Re: Variance No. 1857

Page 2 of 2

The attached 3,000 square foot barn was heard and approved before a Director's Hearing on December 15, 2008, under Plot Plan No. 23632. Plot Plan No. 23632 was appealed to the Planning Commission by a concerned neighbor, and the Planning Commission denied the project on March 4, 2009. However, the Planning Commission recommended to the applicant that the Plot Plan was not the appropriate permit for this type of project and recommended that they submit Second Unit Permit and Variance applications.

The applicant, based upon the recommendation of the Planning Commission, applied for the Second Unit Permit and Variance. The Second Unit Permit No. 1385 and Variance No. 1857 were approved at the May 4, 2009, Director's Hearing. Since the May 4, 2009, Director's Hearing, the applicant applied for and finalized all the appropriate building permits associated with the Second Unit and attached 3,000 square foot barn.

However, staff inadvertently did not transmit Variance No. 1857 to the Board of Supervisors for Receive and File after the May 4, 2009, Director's Hearing decision. Thus, this request is to remedy that oversight.
