Ann Weston
my opinion
Crimes against Harmony

This is regarding the toxic sewage sludge waste that was land applied to the Memphis Sunch Valley area in the 1970's. at that time it was allowed even tho the EPA said that land application of sewage sludge "cannot assure the public that this practice is protective of human health & the environment."

Knowing that ~~it is in all your Ordinances~~, RCODS + later the Memphis City Council continued building on top of the sludge. They disregarded the maps where it was dumped, disregarded Phase II soil testing & ~~disregarded~~ the illegal dumpsite.

Their motto seems to be "Build the homes & they will come"

You're in my thoughts every day - it's not a pretty picture

New cancer clusters are prevalent in Memphis & on May 1st we packed the house with ill & dying residents —

And they plan to build 10,000 more homes — Over my dying body will I do everything to stop it !!!

What is sewage sludge? It is everything that goes down the drain — human waste hospital & mortuary waste — ~~etc~~ & 100,000 chemicals brewing under homes — churches & school etc etc etc — in Memphis —

Over 20,000 acres of sewage sludge that was cleaned & dumped calling it fertilizer & they built upon it —

Their laws ordinances say homes schools churches etc should be 1/2 mile away from the sludge but they built upon it —

3.

World-renowned Dr. David Lewis - said when he was out here years ago?

He said it is the worst contamination he has ever seen - it was even worse than Love Canal - a cancer cluster will appear!

4) To this day and they have -

I call it a dead zone as you can't escape it in Memphis. Each breath you take you breathe in cancer causing pathogens that also cause fibromyalgia - 3 people homes on one street -

What's your solution to the problems that you created -

Is there a solution? I tell everyone to move, but then other people buy the homes - an Curse Against Humanity? you in the audience dead - I already have -
