Section 57384 (c) of the Government Code.

5. Approve and direct the Auditor-Controller to make the budget adjustments as shown below.

Increase Estimated Revenues:

Increase Appropriations:

31692-3130500000-537280 Interfund Exp-Misc Project Exp \$223,450

**BACKGROUND:** By Minute Order dated August 28, 2012 (Agenda Item 3.101), the Board of Supervisors authorized the Clerk of the Board to advertise for the construction of Traffic Signal modifications and roadway widening at the intersection of Limonite Avenue and Etiwanda Avenue, in the City of Jurupa Valley. The specifications and plans were approved by that Board of Supervisors' action.

Bids for the project were opened in the office of the Director of Transportation and Land Management at 2:00 PM, Wednesday, September 19, 2012. Seven bids were received, ranging from \$354,450 to \$484,000. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by Hillcrest Contracting, Inc. of Corona in the amount of \$354,450, which is \$63,380 (15%) below the Engineer's Estimate.

Funds were budgeted and design was underway prior to incorporation of the City of Jurupa Valley. The City of Jurupa Valley desires for the County to continue as lead agency through project completion and they have approved the construction drawings. The City of Jurupa Valley will maintain the signal after completion.

The proposed project will increase traffic capacity and improve traffic safety. In addition to the signal modification, the proposed improvements include widening of the north side of Limonite Avenue east of Etiwanda Avenue to convert an existing westbound right turn lane into a through lane, which will increase capacity and reduce delay at the intersection. Other improvements consist of a raised median on the east leg that will reduce conflicts by prohibiting left-turning movements near the intersection, sidewalk, and ADA conforming access ramps at all four corners of the intersection.

The construction of this signal project will be funded by the Development Impact Fee (DIF) program, which is governed under Ordinance 659.6 and allows for the use of DIF funds for traffic signal facilities.

The project is expected to be completed within the existing budget as shown on Attachment A.

The contractor is qualified to perform the work as outlined in the bid, and has executed the contract and provided performance and payment bonds which meet the requirements of the contract.
