

**SUBMITTAL TO THE FLOOD CONTROL AND
WATER CONSERVATION DISTRICT BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

407B

FROM: General Manager-Chief Engineer

SUBMITTAL DATE:
November 26, 2013

SUBJECT: Confirmation of FY2013-2014 Rates for Vehicles, Equipment,
and Administrative Costs [Total Cost \$0]

RECOMMENDED MOTION: That the Board of Supervisors:

1. Convene the public hearing concerning rates for vehicles, equipment, and administrative costs, and concerning any protests with regard to the amounts of the proposed rates, approve and adopt the rates for vehicles, equipment, and administrative costs.

BACKGROUND:

Summary

Ordinance 671 requires fully burdened rates, charged to the public and District divisions, be approved and adopted by the Board of Supervisors. District rates were last submitted for approval on June 26, 2007. The approved rates were maintained at the 2007 levels during the period of economic uncertainty that still exists in the FY 2013-14. Rate stabilization as well as full cost recovery continues to be the fundamental goals of the District during this extended period of economic uncertainty.

FORM 11: Set Public Hearing Date Concerning FY2013-2014**

Rates for Vehicles, Equipment, and Administrative Costs [Total Cost \$0]

DATE: November 26, 2013

PAGE: Page 2 of 2

BACKGROUND:

Summary (continued)

The District has now re-evaluated established rates for all listed funds and determined that currently approved rates require adjustment to fairly recover current and projected costs of providing District services.

Although we are seeing some signs of an economic recovery in our housing and business climate, the recovery is still slow and uncertain. As the local economy is slowly rebounding and the District has net assets available in some funds, reduced rates for some services are being proposed on a temporary basis for the FY 2013-14. Proposed reductions are noted below in the *Impact* section.

Next year the District will re-evaluate these reduced rates when the picture of and forecast for the local economy may be better defined. Next year the District will also be able to better evaluate the effects of a rebounding economy on the revenue and expense streams of the various funds and factor those trends of cost recovery into the evaluation of proposed rates going forward.

The calculated rates for these listed funds were developed in conformance with standard cost accounting guidelines and are intended to fully recover the replacement costs of vehicles and equipment as well as the cost of services and the administration of these funds. As part of an on-going effort to stabilize rates from dramatic swings, the District will annually evaluate and monitor the balance between unrestricted net assets and unrestricted cash while making provisions for working capital reserves, capital replacement reserves and contingency or economic uncertainty reserves in each fund.

Impact on Residents and Businesses

A reduction to the administrative overhead rate is proposed for Fund 15000, Special Accounting. The District additionally proposes to have only one overhead rate that applies to both in-house and outside consultant provided services. The proposed rate reduction of 20% will reduce revenue by approximately \$76,000 but still keep revenue in line with projected operating expenditures. The proposed rate is the actual calculated rate, not factored by available net assets.

A reduction to the imaging workstation hourly rate and no adjustment to the survey equipment hourly rate is proposed for fund 40650, Photogrammetry. The proposed rate reduction of 10% in the imaging workstation rate will reduce revenue by approximately \$15,300 but still keep revenue in line with projected operating expenses. The proposed rate is the actual calculated rate, not factored by available net assets. In addition, the District proposes to simplify the numerous rates charged by the Photo Lab section of Photogrammetry into one hourly rate for all services provided by the Photo Lab. This new hourly rate will cover the costs of materials used as well. There will little or no effect on the Photo Lab revenue of Fund 40650, Photogrammetry.

A reduction to the DBF rates by position is proposed for Fund 40660, Subdivision Operations. The proposed rate reductions of approximately 10%, on the average, from the current approved rates will reduce revenue by approximately \$130,000 and will maintain revenues below operating expenses as available net assets are utilized. The proposed reduced rates represent a 31% reduction, on the average, on the actual calculated rate.

A reduction to the administrative overhead rate is proposed for Fund 40670, Encroachment Permits. The District additionally proposes to have only one overhead rate that applies to in-house and outside consultant provided services. The proposed rate reduction of 10% will reduce revenue by approximately \$11,400 but still keep revenue in line with operating expenses. The proposed reduced rate represents a 4.5% reduction of the actual calculated rate.

BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
FORM 11: Set Public Hearing Date Concerning FY2013-2014**

Rates for Vehicles, Equipment, and Administrative Costs [Total Cost \$0]

DATE: November 26, 2013

PAGE: Page 3 of 3

A reduction to the rates is proposed for Fund 48020, Garage. Regarding heavy equipment, a rate reduction is proposed for seven equipment where the actual calculated hourly rate went down. Maintaining hourly rates on all other heavy equipment is proposed although calculated rates on these vehicles increased over existing approved rates. Regarding vehicles other than heavy equipment, a proposed mileage rate reduction of 10% is proposed. The proposed rate reductions will reduce revenue and available net assets by approximately \$334,000. The proposed reduced mileage rates represent a 47% reduction in the actual calculated rates which were increased primarily by higher fuel costs as well as higher repair and maintenance costs.

A reduction to the administrative overhead rate is proposed for Fund 48040, Project Maintenance. The reduction will have little effect on revenues that currently approximate operating expenses. The proposed rate is the actual calculated rate, not factored by available net assets.

A reduction to the copying and scanning rates for both black and white as well as color is proposed for Fund 48060, Mapping Services. All other rates for services will be maintained. The proposed rate reduction of 20% for B&W copying and scanning and 40% for color copying and scanning will reduce revenue by approximately \$21,000 but still keep revenue in line with projected operating expenditures. The proposed reduced rates also represent a 20% and 40% reduction on the actual calculated rate.

An increase in the hourly rates for both standard computers and engineering workstations is proposed for Fund 48080, Data Processing. The proposed rate increase of 20 % for both standard computers and engineering workstations is necessary to cover increased County ISF charges primarily from RCIT as well as some increased personnel costs.

BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
FORM 11: Set Public Hearing Date Concerning FY2013-2014**

Rates for Vehicles, Equipment, and Administrative Costs, [Total Cost \$0].

DATE: November 5, 2013

PAGE: Page 2 of 2

BACKGROUND:

Summary (continued)

The District has now re-evaluated Board approved rates for all listed funds and determined that these rates require adjustment to adequately recover current and projected costs of providing District services.

Although we are seeing some signs of an economic recovery in our housing and business climate, the recovery is slow and uncertain. As the local economy is slowly rebounding and the District has net assets available in some funds, reduced rates for some services are being proposed on a temporary basis for the FY 2013-14. Proposed reductions are noted below in the *Impact* section.

Next year, the District will re-evaluate these reduced rates when the picture of and forecast for the local economy may be better defined. The District will also be able to better evaluate the effects of a rebounding economy on the revenue and expense streams of the various funds at that time and factor those trends of cost recovery into the evaluation of proposed rates going forward.

The calculated rates for these listed funds were developed in conformance with cost accounting principles and are intended to fully recover the replacement costs of vehicles and equipment as well as the cost of services and the cost of administration for these funds. As part of an on-going effort to stabilize rates from dramatic swings, the District will annually evaluate and monitor the balance between unrestricted net assets and unrestricted cash while making provisions in each fund for working capital reserves, capital replacement reserves and contingency or economic uncertainty reserves.

Impact on Residents and Businesses

A reduction to the administrative overhead rate is proposed for Fund 15000, Special Accounting. The District additionally proposes to have only one overhead rate that applies to both District provided services and consultant provided services. The proposed rate reduction of 20% from the Board approved rate will reduce revenue by approximately \$76,000 annually but will keep revenue in line with projected operating expenditures. The proposed rate is the actual calculated rate, not factored by available net assets.

A reduction to the imaging workstation hourly rate and no adjustment to the survey equipment hourly rate is proposed for Fund 40650, Photogrammetry. The proposed rate reduction of 10% from the Board approved rate for imaging workstations will reduce revenue by approximately \$15,300 annually but will keep revenue in line with projected operating expenses. The proposed rate is the actual calculated rate, not factored by available net assets. In addition, the District proposes to simplify the numerous rates charged by the Photo Lab Section of Photogrammetry into one hourly rate for all services provided. This new hourly rate will also cover the costs of materials used. There will be little or no effect on the Photo Lab revenue of Fund 40650, Photogrammetry.

A reduction to the Deposit Based Fee (DBF) rates by job title is proposed for Fund 40660, Subdivision Operations. The proposed rate reductions of approximately 10%, on the average, from the Board approved rates will reduce revenue by approximately \$130,000 annually and will keep revenues below operating expenses as available net assets are utilized. The proposed reduced rates represent a 31% reduction, on the average, of the actual calculated rate.

Impact on Residents and Businesses (continued)

A reduction to the administrative overhead rate is proposed for Fund 40670, Encroachment Permits. The District additionally proposes to have only one overhead rate that applies to District provided services and consultant provided services. The proposed rate reduction of 10% from the Board approved rate will reduce revenue by approximately \$11,400 annually but will keep revenue in line with operating expenses. The proposed reduced rate represents a 4.5% reduction of the actual calculated rate.

For Fund 48020, Garage-Fleet Operations, rates are calculated for two groups of vehicles: an hourly rate for heavy equipment vehicles not used on streets, roads, or highways and a mileage rate for highway vehicles. An hourly rate reduction is proposed for some of the heavy equipment vehicles where the actual calculated rates went down. Hourly rates on all other heavy equipment vehicles will be maintained even though the calculated rates actually increased above the Board approved rates. A mileage rate reduction of 10% from the Board approved rate is proposed for highway vehicles. The proposed reduced mileage rate represents a 47% reduction of the actual calculated rates. The increased actual calculated mileage rates are due to higher fuel, repair, and maintenance costs. The combined rate reduction for heavy equipment vehicles and highway vehicles will reduce revenue and available net assets by approximately \$334,000 annually.

A reduction to the administrative overhead rate is proposed for Fund 48040, Project Maintenance. The reduction will have little effect on revenues that are currently in line with projected operating expenses. The proposed rate is the actual calculated rate, not factored by available net assets.

A reduction to the copying and scanning rates for both black and white as well as color is proposed for Fund 48060, Mapping Services. All other rates for services will be maintained. The proposed rate reduction of 20% from the Board approved rate for black and white copying and scanning and 40% from the Board approved rate for color copying and scanning will reduce revenue by approximately \$21,000 annually but will keep revenue in line with projected operating expenses. The proposed reduced rates represent a 20% and 40% reduction, respectively, on the actual calculated rates.

An increase in the hourly rates for both standard computers and engineering workstations is proposed for Fund 48080, Data Processing. The proposed rate increase of 20% above the Board approved rate for both standard computers and engineering workstations is necessary due to increased recurring County ISF charges as well as increased personnel costs.

ADMINISTRATIVE OVERHEAD		
Standard Office Computer	\$ 3.22	\$ 3.86
Engineering Workstation Computer	\$ 5.76	\$ 6.91

NOTES:

- 1.) Total cost recovery for this fund will be the hourly usage for each equipment type times the appropriate equipment rate applied as described above.
- 2.) Equipment rates shall be prorated where a computer is shared by two or more regular users.
- 3.) Rates effective upon approval by the Board of Supervisors.

Any person wishing to testify in support of or in opposition may do so in writing between the date of this notice and the public hearing, or may appear and be heard at the time and place noted above. All written comments received prior to the public hearing will be submitted to the Board of Supervisors and the Board of Supervisors will consider such comments, in addition to any oral testimony, before making a decision on the proposed Annual Mitigation Fee Report.

Please send all written correspondence to: Clerk of the Board, 4080 Lemon Street, 1st Floor, Post Office Box 1147, Riverside, CA 92502-1147

Dated: November 7, 2013
Kecia Harper-Ihem, Clerk of the Board
By: Karen Barton, Board Assistant
