The Honorable Board of Supervisors

RE: Construction of a Traffic Signal at Magnolia Avenue Railroad Grade Crossing between Lincoln Street and Buchanan Street in the City of Riverside and in the Home Gardens Area

August 29, 2013

Page 2 of 2

BACKGROUND: The County Transportation Improvement Program (TIP) provides for improvements to the construction of a traffic signal at the Magnolia Avenue railroad grade crossing between Lincoln Street and Buchanan Street in the City of Riverside and in the Home Gardens area of the County of Riverside (County).

By Minute Order dated June 4, 2013 (Agenda Item 3-53), the Board of Supervisors approved the plans and specifications for the construction of a traffic signal at Magnolia Avenue railroad grade crossing and authorized the Clerk of the Board to advertise for bids. Bids for the project were opened in the office of the Director of Transportation and Land Management at 2:00 p.m., Wednesday, June 26, 2013. Nine bids were received, ranging from \$139,848 to \$204,392. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by Steiny and Company, Inc. in the amount of \$139,848, which is \$8,771 (6%) below the Engineer's Estimate.

The new traffic signal will help prevent eastbound motorists from queuing over the railroad tracks when the traffic light is red at Buchanan Street. This safety improvement is required by BNSF Railway Company to be installed prior to the construction of the Magnolia Avenue railroad grade separation. During the construction of the grade separation project, the signal improvement will provide construction traffic control at the railroad crossing at various construction stages. The anticipated date to begin construction for the grade separation project is early 2014, with a projected completion date of late 2016.

By Minute Order dated June 4, 2013 (Agenda Item 3-52), the Board of Supervisors approved the Highway-Rail Signal Interface Agreement between the County and BNSF Railway Company for improvement and maintenance of the Magnolia Avenue grade crossing.

The cooperative agreement between the County and the City of Riverside for the Magnolia Avenue grade crossing to share the construction costs is being presented to the Board of Supervisors for approval concurrent with the award of this project.

Annual operation and maintenance costs for this traffic signal are estimated at \$2,500 to be funded from gas tax. This traffic signal at the railroad crossing will be removed after the grade separation project is completed.

Reasonable care has been taken during the design phase to determine the location of underground utilities, including research of information from the local utility providers and communication with the utility owners. Given the uncertainties associated with performing undergrounding work, there is a potential for additional costs during construction to locate conflicting utilities by pot-holing and excavating and to make field construction changes as needed to avoid utilities. A contingency has been included in the construction budget, to be utilized only if deemed necessary by the Transportation Department, to cover the costs of resolving utility conflicts.

The contractor is qualified to perform the work as outlined in the bid and has executed the contract and provided bonds and insurance documents, which meet the requirements of the contract.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to "bodily injury" or "property damage" occurring after:

1. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
2. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

DESIGNATED CONSTRUCTION PROJECT(S) GENERAL AGGREGATE LIMIT

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

SCHEDULE

Designated Construction Project(s): All of your designation construction projects where required by written contract.

Information required to complete this Schedule, if not shown above, will be shown in the Declarations.

- A. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which can be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:
1. A separate Designated Construction Project General Aggregate Limit applies to each designated construction project, and that limit is equal to the amount of the General Aggregate Limit shown in the Declarations.
 2. The Designated Construction Project General Aggregate Limit is the most we will pay for the sum of all damages under Coverage A, except damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard", and for medical expenses under Coverage C regardless of the number of:
 - a. Insureds;
 - b. Claims made or "suits" brought; or
 - c. Persons or organizations making claims or bringing "suits".
 3. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the Designated Construction Project General Aggregate Limit for that designated construction project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations nor shall they reduce any other Designated Construction Project General Aggregate Limit for any other designated construction project shown in the Schedule above.
 4. The limits shown in the Declarations for Each Occurrence, Damage To Premises Rented To You and Medical Expense continue to apply. However, instead of being subject to the General Aggregate Limit shown in the Declarations, such limits will be subject to the applicable Designated Construction Project General Aggregate Limit.

Laurie Stokes

B. For all sums which the insured becomes legally obligated to pay as damages caused by "occurrences" under Section I – Coverage A, and for all medical expenses caused by accidents under Section I – Coverage C, which cannot be attributed only to ongoing operations at a single designated construction project shown in the Schedule above:

1. Any payments made under Coverage A for damages or under Coverage C for medical expenses shall reduce the amount available under the General Aggregate Limit or the Products-completed Operations Aggregate Limit, whichever is applicable; and
2. Such payments shall not reduce any Designated Construction Project General Aggregate Limit.

C. When coverage for liability arising out of the "products-completed operations hazard" is provided, any payments for damages because of "bodily injury" or "property damage" included in the "products-completed operations hazard" will reduce the Products-completed Operations Aggregate Limit, and not reduce the General Aggregate Limit nor the Designated Construction Project General Aggregate Limit.

D. If the applicable designated construction project has been abandoned, delayed, or abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, the project will still be deemed to be the same construction project.

E. The provisions of Section III – Limits Of Insurance not otherwise modified by this endorsement shall continue to apply as stipulated.

Comments

Original scope included designing center median extension to prohibit u-turn over the RR tracks and addressing drainage issue. These efforts were dropped when grade separation project came along. A vast amount of staff time were spent on conducting field observations, researches, meeting with vendors and consultant on vehicle detection systems, coordinating with BNSF on GO-88B application and C&M Agreement, County's Magnolia Grade Separation project, and City of Riverside Buchanan Quite Zone project. City of Riverside will contribute 50% of the BNSF track improvements since their project will also be benefited from the track improvements.
