BACKGROUND:

Summary

By Minute Order dated July 30, 2013 (Agenda Item 3-55), the Board of Supervisors authorized the Clerk of the Board to advertise the Stanford Street resurfacing project from Thornton Avenue to Florida Avenue, approximately 1.5 miles, and construction of a traffic signal at the intersection of Stanford Street and Mayberry Avenue in the community of East Hemet. Bids were opened on August 21, 2013.

Five bids were received, ranging from \$2,134,676 to \$4,076,999. The basis for the selection of a contractor is the lowest responsive and responsible bid. The lowest responsible bid was submitted by Skanska USA Civil West of Riverside, CA in the amount of \$2,134,676, which is \$80,324 (3.63%) less than the Engineer's Estimate. The construction duration set for this project is for 40 working days.

The contractor is qualified to perform the work as outlined in the bid, has executed the Contract, and has provided bonds and insurance documents, which meet the requirements of the Contract.

The Contract is recommended to be awarded to Skanska for the total amount of \$2,134,676. Construction is planned to finish in FY 2013/2014. The full project budget, including design, construction, inspection, and contingency is \$3,050,000.

Project No. C1-0578 and C2-0139

Impact on Citizens and Businesses

The existing pavement will be removed and new pavement will be placed. Additionally, driveways, curbs, and gutters that are in poor condition will be replaced, and any existing access ramps that do not meet the current Americans with Disabilities Act (ADA) requirements will be improved or replaced to meet the current requirements. Several new access ramps will also be added.

The proposed traffic signal will improve safety by providing protected traffic movements and pedestrian crossings.

SUPPLEMENTAL:

Additional Fiscal Information

These improvements to Stanford Street will be funded with Proposition 1B (State Bond Funds – Local Roads) and West County Development Impact Fee (DIF) Signal Mitigation funds. The DIF program, which is governed under Ordinance 659.6, allows for the use of DIF funds for traffic signal facilities. There are no General Funds used in this project. See Attachment "A" for additional project cost and funding information.

Ongoing signal maintenance cost is estimated to be \$7,000 per year.
