DIMINISHMENT), MAP NO. 1011”; and,

**WHEREAS**, the Property is currently owned by the Carter Family Trust, dated December 28, 2001, and James A. Carter, Trustee of the Carter Family Trust, filed a Notice of Nonrenewal on September 19, 2011, which notice was recorded on January 31, 2012, as Instrument No. 2012-0069048, in the Office of the County Recorder of Riverside County, California; and,

**WHEREAS**, James A. Carter, Trustee of the Carter Family Trust, also petitioned to cancel the Land Conservation Contract as it applies to a 5.65- acre portion of the Property, as depicted on said Map No. 1011 and to diminish Rancho California Agricultural Preserve No. 12, Map No. 322 by removing said 5.65-acre area from the boundaries of said agricultural preserve; and,

**WHEREAS**, all the provisions of the California Environmental Quality Act (CEQA) and the Rules and Regulations Governing Agricultural Preserves in Riverside County (Resolution No.

FORM APPROVED COUNTY COUNSEL  
MICHELLE CLACK  
8/1/12  
DATE

1 84-526) have been satisfied, including the preparation of a Mitigated Negative Declaration for  
2 Environmental Assessment No. 41524; and,

3 **WHEREAS**, James A. Carter, Trustee of the Carter Family Trust, dated December 28,  
4 2001, has proposed, if the cancellation is approved, that the land will be used for the following  
5 alternative use: Plot Plan No. 23017 that consists of a 5,800 square foot winery and wine  
6 sampling facility, a 35,160 square foot resort, a 138 space parking lot, and a 1,200 square foot  
7 building for housekeeping and pool maintenance located on 5.65 acres (the "Plot Plan" or  
8 "Project"). The Project will include 21 buildings, 42 casitas, pool and spa areas. Access to the  
9 Project will be provided by a driveway approximately 560 feet in length and ranging in width  
10 from 24 to 52 feet. A pedestrian walkway approximately 2,000 feet in length and ranging in width  
11 from 24 to 29 feet will also provide access to the Project; and,

12 **WHEREAS**, the total amount of the cancellation fee for the Property, pursuant to Section  
13 51283.4 of the Government Code, has been determined and certified by the Board of Supervisors  
14 to be \$49,500.00; and,

15 **WHEREAS**, a public hearing was held on this matter by the Riverside County Board of  
16 Supervisors on August \_\_, 2012.

17 **BE IT RESOLVED, FOUND, DETERMINED, AND ORDERED** by the Board of  
18 Supervisors of the County of Riverside, State of California, in regular session assembled on  
19 August \_\_, 2012, that:

- 20 1. The above recitals are incorporated herein by this reference.
- 21 2. The subject parcel affected by the proposed diminishment is included under the  
22 Land Conservation Contract.
- 23 3. Pursuant to the owner's Notice of Nonrenewal submitted on September 19, 2011,  
24 the Land Conservation Contract on the 5.65-acre portion of subject parcel will expire on January  
25 1, 2021 (GC§51245 and R&T Code §426(c)).
- 26 4. The cancellation fee was determined by the Riverside County Assessor's Office to  
27 be \$49,500.00.

1           5.       The vacant 5.65 gross-acre portion of the 112.68 gross-acre site subject to the Land  
2 Conservation Contract is located northerly of Rancho California Road, easterly of Newton  
3 Avenue, westerly of Anza Road, and southerly of Vino Way, in the Temecula Wine Country area  
4 of western Riverside County.

5           6.       According to the Natural Resource Conservation Service, the Soils Capability  
6 Classification as indicated in the USDA Soil Survey for Western Riverside County indicates that  
7 the site is one hundred (100) percent within Class III, Class IV, and Class VI.

8           7.       The Plot Plan is being processed with this Agricultural Preserve case and  
9 constitutes the proposed alternative land use for the 5.65 gross acres area that is the subject of this  
10 diminishment and cancellation. The proposed alternative land use is consistent with the Riverside  
11 County General Plan.

12           8.       The alternative land uses that will be developed in accordance with the Plot Plan  
13 will also be an economic benefit for the Temecula Valley Wine Country in particular and the  
14 County as a whole because it will provide additional overnight lodging for guests who will likely  
15 visit the region's wineries, tasting rooms and restaurants.

16           **BE IT FURTHER RESOLVED** by the Board of Supervisors that:

17           1.       The cancellation is for land on which a Notice of Nonrenewal has been served.

18           2.       The cancellation is not likely to result in the removal of adjacent lands from  
19 agricultural use. The cancellation will only remove 5.65 gross acres, leaving 107.03 gross acres in  
20 the Agricultural Preserve. This will ensure long-term continued agricultural production on a  
21 substantial portion of the site and encourage agricultural use on adjacent lands.

22           3.       The cancellation is for an alternative use that is consistent with the applicable  
23 provisions of the General Plan, as the use is consistent with the operation of a winery and  
24 vineyard.

25           4.       The cancellation will not result in discontinuous patterns of urban development  
26 because the existing zoning classification (C/V) for the subject site and for the surrounding parcels  
27 limits residential development. The C/V zone, which applies to the project site and almost all of  
28 the surrounding parcels, limits residential development and seeks to protect this area from

1 incompatible uses that could result in reduced agricultural productivity and increased urbanization.  
2 Residential development within the C/V zone generally must be clustered to encourage permanent  
3 preservation of vineyards.

4 5. There is no other nearby parcel that is not subject to a land conservation contract  
5 and that is both available and suitable for the proposed alternative land use. Nearby parcels  
6 already are under contract, already developed with existing uses, or not suitable for the project due  
7 to the existing topography within the area which will be affected by a proposed project, including  
8 land, air, water, minerals, noise, or objects of historic or aesthetic significance. The project site  
9 consists of approximately 112.68 gross acres located along the north side of Rancho California  
10 Road near the intersection of Anza Road. However, the proposed disturbed area is approximately  
11 5.65 acres in size. There is no proximate noncontracted land of similar or sufficient size to  
12 accommodate the project as proposed in the Plot Plan.

13 6. As indicated in the County Geographic Information System maps, many parcels in  
14 this area are subject to contract or still within the boundaries of an agricultural preserve. Since  
15 adoption of the Citrus Vineyard Policy Area, there has been an increased interest in sustaining the  
16 agricultural uses in this area and many property owners are considering placing the portions of  
17 land set aside in perpetuity for vineyards back under contract.

18 7. Parcels along the south side of Rancho California Road already are developed with  
19 wineries and resort facilities, including South Coast Winery Resort & Spa, Ponte Family Estate  
20 Winery, and Wiens Family Cellars. Parcels directly to the west include existing single-family  
21 homes and other existing wineries along Calle Contento.

22 8. The size and scope of the Plot Plan's parcel allows it to buffer the casitas from  
23 Rancho California Road with vineyards, and to set aside substantial acreage (at least 75% of the  
24 net lot area) to be planted in vineyards in support of the winery. There is no available non-  
25 contracted land that is proximate to the subject property for which it is proposed the contracted  
26 land be put, or, that development of the contracted land would provide a more contiguous pattern  
27 of urban development than development of proximate noncontracted land.

1           9.     Development of the contracted land would provide more contiguous patterns of  
2 development than development of proximate non-contracted land by promoting the logical  
3 extension of infrastructure and winery/resort development along the Rancho California Road  
4 corridor.

5           10.    Cancelling a portion of Agricultural Preserve Contract No. 1001 and diminishing  
6 Agricultural Preserve No. 12 by removing 5.65 gross acres will not have a significant adverse  
7 effect upon the environment and a Mitigated Negative Declaration for Environmental Assessment  
8 No. 41524 is adopted based on the findings incorporated in the initial study.

9           **BE IT FURTHER RESOLVED** by the Board of Supervisors that the applicant shall  
10 comply with the following conditions prior to issuance of a Certificate of Final Cancellation as  
11 outlined in Government Code Section 51283.4:

- 12           1.     The cancellation fee of \$49,500.00 shall be paid; and,
- 13           2.     All conditions necessary for the County to issue grading permits for any portion of  
14 the Plot Plan shall have been met; and,
- 15           3.     The landowner shall notify the Board of Supervisors when all conditions and  
16 contingencies enumerated in this Certificate of Tentative Cancellation have been satisfied. Within  
17 30 days of receipt of such notice, and upon determination that the conditions and contingencies  
18 have been satisfied, the Board of Supervisors shall cause to be executed and recorded a Certificate  
19 of Final Cancellation.

20           **BE IT FURTHER RESOLVED** by the Board of Supervisors that the Clerk of this Board  
21 shall file and record copies of this resolution, map and boundary description, in the Office of the  
22 County Recorder of Riverside County, California, and transmit copies thereof to the Director of  
23 Conservation of the State of California, the Treasurer of Riverside County, and the Assessor of  
24 Riverside County; and, that, upon fulfillment of all of the conditions, the landowner will be  
25 entitled to a Certificate of Final Cancellation that provides as follows:

- 26           1.     Rancho California Agricultural Preserve No. 12, Map No. 322, adopted on  
27 February 18, 1975, will be amended by deleting therefrom the area shown on the map entitled  
28 "MAP NO. 322, RANCHO CALIFORNIA AGRICULTURAL PRESERVE NO. 12, AMENDED

1 BY MAP NO. 1011, AMENDMENT NO. 1, (DIMINISHMENT), MAP NO. 1011," and  
2 described by boundary description thereof, said map and description both being on file in the  
3 Office of the Clerk of the Board.

4 2. The Land Conservation Contract, dated January 1, 1975, and recorded in the Office  
5 of the County Recorder of Riverside County, California, on February 28, 1975, as Instrument No.  
6 24233, will be canceled to the extent said contract applies to land referenced in the petition for  
7 cancellation of the aforementioned property owner, thereby removing from the effect of said  
8 contract the real property in the County of Riverside, State of California, described in the exhibit  
9 entitled, "MAP NO. 322, RANCHO CALIFORNIA AGRICULTURAL PRESERVE NO. 12,  
10 AMENDED BY MAP NO. 1011, AMENDMENT NO. 1, (DIMINISHMENT), MAP NO. 1011.

11 **BE IT FURTHER RESOLVED** by the Board of Supervisors that, if any portion of the  
12 cancellation fee of \$49,500.00 is not paid within one year following the recordation of this  
13 Certificate of Tentative Cancellation, that portion of the fee shall be recomputed pursuant to  
14 Government Code Section 51283.4 (a), and the landowner shall be required to pay the applicable  
15 portion of the recomputed fee as a condition to issuance of a Certificate of Final Cancellation of  
16 the Land Conservation Contract.

17 **BE IT FURTHER RESOLVED** by the Board of Supervisors that, upon application of the  
18 landowner, the Board of Supervisors may hereafter amend a tentatively approved specified  
19 alternative use if the Board finds that such amendment is consistent with the findings made  
20 pursuant to Government Code Section 51282.

21 ROLL CALL:

Ayes: Buster, Tavaglione, Stone, Benoit, and Ashley  
Nays: None  
Absent: None

The foregoing is certified to be a true copy of a resolution duly adopted by said Board of Supervisors on the date therein set forth.

KECIA HARPER-IHEM, Clerk of said Board  
By:   
Deputy

## AG#12 CANCELLATION (AG01011)

### LEGAL DESCRIPTION

Being a portion of the Pauba Rancho as shown in Book 1, Page 45 of Patents, records of San Diego County and as shown as that certain parcel described in Grant Deed recorded May 3, 2002 as Instrument No. 2002-233998, of Official Records, records of Riverside County, in the Unincorporated Territory of Riverside County, State of California, more particularly described as follows:

#### Parcel 1

COMMENCING at the southwesterly terminus of that certain curved centerline of Rancho California Road as described in said Grant Deed, said curve described as having a radius of 3600.00 feet, being distant 390.00 feet from the northeasterly terminus of said curve, a radial to said point on the curve bears South 35°34'01" East (South 35°25'09" East per said Grant Deed);  
Thence along the southwesterly line of said Grant Deed North 39°39'04" West 55.14 feet to a point on the northerly line of that certain document for Dedication of Rancho California Road in favor of the County of Riverside, recorded October 24, 1967 as Instrument No. 93692, of Official Records of said county, said point being a point on a non-tangent curve concave northwesterly having a radius of 3545.00 feet, a radial line to the beginning of said curve bears South 35°30'13" East;  
Thence northeasterly 42.44 feet along said curve through a central angle of 0°41'09";  
Thence departing said northerly line, North 82°55'47" West 33.05 feet;  
Thence North 39°39'04" West 660.95 feet to a curve concave easterly having a radius of 100.00 feet;  
Thence northerly 84.11 feet along said curve through a central angle of 48°11'28" to a reverse curve concave southwesterly having a radius of 56.00 feet;  
Thence northwesterly 113.91 feet along said curve through a central angle of 116°32'39";  
Thence non-tangent from said curve North 38°58'29" West 274.76 feet to a curve concave easterly having a radius of 88.00 feet;  
Thence northerly 134.63 feet along said curve through a central angle of 87°39'25";  
Thence North 48°40'56" East 535.15 feet to a curve concave northwesterly having a radius of 49.00 feet;  
Thence northeasterly 18.97 feet along said curve through a central angle of 22°10'49";  
Thence North 26°30'07" East 19.12 feet;  
Thence South 63°29'53" East 5.00 feet;  
Thence North 26°30'07" East 3.00 feet to a curve concave southeasterly having a radius of 20.00 feet;  
Thence northeasterly 14.91 feet along said curve through a central angle of 42°42'00" to a compound curve concave southerly having a radius of 95.00 feet;  
Thence easterly 53.93 feet along said curve through a central angle of 32°31'31";  
Thence non-tangent from said curve South 78°16'22" East 105.92 feet to a curve concave southwesterly having a radius of 183.00 feet;  
Thence southeasterly 117.93 feet along said curve through a central angle of 36°55'18";  
Thence South 41°21'04" East 10.54 feet to a curve concave northeasterly having a radius of 67.00 feet;  
Thence southeasterly 52.39 feet along said curve through a central angle of 44°48'20";  
Thence South 86°09'24" East 11.60 feet to a curve concave northerly having a radius of 67.00 feet;  
Thence easterly 49.74 feet along said curve through a central angle of 42°31'58";  
Thence North 51°18'38" East 158.41 feet to a curve concave southerly having a radius of 83.00 feet;  
Thence easterly 125.23 feet along said curve through a central angle of 86°26'58";  
Thence South 42°14'24" East 258.29 feet;  
Thence North 47°45'36" East 29.00 feet;  
Thence North 42°14'24" West 258.29 feet to a curve concave southerly having a radius of 112.00 feet;

## EXHIBIT "A"

Thence westerly 168.99 feet along said curve through a central angle of  $86^{\circ}26'58''$ ;  
Thence South  $51^{\circ}18'38''$  West 158.41 feet to a curve concave northerly having a radius of 38.00 feet;  
Thence westerly 28.21 feet along said curve through a central angle of  $42^{\circ}31'58''$ ;  
Thence North  $86^{\circ}09'24''$  West 11.60 feet to a curve concave northeasterly having a radius of 38.00 feet;  
Thence northwesterly 29.72 feet along said curve through a central angle of  $44^{\circ}48'20''$ ;  
Thence North  $41^{\circ}21'04''$  West 10.54 feet to a curve concave southwesterly having a radius of 212.00 feet;  
Thence northwesterly 136.61 feet along said curve through a central angle of  $36^{\circ}55'18''$ ;  
Thence North  $78^{\circ}16'22''$  West 77.85 feet to a curve concave northeasterly having a radius of 100.00 feet;  
Thence northwesterly 82.80 feet along said curve through a central angle of  $47^{\circ}26'31''$  to a compound curve concave easterly having a radius of 50.00 feet;  
Thence northerly 20.73 feet along said curve through a central angle of  $23^{\circ}45'28''$ ;  
Thence North  $7^{\circ}04'23''$  West 28.83 feet to a curve concave easterly having a radius of 82.50 feet;  
Thence northerly 20.62 feet along said curve through a central angle of  $14^{\circ}19'22''$  to a reverse curve concave westerly having a radius of 10.00 feet;  
Thence northerly 7.77 feet along said curve through a central angle of  $44^{\circ}30'10''$  to a compound curve concave southwesterly having a radius of 759.50 feet;  
Thence northwesterly 101.85 feet along said curve through a central angle of  $7^{\circ}40'59''$ ;  
Thence North  $44^{\circ}56'10''$  West 28.63 feet to a curve concave southwesterly having a radius of 25.00 feet;  
Thence northwesterly 15.28 feet along said curve through a central angle of  $35^{\circ}01'06''$  to a reverse curve concave northeasterly having a radius of 30.00 feet;  
Thence northwesterly 22.21 feet along said curve through a central angle of  $42^{\circ}25'30''$  to a non-tangent curve concave southwesterly having a radius of 300.00 feet, a radial line to the beginning of said curve bears North  $52^{\circ}28'14''$  East;  
Thence northwesterly 63.22 feet along said curve through a central angle of  $12^{\circ}04'27''$  to a reverse curve concave northeasterly having a radius of 105.00 feet;  
Thence northwesterly 36.14 feet along said curve through a central angle of  $19^{\circ}43'05''$ ;  
Thence North  $29^{\circ}53'08''$  West 60.57 feet to a curve concave southwesterly having a radius of 125.00 feet;  
Thence northwesterly 39.57 feet along said curve through a central angle of  $18^{\circ}08'09''$  to a reverse curve concave northeasterly having a radius of 390.00 feet;  
Thence northwesterly 81.52 feet along said curve through a central angle of  $11^{\circ}58'36''$  to a compound curve concave northeasterly having a radius of 195.00 feet;  
Thence northwesterly 34.00 feet along said curve through a central angle of  $9^{\circ}59'24''$  to a reverse curve concave southwesterly having a radius of 87.50 feet;  
Thence northwesterly 47.50 feet along said curve through a central angle of  $31^{\circ}06'22''$  to a reverse curve concave northeasterly having a radius of 66.00 feet;  
Thence northwesterly 19.28 feet along said curve through a central angle of  $16^{\circ}44'19''$  to a compound curve concave northeasterly having a radius of 115.00 feet;  
Thence northwesterly 30.57 feet along said curve through a central angle of  $15^{\circ}13'55''$  to a non-tangent curve concave southwesterly having a radius of 175.00 feet, a radial line to the beginning of said curve bears North  $64^{\circ}48'35''$  East;  
Thence northwesterly 49.17 feet along said curve through a central angle of  $16^{\circ}05'53''$  to a non-tangent curve concave northeasterly having a radius of 810.00 feet, a radial line to the beginning of said curve bears South  $48^{\circ}42'42''$  West;  
Thence northwesterly 92.85 feet along said curve through a central angle of  $6^{\circ}34'04''$  to a reverse curve concave southwesterly having a radius of 25.00 feet;  
Thence northwesterly 17.20 feet along said curve through a central angle of  $39^{\circ}24'44''$  to a compound curve concave southerly having a radius of 170.00 feet;  
Thence westerly 82.14 feet along said curve through a central angle of  $27^{\circ}41'06''$  to a non-tangent curve concave southeasterly having a radius of 45.00 feet, a radial line to the beginning of said curve bears North  $11^{\circ}49'04''$  West;  
Thence southwesterly 22.10 feet along said curve through a central angle of  $28^{\circ}08'24''$ ;

# EXHIBIT "A"

Thence South  $50^{\circ}02'32''$  West 77.51 feet to a curve concave southeasterly having a radius of 125.00 feet;

## ENVIRONMENTAL ASSESSMENT FORM: INITIAL STUDY

**Environmental Assessment (E.A.) Number:** 41524  
**Project Case Type (s) and Number(s):** Agricultural Preserve Case No. 1011 and Plot Plan No. 23017  
**Lead Agency Name:** County of Riverside Planning Department  
**Address:** P.O. Box 1409, Riverside, CA 92502-1409  
**Contact Person:** Kinika Hesterly, Project Planner  
**Telephone Number:** (951) 955-1888  
**Applicant's Name:** Jim Carter  
**Applicant's Address:** 34843 Rancho California Rd, Temecula, CA 92591

### I. PROJECT INFORMATION

#### A. Project Description:

**Agricultural Preserve Case No. 1011** proposes the diminishment of the Rancho California Agricultural Preserve No. 12, Map No. 322. More specifically, the proposal is for the removal of 5.65 acres of Assessor's Parcel Number (APN) 943-230-001 from Rancho California Agricultural Preserve No. 12.

**Plot Plan No. 23017** proposes 21 buildings with 42 casitas totaling 35,160 square feet; a 5,800 square foot building for a winery and tasting room; and a 1,200 square foot building used for housekeeping and pool maintenance. The project includes 138 parking spaces. A farming operation with employee housing that includes four (4) mobile home dwelling units is also proposed.

The tasting room will be open daily from 10 a.m. to 6 p.m. 100 special occasions per year with 100 guests per occasion are proposed. Special occasions are proposed to occur from 10 a.m. to 10 p.m. Friday and Saturday and 10 a.m. to 9 p.m. Sunday through Thursday.

**B. Type of Project:** Site Specific ; Countywide ; Community ; Policy .

**C. Total Project Area:** 112.7 Gross Acres

<b>Residential Acres:</b>	<b>Lots:</b>	<b>Units:</b>	<b>Projected No. of Residents:</b>
<b>Commercial Acres:</b> 5.65	<b>Lots:</b>	<b>Sq. Ft. of Bldg. Area:</b>	<b>Est. No. of Employees:</b>
<b>Industrial Acres:</b>	<b>Lots:</b>	<b>Sq. Ft. of Bldg. Area:</b>	<b>Est. No. of Employees:</b>
<b>Other:</b> Agricultural: 107.03 Acres			

**D. Assessor's Parcel No:** 943-230-001

**E. Street References:** Northerly of Rancho California Road, easterly of Calle Contento and westerly of Anza Road

**F. Section, Township & Range Description or reference/attach a Legal Description:**  
Township 7 South, Range 2 West, Section 26 and Section 27

**1. Brief description of the existing environmental setting of the project site and its surroundings:** The proposed project site is located northeast and adjacent to the intersection of Newton Avenue and Rancho California Road in Riverside County,

approximately two miles east of the City of Temecula City limits. The project site is bounded on the west by Newton Avenue, to the south by Rancho California Road, to the east by an adjacent agricultural parcel (which is bordered by Anza Road), and to the north by two adjacent parcels utilized for agricultural and residential land use. The project site is currently designated for Agricultural (AG) and would be located in the Southwest Area Plan – Agriculture, Citrus Vineyard Rural Policy Area of the County of Riverside’s General Plan. The project site is comprised of two farmland designations consisting of Prime Farmland and Unique Farmland, and is zoned Citrus Vineyard (C/V-20). The project site is currently under a Williamson Act contract.

## II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

### A. General Plan Elements/Policies:

1. **Land Use:** The project implements Policy LU 4.1, requiring new developments to be located and designed to visually enhance, not degrade the character of the surrounding area. The proposed project is consistent with the Agriculture: Agriculture (AG) (10 Acre Minimum) land use designation and the Citrus Vineyard Rural Policy Area and all other applicable land use policies within the General Plan.
2. **Circulation:** The project is located adjacent to Rancho California Road. Adequate circulation facilities exist and will serve the proposed project upon approval of improvement plans. The proposed project meets with all applicable circulation policies of the General Plan.
3. **Multipurpose Open Space:** No natural open space land was required to be preserved within the boundaries of this project. The project is not within an MSHCP Criteria Area or cell. The proposed project meets with all other applicable Multipurpose Open Space element policies.
4. **Safety:** The proposed project has allowed for sufficient provision of emergency response services to the future residents of this project through the project design and payment of development impact fees. The proposed project meets with all other applicable Safety element policies.
5. **Noise:** Sufficient mitigation against any foreseeable noise sources in the area has been provided for in the design of the project. The proposed project meets all other applicable Noise element policies.
6. **Housing:** The project does not impact housing.
7. **Air Quality:** The proposed project has been conditioned to control any fugitive dust during grading and construction activities. The proposed project meets all other applicable Air Quality Element policies.

B. **General Plan Area Plan:** Southwest

C. **Foundation Component:** Agriculture (AG)

D. **Land Use Designation:** Agriculture (AG) (10 Acre Minimum)

E. **Overlay, if any:** Not applicable

F. Policy Area, if any: Citrus Vineyard Rural Policy Area

G. Adjacent and Surrounding Area Plan, Foundation Component, Land Use Designation, and Overlay and Policy Area, if any: Southwest Area Plan, Citrus Vineyard Rural Policy Area and Agriculture: Agriculture (AG: AG) (10 Acre Minimum) to the north, east, west and south

H. Adopted Specific Plan Information

1. Name and Number of Specific Plan, if any: Not applicable

2. Specific Plan Planning Area, and Policies, if any: Not applicable

I. Existing Zoning: Citrus Vineyard – 20 Acre Minimum (C/V-20)

J. Proposed Zoning, if any: Not applicable

K. Adjacent and Surrounding Zoning: Citrus Vineyard (C/V), Citrus Vineyard – 10 Acre Minimum (C/V-10) and Citrus Vineyard-20 Acre Minimum (CV-20)

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below ( x ) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.

- |  |  |  |
|--|--|--|
| <input type="checkbox"/> Aesthetics                      | <input type="checkbox"/> Hazards & Hazardous Materials | <input checked="" type="checkbox"/> Recreation               |

IV. DETERMINATION

On the basis of this initial evaluation:

**A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED**

I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. **A MITIGATED NEGATIVE DECLARATION** will be prepared.

I find that the proposed project **MAY** have a significant effect on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required.

**A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED**

I find that although the proposed project could have a significant effect on the environment, **NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED** because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative

Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have become feasible.

I find that although all potentially significant effects have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are necessary but none of the conditions described in California Code of Regulations, Section 15162 exist. An **ADDENDUM** to a previously-certified EIR or Negative Declaration has been prepared and will be considered by the approving body or bodies.

I find that at least one of the conditions described in California Code of Regulations, Section 15162 exist, but I further find that only minor additions or changes are necessary to make the previous EIR adequately apply to the project in the changed situation; therefore a **SUPPLEMENT TO THE ENVIRONMENTAL IMPACT REPORT** is required that need only contain the information necessary to make the previous EIR adequate for the project as revised.

I find that at least one of the following conditions described in California Code of Regulations, Section 15162, exist and a **SUBSEQUENT ENVIRONMENTAL IMPACT REPORT** is required: (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (2) Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any the following: (A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration; (B) Significant effects previously examined will be substantially more severe than shown in the previous EIR or negative declaration; (C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measures or alternatives; or, (D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR or negative declaration would substantially reduce one or more significant effects of the project on the environment, but the project proponents decline to adopt the mitigation measures or alternatives.

**V. ENVIRONMENTAL ISSUES ASSESSMENT**

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>AESTHETICS</b> Would the project				
<b>1. Scenic Resources</b>				
a) Have a substantial effect upon a scenic highway corridor within which it is located?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure C-9 "Scenic Highways"

Findings of Fact:

a) The proposed project includes the construction of a vineyard and associated winery, resort and spa located within an unincorporated area of the County of Riverside. The project would be constructed on a 112.7-acre site located approximately 2 miles east of the City of Temecula city limits, in the County of Riverside's wine country. The project area is not located adjacent to, or in the vicinity of a County Eligible, State Designated, or State Eligible Scenic Highway according to the Riverside County General Plan Figure C-9 "Scenic Highways" map. State Highway 79, a County Eligible Scenic Highway is located over 2½ miles south of the project site. Therefore, it can be concluded that the proposed project would have a less than significant impact upon a scenic highway corridor.

b) Currently the project site is mostly undeveloped with areas of disturbed open space. The site does not include any trees, rock outcrops or landmark features. In addition, there are no scenic vistas located within the project site. As a result, the proposed project would not likely impact any scenic resources. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>2. Mt. Palomar Observatory</b>				
a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: GIS database, Ord. No. 655 (Regulating Light Pollution)

Findings of Fact:

a) According to the County General Plan, the project site is located 16.37 miles away from the Mt. Palomar Observatory; which is within the designated 45-mile (ZONE B) Special Lighting Area that surrounds the Mt. Palomar Observatory. Ordinance No. 655 contains approved materials and methods of installation, definition, general requirements, requirements for lamp source and shielding, prohibition and exceptions. With incorporation of project lighting requirements of the Riverside County Ordinance No. 655 into the proposed project, this impact will be reduced to a less than significant impact (COA 10.PLANNING.31). Any project subject to Ordinance No. 655 will be conditioned for compliance; as this is not considered unique mitigation for the purposes of CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**3. Other Lighting Issues**

a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

b) Expose residential property to unacceptable light levels?

Source: On-site Inspection, Project Application Description

Findings of Fact:

a-b) The proposed project will introduce new sources of light which includes exterior building illumination. During the day, lighting has a limited potential to impacts views; potential impacts from glare would be the primarily occur from reflective building surfaces. However, the proposed project would not include large, uninterrupted expanses of glass and/or any other highly reflective material. Therefore, the proposed project will not result in substantial glares which would adversely affect the daytime views in the area.

Nighttime views could be impacted from new light and glare in a previously undeveloped area. The project will be required to comply with County Ordinance No. 655, which restricts lighting hours, types, and techniques of lighting. Ordinance No. 655 requires the use of low pressure sodium fixtures and requires hooded fixtures to prevent spillover light or glare. As a result, compliance with Ordinance No. 655 will reduce the potential impact to the surrounding residences to less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**AGRICULTURE & FOREST RESOURCES** Would the project

**4. Agriculture**

a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				
b) Conflict with existing agricultural zoning, agricultural use or with land subject to a Williamson Act contract or land within a Riverside County Agricultural Preserve?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 "Right-to-Farm")?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure OS-2 "Agricultural Resources," GIS database, and Project Application Materials.

Findings of Fact: Environmental Impact Report (EIR) No. 441, certified in conjunction with the adoption of the County's 2003 General Plan, found that there were no feasible mitigation measures or alternatives that could have satisfied the loss of Prime Farmland with Riverside County, and adopted findings of overriding considerations for the loss of Prime Farmland. The proposed project site includes areas designated as Prime Farmland and Unique Farmland and is located within Rancho California Agricultural Preserve No. 12, which is under a Williamson Act contract. Of the 112.7 acre property, approximately 69 acres are designated as Prime Farmland and approximately 44 acres are designated as Unique Farmland. Rancho California Agricultural Preserve No. 12 consists of 170.5 acres, with 112.68 acres located within the subject property. Agricultural Preserve Case No. 1011 was submitted requesting cancellation of the affected contract and diminishment of 5.65 acres from the boundaries of the agricultural preserve and subject property.

a) The Plot Plan component of this project proposes a winery/wine sampling facility, together with a 5.65 acre resort area. It has been determined that the resort component of the Plot Plan is not specifically compatible with the uses allowed within an Agricultural Preserve as established under the Uniform Rules for Agricultural Preserves in County Ordinance No. 509. The Agricultural Preserve component of this project proposed to cancel the Williamson Act contract and diminish the Rancho California Agricultural Preserve No. 12 for the 5.65 acre resort area. The resort component of the Plot Plan constitutes an alternative land use, as required by the Agricultural Preserve Cancellation/Diminishment.

Review of the project relative to the project site's Foundation/Land Use Designation of Agriculture showed the project does not conflict with any of the applicable policies; however, it has been determined that the project complies with, and implements, Policy 1.3 of Citrus/Vineyard Policy Area, which encourages incidental commercial uses in specific circumstances.

It is noted that the project will contribute to the cumulative incremental loss of farmland in the County; however, it will only cause an approximate 5% loss of Prime and Unique Farmland on the subject property and an approximate 3.3% reduction in Rancho California Agricultural Preserve No. 12. This minor loss in agricultural preserve land will help ensure that the balance of the 112.68 acre property remains in an economically viable agricultural use. Furthermore, it is determined that the project is consistent with the General Plan and will contribute to the economic benefit of the existing Citrus/Vineyard Policy Area and the proposed Temecula Valley Wine Country area because it will

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

provide additional overnight lodging for guests visiting the region who will likely spend money at the surrounding wineries and tasting rooms. The impact is considered less than significant.

b) The proposed resort, located within the subject 5.65 acres proposed to be diminished, is a commercial use provided for in the Citrus/Vineyard (C/V) zone classification; therefore, the project will not conflict with existing zoning. Agricultural Preserve Case No. 1011 was submitted requesting cancellation of the affected contract and diminishment of 5.65 acres from Rancho California Agricultural Preserve No. 12. A diminishment would allow commercial uses on 5.65 acres of land that would otherwise be prohibited in an agricultural preserve formed pursuant to the Williamson Act. A cancellation of the affected contract and diminishment of 5.65 acres from the boundaries of the agricultural preserve is proposed to be completed prior to the issuance of grading permits. The impact is considered less than significant.

c) Although the proposed project may cause development of non-agricultural uses within three hundred (300') feet of agriculturally zoned property, these uses are permitted in the C/V zone (subject to a plot plan) and ensure the long-term agricultural viability of the property and surrounding region. The proposed lodging facility, located within the subject 5.65 acres proposed to be diminished, is a commercial use allowed in the C/V zone. The impact is considered less than significant.

d) The project is not anticipated to involve other changes in the existing environment that could result in conversion of Farmland to a non-agricultural use. The project will facilitate the continued operation of the adjoining agricultural use by economically sustaining the agricultural operation and farmland through revenue generated by the commercial operation. In turn, this will contribute to the overall viability of the surrounding viticulture in the region. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<b>5. Forest</b>				
a) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g))?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of forest land or conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure OS-3 "Parks, Forests and Recreation Areas," and Project Application Materials.

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a-b) The project site and surrounding area have agricultural vegetation. Therefore the project will not conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g)). The project would not result in the loss of forest land or conversion of forest land to non-forest use.

c) The land uses surrounding the project site do not include active forest land. Therefore, the project will not result in the conversion of forest land to non-forest use. There will be no impact.

Mitigation: No mitigation is required.

Monitoring: No monitoring is required.

**AIR QUALITY** Would the project

**6. Air Quality Impacts**

a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: SCAQMD CEQA Air Quality Handbook Table 6-2

Findings of Fact:

Appendix G of the current State CEQA Guidelines indicates that a project will significantly impact air quality if the project violates any ambient air quality standard, contributes substantially to an existing air quality violation, or exposes sensitive receptors to substantial pollutant concentrations.

a) The project site is located in the South Coast Air Basin (SCAB). The South Coast Air Quality Management District (SCAQMD) Governing Board adopted its most recent Air Quality Management Plan (AQMP) for the SCAB on August 1, 2003. The AQMP is a plan for the regional improvement of air quality. As part of adoption of the County's General Plan in 2003, the General Plan EIR (SCH No. 2002051143) analyzed the General Plan growth projections for consistency with the AQMP and concluded that the General Plan is consistent with the SCAQMD's AQMP. The project is consistent with the County General Plan and would therefore be consistent with the SCAQMD's AQMP.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

b) & c) The South Coast Air Basin (SCAB) is in a non-attainment status for federal ozone standards, federal carbon monoxide standards, and state and federal particulate matter standards. Any development in the SCAB, including the proposed Project, would cumulatively contribute to these pollutant violations.

The project is consistent with the General Plan and the Southwest Area Plan land use designations. The General Plan (2003) is a policy document that reflects the County's vision for the future of Riverside County. The General Plan is organized into eight separate elements, including an Air Quality Element. The purpose of the Air Quality Element is to protect County residents from the harmful effects of poor air quality. The Air Quality Element identifies goals, policies, and programs that are meant to balance actions regarding land use, circulation, and other issues with their potential effects on air quality. The Air Quality Element, in conjunction with local and regional air quality planning efforts, addresses ambient air quality standards set forth by the Federal Environmental Protection Agency (EPA) and the California Air Resources Board (CARB). Potential air quality impacts resulting from the proposed Project would not exceed emissions projected by the Air Quality Element. The County is charged with implementing the policies in the General Plan Air Quality Element, which are focused on reducing concentrations of criteria pollutants, reducing negative impacts to sensitive receptors, reducing mobile and stationary pollutant sources, increasing energy conservation and efficiency, improving the jobs to housing balance, and facilitating multi-jurisdictional coordination for the improvement of air quality.

Implementation of the project would not impact air quality beyond the levels documented in EIR No. 441 prepared for the General Plan. The project would impact air quality in the short-term during construction and in the long-term through operation. Construction activities associated with the Project would result in emissions of carbon monoxide (CO), volatile organic gases (VOC), nitrogen dioxide (NOX), particulate sulfate (SOX) and particulate matter (PM10 and PM2.5). Construction emissions are expected from the use of construction equipment (including heavy diesel trucks) and fugitive dust (associated with site preparation and equipment travel on paved and unpaved roads). Construction emissions would occur in close proximity to the disturbance area, but some spillover into the surrounding community may occur. In accordance with standard county requirements, dust control measures and maintenance of construction equipment shall be utilized on the property to limit the amount of particulate matter generated. These are standard requirements and are not considered mitigation pursuant to CEQA.

The proposed project would primarily impact air quality through increased automotive emissions. Single projects typically do not generate enough traffic and associated air pollutants to violate clean air standards or contribute enough air pollutants to be considered a cumulatively considerable significant impact. Operational impacts associated with the project would be expected to result in emissions of VOC, NOX, CO, PM10, PM2.5 and SOX. Operational emissions would result from vehicle emissions, fugitive dust associated with vehicle travel, combustion emissions associated with natural gas use, emission related to electricity generation, and landscape equipment maintenance emissions. In the long term, emissions of VOC, NOX, CO, PM10 and PM2.5 and could exceed SCAQMD significance thresholds (in pounds per day). With compliance with standard requirements for use of low VOC paints and compliance with California Energy Commission Title 24 requirements for building energy efficiency, direct and cumulative air quality impacts would be reduced to a level below significance. These are standard requirements and are not considered mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

d) A sensitive receptor is a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant than is the population at large. Sensitive receptors (and the facilities that house them) in proximity to localized CO sources, toxic air contaminants or odors are of particular concern. High levels of CO are associated with major traffic sources, such as freeways and major intersections, and toxic air contaminants are normally associated with manufacturing and commercial operations. Land uses considered to be sensitive receptors include long-term health care facilities, rehabilitation centers, convalescent centers, retirement homes, residences, schools, playgrounds, child care centers, and athletic facilities. A winery is not considered a substantial point source emitter; therefore, the impact is considered less than significant.

e) Surrounding land uses do not include significant localized CO sources, toxic air contaminants, or odors. A winery is not considered a substantial point source emitter or a sensitive receptor.

f) The project will not create objectionable odors affecting a substantial number of people.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**BIOLOGICAL RESOURCES** Would the project

**7. Wildlife & Vegetation**

a) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

b) Have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12)?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------

c) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------

d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	-------------------------------------	--------------------------	--------------------------

e) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

f) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
interruption, or other means?				
g) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: GIS database, WRC-MSHCP and/or CV-MSHCP, On-site Inspection

Findings of Fact:

a) The project does not conflict with any adopted Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan. The project will have no impact.

b-d) Although the project could have a substantial adverse effect through habitat modifications or interference with a wildlife species, with mitigation (COA 60.EPD.1), the project is not anticipated to create an adverse impact.

e-g) The project will not have a substantial adverse effect on riparian habitat or sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service, or on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means. Also, the project is not anticipated to conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance. The project is anticipated to have a less than significant impact.

Mitigation: Within thirty (30) days prior to grading permit issuance, a pre-construction presence/absence survey for the burrowing owl shall be conducted by a qualified biologist and the results shall be provided in writing to the Environmental Programs Division per COA 60.EPD.1. The action taken by the Environmental Programs Division is dependent upon the outcome of the survey as detailed in this condition of approval.

Monitoring: Mitigation monitoring shall occur by the Environmental Programs Division during the building permit process.

**CULTURAL RESOURCES** Would the project

8. Historic Resources	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Alter or destroy an historic site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: On-site Inspection, Project Application Materials

Findings of Fact:

a) The project does not have existing structures or buildings on site. There will be no impact.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

b) The project will not cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**9. Archaeological Resources**

a) Alter or destroy an archaeological site.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Restrict existing religious or sacred uses within the potential impact area?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Project Application Materials

Findings of Fact:

a-c) The project is located in an area identified by the Pechanga Tribe as being high in cultural sensitivity. Native American monitoring is conditioned for all earthmoving activities involving the development. Both the Cultural Resources professional and tribal monitor shall have the authority to temporarily halt or divert grading traffic for the purpose of assessing and identifying potential cultural resources and/or human remains (COA 60.Planning.20 and 60.Planning.21). A final cultural resources report shall be submitted to the County of Riverside Planning Department as defined in COA 90.Planning.33. It is anticipated that archaeological and tribal monitoring will provide the ability to reduce the destruction or disturbance of an archaeological resource through identification and evaluation during grading. With mitigation, the project is anticipated to have a less than significant impact on an archaeological site and human remains located outside of formal cemeteries. In the event that inadvertent discoveries and/or human remains are identified, appropriate parties shall be notified as defined in COAs 10.Planning.1 and 10.Planning.2. The impact is anticipated to be less than significant with mitigation.

d) No known religious or sacred sites or uses occur within the project area. It is anticipated that there will be a less than significant impact to such resources.

Mitigation: Prior to the issuance of a grading permit, the permit holder shall retain and enter into agreement with a qualified tribal monitor from the Pechanga tribe and Cultural Resources professional for monitoring services during grading (COA 60.Planning.20 and COA 60.Planning.21). An cultural resources monitoring report shall be submitted to the County of Riverside Planning Department and Pechanga Tribe prior to final inspection (COA 90.Planning.33). If human remains are identified appropriate parties shall be notified as identified in COA 10.Planning.1 and 10.Planning.2 and applicable state law and the provisions of California Public Resources Code § 5097.98 shall apply.

Monitoring: Mitigation monitoring shall occur through the Building & Safety Plan Check Process.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>10. Paleontological Resources</b>				
a) Directly or indirectly destroy a unique paleontological resource, or site, or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Source:</u> Riverside County General Plan Figure OS-8 "Paleontological Sensitivity"				
<u>Findings of Fact:</u>				
a) According to GIS, the proposed project is located within an area of high paleontological sensitivity. The project has been conditioned to require a Paleontologist to monitor grading activity at the project site (COA.60.Planning.3). The condition is not considered unique mitigation.				
<u>Mitigation:</u> No mitigation measures are required.				
<u>Monitoring:</u> No monitoring measures are required.				
<b>GEOLOGY AND SOILS</b> Would the project				
<b>11. Alquist-Priolo Earthquake Fault Zone or County Fault Hazard Zones</b>				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<u>Source:</u> Riverside County General Plan Figure S-2 "Earthquake Fault Study Zones," GIS database, Geologist Comments, GEO02218				
<u>Findings of Fact:</u>				
a-b) The project site does not lie within a State of California Earthquake Fault Hazard Zone (formerly called an Alquist-Priolo Special Studies Zone). In addition, there are no active faults know to cross the site; therefore, the possibility of damage due to ground rupture is considered less than significant. The principal seismic hazard that could affect the site is ground shaking resulting from an earthquake occurring along several major active or potentially active faults in southern California. California Building Code (CBC) requirements pertaining to development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all development, they are not considered mitigation for CEQA implementation purposes.				
<u>Mitigation:</u> No mitigation measures are required.				
<u>Monitoring:</u> No monitoring measures are required.				
<b>12. Liquefaction Potential Zone</b>				
a) Be subject to seismic-related ground failure,	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

including liquefaction?

Source: Riverside County General Plan Figure S-3 "Generalized Liquefaction"

Findings of Fact:

a) The project site is located in an area with low potential for liquefaction. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**13. Ground-shaking Zone**

Be subject to strong seismic ground shaking?

Source: Riverside County General Plan Figure S-4 "Earthquake-Induced Slope Instability Map," and Figures S-13 through S-21 (showing General Ground Shaking Risk), GEO2218

Findings of Fact:

The project has been reviewed by the County Geologist and was not determined to be subject to strong seismic ground shaking. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**14. Landslide Risk**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, collapse, or rockfall hazards?

Source: On-site Inspection, Riverside County General Plan Figure S-5 "Regions Underlain by Steep Slope," GEO2218

Findings of Fact:

The project has been reviewed by the County Geologist and on- or off-site landslide potential is considered negligible and the potential for rockfall is low. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**15. Ground Subsidence**

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in ground subsidence?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan Figure S-7 "Documented Subsidence Areas Map," GEO02218

Findings of Fact:

The project site is susceptible to subsidence; however, the County Geologist did not conclude that subsidence would be a likely occurrence at the site. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**16. Other Geologic Hazards**

a) Be subject to geologic hazards, such as seiche, mudflow, or volcanic hazard?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

Source: On-site Inspection, Project Application Materials, GEO02218

Findings of Fact:

The potential for seiche and tsunami are considered low. Mudflow and volcanic hazards were not indicated as hazards by the County Geologist. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**17. Slopes**

a) Change topography or ground surface relief features?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

b) Create cut or fill slopes greater than 2:1 or higher than 10 feet?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

c) Result in grading that affects or negates subsurface sewage disposal systems?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riv. Co. 800-Scale Slope Maps, Project Application Materials

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a) Although the project will change topography or ground surface relief features, the site design will not create an unsafe topography or slopes greater than 2:1. The impact is considered less than significant.

b) A slope stability report shall be submitted and approved by the County Geologist for all proposed cut and fill slopes over 30 feet in vertical height, or cut slopes steeper than 2:1 (horizontal to vertical)-unless addressed in a previous report. Fill slopes shall not be steeper than 2:1 (horizontal to vertical) (COA 10.BS Grade.8). This is not considered unique mitigation for the purposes of CEQA.

c) The project will not result in grading that affects or negates subsurface sewage disposal systems according to the project design. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**18. Soils**

a) Result in substantial soil erosion or the loss of topsoil?

b) Be located on expansive soil, as defined in Section 1802.3.2 of the California Building Code (2007), creating substantial risks to life or property?

c) Have soils incapable of adequately supporting use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?

Source: U.S.D.A. Soil Conservation Service Soil Surveys, Project Application Materials, On-site Inspection

Findings of Fact:

a) The development of the project site may have the potential to result in soil erosion during grading and construction. Standard Conditions of Approval have been issued regarding soil erosion that will further ensure protection of public health, safety, and welfare upon final engineering of the project and are not considered mitigation for CEQA implementation purposes.

b) The project may be located on expansive soil; however, California Building Code (CBC) requirements pertaining to commercial development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all development, they are not considered mitigation for CEQA implementation purposes.

c) The project will not have soils incapable of adequately supporting use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Monitoring: No monitoring measures are required.

**19. Erosion**

a) Change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

b) Result in any increase in water erosion either on or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: U.S.D.A. Soil Conservation Service Soil Surveys

Findings of Fact:

a) Implementation of the proposed project will involve grading and various construction activities. Standard construction procedures, and federal, state and local regulations implemented in conjunction with the site's storm water pollution prevention plan (SWPPP) and its Best Management Practices (BMPs) required under the National Pollution Discharge System (NPDES) general construction permit, will minimize potential for erosion during construction. These practices will keep substantial amounts of soil material from eroding from the project site and prevent deposition within receiving waters located downstream. The project will have a less than significant impact.

b) The potential for on-site erosion will increase due to grading and excavating activities during the construction phase. However, BMPs will be implemented for maintaining water quality and reducing erosion. The project will have a less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>20. Wind Erosion and Blowsand from project either on or off site.</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

a) Be impacted by or result in an increase in wind erosion and blowsand, either on or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan Figure S-8 "Wind Erosion Susceptibility Map," Ord. No. 460, Article XV & Ord. No. 484

Findings of Fact:

a) The project site lies within a moderate area of wind erosion. The project will decrease the amount of exposed dirt, which is subject to wind erosion, with the incorporation of concrete, asphalt, and landscaping. No changes will be made on adjacent properties that would increase wind erosion offsite that would impact this project. Current levels of wind erosion on adjacent properties that would impact this site are considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**GREENHOUSE GAS EMISSIONS** Would the project

**21. Greenhouse Gas Emissions**

a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?

b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases?

Source:

Findings of Fact:

a) The proposed project will provide a 30.35% reduction in greenhouse gases from BAU 2020 conditions; therefore it will not generate greenhouse gas emissions, directly or indirectly, that may have a significant effect on the environment. The mitigation used to allow this reduction such as: water efficiency, energy conservation and recycling receptacles, are not considered unique mitigation pursuant to CEQA. The impact is considered less than significant.

b) As an extension of the anticipated existing development patterns, the proposed winery expansion will not conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases. The impact is considered less than significant.

Mitigation: No mitigation is required.

Monitoring: No monitoring is required.

**HAZARDS AND HAZARDOUS MATERIALS** Would the project

**22. Hazards and Hazardous Materials**

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?

b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?

c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan?

d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environ-

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

ment?

Source: Project Application Materials

Findings of Fact:

a-c) The project will not create a significant hazard to the public or environment through the routine transport, use, or disposal of hazardous materials, or through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment. Conditions of approval have been added to the project requiring the review of hazardous materials by the Riverside County Environmental Health Department (COA 90.E Health.1 and COA 90.E Health.2). These are standard conditions of approval and not considered unique for the purposes of CEQA. Also, the project will not impair implementation of or physically interfere with an adopted emergency response or evacuation plan.

d) The project is located within ¼ mile of proposed school and could emit or handle hazardous emissions or waste within ¼ mile of a school; however, the project is regulated by the Riverside County Agricultural Commissioner's office to spray pesticides only when school is not in session. The proposed school will be conditioned to cooperate with all wineries within a ¼ of a mile radius from the school regarding school session times and the scheduled application of foliar pesticides.

e) The project will not be located on a site that is included on a list of hazardous material sites compiled pursuant to Government Code Section 65962.5. The project will have a less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring is required.

**23. Airports**

a) Result in an inconsistency with an Airport Master Plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Require review by the Airport Land Use Commission?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) For a project within the vicinity of a private airstrip, or heliport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure S-19 "Airport Locations," GIS database

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

(a) The project site is not located within the vicinity of any public or private airport; therefore, the project will not result in an inconsistency with an Airport Master Plan.

(b) The project site is not located within the vicinity of any public or private airport; therefore will not require review by the Airport Land Use Commission.

(c) The project is not located within an airport land use plan and would not result in a safety hazard for people residing or working in the project area.

(d) The project is not within the vicinity of a private airstrip, or heliport and would not result in a safety hazard for people residing or working in the project area.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**24. Hazardous Fire Area**

a) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan Figure S-11 "Wildfire Susceptibility," GIS database

Findings of Fact:

a) According to the General Plan, the proposed project site is not located within a hazardous fire area. The proposed project will not expose people or structures to a significant risk of loss, injury or death involving wild land fires, including where wild lands are adjacent to urbanized areas or where residences are intermixed with wild lands. The project will have a less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**HYDROLOGY AND WATER QUALITY** Would the project

**25. Water Quality Impacts**

a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

b) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

c) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?				
d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors or odors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County Flood Control District Flood Hazard Report/Condition.

Findings of Fact:

The site lies along a ridge with virtually no offsite runoff tributary to it. The site naturally drains in numerous directions. The developer proposes to perpetuate the existing drainage patterns of the area. The project includes approximately 7 acres of development (of which approximately 5 acres is impervious), representing a proportionally small percentage of the overall 112 acre property. Additionally, the resort is centered within the property and surrounded by the existing vineyard and olive grove which lends itself for spreading storm runoff before storm runoff leaves the site. The proposed development of this site would adversely impact water quality. To mitigate for these impacts, filtration trenches and a pea gravel parking area are proposed. The Riverside County Flood Control District has reviewed the exhibit and Water Quality Management Plan (WQMP) (received October 4, 2010). The submittal reflects the general drainage and water quality plan for the development and is considered adequate in meeting the requirements for the development review process. However, filtration trenches along the southeast portion of the site may be required to provide as much as two (2) times as the currently proposed surface area. Additionally, the design of the pea gravel parking area may be required to be redesigned, both of which can be addressed in the plan check stage. Modification of the BMPs shall be designed in accordance with the Riverside County Stormwater Best Management Practice Design Handbook. The proposed filtration trenches along and within Newton Avenue right-of-way will be privately maintained. The Riverside County Flood Control District understands that Newton Avenue will be privately maintained by the winery.

a) The project is not anticipated to substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site. The impact is considered less than significant.

b-c) The project is not anticipated to violate any water quality standards or waste discharge requirements or substantially deplete groundwater supplies or interfere substantially with groundwater

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level. There will be no impact.

d) The project is not anticipated to create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff. As such, the impact is considered less than significant.

e-f) The project will not place housing or structures in a 100-year flood plain. There will be no impact.

g) The project is not anticipated to degrade water quality. The impact is considered less than significant.

h) The project does not include new or retrofitted stormwater treatment Control Best Management Practices (BMPs), the operation of which could result in significant environmental effects. There will be no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

## 26. Floodplains

Degree of Suitability in 100-Year Floodplains. As indicated below, the appropriate Degree of Suitability has been checked.

NA - Not Applicable

U - Generally Unsuitable

R - Restricted

a) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?

b) Changes in absorption rates or the rate and amount of surface runoff?

c) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam (Dam Inundation Area)?

d) Changes in the amount of surface water in any water body?

Source: Riverside County General Plan Figure S-9 "100- and 500-Year Flood Hazard Zones," Figure S-10 "Dam Failure Inundation Zone," Riverside County Flood Control District Flood Hazard Report/Condition, GIS database

### Findings of Fact:

The site lies along a ridge with virtually no offsite runoff tributary to it. The site naturally drains in numerous directions. The developer proposes to perpetuate the existing drainage patterns of the area. The project includes approximately 7 acres of development (of which approximately 5 acres is impervious), representing a proportionally small percentage of the overall 112 acre property.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Additionally, the resort is centered within the property and surrounded by the existing vineyard and olive grove which lends itself for spreading storm runoff before storm runoff leaves the site. The proposed development of this site would adversely impact water quality. To mitigate for these impacts, filtration trenches and a pea gravel parking area are proposed.

The Riverside County Flood Control District has reviewed the exhibit and Water Quality Management Plan (WQMP) (received October 4, 2010). The submittal reflects the general drainage and water quality plan for the development and is considered adequate in meeting the requirements for the development review process. However, filtration trenches along the southeast portion of the site may be required to provide as much as two (2) times as the currently proposed surface area. Additionally, the design of the pea gravel parking area may be required to be redesigned, both of which can be addressed in the plan check stage. Modification of the BMPs shall be designed in accordance with the Riverside County Stormwater Best Management Practice Design Handbook.

The proposed filtration trenches along and within Newton Avenue right-of-way will be privately maintained. The Riverside County Flood Control District understands that Newton Avenue will be privately maintained by the winery.

a-b) The project did not require a floodplain review and therefore, is not anticipated to substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on or off-site, or change absorption rates or the rate and amount of surface runoff. The impact is considered less than significant.

c) The project is not anticipated to create flooding that would expose people or structures to a significant risk of loss, injury or death, including flooding as a result of the failure of a levee or dam (Dam Inundation Area). No impact is anticipated.

d) The project is not anticipated to create runoff that would change the amount of surface water in any water body. There will be no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**LAND USE/PLANNING** Would the project

**27. Land Use**

a) Result in a substantial alteration of the present or planned land use of an area?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Affect land use within a city sphere of influence and/or within adjacent city or county boundaries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan, GIS database, Project Application Materials

Findings of Fact:

a) The project site is located on a 112 acre site in the County of Riverside's Citrus Vineyard Rural Policy Area, which was established to ensure the continuation of the rural lifestyle and wine

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

production in southwestern Riverside County. The project site is located within the Agricultural Foundation and the Agriculture Land Use designation, which was established to help conserve productive agricultural lands, including uses such as row crops, nurseries, dairies, ranches, poultry, and other agricultural related uses. The project is zoned Citrus Vineyard (C/V), which allows limited incidental commercial uses such as wine sales, sampling rooms, restaurants, delicatessens, bed and breakfast inns and hotels when they are secondary and directly related to the agricultural operation. The proposed project would include uses consistent with the existing land use designation and zoning classification. Therefore, the impact is considered less than significant.

(b) The project site is not located within a city sphere of influence.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**28. Planning**

a) Be consistent with the site's existing or proposed zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Be compatible with existing surrounding zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Be compatible with existing and planned surrounding land uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Be consistent with the land use designations and policies of the General Plan (including those of any applicable Specific Plan)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Land Use Element, Staff review, GIS database

Findings of Fact:

a) Citrus Vineyard (C/V), which allows limited incidental commercial uses such as wine sales, sampling rooms, restaurants, delicatessens, bed and breakfast inns, hotels and hotels when they are secondary and directly related to the agricultural operation. The proposed project would include the construction of casitas and a winery facility which is permitted within the Citrus Vineyard (C/V) zone; therefore, the project would be consistent with the existing zoning classification. Therefore, the impact is less than significant.

b) The project site is surrounded by properties which are zoned Citrus Vineyard (C/V), Citrus Vineyard – 10 Acre Minimum (C/V-10) and Citrus Vineyard-20 Acre Minimum (CV-20). The proposed project is compatible with the surrounding zoning. Therefore, the impact is considered less than significant.

c) Surrounding land uses include scattered single family residences and vacant land to the west and north, Faulkner winery and Calvary Chapel Church to the west, vacant land to the east and Skate Ranch and orchards to the south.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

d) The project site is located on a 112 acre site in the County of Riverside's Citrus Vineyard Rural Policy Area, which was established to ensure the continuation of the rural lifestyle and wine production in southwestern Riverside County. The project is located within the Agriculture (AG) (10 Acre Minimum) land use designation, which includes uses such as row crops, nurseries, dairies, ranches, poultry, and other agricultural related uses. The project is zoned Citrus Vineyard (CV), which allows limited incidental commercial uses such as wine sales, sampling rooms, restaurants, delicatessens, bed and breakfast inns and hotels when they are secondary and directly related to the agricultural operation. The project is consistent with the Citrus Vineyard Rural Policy Area policies and design guidelines and all other applicable policies of the Southwest Area Plan. The project is not located within a Specific Plan. Therefore, the impact is considered less than significant.

(e) The proposed project will not disrupt or divide any existing community. The impact is less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**MINERAL RESOURCES** Would the project

**29. Mineral Resources**

a) Result in the loss of availability of a known mineral resource that would be of value to the region or the residents of the State?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or property to hazards from proposed, existing or abandoned quarries or mines?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure OS-5 "Mineral Resources Area"

Findings of Fact:

a) The project site is within MRZ-3, which is defined as areas where the available geologic information indicates that mineral deposits are likely to exist; however, the significance of the deposit is undetermined.

The General Plan identifies policies that encourage protections for existing mining operations and for appropriate management of mineral extraction. A significant impact that would constitute a loss of availability of a known mineral resource would include unmanaged extraction or encroach on existing extraction. No existing or abandoned quarries or mines exist in the area surrounding the project site. The project does not propose any mineral extraction on the project site. Any mineral resources on the project site will be unavailable for the life of the project; however, the project will not result in the permanent loss of significant mineral resources.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

b) The project will not result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State. The project will not result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan.

c) The project will not be an incompatible land use located adjacent to a State classified or designated area or existing surface mine.

d) The project will not expose people or property to hazards from proposed, existing or abandoned quarries or mines.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**NOISE** Would the project result in

**Definitions for Noise Acceptability Ratings**

Where indicated below, the appropriate Noise Acceptability Rating(s) has been checked.

NA - Not Applicable

A - Generally Acceptable

B - Conditionally Acceptable

C - Generally Unacceptable

D - Land Use Discouraged

**30. Airport Noise**

a) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport would the project expose people residing or working in the project area to excessive noise levels?

NA  A  B  C  D

b) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?

NA  A  B  C  D

Source: Riverside County General Plan Figure S-19 "Airport Locations," County of Riverside Airport Facilities Map

Findings of Fact:

a) The project site is not located within an airport land use plan or within two miles of a public airport or public use airport that would expose people residing on the project site to excessive noise levels.

b) The project is not located within the vicinity of a private airstrip that would expose people residing on the project site to excessive noise levels.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**31. Railroad Noise**

NA  A  B  C  D

Source: Riverside County General Plan Figure C-1 "Circulation Plan", GIS database, On-site Inspection

Findings of Fact: The project site is not located adjacent to a rail line. No impacts will occur as a result of the proposed project.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**32. Highway Noise**

NA  A  B  C  D

Source: On-site Inspection, Project Application Materials

Findings of Fact: The project site is not located adjacent to or near any highways. No impacts will occur as a result of the proposed project.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**33. Other Noise**

NA  A  B  C  D

Source: Project Application Materials, GIS database

Findings of Fact: No other noise is anticipated to impact the project.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**34. Noise Effects on or by the Project**

a) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?

b) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?

c) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

or noise ordinance, or applicable standards of other agencies?

d) Exposure of persons to or generation of excessive ground-borne vibration or ground-borne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan, Table N-1 ("Land Use Compatibility for Community Noise Exposure"); Project Application Materials

Findings of Fact:

a) The proposed winery operation will not cause a substantial permanent increase in ambient noise levels beyond what is allowed in Riverside County Noise Ordinance No. 847 because the project has been conditioned for noise monitoring reports and restrict exterior noise levels (COA 10.Planning.23 10.Planning.24). These are standard conditions of approval and not considered unique for CEQA mitigation purposes. The impact is considered less than significant.

b) Through adherence to County Ordinance No. 847, equipment used to pave the parking area shall be limited to daylight hours. The impact is considered less than significant.

c) The proposed winery operation will not cause a substantial permanent increase in ambient noise levels beyond what is allowed in Riverside County Noise Ordinance No. 847 because the project has been conditioned for noise monitoring reports and restrict exterior noise levels to those allowed with the noise ordinance (COA 10.Planning.23 and 10.Planning.24). These are standard conditions of approval and not considered unique for CEQA mitigation purposes. The impact is considered less than significant.

d) The project is not anticipated to expose any person to excessive ground-borne vibration or ground-borne noise levels. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**POPULATION AND HOUSING** Would the project

**35. Housing**

a) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

b) Create a demand for additional housing, particularly housing affordable to households earning 80% or less of the County's median income?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

d) Affect a County Redevelopment Project Area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

e) Cumulatively exceed official regional or local population projections?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

f) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Project Application Materials, GIS database, Riverside County General Plan Housing Element

Findings of Fact:

- a) The project site is currently vacant; therefore, the proposed project will not displace substantial numbers of people, necessitating the construction of replacement housing elsewhere. There will be no impact.
- b) The project may create employment opportunities, but not substantial enough to create a demand for additional housing. There will be no impact.
- c) The project will not displace substantial numbers of people, necessitating the construction of replacement housing elsewhere. There will be no impact.
- d) The project is not located within or near a County Redevelopment Project Area. There will be no impact.
- e) The project is consistent with the general plan land use designation of the site. The project will not cumulatively exceed official regional or local population projections. There will be no impact.
- f) The project will not induce substantial population growth in an area. There will be no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**PUBLIC SERVICES** Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

**36. Fire Services**

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan Safety Element

Findings of Fact:

The project area is serviced by the Riverside County Fire Department. Any potential significant effects will be mitigated by the payment of standard fees to the County of Riverside. The project will not directly physically alter existing facilities or result in the construction of new facilities. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards. The project shall comply with County Ordinance No. 659 to

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

mitigate the potential effects to fire services (COA 90.PLANNING.32). This is a standard condition of approval and pursuant to CEQA is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**37. Sheriff Services**

Source: Riverside County General Plan

Findings of Fact:

The proposed area is serviced by the Riverside County Sheriff's Department. The proposed project would not have an incremental effect on the level of sheriff services provided in the vicinity of the project area. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. The project shall comply with County Ordinance No. 659 to mitigate the potential effects to sheriff services (COA 90.PLANNING.32). This is a standard condition of approval and pursuant to CEQA, is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**38. Schools**

Source: Temecula Valley Unified School District correspondence, GIS database

Findings of Fact:

The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The proposed project is located within the Temecula Valley Unified School District. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. This project has been conditioned to comply with School Mitigation Impact fees in order to mitigate the potential effects to school services (COA 80.PLANNING.19). This is a standard condition of approval and pursuant to CEQA is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**39. Libraries**

Source: Riverside County General Plan

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Findings of Fact: The proposed project will not create a significant incremental demand for library services. The project will not require the provision of new or altered government facilities at this time. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards. This project shall comply with County Ordinance No. 659 to mitigate the potential effects to library services (COA 90.PLANNING.32). This is a standard condition of approval and pursuant to CEQA is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>40. Health Services</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
----------------------------	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Riverside County General Plan

Findings of Fact:

In the event of an emergency, employees of the proposed project may access several hospitals located within the service parameters of County health centers. Because the project involves business development, the demand for health services will remain relatively constant over time. Because the project is located within the service area of several health care facilities, the project impacts are considered to be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**RECREATION**

<b>41. Parks and Recreation</b>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---------------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

a) Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

b) Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

c) Is the project located within a Community Service Area (CSA) or recreation and park district with a Community Parks and Recreation Plan (Quimby fees)?

Source: GIS database, Ord. No. 460, Section 10.35 (Regulating the Division of Land – Park and Recreation Fees and Dedications), Ord. No. 659 (Establishing Development Impact Fees), Parks & Open Space Department Review

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a) & b) The proposed winery will not require the construction or expansion of recreational facilities. Therefore, no impacts associated with recreational facilities are anticipated.

c) The project site is located within County Service Area (CSA) No. 149A, which is a maintenance district for streets and roadways within the Temecula Valley Wine Country. The project has been conditioned for the payment of development impact fees and CSA No. 149A (COA 90.PLANNING.34). This is a standard condition of approval for all wineries and is not considered unique mitigation pursuant to CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**42. Recreational Trails**

Source: Riv. Co. 800-Scale Equestrian Trail Maps, Open Space and Conservation Map for Western County trail alignments

Findings of Fact:

The project is required to design and construct a 20 foot regional trail within an easement along the northerly side of Rancho California Road, as required by the Riverside County Parks Department.

Mitigation: Prior to the issuance of a grading permit, a trails plan shall be submitted to Riverside County Parks and Recreation Department (COA 60.Parks.1) and prior to final building permit final inspection, the trail shall be constructed (COA 90.Parks.1).

Monitoring: Monitoring shall occur by the Parks Department during the Building and Safety plan check process.

**TRANSPORTATION/TRAFFIC** Would the project

**43. Circulation**

a) Conflict with an applicable plan, ordinance or policy establishing a measure of effectiveness for the performance of the circulation system, taking into account all modes of transportation, including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?

b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?

c) Result in a change in air traffic patterns, including

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
either an increase in traffic levels or a change in location that results in substantial safety risks?				
d) Alter waterborne, rail or air traffic?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f) Cause an effect upon, or a need for new or altered maintenance of roads?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Cause an effect upon circulation during the project's construction?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h) Result in inadequate emergency access or access to nearby uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i) Conflict with adopted policies, plans or programs regarding public transit, bikeways or pedestrian facilities, or otherwise substantially decrease the performance or safety of such facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan

Findings of Fact:

a) The project will not conflict with an applicable circulation plan, ordinance or policy establishing a measure of effectiveness for the performance of the circulation system. The impact is considered less than significant.

b) The project will not conflict with an applicable congestion management program or other standards established by the county congestion management agency for designated roads or highways. The impact is considered less than significant.

c-d) The project is not located in an airport influence area and will not result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks. The project will not alter waterborne, rail or air traffic. There will be no impact.

e) The project's design will not substantially increase hazards due to a design feature such as a sharp curves or dangerous intersections. The project is located in the Citrus Vineyard (C/V) zone and Citrus Vineyard Rural Policy Area which allow agricultural uses in conjunction with commercial uses; therefore, the project will not cause incompatible uses with items such as farm equipment. The impact is considered less than significant.

f-g) The project has been conditioned to make improvements to Newton Road and Rancho California Road, as well as pay a fair share contribution towards roundabouts on Rancho California Road. The impact is considered less than significant with mitigation.

h-i) The project is not anticipated to result in inadequate emergency access or access to nearby uses, nor conflict with adopted policies, plans or programs regarding public transit, bikeways or pedestrian facilities, or otherwise substantially decrease the performance or safety of such facilities. The impact will be less than significant.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Mitigation:** The project is required to maintain Newton Road, improve Newton and Rancho California Road and pay a fair share contribution for roundabouts at the Anza Road and Rancho California Road intersection (COAs 20.Trans.1, 90.Trans.5, 90.Trans.6, 90.Trans.7 and 90.Trans.8).

**Monitoring:** Mitigation monitoring will occur by the Transportation Department during the Building and Safety Plan Check Process, the construction of the facility and resort, and prior to occupancy of said buildings.

**44. Bike Trails**

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

**Source:** Riverside County General Plan

**Findings of Fact:** The General Plan does not identify any bike trails located along Rancho California Road; therefore, there will be no impacts to recreational trails.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

**UTILITY AND SERVICE SYSTEMS** Would the project

**45. Water**

a) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

b) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

**Source:** Department of Environmental Health Review

**Findings of Fact:**

a) The project will be served by Rancho California Water District (RCWD) pursuant to the arrangement of financial agreements. The project will not physically alter existing facilities. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. Therefore, the impact is considered less than significant.

b) The project will have sufficient water supplies available to serve the project by Rancho California Water District (RCWD) pursuant to the arrangement of financial agreements. Therefore, the impact is considered less than significant.

**Mitigation:** No mitigation measures are required.

**Monitoring:** No monitoring measures are required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
<b>46. Sewer</b>				
a) Require or result in the construction of new wastewater treatment facilities, including septic systems, or expansion of existing facilities, the construction of which would cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Result in a determination by the wastewater treatment provider that serves or may service the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Department of Environmental Health Review

Findings of Fact:

a-b) The project proposes to use septic systems but has been required to connect to sewer when it becomes available. These are standard conditions of approval for commercial projects in this area and not considered unique mitigation for purposes of CEQA. The project will have a less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

<b>47. Solid Waste</b>				
a) Is the project served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Does the project comply with federal, state, and local statutes and regulations related to solid wastes including the CIWMP (County Integrated Waste Management Plan)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan, Riverside County Waste Management District correspondence

Findings of Fact:

a-b) According to the Riverside County Waste Management Department, the proposed project has the potential to impact landfill capacity from the generation of solid waste during construction. The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**48. Utilities**

Would the project impact the following facilities requiring or resulting in the construction of new facilities or the expansion of existing facilities; the construction of which could cause significant environmental effects?

a) Electricity?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Natural gas?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Communications systems?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Storm water drainage?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Street lighting?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f) Maintenance of public facilities, including roads?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Other governmental services?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source:

Findings of Fact:

a-h) Implementation of the project will result in an incremental system capacity demand for energy systems, communication systems, storm water drainage systems, street lighting systems, maintenance of public facilities, including roads and potentially other governmental services. Each of the utility systems, including collection of solid waste, is available at the project site and lines will have to be extended onto the site, which will already be disturbed by grading and other construction activities. These impacts are considered less than significant based on the availability of existing public facilities that support local systems. The project will not conflict with adopted energy conservation plans.

Compliance with the requirements of Southern California Edison, Eastern Municipal Water District, Verizon, Riverside County Flood Control and Riverside County Transportation Department will ensure that potential impacts to utility systems are reduced to a non-significant level.

Based on data available at this time, no offsite utility improvements will be required to support this project, other than improvement of local roadways. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**49. Energy Conservation**

a) Would the project conflict with any adopted energy conservation plans?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source:

Findings of Fact: The project will not conflict with any energy conservation plan. The impact is considered less than significant.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**OTHER**

50. Other:

Source: Staff review

Findings of Fact:

The project is not anticipated to create other impacts.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

**MANDATORY FINDINGS OF SIGNIFICANCE**

51. Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?

Source: Staff review, Project Application Materials

Findings of Fact: Implementation of the proposed project would not substantially degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife populations to drop below self-sustaining levels, threaten to eliminate a plant or animal community, or reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.

52. Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, other current projects and probable future projects)?

Source: Staff review, Project Application Materials

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

**Findings of Fact:** The project does not have impacts which are individually limited, but cumulatively considerable.

**53.** Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?

**Source:** Staff review, project application

**Findings of Fact:** The proposed project would not result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.

**VI. EARLIER ANALYSES**

Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration as per California Code of Regulations, Section 15063 (c) (3) (D). In this case, a brief discussion should identify the following:

Earlier Analyses Used, if any: N/A

Y:\Planning Case Files-Riverside office\PP23017\Hearing Docs\EA.PP23017 redline-strikeout.docx

**NOTICE OF PUBLIC HEARING BEFORE THE BOARD OF SUPERVISORS OF RIVERSIDE COUNTY ON THE DIMINISHMENT OF RANCHO CALIFORNIA AGRICULTURAL PRESERVE NO. 12 IN THE RANCHO CALIFORNIA AREA, THIRD SUPERVISORIAL DISTRICT AND NOTICE OF INTENT TO ADOPT A MITGATED NEGATIVE DECLARATION**

NOTICE IS HEREBY GIVEN that a public hearing at which all interested persons will be heard, will be held before the Board of Supervisors of Riverside County, California, on the 14<sup>th</sup> Floor, County Administrative Center, 4080 Lemon Street, Riverside, on August 28, 2012 at 11:30 A.M. submitted by James A. Carter, Trustee of the Carter Family Trust, on Agricultural Preserve Case No. 1011 which proposes to diminish Rancho California Agricultural Preserve No. 12, Map No. 322, as amended, on property located northerly of Rancho California Road, easterly of Newton Avenue, westerly of Anza Road and southerly of Vino Way.

The Planning Department has found that approval of the proposed project will not have a significant effect on the environment and has recommended the adoption of a mitigated negative declaration.

The proposed project case file, and related negative declaration, may be viewed from the date of this notice until the public hearing, Monday through Thursday, from 8:00 a.m. to 5:00 p.m. at the Clerk of the Board of Supervisors at 4080 Lemon Street, 1<sup>st</sup> Floor, Riverside, California 92501 and at the Central Files Division of Riverside County Planning Department at 4080 Lemon Street, 12<sup>th</sup> Floor, Riverside, California 92501.

FOR FURTHER INFORMATION REGARDING THIS PROJECT, PLEASE CONTACT HALIMAH SHENGHUR, PROJECT PLANNER, AT 951-955-3250.

Any person wishing to testify in support of, or in opposition to, the proposed project or the proposed negative declaration may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on the proposed project or negative declaration.

If you challenge the above item in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence to the Board of Supervisors at, or prior to the public hearing. Be advised that, as a result of public hearings and the consideration of all public comment, written and oral, the Board of Supervisors may amend, in whole or in part, the proposed project and/or the related environmental document. Accordingly, the designations, development standards, design or improvements, or any properties or lands within the boundaries of the proposed project may be changed in a way other than specifically proposed.

Please send all written correspondence to:

Clerk of the Board  
4080 Lemon Street, 1st Floor  
Post Office Box 1147  
Riverside, CA 92502-1147

**PROPERTY OWNERS CERTIFICATION FORM**

I, VINNIE NGUYEN, certify that on 8/2/2012,

The attached property owners list was prepared by Riverside County GIS,

APN (s) or case numbers AG01011 For

Company or Individual's Name Planning Department,

Distance buffered 5280'.

Pursuant to application requirements furnished by the Riverside County Planning Department, Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

*Address*

The project site is located northerly of Rancho California Road, easterly of Calle Contento and westerly of Anza Road.

*Project Location*

Agricultural Preserve Case No. 1011 (AG01011) is a request to diminish Rancho California Agricultural Preserve No. 12, Map No. 322, and cancel a portion of the land conservation contract as it applies to 5.65 acres of the subject site. The plot plan proposes 21 buildings with 42 casitas totaling 35,160 square feet; a 5,800 square foot building for a winery and tasting room; and a 1,200 square foot building used for housekeeping and pool maintenance. The project includes 138 parking spaces. A farming operation with employee housing that includes four (4) mobile home dwelling units is also proposed. The tasting room will be open daily from 10 a.m. to 6 p.m. 100 special occasions per year with 100 guests per occasion are proposed. Special occasions are proposed to occur from 10 a.m. to 10 p.m. Friday and Saturday and 10 a.m. to 9 p.m. Sunday through Thursday.

*Project Description*

To advise that the Riverside County Board of Supervisors, as the lead agency, has approved the above-referenced project on August 28, 2012, and has made the following determinations regarding that project:

1. The project WILL NOT have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act (\$2,101.50 + \$64.00).
3. Mitigation measures WERE NOT made a condition of the approval of the project.
4. A Mitigation Monitoring and Reporting Plan/Program WAS NOT adopted.
5. A statement of Overriding Considerations WAS NOT adopted for the project.

This is to certify that the Mitigated Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 4080 Lemon Street, 12th Floor, Riverside, CA 92501.

MINUTES OF THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

16.2

11:30 a.m. being the time set for public hearing on the recommendation from Transportation & Land Management Agency/Planning regarding the Public Hearing on Agricultural Preserve Case No. 1011/ Environmental Assessment No. 41524 – Jim Carter – Engineer/Representative: Hunsaker & Associates – Rancho California Zoning Area – Southwest Area Plan – 3<sup>rd</sup> District. Recommend Adoption of Mitigated Negative Declaration for Environmental Assessment No. 41524; Adoption of Resolution 2012-146, Approving Agricultural Preserve Case No. 1011 which proposes to diminish the Rancho California Agricultural Preserve No. 12 and cancel the associated land conservation contract on a portion of the site consisting of 5.65 acres.

On motion of Supervisor Stone, seconded by Supervisor Tavaglione and duly carried by unanimous vote, IT WAS ORDERED that the above matter is continued to Tuesday, October 2, 2012 at 11:30 a.m.

16.2 10/2/12

49

I hereby certify that the foregoing is a \_\_\_\_\_, and correct copy of an order made and entered on September 25, 2012 of Supervisors Minutes.

WITNESS my hand and the seal of the Board of Supervisors  
Dated: September 25, 2012  
Kecia Harper-Ihem, Clerk of the Board of Supervisors, in  
and for the County of Riverside, State of California.
