3. Approve the annual amount of \$150,000 for FY 2012-2013 through FY 2014-2015.

**BACKGROUND:** The service required and to be performed is for the maintenance of fossil fuel filters attached to the inside of catch basins for the removal of hydrocarbons, trash, and other pollutants from storm water runoff. The fossil fuel filters are serviced at three (3) equally spaced intervals throughout the year. Service and maintenance records are provided to the County and become part of the annual County NPDES report. The filters are located within the County maintained road right-of-way and within designated developments annexed into the Landscaping and Lighting Maintenance District No. 89-1-Consolidated (L&LMD No. 89-1-C) Countywide.

The Transportation Department issued a formal Request for Quote (RFQ), and solicitations were sent to six (6) vendors and advertised on the Transportation Department's website. Four (4) vendors met with County staff onsite for at least one (1) of two (2) mandatory pre-bid meetings. Two (2) responses were received with a cost range from \$141 to \$174 per annual service per catch basin. KriStar Enterprises, Inc. DBA Drainage Protection Services (DPS) based in Santa Rosa was the lowest responsive/responsible bidder at \$141 per annual service per catch basin. Drainage Protection Services (DPS) provided a quote to fulfill the necessary requirements mandatory for landscaping services. Local Preference was applied and did not change the outcome of the bid results. This bid includes prevailing wage rates. Representatives from the Transportation Department reviewed all quotes and recommended the lowest vendor, Drainage Protection Services (DPS), receive the award.

The annual amount of \$150,000 includes a contractual contingency amount not to exceed \$25,000 annually for costs outside the scope of regular maintenance, including but not limited to: replacement of ripped filters, replacement filters, upgrades, and vandalism.

Contractor shall submit a written request to the County for any costs outside the regular scope of maintenance described in Exhibit A within the PSA. Contractor understands and agrees that the costs shall not be incurred against the contingency, and the County will not be liable for such costs without prior written authorization from the County.

The period of performance shall be for three (3) years with the option to renew up to two (2) additional years (in one (1) year increments) for a total of five (5) years with the final completion date of June 30, 2018. There shall be no obligation by the County of Riverside to purchase any specified amount of services. The County has the option to terminate this contract upon thirty (30) days written notice to the Contractor without cause.

County Counsel has approved the Agreement as to form.
