

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

507A

FROM: Agricultural Commissioner's Office

SUBMITTAL DATE:
April 3, 2012

SUBJECT: USDA Cooperative Agreement No. 12-8506-0652-CA Providing for Glassy-Winged Sharpshooter Treatments in the Coachella and Temecula Valleys.

RECOMMENDED MOTION: That the Board of Supervisors:

- 1) Approve USDA Cooperative Agreement No.12-8506-0652-CA in the amount of \$250,000; and
- 2) Authorize the chairman to sign the agreement.

BACKGROUND: Agricultural production in the Coachella and Temecula Valleys contributes an estimated \$2.3 billion to the local and regional economy. Among the assortment of agricultural commodities produced in these regions, table grapes and wine grapes alone represent approximately 15% of this economic contribution, with about 11,000 planted acres.

Unfortunately, Pierce's Disease, a bacterial disease that is fatal to grapevines, has been detected on a limited basis within these Valleys. The presence of Pierce's Disease, in combination an efficient insect vector called the Glassy-Winged Sharpshooter, present a serious threat to the continued viability of grape farming in Riverside County.

This agreement represents the eleventh year of federal funding and provides \$250,000 to reimburse participating pest control operators and growers for costs associated with the treatment of specific, high risk citrus groves. The Agricultural Commissioner will administer these reimbursements. This agreement was approved as to form by County Counsel.

ARTICLE 1 - PURPOSE

The purpose of this Agreement is to provide Federal financial assistance to conduct surveillance activities that will provide specific information to the Cooperator, APHIS, and other interested parties for Glassy-winged Sharpshooter.

ARTICLE 2 - AUTHORITIES

Under the Plant Protection Act, as amended, (7 USC §§ 7701 et. seq.) (PPA), the Secretary of Agriculture is authorized to issue regulations and orders to prevent, detect, control, eradicate, suppress, or retard the spread of plant pests or noxious weeds into or within the United States and to cooperate with other Federal agencies or entities, States or political subdivisions of States, national governments, local governments of other nations, domestic or international organizations, domestic or international associations, and other persons to carry out the purposes of the PPA.

ARTICLE 3 – MUTUAL UNDERSTANDINGS AND RESPONSIBILITIES

The cooperating parties agree to/that:

- a. A mutually satisfactory annual Work Plan and Financial Plan developed by the Cooperator and APHIS are incorporated into this Agreement by reference. If APHIS initially awards a reduced level of funding during a Continuing Resolution (CR), there will be a corresponding decrease in the projected accomplishments for the funding period. Upon extension of the CR or passage of an appropriation by Congress, revisions will be executed to increase the federal share, based on available funds, not to exceed the level reflected in the annual Financial Plan.

b. The provisions of this Agreement will not replace functions that are being conducted by the Cooperator but will supplement those activities and increase program benefits to all parties.

c. The employee(s) responsible for this work will be under the general program direction of the Cooperator and APHIS. Supervision of personnel will be provided by their employing organization, and they will be subject to their employing organization's rules and regulations.

d. APHIS will provide, through loan, the use of APHIS owned property and equipment to be used by the cooperator if agreed upon as necessary.

e. A physical inventory of all Federally-owned equipment loaned to the Cooperator will be made, by APHIS, at least annually. Periodic reviews will be made as deemed necessary by APHIS.

f. The Cooperator shall be responsible for all maintenance, repairs and liability for any Federally-owned property while on loan from APHIS.

g. Any lost, stolen, destroyed, or damaged federally owned property must be reported to the APHIS State Office, for completion, as applicable, of a Report of Transfer or Other Disposition or Construction of Property (Form AD-107) or a Report of Unserviceable, Lost, or Damaged Property, (Form Ad-112).

ARTICLE 4 – COOPERATOR RESPONSIBILITIES

The Cooperator understands and agrees to/that:

a. Designate in writing to APHIS the Cooperator's authorized representative who shall be responsible for collaboratively administering the activities conducted under this Agreement.

b. Furnish personnel, as required, to accomplish the activities outlined in the Work Plan and Financial Plan.

c. Provide funds as partial payment of expenditures incurred in carrying out the terms of this Agreement in accordance with the Work Plan and Financial Plan.

d. The Cooperator's representative designated as required in Article 4.a shall certify and submit to APHIS' Authorized Representative a semiannual accomplishment report on activities outlined in the Work Plan and Financial Plan. The reports will be used by APHIS to verify compliance with provisions of this Agreement. They are due no later than 30 days after the end of the second quarter and a final report is due no later than 90 days after the Agreement expires or terminates (April 30, 2012 and December 31, 2012). Any requests for an extension of time to submit the report must be justified and made in writing to APHIS' authorized

Any requests for an extension of time to submit the FFR must be justified and made in writing to APHIS' authorized representative before expiration of the initial 30 or 90 days period allowed for submitting the report. Extensions of time to submit the FFR are subject to the discretion of APHIS' authorized representative and, if allowed, shall be provided by the authorized representative in writing. This duty is not limited to the period during the Agreement, but may arise at any time during or subsequent to the Agreement. APHIS reserves to itself a royalty-free, nonexclusive, and irrevocable right to use and authorize others to use the product or invention produced under this Agreement for Government purposes. APHIS also retains the ability to force utilization of the patented invention by designating licenses in any field of use where the patentee has failed to act with reasonable diligence.

APHIS, furthermore, may require that the Cooperator modify or purge any acknowledgment of its support for activities conducted under this Agreement as a result of its review of a final draft. If APHIS has not responded within 30 days of receipt of the draft, the Cooperator will be free to proceed with publication without an acknowledgment. In the event that APHIS elects not to acknowledge the product, the Cooperator agrees not to attribute sponsorship by APHIS by any means including, but not limited to, publications, interviews, new releases, etc.

ARTICLE 19 – FUNDING PERIOD OBLIGATIONS AND EXTENSIONS

The funding period is the period during which this Agreement is in effect. Any funds not obligated by the Cooperator during the funding period will revert to APHIS upon the expiration or termination of this funding period. Under 7 CFR 3016.30, this Agreement is subject to a one-time extension of up to 12 months to complete this project. The Cooperator must submit a written request including an SF-424, Application for Federal Assistance, to extend the duration to be received by APHIS at least 10 days prior to the expiration of the funding period. The SF-424 must be accompanied by a justification explaining the reason for program delays, the program impact without the extension, and the anticipated completion date. During the extension period, financial and progress reports will continue with the same frequency as provided in the original funding period. **AREA-WIDE MANAGEMENT OF GLASSY-WINGED
SHARPSHOOTER IN THE TEMECULA VALLEY –
RIVERSIDE COUNTY**

The Glassy-winged sharpshooter (GWSS) (*Homalodisca vitripennis*) has become established in some areas of California and is a significant pest of grapes. Since GWSS is a known vector of *Xylella fastidiosa*, a bacterium that causes Pierce's disease (PD) in grapes, the potential to impact grape growing areas with PD is significant. The potential for a significant economic impact on the grape industry by this host plant – vector – disease triangle has been documented in Kern County CA, as well as in the Temecula Valley of Riverside County, CA. The same threat exists in the robust agricultural area of the Coachella Valley of Riverside County, where GWSS populations from commercial citrus orchards threaten to vector PD in nearby table grape acreage.

Trapping surveys in Riverside County, as well as other counties, indicate that GWSS populations will show up in different host plants including perennial agronomic crops. Data from these surveys suggest that GWSS populations are utilizing citrus as its primary reproductive host, and as seen in other citrus producing areas of California, it is the predominant over-wintering host while grapes, stone fruit, ornamental hosts and weedy species are dormant. Area-wide projects in Kern, Riverside and Tulare Counties, have demonstrated a strategy for significantly reducing the GWSS in its over wintering host is feasible during the winter and spring months, prior to the GWSS adult migration into surrounding hosts.

In the Temecula Valley of Riverside County, approximately 2,000 acres of wine grapes interface with approximately 1,000 acres of citrus. The potential for GWSS population buildup in citrus and then vectoring of PD, which is known to exist in the area, into grapes puts this area in jeopardy without effective GWSS population suppression treatment activities. The diversity of agriculture in this area and the wide host range of this pest makes individual grower management strategies for GWSS very challenging. Growers have adopted pest management strategies for a variety of other pests in this area prior to the introduction of the GWSS. The addition of a major pest like GWSS into this production system compounds attempts by individual growers to manage the insect on an

individual farm basis. Therefore it is essential that a management strategy be implemented that will bridge the challenges to individual growers and consider the entire growing area in a management plan.

Monitoring

Monitoring for GWSS through trapping will occur in the citrus acreage. This is essential for providing feedback to program managers and to keep growers and all parties informed on the progress of the program. A sticky-trap monitoring program has been established throughout the management area to detect existing and new agricultural area infestations, and to help determine relative GWSS population abundance. Traps will be serviced on a regular interval with the numbers of GWSS recorded and any new detection reported to program staff immediately.

The sticky traps in the agricultural area will also serve as indicators of post treatment hot spots where initial treatments were not necessary because of initial population levels or where the GWSS have rebounded from a treatment that was made earlier. An essential component of an area-wide approach is the timeliness of data acquisition to be used in decision-making. A system for collecting and analyzing the data in near real-time will provide decision makers with the information necessary to manage the program.

Treatment Coordinator

In order to accomplish the timely application of treatments over large geographical areas in a coordinated manner, a Treatment Coordinator will provide growers with needed treatment information, as well as provide information back to Program Managers so that program treatments are as effective as possible. Recognizing that treatments are voluntarily done by citrus growers, it is imperative to have a coordinator in place that has good communication skills and a strong background in pest management to understand individual grower issues while getting the most effective treatments in place in a timely manner. This Treatment Coordinator position is essential to the management strategy that is implemented so as to help bridge the challenges individual growers have and how that impacts the overall treatment area and treatment effectiveness.

GWSS Treatments

Monitoring via trapping will occur to provide accurate data to drive management decisions within the program. A Treatment Coordinator will maintain contact with program personnel (USDA, State and County) and will be responsible for making contact with growers/managers/PCA's who have been identified to treat in accordance with program guidelines. Trapping pre-treatment monitoring within individual grower blocks may be used to determine whether or not GWSS numbers necessitate initial "knock-down" treatments. If GWSS numbers are not detectable using the developed trapping protocol, initial knockdown treatments may not be necessary. Trapping post treatment monitoring may be used to determine the efficacy of the treatment, percent reduction from initial density, and to determine if follow up treatments are necessary.

Treatment Parameters

In order to effectively manage and prevent a build up of GWSS populations, a layering of criteria for treating a citrus grove may be implemented. The program will use existing data from traps, any in-field observation by county or program staff, and the treatment history of a specific orchard to develop a decision matrix for treating a smaller population of insects. This data will be stacked as illustrated below:

1. Treatment of GWSS in 2011;
2. Cumulative sticky trap catches in fall 2011 and 2012 to date.

Hot Spot Treatment

The potential for small population outbreaks to occur exists in prior treated areas and/or in groves that did not meet earlier treatment thresholds. In addition to these, GWSS populations may rebound from prior treatments for various reasons. Treatment recommendations will be tailored for each individual situation based on populations and crop.

General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require budgets to be separately shown by function or activity. For other programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a-k of Section B.

Section A. Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a *single* Federal grant program (Federal Domestic Assistance Catalog number) and *not requiring* a functional or activity breakdown, enter on Line 1 under Column (a) the Catalog program title and the Catalog number in Column (b).

For applications pertaining to a *single* program *requiring* budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the Catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the Catalog program title on each line in *Column* (a) and the respective Catalog number on each line in Column (b).

For applications pertaining to *multiple* programs where one or more programs *require* a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should provide the summary totals by programs.

Lines 1-4, Columns (c) through (g)

For *new applications*, leave Column (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For *continuing grant program applications*, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (e) and (f).

For *supplemental grants and changes* to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (e) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (e) and (f).

Line 5 - Show the totals for all columns used.

Section B Budget Categories

In the column headings (1) through (4), enter the titles of the same programs, functions, and activities shown on Lines 1-4, Column (a), Section A. When additional sheets are prepared for Section A, provide similar column headings on each sheet. Line 6a-i - Show the totals of Lines 6a to 6h in each column.

Line 6j - Show the amount of indirect cost.

Line 6k - Enter the total of amounts on Lines 6i and 6j. For all applications for new grants and continuation grants the total amount in column (5), Line 6k, should be the same as the total amount shown in Section A, Column (g), Line 5. TO: Phillip E. Garcia

THROUGH: Beth Stone-Smith

Dear Mr. Garcia:

Your concurrence is requested to allow pre-award costs to start on October 1, 2011 for Glassy-winged Sharpshooter area-wide monitoring and treatment activities (Notice of Cooperative Agreement No. 12-8500-0652). It is necessary to begin work prior to finalizing the Notice of Award. This will allow proposed activities to be accomplished by the projected completion date.

Costs prior to the signature of the Notice of Award will not exceed the planned obligations for the first quarter. Enclosed is the proposed financial plan supporting anticipated needs.

I agree to manage the Federally funded program in accordance with Title 7 Code of Federal Regulations Part 3016 or 3019 as applicable; the associated Office of Management and Budget (OMB) Circular governing costs allowed; and all other applicable laws, regulation, and guidelines.

I understand that APHIS is under no obligation, in the absence of appropriations, if the award is not made, or if an award is made for a lesser amount than expected. Further, I understand that reimbursements of such costs are contingent upon full execution of an award of Federal funding for this project.

Sincerely,

John Snyder
Agricultural Commissioner
Sealer of Weights and Measures
