**FY12 Solving Cold Cases with DNA Grant Application Assurances and Certifications
BR 12-080**

Solving Cold Cases with DNA funding serves to identify, review, and investigate “violent crime cold cases” that have the potential to be solved using DNA analysis, and to locate and analyze the biological evidence associated with these cases. Experience has shown that cold case programs can solve a substantial number of violent crime cold cases, including homicides and sexual assaults. Advances in DNA technologies have substantially increased the successful DNA analysis of aged, degraded, limited, or otherwise compromised biological evidence. As a result, crime scene samples once thought to be unsuitable for testing may now yield DNA profiles. Additionally, samples that previously generated inconclusive DNA results may now be successfully analyzed.

The grantor requires original signatures of the Sheriff and the Chair of the Board of Supervisors be submitted at the time of application. The following documents are included for signature: Standard Assurances, Certification Regarding Lobbying and Protection of Human Subjects Certification.

Award documents will be submitted to the Board for approval when grant is awarded.

County Counsel has approved the documents as to form.
