Summary

In accordance with Medi-Cal guidelines, certain medical procedures and services are subject to authorization by Medi-Cal before reimbursement can be approved. Authorization requests are made with a Treatment Authorization Request (TAR). A TAR is a form needed to pre-approve funding for treatment. Authorization requirements are based on Federal and State law. Accurate and timely processing is needed to preserve reimbursement revenue in the millions of dollars.

FORM 11: Amendment to the Professional Services Agreement with HSS Systems LLC dba Parallon

DATE: October 22, 2013

PAGE: Page 2 of 2

BACKGROUND:

Summary (continued)

Medi-Cal consultants begin the abstract of concurrent and retroactive TARs for acute hospital days by reviewing the complete Medical Records relating to each admission as well as all associated orders and diagnostics. Medi-Cal TARs must include a medical assessment which includes the recipient's condition(s) as well as proof of benefits utilizing Automated Eligibility Verification System (AEVS). Under the TAR free structure all cases are assessed using InterQual criteria for each day of admission. For the prior paper TAR structure once the discharge summary is complete utilizing standard terminology, Department of Health Care Services (DHCS) is then able to adjudicate the TAR. Medi-Cal has 30 days to respond once the TAR has been received.

To ensure continuity of services for TAR review, Parallon assisted with initially reviewing 200 TAR cases in backlog. Parallon is uniquely equipped to provide a broad spectrum of customized services in the areas of revenue cycle, technology, workforce management and consulting. As the demands of healthcare reform increases and as the hospitals' resources remain limited, it was advantageous for Parallon to work with the hospital to achieve financial gain of approximately \$2 million from Medi-Cal reimbursement.

This amendment would allow additional assistance for approximately 650 pending TAR cases that require thorough case reviews, contributing to improvements in the hospitals fiscal condition by bringing in Medi-Cal reimbursements.

Impact on Citizens and Businesses

This service impacts the patients residing in Riverside County receiving care from Riverside County Regional Medical Center. Without timely support the hospital will lose reimbursement revenue for patient services.

Contract History and Price Reasonableness

RCRMC conducted a request for information to known prospective agencies that specialize in case management TAR review services. Three bid responses were received, reviewed and evaluated by RCRMC Patient Accounts professional staff familiar with Medi-Cal case management TAR reviews. Parallon was found as most responsive/ responsible bidder able to perform the required scope of work at \$125 per case, not to exceed \$25,000.

In order for the hospital to continue receiving Medi-Cal reimbursements, RCRMC requests approval of this amendment at a modified rate of \$45 per review day; simultaneously exercise its right in developing a comprehensive Request for Proposal to establish a permanent vendor beginning fiscal year 2014/2015.

Subject: Sole Source Procurement: Request for Case Management TAR Review services

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

1. **Supply/Service being requested:** To provide Case Management Treatment Authorization Review (TAR) services.
2. **Supplier being requested:** HSS Systems LLC d/b/a Parallon
3. **Alternative suppliers that can or might be able to provide supply/service:** Possible alternative suppliers that might be able to provide the service are: HSS Systems LLC dba Parallon, Care Review Resources, Novia Solutions, and PrecyseSource.
4. **Extent of market search conducted:** Through continued research by RCRMC Patient Accounts and Case Management departments, an informal request for information was sent to the four (4) prospective vendors mentioned above.
5. **Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:** Parallon is dedicated to helping hospitals and hospital systems operate knowledgeably, intelligently, effectively and efficiently in the rapidly evolving healthcare marketplace. As one of the healthcare industry's leading providers of business and operational services, Parallon is uniquely equipped to provide a broad spectrum of customized services in the areas of revenue cycle, supply chain, technology, workforce management and consulting.
6. **Reasons why my department requires these unique features and what benefit will accrue to the county:** Accurate and complete review of case management TARs is a necessity in contributing to improvements in the hospitals fiscal condition by bringing in Medi-Cal reimbursements. Currently, the hospital has a backlog of over 650 cases requiring case management TAR reviews. A comprehensive and robust case management TAR review team is an integral component to effective healthcare delivery and to ensure hospital achieve financial gain from Medi-Cal reimbursement. Without timely support the hospital may loose reimbursement revenue for patient services.
7. **Price Reasonableness including purchase price and any ongoing maintenance or ancillary costs from the supplier:** Of the four vendors, three submitted quotes and were evaluated. After evaluating each vendor, the evaluation team concluded Parallon proposal most closely aligns with the objectives of RCRMC. Parallon offered the best value for the cost. Parallon's proposed a fee of \$125 per case review, not to exceed \$25,000. As Parallon completed the 200 cases quickly, it consumed the entire \$25,000. Through negotiations, Parallon agreed to continue services at a rate of \$45 per review day to complete the remaining TAR cases in backlog. The maximum amount allocated for this project shall not exceed \$250,000.

8. Does moving forward on this product or service further obligate the county to future similar contractual arrangements or any ongoing costs affiliated with this sole source? No

9. Period of Performance: November 1, 2013 through June 30, 2014.
