

**SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

434

**FROM:** Riverside County Information Technology

**SUBMITTAL DATE:**  
November 29, 2012

**SUBJECT:** FY 2013-2014 Service Rates for Riverside County Information Technology (RCIT)

**RECOMMENDED MOTION:** That the Board of Supervisors:

1. Approve the attached RCIT service rates for FY 2013-2014 and,
2. Approve the waiver of Board Policy B-28 for the use of unrestricted net assets to offset operating costs in the amount of \$2,100,000.

**BACKGROUND:** The FY13/14 budget development was a multifaceted task as we were faced with three ongoing challenges; 1) assuming responsibility of technology services of departments; 2) reducing County overall IT operational cost through efficiencies; and, 3) addressing directives for enterprise systems such as VoIP, SaaS Email, CRM, Web, GIS, Trusted Systems and Security.

Departmental Concurrence

Dep't Recomm.:  
Per Exec. Ofc.:

**BACKGROUND: (Continued)**

The transitioning of departmental staff into the RCIT organization is the first step to moving the county to a consolidated technology environment. Realizing cost efficiencies from the consolidation effort is a gradual process and will emerge upon transition of staff, infrastructure and applications. It is anticipated that current support costs will run parallel with costs of consolidation until the transition of staff, infrastructure and applications occurs. Cost savings will be realized in the 1-3 years following consolidation and transition efforts.

As of December 2012, the proposed FY 13/14 RCIT budget is \$41.9 million and represents our current projections for operational support costs, new initiatives as directed by the EO, and departmental transition services assumed to date. As additional departments transition into the organization between now and the end of the current fiscal year, the RCIT budget will be adjusted to reflect the additional information technology service costs transitioned into the department. RCIT management will ensure that consolidations do not impact attached rates and rates will remain the same throughout FY 13/14.

RCIT has been requested to begin several new initiatives that after implementation will provide significant cost savings to the County. For this reason, the Executive Office will allocate \$5 million to offset consolidation and enterprise initiative costs, which RCIT will reimburse with net savings over the following 3 fiscal years (FY 14/15 through FY16/17). RCIT will also utilize up to \$2.1 million in unrestricted net assets and approximately \$1 million in GIS Trust funds to minimize net increases to county departments in FY13/14.

For FY13/14, RCIT modified the rate structure and developed a new rate that combines typical services most departments use into one core rate. By modifying our rate structure, we have reduced the number of individual rates charged to county departments from 135 to 85.

The attached estimated charges to our customers total \$33,814,319. RCIT's continuing efforts to find cost and productivity efficiencies are shown by the fact that most of our rates are lower than the current fiscal year rates. Departments requesting more in RCIT services, opening new facilities or having experienced increased desktop counts will see a corresponding increase in their charges.

RCIT will continue to work very closely with the Executive Office and County Departments to identify all potential cost savings in technology services throughout the County.

Honorable Supervisors:

2/5/13 Item 3-16

The County has budgeted 42 million dollars for IT services in the coming fiscal year and taxpayers have a right to a return on their investment.

As an advocate for transparency and open access to government, I am extremely impressed with Temecula's online Geographic Information System that provides multiple layers of information, including property owner information.

The County GIS currently blocks online access to property ownership information as shown in this example. (Examples Attached)

On the top left, the County GIS web page instructs users to, "Click on a parcel to display its APN and owner's name in the Text Window." However, when they do, the text window informs that the name and address of the property owner are not available online.

The bottom half of the page shows the Temecula Geographic Information System with the full information for the same parcel that is on the County side of Butterfield Stage Road.

The purpose of having an information system is so people seeking information can avoid driving to the County seat of government and being charged for the public information. When people can obtain information online, the County does not have to employ as many people to provide public information to the public.

The GIS is an information tool that serves both the County and the Public the more it is used. Please use it as designed.

I anticipate there may be some uneasiness in making names and addresses of property owners available, but the same information is available from a mailbox or inexpensive Internet search.

I felt a little uneasy when I first saw our home information online, but then I realized I had to already know where I live to click on my parcel.

It is a brave new world of technology and I ask you to find a way to let the people use the tools that they have paid for.

Sincerely,

Paul Jacobs

## **BOARD RULES**

### **Requests to Address Board on "Agenda" Items:**

You may request to be heard on a published agenda item. Requests to be heard must be submitted to the Clerk of the Board before the scheduled meeting time.

### **Requests to Address Board on items that are "NOT" on the Agenda:**

Notwithstanding any other provisions of these rules, member of the public shall have the right to address the Board during the mid-morning "Oral Communications" segment of the published agenda. Said purpose for address must pertain to issues which are under the direct jurisdiction of the Board of Supervisors. YOUR TIME WILL BE LIMITED TO THREE (3) MINUTES.

### **Power Point Presentations/Printed Material:**

Speakers who intend to conduct a formalized Power Point presentation or provide printed material must notify the Clerk of the Board's Office by 12 noon on the Monday preceding the Tuesday Board meeting, insuring that the Clerk's Office has sufficient copies of all printed materials and at least one (1) copy of the Power Point CD. Copies of printed material given to the Clerk (by Monday noon deadline) will be provided to each Supervisor. If you have the need to use the overhead "Elmo" projector at the Board meeting, please insure your material is clear and with proper contrast, notifying the Clerk well ahead of the meeting, of your intent to use the Elmo.

### **Individual Speaker Limits:**

**Individual speakers are limited to a maximum of three (3) minutes.** Please step up to the podium when the Chairman calls your name and begin speaking immediately. Pull the microphone to your mouth so that the Board, audience, and audio recording system hear you clearly. Once you start speaking, the "green" podium light will light. The "yellow" light will come on when you have one (1) minute remaining. When you have 30 seconds remaining, the "yellow" light will begin flash, indicating you must quickly wrap up your comments. Your time is up when the "red" light flashes. The Chairman adheres to a strict three (3) minutes per speaker. ***Note: If you intend to give your time to a "Group/Organized Presentation", please state so clearly at the very bottom of the reverse side of this form.***

### **Group/Organized Presentations:**

Group/organized presentations with more than one (1) speaker will be limited to nine (9) minutes at the Chairman's discretion. The organizer of the presentation will automatically receive the first three (3) minutes, with the remaining six (6) minutes relinquished by other speakers, as requested by them on a completed "Request to Speak" form, and clearly indicated at the front bottom of the form.

### **Addressing the Board & Acknowledgement by Chairman:**

The Chairman will determine what order the speakers will address the Board, and will call on all speakers in pairs. The first speaker should immediately step to the podium and begin addressing the Board. The second speaker should take up a position in one of the chamber aisles in order to quickly step up to the podium after the preceding speaker. This is to afford an efficient and timely Board meeting, giving all attendees the opportunity to make their case. Speakers are prohibited from making personal attacks, and/or using coarse, crude, profane or vulgar language while speaking to the Board members, staff, the general public and/or meeting participants. Such behavior, at the discretion of the Board Chairman may result in removal from the Board Chambers by Sheriff Deputies.
